New For 2013

We've been very busy at Innova this past year. We've done a lot of work building a new line of large diameter Mid-Range models that have players excited. The **Super Stingray** and **King Cobra** were the first to debut. 2013 will see the release of the **Roc3**, **Shark3**, and **Mako3**. We redesigned these Mid-Range molds with high performance plastic in mind. Bright colors and durable clear Champion plastic make these beautiful to look at and throw.

SUPER STINGRAY

Mid-Range Disc

The Super Stingray has a comfortable grip and an accurate, straight flight. Adjusting the angle of release will allow advanced players to hit tight, controlled lines making it an excellent choice for Mid-Range shot shaping.

SPEED	GLIDE	TURN	FADE
4	5	-1	1

KING COBRA

Mid-Range Disc

Same great Cobra grip with more turning resistance for power players. Rip it hard to get a little turn, but there's a good strong finish when it slows down.

SPEED	GLIDE	TURN	FADE
4	5	0	2

ROC3

Mid-Range Disc

This sequel lives up to the hype. This Champion Roc is the disc players have been wanting for years. A straight flier out of the box, this Roc3 is a fast trustworthy addition to your bag.

SPEED	GLIDE	TURN	FADE
5	4	0	3

SHARK3

Mid-Range Disc

The Shark3 offers players a stable flight with a smooth, predictable finish. Shark throwers will love the added speed too.

SPEED	GLIDE	TURN	FADE
5	4	0	2

MAKO3

Mid-Range Disc

The Mako is an excellent Mid-Range. With one of the best feeling rims, it is a precision instrument on the course. The Mako3 is faster, while exhibiting the characteristics of the original Mako. Smooth flights and a subtle finish.

Coming in 2013

New For 2013

We released three new drivers in 2012. The **Krait** and the **Dominator** have very neutral flights designed for players looking for control without extreme fade. The **Mamba** is one of the easiest drivers to throw, designed for new players. It is a superb “learning to throw rollers” disc. The **Tern**, released early 2013, is a moderate turning driver that maintains velocity well. It is excellent for shot shaping drives and tailwind supremacy.

KRAIT

Distance Driver

The Krait is named after a deadly snake from South Asia. Innova's Krait is a distance driver with a controlled flight along the lines of a faster TeeBird or Orc. It has a gentle slight turn before fading predictably at the end of the flight. Good for use in moderate winds.

SPEED	GLIDE	TURN	FADE
11	5	-1	2

MAMBA

Distance Driver

Players with less powerful arms have been heaping praise on the Mamba: “Miles and miles of rollin’ smiles” and “a revelation in my game” are among the comments for this smooth easy to turn disc. It can increase distance if you aren’t throwing like a he-man.

SPEED	GLIDE	TURN	FADE
11	6	-5	1

TERN

Distance Driver

Like the name, this disc has natural turn. Similar to the Archon, the Tern is a fast slightly understable disc that is designed for long shot shaping throws. In the hands of a powerful player, it just may be one of the farthest flying discs due to the long glide and natural turn.

SPEED	GLIDE	TURN	FADE
12	6	-2	2

DOMINATOR

Distance Driver

The Dominator is designed as a controlled flight maximum distance driver. Well suited for powerful players who can really crush. In lighter weights, the Dominator is ideal for anyone looking to step up to a stable consistent driver. All Dominators including the heaviest weights are run in Blizzard plastic.

Innova Plastic Types

For 30 years, Innova's golf discs have been molded in the highest quality plastics. From our original DX plastic, which has superior grip, to Champion, which is our most durable, Innova has always set the bar. Our new Blizzard plastic continues that trend allowing our popular high speed drivers to be molded in much lighter weights. Blizzard plastic allows more players to achieve their best results.

R-Pro

Plastic

DURABILITY

GRIP

Innova's R-Pro is softer for the best all-condition grip and improved feel. R-Pro is the best choice for cold weather and has a softer feel and more flexibility.

Benefits

- Better grip for cold and wet weather
- Improved feel for confident putting
- Rubbery material absorbs impacts, lowers deflections
- R-Pro Hydra and Wahoo float in water (page 16 & 37)

R-Pro: \$13.99

Star

Plastic

DURABILITY

GRIP

Innova's Star plastic offers the best combination of grip and durability. Bright colors and slow wear mean players will be able to throw these high performance discs for a long time.

