Let the Good Times Fly

Twenty-eight years after Innova introduced the first true golf disc, the company is still at the forefront of golf disc technology and equipment. When researching new discs and products, we still do our best work on the course like we've always done. We love to play and we want others to enjoy disc golf as much as we do. Having the right equipment helps foster that love.

You can see our passion and commitment to the sport in our discs, targets and other disc golf supplies that both players and retailers have come to rely on. It is about more than just quality, it is about getting the right fit, the right feel and the right flight. This commitment continues even after the sale.

Innova's success in disc golf is made possible by the many customers, be it retailer or player, that consistently choose our products. For that, all of us at Innova Champion Discs say thank you, and invite all of you to be a part of another incredible year in disc golf.

Thanks again. See you out on the course.

Sincerely,

Dave Dunipace and Harold Duvall

Discmania Golf Discs

Not just for Europe, everyone can order Discmania now!

Discmania is a European based company established in 2006. Innova manufactures in association with Discmania some of the world's finest golf discs. Discmania's discs are rapidly becoming fan favorites all over the world.

For 2011, Discmania offers a full line of golf discs that includes eleven different models and four plastic blends. Be sure to try some of these out.

- Jussi Meresmaa, founder of Discmania

P¹
"Maniac"

2 3 0 0
S C P D

The P1 flight characteristic is very straight at high and low speeds. The P1 is ideal for a Putter and it works great also as an approach disc. This is one of the truest flying Putters out there.

P²
"Psycho"

2 3 0 1
S D

The P2 is a unique Putter. It has a deeper rim than the P1 and that provides it greater high speed stability but does not make it more overstable at low speeds. This disc can take higher arm speed and stronger winds and not turn over. The S line plastic is grippy with a firm feel. Not stiff and not soft but just right.

MD¹

4 4 0 2
S D

The MD1 is a 21.7 cm Mid-Range driver that will be very versatile for both the recreational golfer and the touring pro. Stable, quick and accurate, these discs will hold whatever line you throw. Tight fairway shots, medium range drives, long turnovers and really long approach shots are not a problem for the MD1. Great feeling rim for a smooth and controlled release every time.

MD²
"Fiend"

4 5 0 2
S C P

The MD2 is a 21.7 cm diameter disc. Straight flying, stable, quick and accurate, like the MD1. the MD2 is more wind resistant. Has a flight between the Coyote and the Roc. Windy or calm, the MD2 will hold the line for hyzer, straight or turnover shots.

GM
"Gremlin"

5 4 0 2
S D

The Greater Mid-Range is a unique disc. This disc falls between a Mid-Range and Fairway Driver. You may have seen this disc before as the Gremlin in the Innova line. Available in durable D line and grippy and durable S line plastic.

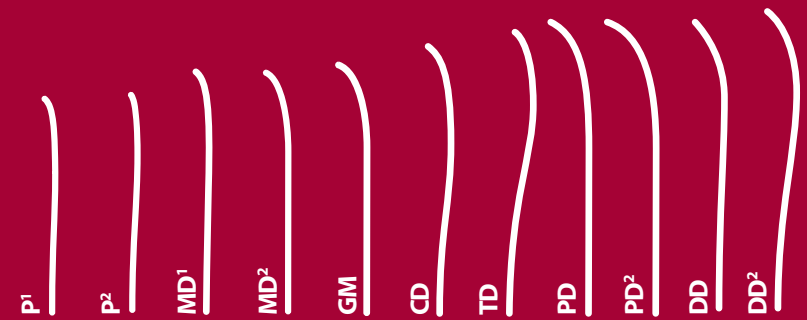

CD
"Craze"

10 5 -1 2
S P

The CD (Control Driver) is an all purpose driver that has good range and good reliability in most wind conditions. It can be thrown to fly straight, soft hyzer and long turnover. CD is E-Z to throw. Versatile. Reliable.

Plastic type	Durability rating	Grip rating	Similar to Innova's...
S <i>S-Line Plastic</i>			Star Plastic
C <i>C-Line Plastic</i>			Champion Plastic
P <i>P-Line Plastic</i>			Pro Plastic
D <i>D-Line Plastic</i>			DX Plastic

TD
"Rush"

10 5 -2 2
S C D

The Rush is the feeling players will get throwing this screaming monkey. It has a nice consistent understable turn. The Rush evolved in the footprint of the Roadrunner. You'll be howling when the Rush finds a banana yellow DISCatcher.

