

2007

INNOVATM
DISC GOLF

Avery Jenkins at the 2006 Japan Open

2006 was a stellar year for Innova. First, the introduction of our Star plastic was very well received. Innova has provided players with yet another choice, and giving players choices is one reason Innova continues to be successful. The popularity of the Star plastic verifies that Innova is able to anticipate and meet the needs of a variety of players.

Next, our Innova Team members dominated the 2006 PDGA tour. Team Innova players won every World title they competed for, plus our players won every PDGA Major except the Japan Open (and that was won with mostly an Innova bag). Our sponsored players won all 14 PDGA National Tour events in the Open and Women's Divisions. The usual names were in the mix: Climo, Schultz, Feldberg, Reading, Berlogar. 2006 marked initial PDGA Major wins for Avery and Valarie Jenkins and Angela Tschiggfrie. 2007 looks promising for Team Innova as well.

Disc golf is an enjoyable sport and an exciting business to be a part of these days. Disc Golf courses are getting more challenging. Tournaments are attracting more players and sponsorship. The rest of the world is starting to take notice of the sport. Innova Europe and Japan are blossoming, spreading Disc Golf across the oceans. Innova has been at the forefront of Disc Golf since the beginning, and we plan to continue as the sport of Disc Golf reaches new levels of popularity.

Sweden's Markus Källström
putting at the 2006 Japan Open

IN 1983 INNOVA CREATED THE FIRST TRUE GOLF DISC

New for 2007

Innova introduced four new discs during the course of the year, the Goblin, Skeeter, TeeRex and Max. The TeeRex and Max are professional drivers with maximum stability, made for powerful players. The Goblin and the Skeeter are shorter range discs that are great for players of all abilities. Smooth predictable flights with lots of glide describe both the Skeeter and Goblin, but the Skeeter has more range than the Goblin. If you like the Aero, you'll love the Goblin, virtually a small diameter Aero. In 2007, the Skeeter will be featured in a gummy Star plastic. This is our same great Star plastic, but with a softer, grippier feel.

In 2007, Innova will be introducing two new bags to add even more variety to our already extensive bag line. The Competition Bag and the Champion Bag are full size bags that will offer more versatility and features for players who carry a lot of discs and gear. Our new Backsaver Straps allow players to support their loaded bag on both shoulders, and these two new bags will carry a load.

New for 2007

Four new discs to get your blood pumping

THE MAX

The Max is, like, totally rad! With blazing speed and wicked stability, this disc is ready to power you to victory. Whether you throw power backhand or sidearm, the Max will increase your confidence... to the max! Totally.

THE TEEREX

The TeeRex long reigned as the king of the carnivores. Our TeeRex is also a fearsome beast high on the food chain. With raptor-like speed and powerful wind fighting stability, the TeeRex will devour all that dare to stand in it's path.

THE SKEETER

The Skeeter blends the grip of a mid-range with the straight forward flight of a putter. Smooth controlled flights are what the Skeeter delivers. There is no repellent for the Skeeter. It is like a chain seeking missile.

THE GOBLIN

The Goblin is a new putt & approach disc with a little old school flavor. A small diameter mixed with a large rim makes this a great disc for approaches. The Goblin is deadly from inside 200 feet. You'll be gobblin' up the birdies. Urp!

Innova Plastic Types

Trust what feels good in your hand

Innova currently offers four lines of plastic. Each of our plastic lines has its own advantages with regards to performance, grip, durability, price and variety of models offered. The four plastics are compared below. The graphic compares durability and grip at a glance. Choose the plastic that is best suited for your abilities and needs. All of our plastics provide predictable performance.

Star Plastic

DURABILITY

GRIP

Innova's Star Plastic is created with a special blend of grippy, resilient polymers. It offers the same outstanding durability of our regular Champion Plastic, plus improved grip like our Pro Plastic.

Benefits

- Superior grip that performs well in most weather conditions
- Provides predictable top performance
- Long-lasting durability
- Ideal for those who like the durability of Champion plastic with the superior grip of Pro plastic
- A premium plastic
- Discs can range from a firm flexibility to a more gummy flexibility
- Available in a variety of weights
- Available in I-Dye designs (page 30)
- Certain models available for custom hot stamping (page 31)
- Best plastic for use with the INNColor process (page 33)

Champion Plastic

DURABILITY

GRIP

Innova's Champion Plastic is produced with a hi-tech plastic that provides outstanding performance and durability. Champion discs are distinguished by a clear or pearlescent plastic.

Benefits

- Suitable for the increased throwing speeds of professional players
- Long-lasting durability — retains Innova flight characteristics longer than DX or Pro plastics
- A premium plastic
- Discs can range from a firm flexibility to a more gummy flexibility
- Some models available with colorful and unique I-Dye designs (page 30)
- Certain models are available for custom hot stamping (page 31)
- Some models available for the INNColor process (page 33)

Pro Plastic

DURABILITY

GRIP

Innova's Pro Plastic is manufactured using a unique blend of plastics and are designed to provide unique qualities for each available model.

Benefits

- Driver models fly with a longer glide than Champion or DX Plastic
- Driver models are slightly less stable than Innova Disc Flight Ratings
- Provides an improved grip over our Champion Line plastic
- More durable than regular DX Line plastic and retains flight characteristics longer
- More affordable than our Star or Champion plastics
- Some models are offered in a softer plastic, while others are available in stiffer types of plastic
- Many models available with colorful I-Dye designs (page 30)
- Certain models available for custom hot stamping (page 31)

DX Plastic

DURABILITY

GRIP

Innova's DX Plastic offers the widest selection of models and weights. These discs are affordably priced and provide an excellent grip in a variety of weather situations.

Benefits

- Good all-weather grip
- Best plastic choice for beginners
- Our original plastic
- Wears in progressively to provide new and varied flight characteristics
- Most economically priced of our plastic lines
- Each model displays a distinctive Innova hot stamp design
- Some models available in Glow plastic (page 30)
- Some models carried in Full Color designs (page 30)
- Many models are available for custom hot stamping (page 31)

Disc Types

Distance, control, performance

Innova Disc Golf offers the most complete line of golf discs to meet the needs of every player — from first time player to seasoned veteran. While you can play Disc Golf with just one disc, a variety of discs will allow you to have a more complete arsenal of shots from which to choose. **Distance Drivers** are designed to fly properly when thrown at high speeds. At low speeds, Distance Drivers will fade hard making them inappropriate for putting. Putters are designed to fly with accuracy and consistency at low speeds. When putting, choose a **Putt & Approach** disc because it is more accurate, dependable, and consistent at low speeds.

Each category of discs offers a wide selection of flight characteristics for a variety of shots in different plastic types.

Distance Drivers

Distance drivers are at the pinnacle of golf disc design. They offer players more distance than any other type of golf disc.

Benefits

- Deliver maximum distance off the tee
- Provide the greatest range, speed, glide, and control possible
- Offered in many different models, weights and plastics for players of every skill level
- Valkyrie currently holds the World Distance Record of 820 feet (250m) (See page 11)

Fairway Drivers

Fairway Drivers are designed to offer players more accuracy than Distance Drivers without sacrificing too much distance. These are used when keeping the disc on the fairway or green is more important than maximum distance.

Benefits

- Deliver dependable distance control for consistent fairway driving
- Valuable disc for shorter, controlled drives and long approaches
- Easier for beginners to use than distance drivers
- Help to increase confidence through added control and consistency
- Used by World Champions Ken Climo and Barry Schultz for accurate drives

Mid-Range

Mid-Range discs are great for all types of shots and are recommended as a first disc for beginners for their ease of use and forgiving nature.

Benefits

- Designed to provide accuracy and control for mid-range, approach, and short drives
- Provide dependability from fairway to pin
- Skeeter is the recommended Mid-Range disc for beginning players (page 19)
- Roc is the Mid-Range disc of choice for competitive players (page 18)

Putt & Approach

Putt & Approach discs fly true at low speeds, which is highly desirable when putting. These discs are also great for approaches and short drives. The quickest way to lower scores in Disc Golf is mastery of your putter.