Benefits

- Superior grip that performs well in most weather conditions
- Long-lasting durability
- Discs can range from firm to a more gummy flexibility
- Some models available with colorful and unique I-Dye designs (page 44)

Star: \$17.99

I-Dye Star: \$19.99

Champion

Plastic

DURABILITY

GRIP

Innova's Champion plastic is the original ultra-durable golf disc plastic. These discs wear slower and last for hundreds of rounds.

Benefits

- Suitable for increased throwing speeds of professional players
- Long-lasting durability retains Innova flight characteristics longer than DX or Pro plastics
- Some models available in I-Dye designs (page 44), Glow (page 45), and lightweight Blizzard

Champion: \$16.99

I-Dye Champion: \$18.99

Glow Champion: \$18.99

Pro

Plastic

DURABILITY

GRIP

Innova's Pro plastic is manufactured using a unique blend of plastics. Pro plastic is designed to add grip and glide. It is more durable than our DX plastic.

Benefits

- Driver models tend to glide more than other plastics
- Provides an improved grip over our Champion Line plastic
- Some models available with colorful and unique I-Dye designs (page 44)

Pro Drivers: \$14.99

I-Dye Pro Drivers: \$16.99

KC Pro: \$13.99

Echo

Plastic

DURABILITY

GRIP

Innova's Echo is a premium plastic made from discs that did not meet our quality control standards. The discs are sorted, ground up and reprocessed to create Echo plastic. The result is buttery smooth plastic. Ask for Echo by name.

Benefits

- Echo disc contains 50% to 100% pre-consumer recycled plastic
- Even better grip than our already grippy Star plastic
- More durable than Pro
- Less expensive than Star and Champion!

Echo Price: \$15.99

Blizzard

Plastic

DURABILITY

GRIP

Innova's Blizzard plastic offers players lighter weights in popular models. Adding thousands of microbubbles into the plastic reduces the density of the plastic.

Benefits

- Allows players with less power to get amazing distance
- Astonishing glide for tailwind drives for any player
- Blizzard discs under 140 grams can float in water, allowing more models to float than ever before.
- Some models available in I-Dye designs (page 44)

Blizzard Champion: \$16.99

I-Dye Blizzard Champion: \$18.99

DX

Plastic

DURABILITY

GRIP

Innova's DX plastic is our most popular line and offers the widest selection of models and weights. Affordably priced with excellent grip for adverse weather conditions.

Benefits

- Good all-weather grip
- Wears in progressively providing varied flight characteristics
- Most economically priced of our plastic lines
- Several models offered in Glow DX for night action! (page 45)

DX: \$9.99

Glow DX: \$12.99

Innova Disc Types

Innova produces a complete line of discs for the sport of disc golf. We create golf discs for every situation you may encounter from the tee to the green. Whether you are playing on a wide-open, windy course, threading a narrow wooded fairway, executing a flawless approach, escaping a difficult situation or nailing a crucial putt, Innova has a disc to match all your disc golf situations.

Selection Charts - Let us show you the way

Keep your customers in the know. Our Selection Charts offer players a roadmap to choosing the right disc for them.

These charts show up to date models, plastics, and flight characteristics. They allow players to make better decisions on discs that will improve their game.

Putt & Approach

DISTANCE

CONTROL

Putt & Approach discs fly true at low and medium speeds, which is highly desirable when putting. These discs are also great for approaches and short drives. The quickest way to lower scores in disc golf is mastery of your Putter.

Benefits

- Dependable, accurate and inspires putting confidence
- Ideal for controlled upshots, short drives and "go for it" shots
- Available in a variety of different models and plastics to match unique putting styles and grips
- Aviar is the most popular golf disc ever produced (pages 14-15)

Mid-Range

DISTANCE

CONTROL

Mid-Range discs are great for all types of shots and are recommended as a first disc for their ease of use and forgiving nature. Mid-Ranges are ideal for wooded courses and short drives.

Benefits

- Designed to provide accuracy and control for mid-range, approach shots and short to medium length drives
- Provide dependability from fairway to pin
- Roc is the Mid-Range disc of choice for competitive players (page 20)
- Five new Mid-Range discs developed with pros in mind
- Skeeter is the recommended Mid-Range disc for beginning players (page 24)

Fairway Drivers

DISTANCE

CONTROL

Fairway Drivers are designed to offer players more accuracy than Distance Drivers without sacrificing too much distance. These are used when keeping the disc on the fairway or green is more important than maximum distance.