PD
"Freak"

10 4 0 3
S C P

The PD (Power Driver) is a fast and stable driver which is very resistant to the wind. The PD has good glide and is useful for sidearms, for stable power shots and long flex shots. Lighter weights, especially 150 class, are recommended for less experienced players.

PD
"Hysteria"

11 5 0 2
S C P

This is a Distance Driver with great accuracy. It has the predictability of a TeeBird with a LOT more distance. The flight stability falls between a Wraith and a TeeRex. It has more high speed stability than a Wraith, less low speed over stability than a TeeRex with similar distance.

PD²
"Chaos"

12 4 0 4
C P

The PD2 is a very fast and stable driver which is very resistant to the wind. It has a longer range than the PD (Power Driver), with the same ability to perform sidearms, stable power shots and long flex shots. This disc is recommended for experienced players. Similar to Innova's XCaliber, it will be released in Performance line plastic in the Spring 2011.

DD²
"Frenzy"

13 5 -2 2
S C P

The Discmania DD2 Frenzy is the farthest flying Discmania brand driver and one of the longest flying Innova disc models. This new disc offers tremendous speed with good glide and great control! This disc is a hybrid of the Katana and Boss. You get the best of both discs in this DD2!

Echo Plastic Resonates with Everyone

Discs once destined for the landfill are now given new life as Innova's Echo Star line of discs. In an effort to minimize waste, we created a product with great characteristics that is also environmentally friendly.

Echo Star is *feel good plastic*. Echo Star plastic has shown that reprocessed plastic can be blended into high performance discs that players want.

Made up of a blend of high-tech recycled plastic with a minimum of

50% pre-consumer waste, each Echo Star disc has nearly the same durability as our premium plastics with a superior grip. No other disc manufacturer has been able to match this, let alone create an entire line of high-tech recycled discs.

See how Echo Star Plastic can bring new life into your disc golf game.

Benefits of Echo Star Plastic

- Each Echo Star disc contains 50% to 100% pre-consumer recycled plastic
- Even better grip than our already grippy Star plastic
- Limited resources means limited editions
- Vertical graphics reduce stamping waste by 60%
- Same price as Star!

Echo Star plastic comes from reprocessing discs that fail to meet our strict standards.

R-Pro Plastic

At Innova, we are constantly improving our products. R-Pro is a special blend of plastic designed to provide maximum grip with increased flexibility. The R in R-Pro stands for rubbery. R-Pro gives players better grip in all conditions.

The R-Pro material used in the R-Pro Boss and R-Pro Wahoo is firmer than the material used in R-Pro Putters and Mid-Range discs. All R-Pro discs provide that excellent R-Pro grip and feel for confident putting, approaching and driving.

Benefits of R-Pro Plastic

- Better grip for cold and wet weather
- Improved feel for confident putting and approaches
- Rubbery material absorbs impacts and lowers deflections
- R-Pro Hydra and Wahoo float in water (page 20, 39)
- R-Pro Boss makes a great beginner driver in light weights (page 40)

Plastic Types

Star

Innova's Star plastic offers the best combination of grip and durability. Bright colors and slow wear mean players will be able to throw these discs for a long time.

Benefits

- Superior grip that performs well in most weather conditions
- Long-lasting durability
- Discs can range from firm to a more gummy flexibility
- Some models available with colorful and unique I-Dye designs (page 42)

Star Price: \$17.99

I-Dye Star Price: \$19.99

Echo Star

Innova's Echo Star is feel good plastic — made from discs that did not meet our quality control standards. The discs are sorted, ground up and reprocessed to create Echo Star plastic. The result is buttery smooth plastic. Ask for Echo Star by name.

Benefits

- Each Echo Star disc contains 50% to 100% pre-consumer recycled plastic
- Even better grip than our already grippy Star plastic
- Limited resources means limited editions
- Vertical graphics reduce stamping waste by 60%
- Same price as Star!

Echo Star Price: \$17.99

Champion

Innova's Champion plastic is the original ultra-durable golf disc plastic. These discs wear slower and last for hundreds of rounds.

Benefits

- Suitable for increased throwing speeds of professional players
- Long-lasting durability retains Innova flight characteristics longer than DX or Pro plastics
- Some models available with colorful and unique I-Dye designs (page 42)

Champion Price: \$16.99

I-Dye Champion Price: \$18.99

Glow Champion Price: \$18.99

Pro

Innova's Pro plastic is manufactured using a unique blend of plastics. Pro plastic is designed to add grip and glide. It is more durable than our DX plastic.