Benefits

- Dependable, accurate, and confidence inspiring putts
- Ideal for controlled upshots, short drives and "go for it" shots
- Available in a variety of different models and plastics to match unique putting styles and grips.
- Aviar is the most popular golf disc ever produced (See Pages 22-23)

Choose the right disc for each throw

While you could conceivably throw a distance driver for every shot on a course, would you want to? With the wide range of disc choices available, there is a disc for every shot. Choose wisely. Keep your driver in the bag when you get within a certain range. Pull out the putter or mid-range to make a key placement drive on a dogleg hole. Play smart. Have fun.

Distance Drivers are the best choice for drives that are at the limit of your distance.

Fairway Drivers are great for shots within your range that you want to get close to the target.

Mid-Range discs offer excellent speed and directional control at moderate to high speeds.

Putt & Approach discs are key for short range success. They are the most predictable at low speeds.

Distance Drivers

Maximum distance for all players

OVERSTABLE STABLE UNDERSTABLE

Disc Selection Tips

The Innova Flight Chart presents the basic flight characteristics of our drivers and can help you choose a disc that best suits your style and ability. In many sports, players want the same equipment the pros use. In most cases that will work fine; however in Disc Golf there are speed and stability variations in different disc models that must be taken into consideration.

Once you have thrown a driver listed on the Flight Chart, you can use that as a frame of reference. This chart will become a valuable tool in understanding what to expect from our other driver models. The discs are listed from the most understable on the right side of the chart, to the most overstable on the left. The fastest models are at the top. Models get progressively slower as you descend the chart.

If you are just taking up the game, choose one of our more understable drivers listed on the right side of the chart. These discs will fly straighter with less effort and are easier to control in normal conditions. They are all excellent disc

choices for those getting started, especially in lighter weights. These discs provide maximum distance in tail-wind situations for players of all abilities.

The drivers listed in the center section of the Flight Chart are our stable flyers. These stable drivers are our straightest flyers and perform well in most wind conditions. They are excellent choices for players of all skill levels, although newer players should choose lighter weights to get the best results.

Overstable discs are listed on the left side of the Flight Chart and are designed to fade back more noticeably at the end of the flight. They will resist turning over when thrown into a headwind. For newer players, these discs will not go straight for very long and are most useful on dogleg fairways, for sidearm and overhead shots and in windy situations.

Flatten it out for better distance

Throwing the disc with a high trajectory means the disc is fighting gravity. It will eventually slow down and stall, falling to the left. If you throw high enough you may actually lose yardage as the disc stalls. Throwing flat shots will allow your disc to maintain its initial velocity longer, thereby adding distance.

Distance Drivers

Max

New for 2007!

speed	glide	turn	fade	diameter
11	4	0	5	21.2cm

The new Star Max is a fast stable driver. It is much like a faster Firebird or Monster. It is a great disc for forehand drives. Backhand throwers can use it for anhyzer flex shots and spike hyzer throws. The Max is predictable and dependable into the wind. Players looking for the ultimate power driver with consistent fade even in the wind need look no further than the Max.

Star Max	\$16.99	175 grams
----------	---------	-----------

TeeRex

New for 2007!

speed	glide	turn	fade	diameter
11	5	0	4	21.2cm

The TeeRex is a fast, stable to overstable power driver with significant glide. Resistance to turn at high speeds means this disc will perform well into the wind. TeeRex offers the flight of the TeeBird with the speed of the Wraith. Recommended for professional level players and those that throw at high speeds. The TeeRex is a great distance disc for windy conditions and sidearm throwers.

Star TeeRex	\$16.99	160-175 grams
DX TeeRex	\$8.99	150-175 grams

Wraith

Ken Climo

speed	glide	turn	fade	diameter
11	5	-1	3	21.2cm

The Wraith is our longest and fastest Distance Driver to date. It is a fairly stable flyer that performs predictably well in the wind with speed, glide, and accuracy. This disc performs remarkably well when thrown at less than full speed as well as at full speed. The Wraith is an excellent side arm disc.

KC Star Wraith	\$16.99	168-175 grams
Pro Wraith	\$12.99	170-175 grams
DX Wraith	\$8.99	150 class-175 grams

Using our disc ratings

Each disc has unique properties. We use 4 terms to better define each disc's characteristics.

Speed — Speed is the ability of the disc to cut through the air. 11 is the fastest through the air.

Glide — Glide describes the property of the disc being able to maintain its loft during flight. More glide is best for new players and for producing maximum distance, especially downwind. A disc rated 6 has the most glide.

Turn — *High Speed Turn* — This is the tendency of a disc to bank right (for RHBH throwers) during the initial part of the flight. A disc with a 1 rating is most resistant to turning over, while a -5 rating will turn the most.

Fade — *Low Speed Fade* — At the end of the flight, all discs tail off in the same direction (left for RHBH shots), but some will "hook" harder than others. A disc rated "0" will finish the straightest with very little fade, while a disc rated +5 will hook hard at the end of the flight.

Distance Drivers

Changes for '07

Our newest driver, the **Max**, is designed for big arms and big wind on big courses. Available in Star Plastic.

The **TeeRex** came out in Star plastic in 2006 and quickly became the king of the course. In 2007, it will be available in DX plastic as well.

Monster

speed	glide	turn	fade	diameter
10	3	0	5	21.2cm

The Monster is an overstable, powerful, wind beating distance driver. It is made for people who can turn over other discs into a stiff headwind. The Monster can fight some of the fiercest winds out there. We have not tested it in hurricane force winds... yet. The Monster is best suited for more advanced players.

Star Monster	\$16.99	170-175 grams
Champion Monster	\$15.99	165-175 grams

Starfire

speed	glide	turn	fade	diameter
10	4	0	3	21.2cm

The Starfire is known for its long straight flights. It is also great into headwinds. The Starfire's distance and accuracy make it a must have disc for the serious player. Players looking for "a longer TeeBird" often choose the Starfire for its similar qualities.

Star Starfire	\$16.99	160-175 grams
Champion Starfire	\$15.99	160-175 grams

Orc

speed	glide	turn	fade	diameter
10	4	-1	3	21.2cm

When the Orc hit the market, everybody had to have one. It was simply the longest disc available that blended accuracy with phenomenal distance. The Orc is a favorite of players for its speed, accuracy, and stability. Thrown flat, this disc will fly straight. Suitable for powerful throwers, but still manageable by beginners in lighter weights.

Star Orc	\$16.99	160-175 grams
Champion Orc	\$15.99	160-175 grams
DX Orc	\$8.99	150 class-175 grams

SL

speed	glide	turn	fade	diameter
10	5	-1	2	21.2cm

The SL is a retooled Starfire that offers more glide and less low speed fade. It has given many players their best distance ever. The Pro version is called the Pro Starfire, which reflects its heritage. The Star SL is the same great mold in Star Plastic.

Star SL	\$16.99	160-175 grams
Pro Starfire (SL)	\$12.99	160-175 grams

Beast

Bong Schatz

speed	glide	turn	fade	diameter
10	5	-2	3	21.2cm

The Beast ushered in the era of the wide rimmed driver. The wide, shallow rim allows for maximum speed on release and less friction across the underside of the disc, allowing for maximum distance. The Beast was an instant classic when it was released; giving players more distance using less power. It is great for beginners and pros alike.

Star Beast	\$16.99	160-175 grams
BS Champ. Beast	\$15.99	160-175 grams
Pro Beast	\$12.99	165-175 grams
DX Beast	\$8.99	150 class-175 grams

Distance Drivers

Firebird *Ken Climo*

speed	glide	turn	fade	diameter
9	3	0	4	21.2cm

The Firebird is our most popular upwind distance driver. The Firebird's combination of superior speed and stability make it possible to throw drives into the wind with confidence. An excellent disc for throwing long range flex shots. A favorite of sidearm and overhead throwers, too. This disc is designed for professional level players.