Benefits

- Deliver dependable distance control for consistent, accurate driving
- Valuable disc for shorter, controlled drives and long approaches
- Easier for beginners to use than Distance Drivers
- Help to increase confidence through added control and consistency
- Leopard (page 28) should be everyone's first Fairway Driver

Distance Drivers

DISTANCE

CONTROL

Distance Drivers are at the pinnacle of golf disc design. They offer players more distance off the tee than other types of golf discs.

Benefits

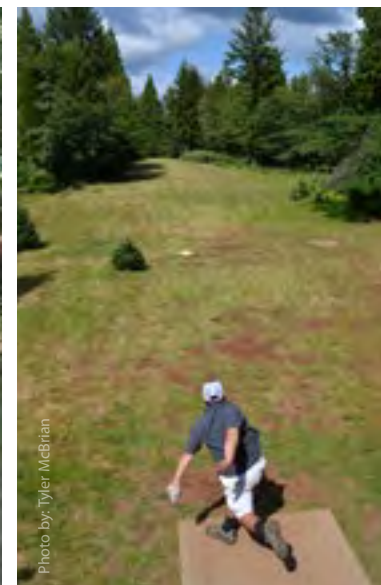

- Deliver maximum distance off the tee
- Our widest selection of models offers a disc for every player's skill level
- Many Distance Drivers are offered in Star and Champion plastics to ensure longevity and optimal characteristics
- Boss (page 38) holds the World Distance Record of 836 feet (255 meters)
- For courses with water hazards, we offer floating drivers including the Dragon (page 31), the Wahoo (page 37), and any Blizzard model under 140 grams floats too

Putt & Approach

30 years ago, Innova invented the modern golf disc with the release of the Aero (originally called the Eagle) back in 1983. Until then, disc golf was played with flying discs more akin to Ultimate discs. With the invention of the beveled edged golf disc, true golf discs were born. Those early golf discs are the Putt & Approach discs of today. They are designed to fly well at low speeds, but are often used by players for longer shots due to their predictability. Players can shave the most strokes from their putting game, so figuring out the right putter for your game is one of the best ways to lower your disc golf score.

Beginner Putters – Starting with the Right Disc

Putters are ideal for new players. People unfamiliar with the techniques to throw far will enjoy the simple natural grip, easy release and straightforward flight of putters. The *Sonic* is a great disc for a player familiar with catch discs. The *Aero* and the *Wedge* are great learning discs.

Pro and Power Putters – Confidence in All Weather

Putters designed for windy conditions are also excellent discs for controlled drives and approaches. Many top players have found the usefulness of a putter with low glide like the *Pig* and the *Rhyno*. The *KC Aviar* offers a stiff durable plastic and a straight flight for power shots.

Straight and True: Good traits for a Putter

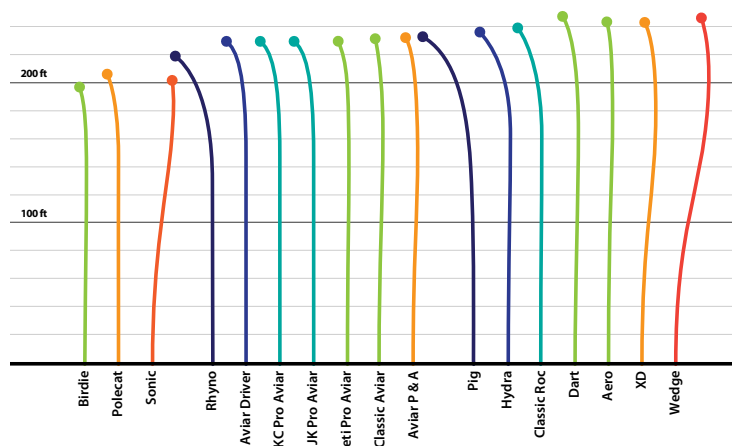

Many putters offer straight flights for short or long shots. When you want to get from point A to point B, take the direct route. The *Birdie* feels right for new players and flies straight and slow. The *Aviar* is about the truest flying golf disc ever made. The *Dart* is a newer model available in a wide variety of plastics, all of them pure flying.

The Right Flight for Every Shot

Each disc uses a unique airfoil design that will react differently when thrown.

Disc flights that are ● purple and ● blue (as seen on the chart at left) will require more power or advanced technique to achieve full flight. These are discs not recommended for beginners.