Benefits

- Driver models tend to glide more than other plastics
- Provides an improved grip over our Champion Line plastic
- Some models available with colorful and unique I-Dye designs (page 42)

Pro Price: \$13.99

I-Dye Pro Price: \$15.99

R-Pro

Innova's R-Pro is softer for the best all-condition grip and improved feel. R-Pro is the best choice for cold weather and has a softer feel and more flexibility.

Benefits

- Better grip for cold and wet weather
- Improved feel for confident putting
- Rubbery material absorbs impacts, lowers deflections
- R-Pro Hydra and Wahoo float in water (page 20 & 39)

R-Pro Price: \$13.99

DX

Innova's DX plastic is our most popular line and offers the widest selection of models and weights. These discs are affordably priced and provide an excellent grip in a variety of weather situations.

Benefits

- Good all-weather grip
- Wears in progressively providing varied flight characteristics
- Most economically priced of our plastic lines
- Several models offered in Glow DX for night action! (page 43)

DX Price: \$9.99

DX LITE Price: \$12.99

Glow DX Price: \$12.99

Disc Types

Innova produces a complete line of discs for the sport of disc golf. We create golf discs for every situation you may encounter from the tee to the green. Whether you are playing on a wide-open, windy course, threading a narrow wooded fairway, executing a flawless approach, escaping a difficult situation or nailing a crucial putt, Innova has a disc to match all your disc golf situations.

Putt & Approach

DISTANCE	CONTROL

Putt & Approach discs fly true at low and medium speeds, which is highly desirable when putting. These discs are also great for approaches and short drives. The quickest way to lower scores in disc golf is mastery of your Putter.

Benefits

- Dependable, accurate and inspires putting confidence
- Ideal for controlled upshots, short drives and "go for it" shots
- Available in a variety of different models and plastics to match unique putting styles and grips
- Aviar is the most popular golf disc ever produced (pages 18-19)

Mid-Range

DISTANCE	CONTROL

Mid-Range discs are great for all types of shots and are recommended as a first disc for beginners for their ease of use and forgiving nature.

Benefits

- Designed to provide accuracy and control for mid-range, approach and short drives
- Provide dependability from fairway to pin
- Roc is the Mid-Range disc of choice for competitive players (page 23)
- Mako is our newest and straightest Mid-Range for most players (page 24)
- Skeeter is the recommended Mid-Range disc for beginning players (page 27)

Fairway Drivers

DISTANCE	CONTROL

Fairway Drivers are designed to offer players more accuracy than Distance Drivers without sacrificing too much distance. These are used when keeping the disc on the fairway or green is more important than maximum distance.

Benefits

- Deliver dependable distance control for consistent, accurate driving
- Valuable disc for shorter, controlled drives and long approaches
- Easier for beginners to use than Distance Drivers
- Help to increase confidence through added control and consistency
- Leopard (page 30) should be everyone's first Fairway Driver.

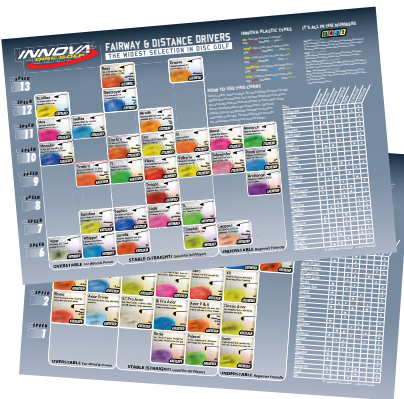

Distance Drivers

DISTANCE	CONTROL

Distance Drivers are at the pinnacle of golf disc design. They offer players more distance off the tee than other types of golf discs.

Benefits

- Deliver maximum distance off the tee
- Our widest selection of models offers a disc for every player's skill level
- Many Distance Drivers are offered in Star and Champion plastics to ensure longevity and optimal characteristics.
- Valkyrie (page 35) currently holds the World Distance Record of 820 feet (250 meters)
- Monarch (page 37) and Groove (page 40) use our new rim technology to reduce weight and increase glide.

Each disc has unique flight characteristics.

speed	glide	turn	fade
1	3	0	0

Speed — Speed is the ability of the disc to cut through the air. 13 is the fastest through the air.

Glide — A higher glide number means the disc can ride the air better. New players should look for discs with more glide. A disc rated 6 has the most glide.

Turn — *High Speed Turn* — This is the tendency of a disc to bank right (for RHBH* throwers) during the initial part of the flight. A disc with a 1 rating fights turn, but a -5 rated disc turns most.