Star Firebird	\$16.99	160-175 grams
KC Champ. Firebird	\$15.99	160-175 grams
DX Firebird	\$8.99	150 class-175 grams

FL

speed	glide	turn	fade	diameter
9	3	0	2	21.2cm

The FL is a modified Firebird. It was designed to have more glide and a less extreme fade at the end of the flight. It is an excellent driver for windy days as well as sidearm throws. The FL is a great first step into the world of overstable drivers. In Pro Plastic the Firebird-L is known as the Pro Firebird.

Star FL	\$16.99	160-175 grams
Pro Firebird	\$12.99	160-175 grams

Viking

speed	glide	turn	fade	diameter
9	4	-1	2	21.2cm

The Viking is one of our most versatile distance drivers from start to finish. The Viking is a long straight flyer with a very predictable fade at the end of the flight. This is an excellent disc for throwing both side arm and backhand shots due to its easy grip and neutral flight. The Viking is perfect for holding long, line drive shots as well as graceful left or right turning shots.

Champion Viking	\$15.99	160-175 grams
DX Viking	\$8.99	150 class-175 grams

Valkyrie *Jubana Korner*

speed	glide	turn	fade	diameter
9	4	-2	2	21.2cm

The Valkyrie holds the World Record for distance at 820 feet. It is an easy to learn disc, and in lighter weights will give newer players extra distance. Lighter weights also give players extreme range when thrown downwind, while maximum weights can give excellent upwind distance. The Valkyrie is a great choice for long range turnover shots and rollers.

Star Valkyrie	\$16.99	150 class-175 grams
JK Champ. Valkyrie	\$15.99	150 class-175 grams
Pro Valkyrie	\$12.99	160-175 grams
DX Valkyrie	\$8.99	150 class-175 grams

Sidewinder

speed	glide	turn	fade	diameter
9	5	-3	1	21.2cm

The Sidewinder is a fast flyer with a predictable high speed turn and lots of glide. This disc can add distance to anyone's drive, but is especially useful for those with less power. The Sidewinder is our best disc for long turnover shots and long distance rollers. Even disc golfers who have never had much success throwing a roller shot, will be amazed at the results they can achieve with the Sidewinder.

Star Sidewinder	\$16.99	150 class-175 grams
Champ. Sidewinder	\$15.99	150 class-175 grams

Roadrunner

speed	glide	turn	fade	diameter
9	5	-4	2	21.2cm

The Champion Roadrunner is a long-range distance driver with lots of glide. It makes an excellent finesse driver or long range roller. Power throwers can use this disc for long turnover shots and rollers. Less powerful throwers can use this disc for long, straight shots or low tunnel shots. Best Distance Driver for turnover shots.

Champ. Roadrunner	\$15.99	160-175 grams
-------------------	---------	---------------

About these discs

Our Speed 9 discs offer the greatest variety of flight characteristics of our Distance Drivers. Whatever challenges a course may present, we have a disc with a flight path to answer the challenge. The **Firebird** can handle any wind, and will finish with a hard predictable fade. Not a power player? Then the **Sidewinder** and **Roadrunner** are the perfect discs for you. Both offer great glide and turn that is suitable for beginning and less powerful players; they also make great distance rollers for advanced players. If you need something in between these discs, the **FL** and **Viking** are excellent distance control discs. The **Valkyrie** is the current world distance record holder.

About these discs

The **Dragon** and **Archangel** are great for beginner players—both offer lots of glide and turn for those players who do not have a lot of power.

Dragon

speed	glide	turn	fade	diameter
8	6	-2	2	21.2cm

The Dragon is a lightweight distance driver with excellent glide for less powerful throwers who want to get more distance with less effort. Made in a special DX plastic with a great grip. The Dragon will float in water. Dragons are only available at 150 grams.

DX Dragon	\$8.99	150 grams
-----------	--------	-----------

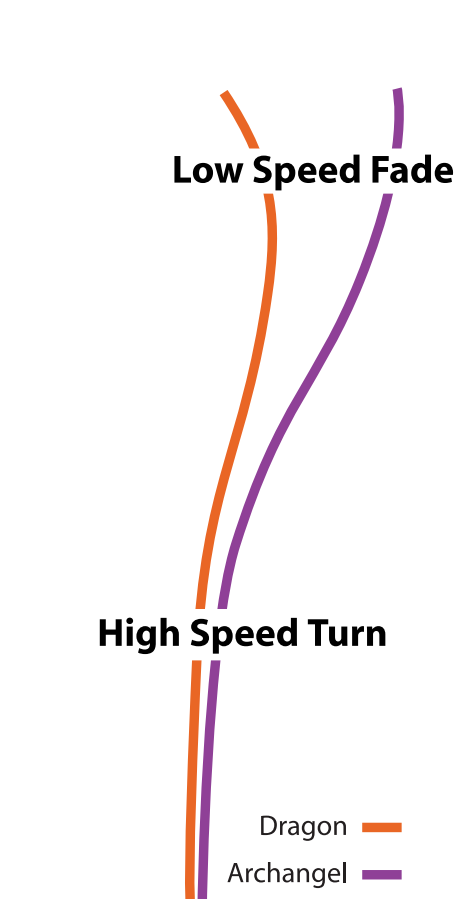

Archangel

speed	glide	turn	fade	diameter
8	6	-4	1	21.2cm

The Archangel is our easiest distance driver to throw for distance - especially for those with less power. The Archangel's high glide, fast speed and turning characteristic all combine to stretch out distance shots. The Archangel also doubles as an easy to turn roller disc. Lighter weights work great for younger players.

DX Archangel	\$8.99	150 class-175 grams
--------------	--------	---------------------

The **TeeBird** is the flagship of the Fairway Drivers. It is the preferred driver of many of the top pros. It offers remarkable distance and precision driving. The **Banshee** is an all around wind beater and our only overstable driver offered in 150 Class in our Champion Plastic. The **Eagle** has long been a favorite of pros for its long, straight predictable flight. The **TL** offers great glide and a long straight flight.

A man wearing a grey polo shirt with a "Pinnacle" logo, dark shorts, and a dark baseball cap is holding a red disc golf disc. He is standing outdoors with a blurred green background.

***THE TEEBIRD* BY KEN CLIMO**

Despite being reclassified a Fairway Driver, the TeeBird is still one of the best discs that you can use off the tee. Don't let the new classification confuse you because it is still a very long disc off the tee. I may be able to get more distance out of other discs, such as the Wraith, but for wooded technical shots, there is no better disc than the TeeBird. It is stable at high speeds, carries an amazing line, and I know that it will finish predictably every time. Personally, it is my favorite driver.

What I like about the TeeBird the most is that it has great glide and is still great in all wind conditions. Most discs that have great glide are not good into a stiff headwind. But with the TeeBird, I know that the disc is not going to turn over into the wind and is going to finish on the intended flight path consistently with that same great glide.

I've said it before and I still believe that the TeeBird is the best all around driver disc out! Brand new they are stable and handle most every wind condition, and as you break them in, they fly reliably straight, and eventually become tuned to make great turnover discs. Learn to throw the TeeBird and your game is sure to improve.

Accurate and predictable distance

◀ **OVERSTABLE** **STABLE** **UNDERSTABLE** ▶

speed glide turn fade diameter
7 3 0 3 21.2cm

The Banshee is a versatile and dependable overstable driver. It has a high degree of predictability, throw after throw. You can count on a Banshee to perform even into the wind. It is an excellent disc for sidearm, backhand and overhead throws, offering predictable, dependable flights.

Champion Banshee	\$15.99	150 class-175 grams
DX Banshee	\$8.99	150 class-175 grams

A close-up, top-down view of a blue Innova Champion TeeBird Farway Driver disc golf disc. The disc features the Innova Disc Golf logo at the top, which includes the text "INNOVA DISC GOLF" and "Since 1974". Below the logo, the text "Champion TeeBird" is printed in a stylized font, followed by "Farway Driver" in a smaller font. The signature "Ken Chen" is visible in the center, and at the bottom, it says "Pro Tour Tee Bird World Champion".

speed glide turn fade diameter
7 5 0 2 21.2cm

The TeeBird is one of our most accurate and reliable fairway drivers. It has a combination of straight flight, high glide, and good speed making it accurate and long flying both upwind and downwind. A popular choice for pros including 12-time World Champion and Hall-of-Famer Ken Climo. Great for accuracy, distance, and sidearm shots.