● Red and ● orange flights are better for newer players, these discs are more forgiving and will fly farther with less effort.

● Aqua and ● green flights are our straightest fliers in their speed category. These are discs designed for controlled flight in most conditions.

Mid-Range Discs

Our Mid-Range discs are the bread and butter of your disc golf game. Whether you are new to the game or a seasoned professional, everybody can benefit from the controlled flights inherent in the Mid-Range category. A beginner will learn more and accelerate their technique by focusing on getting a Mid-Range to fly farther. Top pros rely on Mid-Ranges for their consistent flights round after round.

Easy-to-throw Mids – Ideal for Newer Players

New players looking for a first disc should look at the *Stingray*, *Wolf*, and *Kite*. These discs offer easy to grip rims and amplified turn, which will help new players extend their distance. As players get better, they can move to models with less turn, like the *Cobra* and *Panther*.

Stable Power Mids – For Headwinds and Power Players

Those looking for the most wind-resistant Mids need look no further than the *Cro* and the *Gator*. The *Gator* will do battle in all wind conditions. The *King Cobra* and *Shark3* are fast stable discs designed for the player looking for trustworthy mids.

More Straight Mids – Making Golf Easier

Innova offers a large variety of straight flying Mid-Range discs for every type of thrower. New players should seek out the *Skeeter*, for straighter flights. The *Mako* flies true, regardless of player skill. The *Super Stingray* is ideal for power players looking for a bridge between Mid-Range and Fairway Driver.