Fade — *Low Speed Fade* — All discs tail off in the same direction (left for RHBH shots), but some will "hook" harder than others. A disc rated "0" will finish the straightest with very little fade, while a disc rated +5 will hook hard at the end of flight.

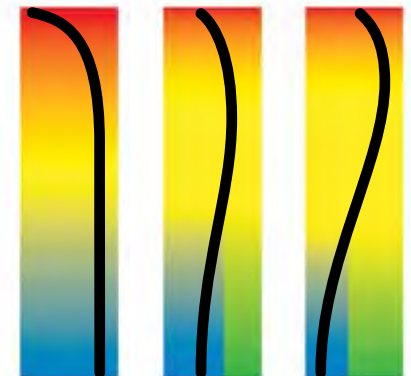

* RHBH - refers to Right Hand Backhand throws. Discs thrown left hand backhand would reverse right handed flight patterns.

How do the numbers correlate to the flight path of the disc?

We show a simulated flight path for each disc throughout the catalog.

This flight path graphic represents how our discs will fly for an advanced level player with average arm speed. The various colors represent the amount of the different flight properties from beginning to end of flight. The beginning of the flight is at the bottom, and the end is at the top.

- Fade** — Amount the disc wants to go left (RHBH) as it stalls out.
- Glide** — The ability of the disc to float in the air. More glide means longer average flights.
- Turn** — Amount that the disc will have a tendency to turn right (RHBH). Higher (-) numbers mean more turn.
- Speed** — Higher numbers mean faster upwind flights. Faster discs have less drag.

PUTT & APPROACH DISCS

From Catch Disc to Golf Disc

Before Innova Champion Discs introduced the first bevel edged golf disc, people played disc golf with catch discs. Some discs were made heavy to fly in the wind. However, those early disc designs do not compare to today's golf discs. The discs on this page are a step up the evolutionary ladder from the catch discs of yore. Players familiar with catch discs may find these are just what the doctor ordered.

Birdie

21.2 cm

speed	glide	turn	fade

All skill levels

Great for kids

Unique Thumtrac®

The Birdie is our best "go-for-it" disc and an excellent approach disc. It is a slow, straight Putter that lessens the chances of overshooting the green. The sure Thumtrac® grip makes it easy to grip and throw.

Peter Shive: Nine-Time Sr. Grandmasters World Champion

"I switched to the Birdie several years ago. It is rock solid in the wind. This is why I putt with it. I also use it for approaches out to about 200 feet, for the same reason (stability in wind) and because, compared with other discs, it stays put better when it hits the ground."

Polecat

21.3 cm

speed	glide	turn	fade
1	3	0	0

Beginner friendly

Great for kids

The Polecat is a great disc for families and kids. It flies flat and straight. A low profile, point and shoot, easy-to-release Putt & Approach disc.

Gregg Hosfeld: 2010 Grandmasters World Champion

"My 'into-the-wind' Putter. I also really like the wide edge for turbo putting. And when I feel like bowling for birdies, this disc does well even at 168 grams."

Sonic

21.6 cm

speed	glide	turn	fade
1	2	-4	0

Beginner friendly

Great for kids

The Sonic is a great disc if you are new to disc golf and can throw a catch disc. As a Putter, the Sonic has a dead-straight flight and sticks well in the chains. The Sonic also makes a versatile short range approach and escape disc when thrown sidearm or backhand. This disc is very beginner friendly.

Brian Schweberger: Team Champion

"A great upshot disc that always lands flat on all terrains. I use it for shots 200 feet and in."

Also available in the catch-friendly and super durable SuperSonic. Excellent for family games of catch or exercising with your dog. (See page 45)

PUTT & APPROACH DISCS**The Aviar - Why it is Simply the Best Golf Disc Ever**

Since its creation in 1984, the Aviar has been THE Putter of more World Champions than any other golf disc. A consistent putt is THE key to winning, and the Aviar is consistently the best in any wind condition and for any putting style. Here are just a few of the many World Champions who have won using the Aviar.

Ken Climo - 12-Time World Champion
Juliana Korver - 5-Time World Champion
Valarie Jenkins - 3-Time World Champion
Des Reading - 3-Time World Champion
Barry Schultz - 2-Time World Champion
Harold Duvall - 2-Time World Champion

The Rhyno is essential in the wind for short to medium range shots. The Rhyno's Thumtrac® gives it a sure grip and reliable performance in any situation.

Matt Dollar: Team Innova

"Thank you Innova for the Rhyno! I have about 10 Rhynos that I cycle in and out of my bag all the time. This isn't just for putting, I throw most of my short Mid-Range shots with this disc. It is an awesome sidearm approach disc too."