Star TeeBird	\$16.99	150 class-175 grams
KC Champ. TeeBird	\$15.99	150 class-175 grams
DX TeeBird	\$8.99	150 class-175 grams

speed glide turn fade diameter
7 4 -1 3 21.2cm

The Eagle is our original, professional level fairway driver. It ushered in a new era for distance and reliability. The Eagle's superior speed and predictable flight characteristics let you make confident and accurate long range power shots. The Eagle's high speed turn is excellent for power turnover shots.

Star Eagle	\$16.99	150 class-175 grams
KC Champ. Eagle	\$15.99	150 class-175 grams
DX Eagle	\$8.99	150 class-175 grams

speed glide turn fade diameter
7 5 0 1 21.2cm

The TL is the brother of the reliable TeeBird. The "L" stands for "Less Overstable" and "Longer". This disc has the same great speed and glide as the TeeBird, but is straighter flying with less fade at the end of the flight. If you are looking for a straight flying, maximum distance Fairway Driver in Star plastic, the TL is the disc for you.

Star TL	\$16.99	160-175 grams
---------	---------	---------------

1

Fairway Drivers

Whippet *Ken Climo*

speed	glide	turn	fade	diameter
6	3	+1	5	21.2cm

The Whippet is a very overstable driver used for medium long left hooking shots. It holds a line extremely well even when thrown into stiff headwinds. Great for specialty shots like overheads, spike hyzers, forehand rollers, hook thumbers and skip shots. Designed to handle the power of professional level players.

KC Pro Whippet	\$12.99	170-175 grams
DX Whippet	\$8.99	150 class-175 grams

Gazelle

speed	glide	turn	fade	diameter
6	4	0	2	21.2cm

The Gazelle is a great overall disc for players of all skill levels because of its versatility and control. It is a dependable driver that has a long straight flight with a predictable fade at the end. The Gazelle works well in headwind situations for both long and medium range shots. It has a narrow rim that is easy for smaller hands to grip.

DX Gazelle	\$8.99	150 class-175 grams
------------	--------	---------------------

Cheetah

speed	glide	turn	fade	diameter
6	4	-2	2	21.2cm

The Cheetah is a great driver for throwing straight long shots at any skill level. It is a very versatile disc that is predictably stable at lower speeds and will turnover slightly at higher speeds. It is an excellent disc choice for younger disc golfers

DX Cheetah	\$8.99	150 class-175 grams
------------	--------	---------------------

Leopard *Barry Schultz*

speed	glide	turn	fade	diameter
6	5	-2	1	21.2cm

The Leopard should be everyone's first fairway driver as it has excellent glide and is easy to throw straight and far. The Leopard is a great turnover disc for players of all skill levels. The Leopard makes a dependable long range roller.

Star Leopard	\$16.99	150 class-175 grams
BS Champ. Leopard	\$15.99	150 class-175 grams
Pro Leopard	\$12.99	160-175 grams
DX Leopard	\$8.99	150 class-175 grams

About these discs

The **Leopard** is by far the best driver that any new player can pick up. The Leopard is great for experienced players as well. Barry Schultz says, "Leopards are key to my success. They keep me on the fairway, which makes it easier to get lower scores on par 4 holes." The **Whippet** and **Viper** make for great overstable Fairway Drivers and are perfect for shorter side arms. The **Gazelle** and **Cheetah** round out this group of discs serving as relatively straight flyers.

Viper

speed	glide	turn	fade	diameter
5	4	+1	5	21.7cm

The Viper is a stable to overstable disc that is very reliable in all wind conditions. The Viper changed the way Disc Golf is played by becoming the first disc used for the "Flex Shot". Excellent choice for sidearm throwers. Recommended for experienced players only.

DX Viper	\$8.99	150 class-180 grams
----------	--------	---------------------

Staying in the Fairway

Choosing the right disc for the shot is an art. Good players run several scenarios through their heads before throwing. They don't just consider the shots that will "potentially" get them closest to the basket but also the ones that best avoid trouble. Using Fairway Drivers is part this art. They allow players to play smart. It's not all about distance; it's about accuracy too. Play smart, accurate Disc Golf and you will start to play winning Disc Golf.

About these discs

Putting Innova Mid-Range discs in your bag can help you achieve the precision and control you need in a variety of situations. Our Mid-Range discs can add accuracy to your short drives, boost confidence in your upshots, and make “go for it” shots an attainable goal. From the Gator, which is a reliably overstable disc even in windy situations, to the Stingray, a great turning disc and popular roller, choose any of our Mid-Range discs with confidence because every shot counts.

Get a grip!

Power Grip

Control Grip

Choose a grip that feels right for you. But if you need some help, here a few basic grips that you should try. You never know when you'll have a chance to use one of them.

- **Power Grip:** mainly for drives and long approaches. Backhand.
- **Control Grip:** for putt and approach shots mainly. Backhand.
- **Sidearm/Forehand Grip:** for sidearm shots and overhand shots.
- **Hook Thumber Grip:** for overhand shots - thrown like a baseball.

There are many more grips to choose from, so experiment!

Sidearm/Forehand Grip

Hook Thumber Grip

Gator

speed	glide	turn	fade	diameter
5	2	0	3	21.2cm

The Gator is a very reliable overstable Mid-Range disc with a predictable finish. The Gator delivers pin-point accuracy for shorter drives and approach shots even in windy conditions. This is a great disc for Mid-Range shots especially for players who need to control their power and increase their accuracy.

Star Gator	\$16.99	165-175 grams
DX Gator	\$8.99	150 class-175 grams

Spider

speed	glide	turn	fade	diameter
5	3	-1	1	21.2cm

The Spider is a Mid-Range disc that works for hyzer, straight and turnover throws. Throw it with the nose up and the Spider will turn left, with the nose down it will turn right. The Spider is a low speed predictable disc that makes a great approach disc. Excellent for all skill levels and players who prefer a smaller diameter disc.

Star Spider	\$16.99	165-175 grams
Champion Spider	\$15.99	160-175 grams
DX Spider	\$8.99	150 class-175 grams

Panther

speed	glide	turn	fade	diameter
5	3	-2	1	21.2cm

The Panther is a slightly understable Mid-Range disc with a shallow rim. Players of all abilities can use it for throwing medium and short range shots. The Panther is a perfect disc for those learning to throw a slow controlled turnover shot. The Panther makes a great small diameter roller for mid to long range shots.

Champion Panther	\$15.99	170-175 grams
------------------	---------	---------------

Cobra

speed	glide	turn	fade	diameter
5	5	-2	2	21.7cm

The Cobra is a large diameter Mid-Range that is very easy to grip. It is very beginner friendly with a long and useful lifespan. The Cobra is a great disc choice for long slow turning shots and rollers. The thin rim is great for smaller hands and creates a clean predictable release.

Pro Cobra	\$12.99	170-180 grams
DX Cobra	\$8.99	150 class-180 grams

Stingray

speed	glide	turn	fade	diameter
5	5	-5	1	21.7cm

The Stingray is a large diameter disc that has a very predictable turn and excellent glide. It has a shallow rim that makes it easy to grip for smaller hands and allows for a smooth consistent release. These characteristics make it a good choice for beginners. The Stingray is also an excellent disc for throwing controllable mid to long range roller shots.

Star Stingray	\$16.99	165-180 grams
DX Stingray	\$8.99	150 class-180 grams

Mid-Range Discs
Controlled precision from every angle

Mid-Range Discs

About these discs

The **Roc** and the **Shark** have long been two of the most popular and versatile Mid-Range golf discs that Innova offers. The Roc tends to be preferred by more advanced players. Intermediate and beginning players tend to prefer the Shark because of its increased glide and straighter flight characteristics. Both discs fly predictably every time. The **Coyote** has quickly become a favorite of players of all skill levels. It offers good glide and will fly predictably for straight, gentle turnover, or hyzer shots. The **Wolf** is a great medium range straight and turnover disc.