The Roc – The Perennial Favorite

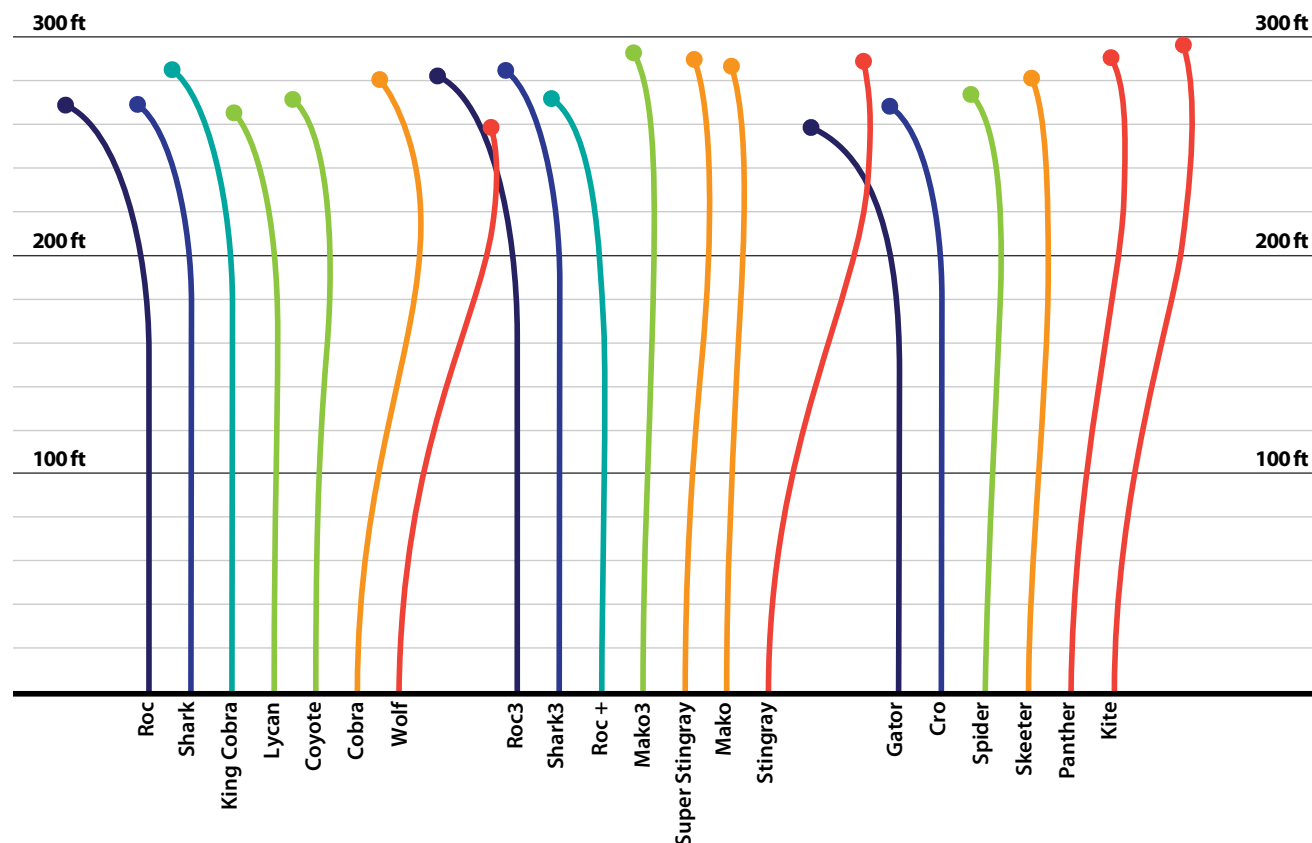

Since the first release of the *Roc*, back in 1989, it has defined excellence in a Mid-Range disc. Pros favor the Roc because it is reliably accurate in all wind conditions. The Roc is offered in a variety of plastics. From the *DX Roc* to the *KC Pro Roc* to the *R-Pro Roc* to the *Champion Roc3*, choose the Roc that works best for you and add confidence to your Mid-Range game.

Easy-to-throw Drivers – Distance for Newer Players

Fairway Drivers put a premium on accuracy or strategy. These discs combine excellent distance potential with a great sense of predictability. From the *Viper*, a former World Distance Record holder, to the *TL* and *Leopard*, these discs are the workhorses for many players.

These discs may not be the fastest, but the Fairway Driver is a staple disc of top pros like Ken Climo. They still go far, really far. Only a handful of discs have ever flown over 800 feet, and the *TeeBird* is one of them.

Fairway Drivers

Fairway Drivers may be easy to overlook, but true players prize them. They are the perfect bridge between the short range accuracy of a Mid-Range and the envelope pushing Distance Drivers. The Fairway Driver is a balance of two superpowers; Accuracy and Distance.

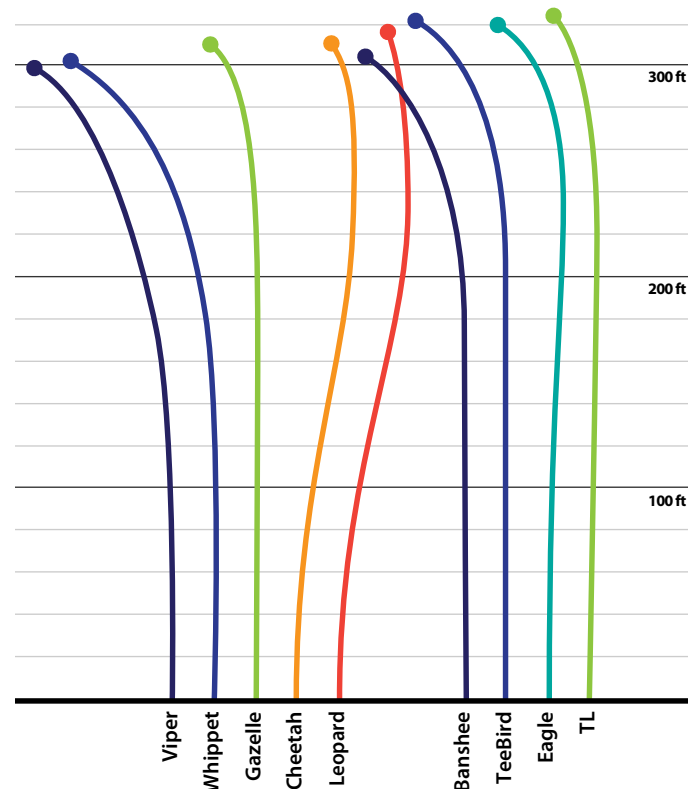

The Right Flight for Every Shot

Each disc uses a unique airfoil design that will react differently when thrown.

Disc flights that are ● purple and ● blue (as seen on the chart at left) will require more power or advanced technique to achieve full flight. These are discs not recommended for beginners.

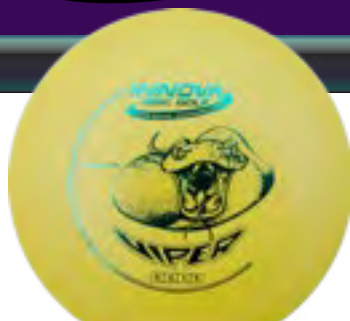

● Red and ● orange flights are better for newer players, these discs are more forgiving and will fly farther with less effort.