The JK (Juliana Korver) Aviar is made from the Aviar Driver mold. Made of R-Pro, it is more flexible and grippier than other Aviar models. Like all Aviar, it is perfect for driving, approaching and putting.

Juliana Korver: Five-Time Women's World Champion

"This is my Putter, but I think the real strength of this disc shines when it is thrown as a driver. I use this disc for drives and Mid-Range shots between 240 and 150 feet. I will often use it on shorter upshots as well, but feel quite confident with it when throwing it hard. I really like this disc for short sidearm shots as well."

PUTT & APPROACH DISCS**More Than Tossing 'em In the Basket**

We make a wide variety of Putters to match a wide variety of playing situations. For windy play, choose the Pig or Hydra. For straight, predictable flights, try the Dart or Aero. For finesse shots, try the Classic Roc or XD. Whatever Putter you choose, you can be confident you are throwing the best. Our new Wedge has a small rim and neutral flight, ideal for newer players.

Good for sidearms

The Pig was designed for wind play. Also great for short range spike shots and overstable putting. The Thumtrac® provides a sure grip on both sidearm throws and putts. Players will appreciate the Pig when the winds kick up.

Matt Dollar: Team Innova

"This is what you get when you mix my favorite Mid-Range (Gator) and Putter (Rhyno) together. The Pig is one pig of a disc. If I'm ever feeling off with the Rhyno, the extra stability of the Pig helps me simplify my putt; Putt it at the right side and watch it bank into the chains. DISTANCE DRIVERS

Drivers Designed For Newer Players

The Dragon and Archangel are two great discs for newer players. Water holes can be intimidating to the beginners just learning to control their discs. The Dragon has great grip plus it floats in water. The Archangel can maximize distance for players learning to drive.

Extra grip

The Dragon floats in water. The Dragon is made with a special grippy plastic. It is a lightweight driver with excellent glide for less powerful throwers who want to get more distance with less effort. All Dragons are 150 grams.

Sarah Stanhope: 2010 Women's World Champion

"The Dragon was my very first driver. It was good for extra distance while I learned the right mechanics to throw far. As a beginner, it was also great to have a disc that floats for over-the-water shots."

Roller disc

The Archangel is one of the easiest drivers for beginners to learn to throw far. Its glide is even more dramatic in lighter weights. Excellent for high turnover shots and rollers too.

Stan McDaniel: Disc Golf Hall of Fame

"The DX Archangel is a long gliding disc for medium power players. It beats up and then it makes a good roller. If you like to throw with hyzer, this disc will glide a long way."

DISTANCE DRIVERS

When Far is Where You Want to Go

Our Distance Drivers are designed to bring maximum range and predictability off the tee. The Firebird offers a stable flight path with power and control, even in the wind. The Roadrunner and Sidewinder provide predictable turn and distance for players with less power. The Valkyrie is all about distance and currently holds the world record.

Firebird

Windy conditions

Overhead shots

Good for sidearms

The Firebird has long been one of our most popular upwind Distance Drivers. The Firebird's superior speed and high speed stability make play on windy days a breeze. A favorite of sidearm and overhead throwers.

Ken Climo: Twelve-Time World Champion

"Awesome for shots in direct and hurting crosswinds. It takes years to change the flight characteristics on the KC Champion Firebird. Great for skip shots and thumbers."

Durable Star plastic

Good for sidearms

The FL is a modified Firebird. It was designed to have more glide and a less extreme fade at the end of the flight. It is an excellent driver for windy days as well as sidearm throws.

Christian Dietrich: Team Innova

"Finally, a Firebird that's not so stubborn! If you have a tough time getting a full flight out of a normal Firebird or just want to get a little more distance before that trademark Firebird finish, check out an FL. Great for those pinpoint hyzer shots where you need to stop on a dime."

The Viking is our straightest and most versatile Distance Driver from start to finish. An excellent choice for long, narrow fairway shots, as well as graceful left or right turning shots.

Jay Reading: Team Innova and EDGE Coordinator

"I like the Champion Viking. It seems to be a touch more controllable for me than the Valkyrie. It has enough stability that I can throw a long turnover shot and still get a flat disc landing."

The Sidewinder is one of our best discs for long turnover shots and long distance rollers. It has great glide and can add distance to anyone's drive, but is ideal for players with less power.