Find a mold and stick with it.

A lot of players are surprised when they find out that a majority of the top pros use the same type of disc for a variety of shots. 12-time World Champion Ken Climo carries 4 to 5 Rocs. Why does he carry five of the same disc? Because each of these Rocs is broken in or “tuned” to fly in a certain manner. One new for hyzer shots, another with some good use for straight flights, a pretty worn one for turnover shots, and so on. By becoming an “expert” with a particular disc, a player can throw with the same motion, and the resulting flight will vary depending upon the wear on the disc.

Innova offers an assortment of discs with different grips and plastics to meet the needs of every player. Experiment with a number of molds and find the disc that has the best grip and feel for you. Once you become comfortable with a particular disc, keep an old one in your bag for turnover shots, and a new one for hyzer shots. Once your “new” disc gets worn in a good bit, you can move it to a turnover spot in your bag or take it out to save it as a replacement for your current turnover disc. As you progress in skill level, you may find yourself carrying five Rocs too.

Limiting your golf bag to a smaller number of molds means you will have to master less discs, and can focus on your accuracy, form, and putting. The top players who only carry 4 or 5 molds in their bag are confident in both the feel of the discs and executing varying shots with them. Gain confidence in your game by mastering just a few molds.

New for '07

The **Star Skeeter** is a great point-and-shoot disc. It takes and holds the angle of release even on turn-over shots. Great accuracy up to 300 feet and it putts well too. The Star Skeeter is new for 07.

The Shark is now available in five models, including the kid friendly EDGE Shark and the new Star Shark.

The Coyote is now available in Star and DX versions.

speed	glide	turn	fade	diameter
4	4	0	3	21.7cm

The Roc is simply the best, most versatile Mid-Range disc ever made. It provides accuracy at any range. This disc can take and hold the angle of release, even into a headwind. It can be used for driving, upshots, straight shots, hyzer shots or anhyzers. The Roc ages gradually and predictably. If you're not sure what disc to throw, choose the Roc just like most pros.

KC Pro Roc	\$12.99	160-180 grams
DX Roc	\$8.99	150-180 grams

speed	glide	turn	fade	diameter
4	4	0	2	21.7cm

The Shark is the perfect Mid-Range disc for players of all skill levels. It is great for predictable straight, hyzer or anhyzer drives, and approach shots, plus you can even putt with it. Beginners will benefit from the smooth rim and consistent release. It has good carry and makes long approaches easy to reach.

Star Shark	\$16.99	165-180 grams
Champion Shark	\$15.99	165-180 grams
Pro Shark	\$12.99	170-180 grams
EDGE Shark	\$8.99	130 grams
DX Shark	\$8.99	150 class-180 grams

Skeeter

speed	glide	turn	fade	diameter
4	5	0	1	21.2cm

Get bit by the Skeeter! The Skeeter is a small diameter Mid-Range disc with a straight flight and slight, but dependable fade. This disc is one of the best discs we make that putts, approaches, and drives dependably and accurately. Ideal for all skill levels. This disc is especially good for newer players.

Star Skeeter	\$16.99	150-175 grams
DX Skeeter	\$8.99	150-175 grams

Coyote

speed	glide	turn	fade	diameter
4	5	-1	1	21.7cm

The Coyote is a larger diameter Mid-Range disc with good glide that flies predictably for straight, gentle turnover, or hyzer shots. It has a friendly grip that makes it easy to throw and release. The Coyote is an excellent disc for many types of long or short approach shots, short drives, roller shots, and even short range putts. A great choice for beginners, intermediates, and pros using only one disc.

Star Coyote	\$16.99	165-180 grams
Champion Coyote	\$15.99	165-180 grams
DX Coyote	\$8.99	165-180 grams

Wolf

speed	glide	turn	fade	diameter
4	3	-4	1	21.7cm

The Wolf is an understable Mid-Range disc designed for making medium range straight and turnover shots. It features the patented Innova Thumtrac® for added grip and reliability. The Wolf allows any player to learn anhyzer shots with very little effort. A great feeling disc that is easy to release. The Wolf is great in the woods and also makes an excellent Mid-Range roller disc.

DX Wolf	\$8.99	150 class-180 grams
---------	--------	---------------------

New for '07

The **Goblin** was released in the summer of 2006. This disc is great for approaches and putts. Its best asset is its straight flight and straight finish. The Goblin is small and compact yet it delivers big results.

Des Reading

Three-time Womens World Champion Des Reading at the 2006 World Championships in Augusta, GA

Grip Tip - Des Reading

Grips are a very important aspect of the game. I use two basic grips—the power and control grips, but there are many variations on these two.

When I drive, I use what is called a power grip. Basically, I tuck all my fingers underneath the rim of the disc (with the finger pads pressed to the inside wall of the rim) and I put my thumb mostly towards the center of the disc’s flight plate. I will use that grip for my drives, mid-ranges, and some of my longer approaches (roughly 80 to 200 feet).

Once I am within 80 feet of the target, I use what is considered to be a control grip. For that grip, I just put my index finger on the outside edge of the rim, and the other three fingers are fanned on the bottom of the disc. The theory behind this grip is when I go to release the disc that last point to touch the disc is my index finger and a nice smooth release and follow through are going to cause the disc to travel directly to the target.

SPEED 2

PAGE 22-23

SPEED 1

PAGE 22-23

Classic Roc

speed	glide	turn	fade	diameter
3	3	0	2	21.2cm

The Classic Roc is a small diameter Putt and Approach disc that makes a great Mid-Range driver for players of all abilities. This accuracy disc provides a great “touch” for shorter holes and longer approach shots. It is a solid performer for straight or turnover shots. The Classic Roc makes a good putter as well.

Star Classic Roc	\$16.99	160-175 grams
Champion Cl. Roc	\$15.99	165-175 grams
DX Classic Roc	\$8.99	150 class-175 grams

Hydra

speed	glide	turn	fade	diameter
3	3	0	2	21.2cm

The Hydra is a great disc for short drives and approach shots. It will handle all wind conditions. It is made with a grippy, durable plastic that floats in water. It is easy to release and has a friendly grip making it a great putter as well. All Hydras are approximately 172 grams.

DX Hydra	\$8.99	172 grams
----------	--------	-----------

Goblin

speed	glide	turn	fade	diameter
3	4	0	1	21.2cm

The Goblin makes an excellent starter disc and is a great choice for players using only one disc. Side arm or backhand, the Goblin performs well as a short range driver or approach disc as well as being a dependable putter. On a short course, this might be the only disc you will need.

DX Goblin	\$8.99	150 class-175 grams
-----------	--------	---------------------

Aero

speed	glide	turn	fade	diameter
3	6	0	0	22.2cm

The Aero is the straightest point-to-point golf disc and the easiest disc to keep on the fairway for beginners. It is a slow flying control disc with a large diameter and a significant amount of float. When broken in the Aero will turnover very slowly and predictably. The Aero was introduced in 1983 as the first disc designed specifically for Disc Golf.

Star Aero	\$16.99	178-180 grams
Champion Aero	\$15.99	170-180 grams
DX Aero	\$8.99	150 class-180 grams

XD

speed	glide	turn	fade	diameter
3	4	-1	1	21.2cm

The XD has a low profile, thin rim which promotes a secure grip and an easy, natural release. These features combined with straight flight characteristics make the XD an easy to throw and control disc. It is the most driver-like putter we have and is useful for putts, drives and approach shots. Good disc for developing a “touch” around the basket.

DX XD	\$8.99	150 class-175 grams
-------	--------	---------------------

Des Reading at the 2006 Japan Open at Nasu Highlands in Tochigi, JAPAN

Putt & Approach Discs

Rhyno

speed	glide	turn	fade	diameter
2	1	0	3	21.2cm

The Rhyno is an overstable putt and approach disc that can handle strong headwinds. Great for players with lots of throwing power as the Rhyno stops on a dime and stays close to the basket. It is a must have disc for short to medium up shots and putting into the wind. The Pro-line model is also called a "Soft" Rhyno and is made to be super soft and flexible in an extra grippy plastic that grabs the chains.