● Aqua and ● green flights are our straightest fliers in their speed category. These are discs designed for controlled flight in most conditions.

Distance Drivers

Our Distance Drivers are designed to bring maximum range and predictability off the tee. Whatever challenges a course may present, we have a Distance Driver to answer the challenge. From Distance Drivers designed for power players to discs designed for maximum distance, we have a driver for every player.

Easy-to-throw Drivers – Distance for Newer Players

For those new to the game, or looking for easy to throw discs. For maximum tailwind distance, the *Valkyrie* reigns supreme. The *Tern* is our newest, offering excellent distance to a wide range of players. The *Archangel* and *Sidewinder* make excellent first drivers.

Stable Drivers – For Headwinds and Power Players

Looking to beat the wind or fade hard at the end of the flight? Then look to our power Line-up. These discs offer serious players some options for their driving game. From the classic *Firebird* to the new school favorite the *XCaliber*. Smash a *Monster* into any headwind.

Straight Shooters – For Skilled Players

For players with some experience, we have Distance Drivers with control in mind. The *Viking* offers predictable distance with control. The *Krait* and *TeeDevil* can take your game to the next level. Look to the *Dominator* for raw distance on wide open fairways.

Special Teams – A Driver for Every Situation

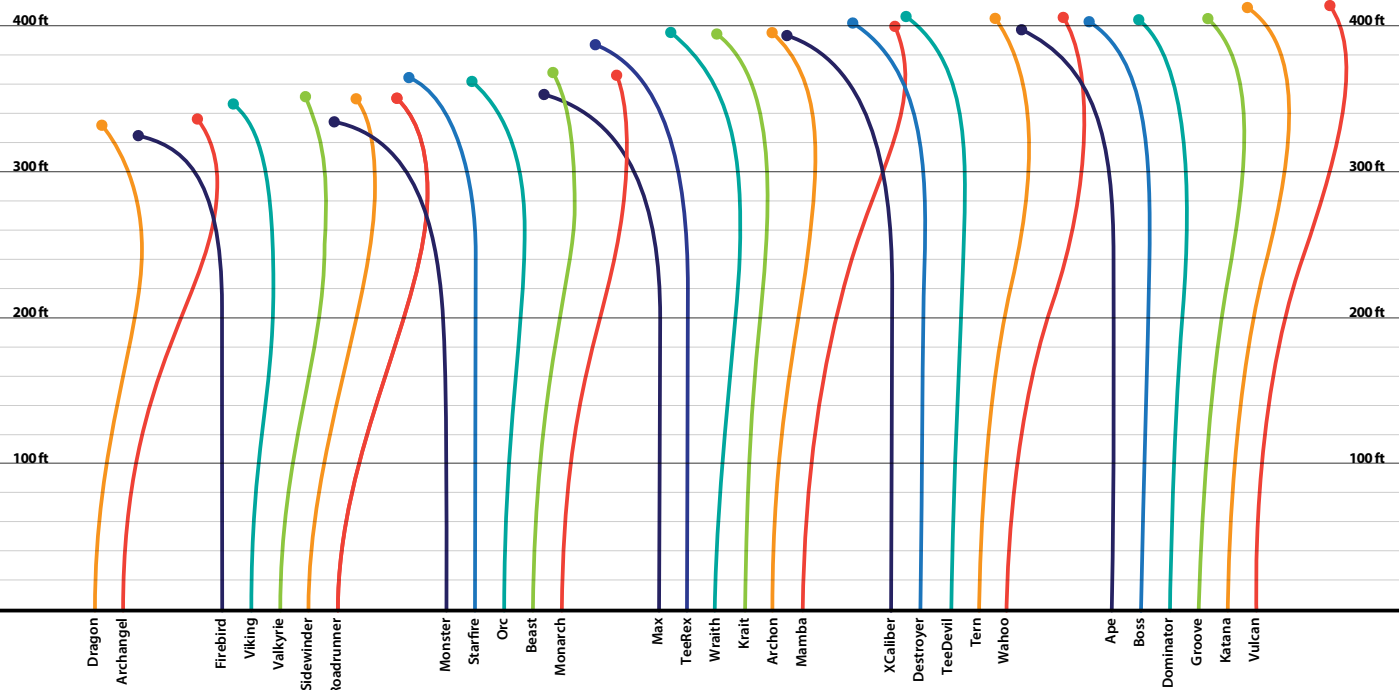

These may not get thrown as often as your favorite driver, but they sure are handy to have in the bag. The *Wahoo* and *Dragon* are floating drivers, if thrown into water, they'll stay afloat. The *Monarch* and the *Mamba* are ideal when a roller is the best shot. *Blizzard* models offer much lighter weights for players with less power.