Matt Dollar: Team Innova

"I carry 2-3 of these ranging in stability... or lack there of in this case. I love throwing hyzer flips in the woods with the Sidewinder. It's also my favorite sidearm disc. The SW also works great for short, quick flipping thumbers. It doesn't require a lot of room because of the quick flip, which makes it perfect for really tight gaps. This disc changed my disc golf game in the woods forever. I love this disc!"

Simple rules will get you started

The court is 10 yards by 20 yards, with a line through the middle. Teams are split equally and at least one team member MUST remain in the outfield (area surrounding opposing team's infield square). Players may pass to outfield players to launch a Dodgebee® attack at the opposing team's infield players! Any successful attack (Dodgebee® hitting an infield player without a catch) results in that player moving to the outfield. The successful attacker may return to the infield. Throws must hit players before hitting the ground. Game duration is 4 minutes, or until an infield team has been eliminated.

Sponsorship Deals

Innova has assisted thousands of disc golf promoters over the last 28 years. We have also run, or helped to run, hundreds of tournaments and promotional events. Regardless of the size of your event, we want to lend a helping hand.

I-Dye Custom

Star and Champion I-Dye

I-Dye Champion and Star discs are now available for custom orders. Make sure to add some to your custom order. These will fly off the shelves! Call for availability.

Fund Raising

Challenge: Meeting fund raising goals and requirements.

Solution: CFR Fund raiser discs! These are high-demand, limited production discs only available to qualified tournaments.

What you'll need: To design the graphics to go on your discs - Foil hotstamp or INNColor™. Get artwork to us with enough lead time to produce your order so you can sell the discs prior to the event.

Result: Players will have a limited edition disc with your design and a good feeling that they have helped you achieve your goals.

Player Packs

Challenge: Supplying cool player pack items for your tournament.

Solution: Custom stamped Innova discs! Choose popular Innova models to adorn with your graphics. This adds that personal touch. Qualified orders receive tournament supplies and other merchandise.

What you'll need: Simply choose the disc models you want. Your artwork must include event information. Order with enough lead time to produce your order.

Result: Players will have a great disc with your custom design and a souvenir of your event.

Fun & Prizes

Challenge: You need prizes and merchandise for your event.

Solution: Your event can order a selection of discs, bags, targets and merchandise that players will want.

What you'll need: An idea of how many players your event will have, plus what you want to reward players for participating.

Result: Players will appreciate a variety of items to choose from for prizes.

CFR Rewards

Send in a form - Win cool stuff!

A mail-in form comes with each Fund Raiser disc sold. Customers who mail them in are automatically entered to win monthly prizes. In 2010, we gave away over \$6000 worth of CFR Customer Appreciation Program prizes. You can't win if you don't enter! Help support local, national and worldwide events!

INNColor™ Discs

The latest evolution of the ever popular Custom Fund Raiser Program. This process produces the most brilliant high resolution images across the face of our Star discs. INNColor discs are available to PDGA tournament directors and other qualified fund raising events.

Maximum order	Varies, dependent on event type
Discs	Select Star discs including the Ontario Roc!
Lead time	4-6 weeks

DISCarrier Caddy Pack

We created the DISCarrier Caddy Pack so you can always have a seat at the ready. We integrated our already proven BackSaver straps with a sturdy, lightweight aluminum seat to simplify your gear. No more worries about leaving your chair on the course or having to choose between carrying a seat or an umbrella. For more comfort, the integrated seat doubles as a backpack frame allowing the weight of the bag to rest on the built in lumbar pad. Less time spent on your feet or carrying your bag saves energy and allows you to focus on your game. Seat has a 230 lb. limit.

- Integrated seat (Can be detached)
- Seat/frame includes lower lumbar pad
- Lumbar pad allows more air circulation
- Seat/frame doubles as carrying handle
- Straps stay off ground and stay clean
- Sturdy aluminum construction
- 1260 denier reinforced nylon seat

DISCatcher® Sport - Full sized & competition ready in 5 minutes

The Innova DISCatcher® Sport is a full-size portable target. Durable construction with 18 galvanized chains, yet the DISCatcher® Sport model weighs only 40 pounds. The DISCatcher® Sport is an excellent target choice for youth camps, schools, backyard practice or to create a temporary course. Constructed of five parts, the DISCatcher® Sport can be set up in about 5 minutes with just a screwdriver. It disassembles for easy transportation or for compact storage when not in use. Not meant for permanent outdoor installation. Regulation sized and PDGA approved for tournament play. 54 inches tall.

Features:

- **Chain Assembly** - Durable yellow powder coated target top with 18 strands of galvanized chains
- **Basket** - Powder coated finish
- **Two poles** - Two sections with powder coated finish
- **Base** - Our powder coated four spoke base is wide enough and strong enough to stabilize the target, yet is still lightweight.