Star Rhyno	\$16.99	165-175 grams
Champion Rhyno	\$15.99	165-175 grams
Pro Rhyno (soft)	\$12.99	165-175 grams
DX Rhyno	\$8.99	150 class-175 grams

KC Aviar *Ken Climo*

speed	glide	turn	fade	diameter
2	3	0	2	21.2 cm

The KC (Ken Climo) Pro Aviar is made from the Aviar driver mold in a firm blend of special KC plastic (which is also used for the KC Roc and KC Whippet) for players who prefer a stiffer disc. This is the preferred model of professional players. Great for drives, approaches and putts.

KC Pro Aviar	12.99	170-175 grams
--------------	-------	---------------

JK Aviar *Juliana Korver*

speed	glide	turn	fade	diameter
2	3	0	2	21.2 cm

The JK (Juliana Korver) Pro Aviar is made from the driver mold in a special blend of durable Pro-line Plastic that is more flexible and grippy than the other Aviar models. It has the same flight characteristics as the KC Aviar. Its softer plastic is better in colder climates and for those who require a tackier grip.

JK Pro Aviar	\$12.99	165-175 grams
--------------	---------	---------------

Star Aviar Driver

speed	glide	turn	fade	diameter
2	3	0	2	21.2 cm

The Star Aviar Driver is made with the "Big Bead" Aviar driver mold. The Star Aviar Driver offers enhanced stability over the regular Aviar P & A. This disc won't flinch into a headwind. Star plastic gives the Aviar Driver more durability and offers players another grip option. Throw it fast or throw it slow, the Star Aviar Driver knows how to handle the power in your arm.

Star Aviar Driver	\$16.99	165-175 grams
-------------------	---------	---------------

Aviar Putt & Approach

speed	glide	turn	fade	diameter
2	3	0	1	21.2 cm

The Aviar Putt & Approach is our most popular disc model and the number one putter in Disc Golf. It is versatile and dependable in all conditions. A must have disc for any serious competitor's bag. This model is a straight flyer with a predictable finish.

Star Aviar P&A	\$16.99	150-175 grams
DX Aviar P&A	\$8.99	150 class-175 grams

Classic Aviar

speed	glide	turn	fade	diameter
2	3	0	0	21.2 cm

The Classic Aviar is the original model that gave rise to all other Aviar models. The Classic Aviar is our straightest flying Aviar model from start to finish. It is made in a firm plastic with a good grip. Like all other Aviar models it is reliable and dependable in all conditions.

DX Classic Aviar	\$8.99	150 class-175 grams
------------------	--------	---------------------

Chris Sprague

Team Champion's Chris Sprague winner of the 2006 Marshall Street Disc Golf Championship

Birdie

speed	glide	turn	fade	diameter
1	2	0	0	21.2cm

The Birdie is a slow, straight flyer with our Thumtrac® grip for a sure release. It has great chain catching ability. Great for approach shots as it flies straight and slow start to finish. It is one of our best "go for" discs as it doesn't go far past the basket on misses, and stays put when it hits the ground. A good disc for those players making the conversion from flat edged disc sports: Catch, Ultimate, Freestyle, etc.

Pro Birdie	\$12.99	165-175 grams
DX Birdie	\$8.99	150 class-175 grams

Polecat

speed	glide	turn	fade	diameter
1	3	0	0	21.2cm

The Polecat is a beginner friendly putt and approach disc. It is a straight flying disc made in a comfortable, grippy plastic. This putter is great for short drives and approaches as it takes and holds the angle of release regardless of speed. A great choice for pros and beginners as it works well with all putting styles.

DX Polecat	\$8.99	150 class-175 grams
------------	--------	---------------------

About these discs

"Drive for show, putt for dough" is a common saying in Disc Golf. This saying holds true for the Aviar more than any other golf disc on the market. The Aviar has been used to win more World Titles than all other Putt and Approach discs combined. Introduced in 1984, the disc is truly a testament to the pioneering genius of Innova cofounder and disc designer Dave Dunipace. The Aviar is still the best Putt and Approach disc on the market today. From the stiff feel of the KC Pro Aviar and Classic Aviar to the soft tacky JK Pro Aviar-X and Aviar Putt & Approach, Innova makes an Aviar that you are sure to love.

Specialty Discs

Options for every flying discipline

Specialty Discs are designed for use in Disc Golf and other flying disc sports. Several of these discs are classic "Old School" models with a loyal following. Some models are also approved by WFDF (World Flying Disc Federation) for use in the Overall events of Accuracy, Discathon and Self-Caught Flight. Our entire line of Specialty discs is PDGA (Professional Disc Golf Association) approved for use in Disc Golf.

Condor

Very Large Diameter Golf Disc
The Condor has long been a favorite of Disc Golf pros throwing thumb rollers and is available in heavy weights for just that purpose. The Condor has a very stable true flight. The 138 gram Condor is used for Self Caught Flight events. The Condor currently holds the Throw, Run, Catch World Record at 94 meters.

DX Condor \$8.99 138, 190-200 grams

Jaguar

Very Large Diameter Golf Disc
The Jaguar is an ideal disc for low power players who need to stretch out their distance. The Jaguar's turning characteristic and high glide make the most out of less powerful throws whether they are backhand air shots or rollers. Our largest diameter golf disc

DX Jaguar \$8.99 160-200 grams

Zephyr

A great all-around disc
The Zephyr is a throw and catch disc. It has long been a favorite for the Overall events of Discathon and Accuracy (160 grams). The Zephyr has a very straight and true flight characteristic. The Zephyr's Thumtrac® gives it extra durability and a great grip, especially for sidearm throws.

Light Zephyr \$8.99 138 grams
DX Zephyr \$8.99 160-200 grams

Ace

Small Diameter Golf Disc
The ACE is a fairway driver that flies long and straight with lots of glide. Great for those learning the game, and as a finesse disc for more experienced players. The narrow width of the rim is perfect for young children and those with small hands.

DX Ace \$8.99 165 grams
EDGE Ace \$8.99 130 grams

Lite Polecat

Great for young kids
The Lite Polecat is an excellent golf disc for children. It makes an excellent catch disc as well. Weight: 105 grams

Lite Polecat \$4.99 105 grams

Super Nova

Our best catch disc
The Super Nova is an excellent all around recreational disc. It features our patented Thumtrac® technology for great grip and true flights throw after throw. Great for Ultimate, catch or Freestyle. It is also a PDGA approved golf disc. A great disc for a day at the beach.

Super Nova \$9.99 175 grams

Ultimate Discs

You can throw, but can you run? Can you catch?

Ultimate has been a staple of college life for more than 30 years, and continues to be a popular sport. While Ultimate is huge at college and universities, club teams are also popping up everywhere. This is especially true in areas with high post-graduate populations. With all those disc throwers, Innova created the Pulsar to meet the needs of Ultimate aficionados everywhere. The Pulsar received the approval of the Ultimate Players Association in 2006. The Pulsar is the choice whether laying out for the winning point or playing catch at the beach.

Our ultimate discs can be custom hot-stamped for your team, call for details.

Pulsar

UPA approved Ultimate Disc
The Pulsar is Innova's Ultimate disc. Approved by the UPA (Ultimate Players Association) for tournament play, the Pulsar is ready to lead your team to it's next championship. This disc is not just a "competition" disc. It is perfect for Freestyling at the beach or for a game of throw and catch in the backyard.

Pulsar \$9.99 175 grams

I-Dyed Discs

Add some color to your bag

Add unique color to your game with I-Dye Discs! Each disc is individually dyed with bold colors and exciting designs. No two are exactly alike. These discs are attractive enough to display on your walls, yet much more fun to watch flying down the fairway.

I-Dye discs are available in the Innova Pro, Champion, and Star lines. Availability is limited to stock on hand with new shipments arriving frequently.

I-Dye Pro Discs	\$15.99
I-Dye Champion Discs	\$ 18.99

Glow Discs

You don't have to stop playing when the sun goes down

There is no need to stop playing when the sun goes down. Innova's Glow discs are made with a rechargeable glow-in-the-dark plastic that has a unique feel and allows play to continue in the dark. Simply use a portable black light, camera flash attachment, or flashlight to charge glow discs before play and between shots.

Our glow discs are not just for nighttime play! Glow plastic has a slightly different texture than our other discs. Many prefer the glow plastic for its unique feel, so it is not uncommon to see someone with a glow disc that they use every day.

Custom Graphics on Discs

Your event, your stamp, your disc - You're in charge

Custom golf discs and mini markers are a great way to raise money and promote your business, club, or upcoming event. They are a mainstay at PDGA tournaments and help raise thousands of dollars each year.

We have several options to choose from:

Hot Stamped Discs

This traditional process still reigns supreme and offers the widest selection of models to choose from. You can choose from a variety of foil colors from black to metallic rainbow and mix and match disc colors as well.

- Minimum order: 50 discs (25 discs minimum per model)
- Discs: DX, Pro, Champion, Star models
- Mini markers: Standard, Glow, Golf weight, Champion, & Star

Full Color Discs

Photos and multi-color art make beautiful Full Color discs. We can also personalize each disc individually for trophy discs or to recognize club members by name. Full Color minis are great collectors items and make great bag tags.

- Minimum order: 25 discs
- Discs: Select white DX models
- Mini markers: White Golf weight minis

INNColor™ Discs

The latest evolution of the ever popular Champion Fund Raiser Program. This process produces the most brilliant high resolution images from edge to edge. INNColor discs are available to PDGA tournament directors and other qualified fund raising events. For INNColor™ pricing, turn to page 33.

- Order qty. varies with event size
- Discs: Select Champion & Star models
- Mini markers: Champion & Star

Call (or email at custom@innovadiscgolf.com) the Innova Custom dept. for details on graphic design specifications & model availability. We will gladly help you determine which custom application is suitable for your project. Custom design is also available at affordable costs.

* Please allow four to six weeks to process and deliver your order

Sponsorship Support

Lending a hand every step of the way

Innova was founded by players and promoters for players and promoters. Whether it's a local school demo or the United States Disc Golf Championship, we want to help you promote disc golf. From packaged options to tailored sponsorship solutions, we want to work with you to best meet your specific goals.

Need to raise money for your event or course development?

Innova offers THE proven fundraising discs. Whether you choose traditional hot stamping or INNColor Edge-to-Edge graphics, these discs will help you reach your fundraising goals. Each fundraising disc includes a Sponsor Reward Program certificate to further enhance the disc value and help events say "thank you" to their supporters. Supporters can enter Innova Gear Drawings with one lucky winner receiving the highly sought-after Sponsor's Exemption to the United States Disc Golf Championship in Rock Hill, South Carolina.

Want custom plastic players prefer?

More tour events are won with Innova discs than all other brands combined. Small orders or large orders, our custom stamping specialists will help folks see your artwork on the right models. Our simpler pricing and friendlier ordering means one less thing to worry about before your event. We can also include tournament supplies (scorecards, pencils, and banners) and select Innova merchandise because we appreciate your promotional efforts.

INNColor CFR Discs

Edge-to-edge designs make fundraising easy

The CFR INNColor™ program was successfully introduced in 2005 and hundreds of events have benefited from our unique fund raising program. The INNColor Program makes it possible for events to offer special discs that display unique custom artwork. The INNColor process allows high resolution, full color art to be exhibited from edge to edge.

The INNColor program helps make CFR fund raising easy for event directors, as both players and collectors enjoy purchasing discs with attractive custom artwork. Since INNColor discs are available in limited quantities, and only to participants in our CFR Program, the value of INNColor discs is enhanced.

The INNColor process is available on all of our CFR disc models and there is no extra charge for glow CFR models. The INNColor process works extremely well on white Star discs. The white Star plastic adds intensity to INNColor designs and brings out details in the artwork. We also offer the INNColor process on Champion Aviar Mini discs as an additional way to raise sponsorship funds.

Purchasers of CFR discs are event sponsors. They are qualified to enroll in our Sponsor Reward Program and may participate in our monthly Sponsor Reward drawings.

Charges for CFR discs include the cost of the disc, set up fees and all process charges. Artwork that does not meet INNColor specifications may be subject to extra fees.

Innova Disc Golf Bags

Now in six varieties to please every player

Champion Bag

New for 2007 is the Champion Bag.

This long awaited bag blends style and functionality providing enough space for up to 20 golf discs. The neoprene bottlesockets pull drinks in tight to the bag and keeps them cool during hot rounds. Designed to hold an arsenal of discs, the aluminum internal frame and snap-in dividers provide organization within the bag. The Champion Bag comes with a 2 year guarantee.

- Aluminum internal frame with snap in dividers
- Neoprene Bottlesockets grab your water bottle regardless of size - they retract when not in use
- Armored Putter Pouch
- Two large side pockets to hold extra towels, keys, shirts, etc.
- Extra pockets in front and rear for essentials
- Umbrella holder

- Padded back for comfort
- Includes padded adjustable shoulder strap
- Cleat Feet - Keeps your bag out of the muck
- Made with two sets of heavy duty reinforced strap connectors to accommodate Backsaver Straps - Backsaver Straps not included

Designed to integrate with our Backsaver Straps as seen on page 36.

Competition Bag

Coming in early 2007. The Competition Bag is an ultra-light and ultra-

durable full size bag designed to carry up to 20 discs. Includes a lightweight, removable internal disc frame to add support and organize discs. While other heavier bags may carry more accessories, this bag is extremely lightweight and was designed with comfort in mind. This bag is a full 2 1/2 pounds lighter than our Tour Bag, even with the internal disc frame installed.

- Holds 18 - 20 discs
- Made with durable lightweight material
- Lightweight internal frame with dividers
- Padded back area for additional comfort
- Two 32-oz bottle holders
- Padded adjustable shoulder strap
- Extra set of strap connectors for use with Backsaver straps - Backsaver Straps not included
- Two zippered gear pockets - one with internal cell phone holder
- Internal zippered pocket
- Elastic front putter pocket with mini pocket and pencil holder

DISCatcher Pro

Making Disc Golf fun for 10 years

The DISCatcher PRO is highly visible in most any terrain

Josh Anthon, winner of 2 National Tour events in 2006

DISCatcher[®] PRO Disc Golf Target

The Innova DISCatcher[®] PRO is the best catching, most visible, and longest lasting Disc Golf target. The DISCatcher PRO is available in both Permanent and Portable models, making it perfect for a local course or for play in the back yard.

The DISCatcher PRO Permanent is a favorite of parks departments and course professionals—in 2006 over 100 new courses were installed using DISCatcher PRO Permanent targets. The bright yellow band improves target visibility from afar and also distinguishes the disc golf course to non players. The DISCatcher PRO has 24 chains designed to catch and stop discs. Discs thrown into its large “sweet spot” resist “blow-throughs”, “bounce-backs”, and “bounce-outs”. We are sure that the DISCatcher PRO will suit your needs, whether you are installing a new course or upgrading an existing one.

The DISCatcher PRO Portable offers the same great “catchability” as the Permanent model, but with a metal base that allows it to be set up anywhere. The Portable is ideal for use on temporary courses or as a heavy-duty full-size target for backyard practice.

The DISCatcher PRO was designed by pros to improve scoring from near and far. There is no better choice than the DISCatcher PRO.

HIGH VISIBILITY TARGET TOP

Our yellow powder coated target top makes the Innova DISCatcher PRO highly visible and able to withstand the elements. Under the powder coating is all stainless steel construction making it long-lasting and low maintenance.

GALVANIZED CONSTRUCTION

Hot-dip galvanized basket, pipe and chains allow a DISCatcher PRO target to weather the elements better than painted or zinc plated baskets.

THREE TIERED CHAINS

12 outer chains grab your disc, while 12 more inner chains buffer and slow the disc, improving catching performance. This makes the DISCatcher a favorite target of players.