\$199

DISCatcher® Mini - Play indoors or out

The Innova DISCatcher® Mini basket is the perfect trophy basket to award to top competitors in tournaments. It is also a great basket for your mini golf course. Create your own cool course in your yard. Pool a bunch of baskets together and set up a temporary course at your local park. With 18 real chains and solid steel construction, the DISCatcher® Mini works like the real deal. 22 inches tall.

DISCatcher® Traveler - Quick to set up

The DISCatcher® Traveler is ready to accompany you on all your disc golf expeditions. The DISCatcher® Traveler is the lightest and best catching portable disc golf target on the market. Play on camping adventures, beach or mountain trips and visits to the park. The Traveler's light weight and easy set up and take down make it an excellent choice for schools and youth camps. The DISCatcher® Traveler is always ready to go, and it is great for backyard putting practice as well.

- Simple one-action set up and take down
- Just 13.5 pounds - the lightest portable target available from Innova
- Pentagonal basket improves disc catching from all angles
- The chain/net eliminates cut-throughs and catches great
- The extra wide basket is made of lightweight/durable, quick-drying mesh fabric
- Includes removable flag and matching tote bag
- Early or late putting sessions won't disturb others with quieter chain action of Traveler
- Five legs provide a wide sturdy base. Attached anchor rings and included anchor stakes serve to secure target on uneven surfaces and on windy days

The DISCatcher® Traveler is available in **RED**, **BLUE** and **YELLOW**.

DISCatcher®
PRO
Disc Golf Target

The DISCatcher® PRO represents the state of the art in disc golf target technology. The Innova DISCatcher® PRO is the best catching and most visible disc golf target. The DISCatcher® PRO is a favorite of parks departments and course professionals — in 2010 over 200 new courses were installed using DISCatcher® PRO targets. The bright yellow band improves visibility from the tee and also distinguishes the disc golf course to other park visitors.

The price of the DISCatcher® PRO permanent includes locking collar and one installation tube for in-ground installation.

The DISCatcher® PRO Portable offers the same great “catchability” as the Permanent model, but with a metal base that allows it to be set up anywhere. The Portable is ideal for use on temporary courses or as a heavy-duty full-size target for backyard practice.

The DISCatcher® PRO was designed to improve scoring from near and far. There is no better choice for your players.

HIGH VISIBILITY TARGET TOP

Our yellow powder coated target top makes the DISCatcher® PRO highly visible. All stainless steel construction makes it long-lasting and low maintenance.

BUILT TO LAST

Hot-dip galvanized basket, pipe and chains allow our targets to weather the elements for years. Our target tops are made entirely from stainless steel.