PDGA APPROVED

Both the DISCatcher Pro Permanent and Portable models are PDGA approved for tournament play.

DISCatcher Pro

In the yard or at the course

The DISCatcher PRO has 3 layers of chains to catch more shots

Official target of the United States Disc Golf Championship

Permanent Model Specifications

Target Top — Our yellow target tops are made from stainless steel. They are 22 inches across and 4 inches high. The band is also stainless steel welded to stainless steel “spokes”. Each target top is then powder coated in bright yellow for best visibility on the course.

Chains — Our chains are made to handle abuse. 24 strands of marine grade galvanized 2/0 chains. (12 outer, 6 middle, 6 inner)

Basket — Our baskets will provide years of loyal service. They are made using 3/8” steel rod, which is hot-dip galvanized to survive years of harsh weather.

Pole — Our hot-dip galvanized 74” pole deters vandals. With 1/8” walls to prevent bending or cutting. Each is pre-drilled for target top, basket, and collar hardware.

Locking Collar — Hot-dip galvanized finish. Securely fits over pole mounted with tamper resistant screws.

Installation Tube — 24” long hot-dip galvanized steel tube. Provides a snug fit for the target at PDGA approved height. Locking tab aligns with locking collar for security.

Model	MSRP
DISCatcher PRO	\$375.00
DISCatcher PRO Portable	\$375.00
Course sales	\$300.00 ea.

Custom Color Tops

Is your course in need of a blast of new color? Does your school want a Disc Golf course that matches the team’s colors? You now have the power!

Custom color DISCatcher are now available in a multitude of colors. If that isn’t enough you can add cool special effects so your targets ooze cool. We will work with you; be it for a backyard target or an entire course. Please contact Innova for more information and pricing.

DISCatcher Sport & Mini Sport

Real targets for real practice and temp courses

DISCatcher Sport Target

The Innova DISCatcher® Sport is a full-size portable target. Durable construction with 18 galvanized chains, yet the DISCatcher® Sport model weighs only 40 pounds. The DISCatcher Sport is an excellent target choice for youth camps, schools, backyard practice or to create a temporary course. Constructed of six parts, the DISCatcher Sport can be set up in about 5 minutes with just a screwdriver. It disassembles for easy transportation or for compact storage when not in use. Regulation sized and PDGA approved for tournament play.

- Chain Assembly - Durable yellow powder coated target top with 18 strands of galvanized chains
- Basket - Galvanized finish
- Two poles - Two sections with galvanized finish
- Base - Our galvanized four spoke base is wide enough and strong enough to stabilize the target, yet is still lightweight.

MSRP \$194.99

DISCatcher Mini Target

The Innova DISCatcher Mini basket is the perfect trophy basket to award to top competitors in tournaments. It is also a great basket for your mini golf course. Create your own cool course in your yard, or pool a bunch of baskets together and set up a temporary course at your local park. With 18 real chains and solid steel construction, the DISCatcher Mini works like the real deal. Metal band on top is perfect for a trophy plaque. 22" tall.

MSRP \$99.99

DISCatcher Traveler

Less than half the weight of the next lightest target

DISCatcher Traveler

The easiest way to play anywhere!

The DISCatcher® Traveler Disc Golf Target is ready to accompany you on all your Disc Golf expeditions. The Traveler is Innova's lightest weight full size target. Quick set up and take down gives you more time to enjoy Disc Golf. It is Ideal for camping, the beach, or a quick backyard putting session. The Traveler is an excellent choice for schools and youth camps. Kids enjoy learning disc golf on the Traveler.

- Simple one step set up
- At just 12 pounds, the DISCatcher Traveler is the lightest portable target available from Innova
- The chain assembly is surrounded with a unique net that provides additional catching power by preventing "blow-throughs" and decreasing "spit-outs"
- The extra wide basket tray is made of a lightweight yet durable, quick-drying mesh fabric
- Four legs provide a wide sturdy base. Attached anchor rings and included anchor stakes serve to secure target on uneven surfaces and on windy days
- Available in three eye-catching colors: yellow, red, and blue (Subject to availability)
- Comes with matching tote bag for easy transportation and storage
- Includes removable flag for added visibility and reading wind direction
- Early or late putting sessions won't disturb others with quieter chain action of Traveler
- A favorite of Physical Education teachers for their light weight, quick setup, and small storage footprint

MSRP \$129.99

SkillShot Portable Target

Umbrella action for collapsible fun

The Innova SkillShot™ is the original lightweight portable Disc Golf target. It weighs in at 26 pounds with a 16 chain assembly. The SkillShot allows you to play Disc Golf in the park, on your next camp-out or around the backyard.

It is affordable, easy to transport, catches great, and is PDGA approved. Offered in red, green, black, and blue (Subject to availability). Comes complete with flag and carrying case.

Weight 26 lbs
MSRP \$129.99

SkillShot Portable Target Features:

- Umbrella Action - Pops up in seconds and collapses quickly too.
- 16 Chains - 16 real zinc plated chains grab and hold discs.
- Tripod Base - Powder coated tripod base allows for basket to be mounted on uneven ground. Stake rings at end of each foot for added stability when needed.
- Colorful Skins - 600 denier polyester skins. The SkillShot comes in a variety of colors to suit your needs. Available in red, blue, green, and black.
- Convenient Carry Case - Great for storing the SkillShot in your car.

Design a SkillShot Challenge course for a local park, school or your backyard.

The SkillShot Challenge is a great way to test and sharpen your disc golf skills. A player is challenged to perform a variety of disc golf shots and deliveries from different angles and distances. It gives players an opportunity to practice rollers, overhead shots and escape shots. Players are awarded points on how well they perform the shots.

Go to www.edgediscgolf.org for details.

Official Handicap Leagues

In addition to providing handicap factors for individual subscribers, Disc Golf United™ provides handicapping and record keeping services to League Directors. DGU has put together the information and tools you need to organize a successful handicap league.

DGU League Directors can be rewarded for operating a DGU League and introducing new players to Disc Golf United™. League Directors may keep these rewards or donate them to local organizations or for Disc Golf course improvement projects.

To become a DGU League Director, the first step is to log on to www.discgolfunited.com today and become a subscriber. DGU will then provide you with step by step instructions.

Use the DGU Course Locator to find a course near you at www.discgolfunited.com

EDGE - Educational Disc Golf Experience

Teaching kids the sport of a lifetime

Educational Disc Golf Experience (EDGE), is a non-profit organization that was founded to introduce the fun, lifetime sport of Disc Golf to young people. EDGE has developed a program to provide schools and other youth programs with a sound curriculum for teaching Disc Golf fundamentals and related skills.

The Sport of a Lifetime

EDGE introduces the lifetime sport of Disc Golf to students and campers of all ages. While introducing rules and techniques of Disc Golf, EDGE also provides teaching points on life skills such as responsibility and cooperation as well as the life-long benefits that an active lifestyle provides.

Des Reading teaches the proper putting technique

EDGE PROGRAM BENEFITS

- Students learn through hands on lessons using real golf discs and equipment
- SkillShot™ fundamentals testing allows students to test the skills they have learned and rewards students who have reached predefined levels with cool patches of achievement
- EDGE curriculum also teaches: stretching, addition, courtesy, environmentalism
- EDGE Packages start at under \$500 with enough equipment for a 30 person class

www.edgediscgolf.org

Disc Golf is the sport of the future and children are the future of the sport

The EDGE program introduces the basic physical skills required for the sport along with integrated math, science, fitness, nutrition, and civics lessons. Children get to have fun, participate in much needed physical activity and learn skills that can last a lifetime.

Teach a Child to Play Disc Golf Today

If you are interested in finding out more about EDGE or would like information on how to bring the EDGE program to a school or youth organization in your area, visit the EDGE web site online at: www.edgediscgolf.org or call 1-866-391-EDGE (3343).

Ken Climo explains the game of Disc Golf to elementary students

Educational Disc Golf Experience, Inc. is recognized as a charitable, non-profit educational organization under Section 501 C (3) of the Internal Revenue Code.