LAYERED CHAINS CATCH BETTER

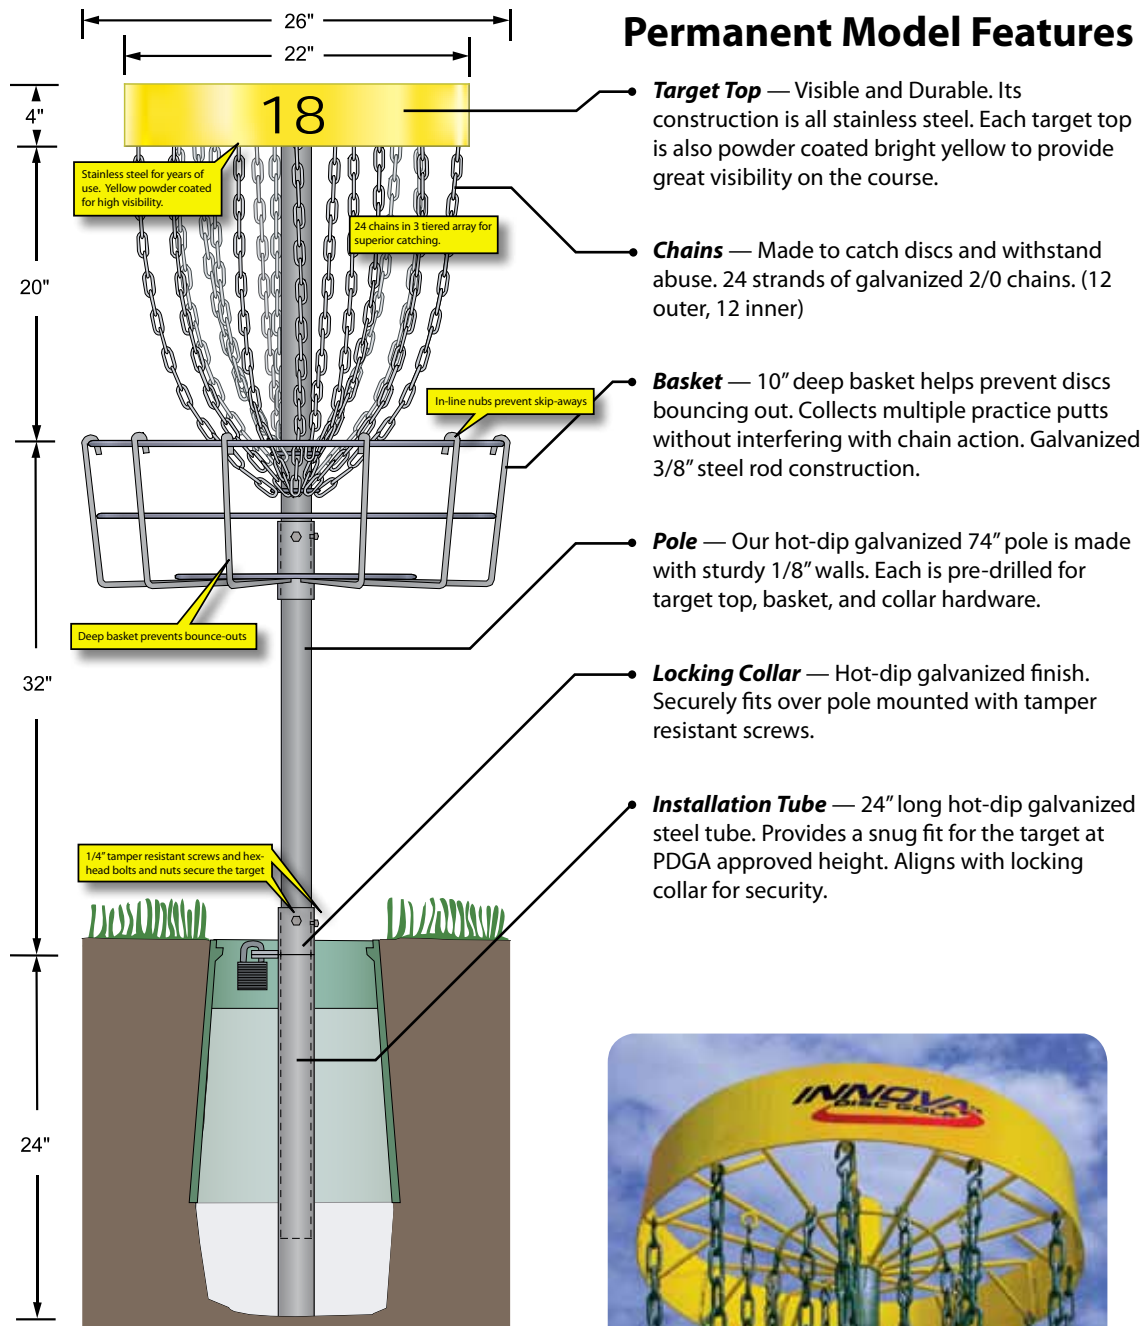

12 outer chains grab your disc, while 12 more inner chains buffer and slow the disc. This makes the DISCatcher® a favorite target of players.

INSTALLATION TUBES INCLUDED

Don't pay extra! DISCatcher® PRO permanent target prices include locking collars and installation tubes.

PDGA APPROVED

DISCatcher® PRO permanent and portable models have received Championship certification by the PDGA. It is ideal for all levels of tournament play.

DISCatcher® PRO has 3 layers of chains to catch more shots

DISCarrier Caddy Pack *Bag, straps and seat in one.*

We created the DISCarrier Caddy Pack so you can always have a seat at the ready. We integrated our already proven BackSaver straps with a sturdy, lightweight aluminum seat to simplify your gear. No more worries about leaving your chair on the course or having to choose between carrying a seat or an umbrella. The integrated seat doubles as a backpack frame allowing the weight of the bag to rest on the built in lumbar pad. Less time spent on your feet or carrying your bag saves energy and allows you to focus on your game.

- Integrated seat (Can be detached)
- Seat/frame includes lower lumbar pad
- Lumbar pad allows more air circulation
- Seat/frame doubles as carrying handle
- Straps stay off ground and stay clean
- Sturdy aluminum construction
- 1260 denier reinforced nylon seat