TEEDEEVIL

ST BL

speed **12** glide **5** turn **-1** fade **2**

- All skill levels
- Great glide
- Easy to throw far

The TeeDevil was designed to give the thrower huge distance along with complete control. The increased glide and decreased fade lead to an easily controlled Distance Driver that really rips! The TeeDevil was made to be your go-to distance driver. An ideal choice for almost any shot off the tee.

• Star TeeDevil	165-175 gm	\$17.99
• Blizzard TeeDevil	130-164 gm	\$16.99

NEW!

TERN

CH

speed **12** glide **6** turn **-2** fade **2**

- Shot shaping driver
- Out of the box roller
- Great glide

New for 2013, the Tern is a new driver designed for long graceful shot shaping. Excellent speed and glide and a flight path that maximizes glide over the entire flight. The Tern is perfect for players looking to stretch their drives out. Power throwers will appreciate the predictable turn and late fade for seriously long finesse shots and power rollers.

• Champion Tern	160-175 gm	\$16.99

P1 - Maniac

Discmania Golf Discs is a European based company established in 2006. Discmania manufactures some of the World's finest Golf Discs in association with Innova Champion Discs.

The P1 flight characteristic is very straight at high and low speeds. The P1 is ideal for a Putter and it works great also as an approach disc. This is one of the truest flying Putters out there.

P2 - Psycho

The P2 is a unique Putter. It has a deeper rim than the P1 and that provides it greater high speed stability but does not make it more overstable at low speeds. This disc can take higher arm speed and stronger winds and not turn over. The S-line plastic is grippy with a firm feel. Not stiff and not soft but just right.

MD1

The MD1 is a 21.7 cm Mid-Range driver that will be very versatile for both the recreational golfer and the touring pro. Stable, quick and accurate, these discs will hold whatever line you throw. Tight fairway shots, medium range drives, long turnovers and really long approach shots are not a problem for the MD1. Great feeling rim for a smooth and controlled release every time.

BackSaver Straps \$24.95

Be kind to your spine, wear BackSaver Straps. Made to fit our DISCarrier, Competition and Deluxe Bags. Durability, comfort, and all day support.

- 4-way adjustable for many body types
- Properly configured, our BackSaver Straps can help reduce back fatigue
- Adjustable sternum strap for more comfort on hikes
- Can be combined with our CaddySeat on compatible bags (see inset)

CaddySeat \$39.95

The CaddySeat was specifically engineered to integrate with INNOVA BackSaver Straps and CaddySeat compatible bags. With our BackSaver Straps, the lightweight aluminum seat doubles as a backpack frame and offers built-in lumbar support. CaddySeat is sold separately, and only works with INNOVA BackSaver straps and CaddySeat compatible bags. (See illustration)

Look for these straps on the back of Deluxe, Competition, and DISCarrier bags. These straps were engineered for the Caddy Pack system.

Straps/Seat Combo \$64.90

Our Caddy Combo is a pair of BackSaver Straps and a CaddySeat that comes pre-assembled. The CaddyCombo transforms a compatible Deluxe, Competition or DISCarrier into a CaddyPack. The Caddy Combo doubles as a backpack frame allowing the weight of the bag to rest on the built-in lumbar pad. Seat/Strap can be used as a handle, to reduce bending over. Adjustable to provide a custom fit for each player.

- Only for use with compatible bags (see inset)
- Seat holds up to 250 pounds
- Seat includes adjustable Lumbar support
- Reduces bending to pick up your bag

More Chains, Better Basket

We have improved our state-of-the-art DISCatcher® Pro target from top to bottom. On the top, we have increased our number of spokes from 12 to 14. Each DISCatcher® Pro now has a 28 chain assembly featuring 14 outer chains and 14 inner chains. More chains provide improved “catchability”. We also improved the DISCatcher® Pro basket bottom as well. The basket tray now features 14 spokes and an extra bottom ring. This adds structural strength while improving disc containment.

The DISCatcher® Pro represents the state of the art in disc golf target technology. The Innova DISCatcher® Pro is the best catching and most visible disc golf target. The DISCatcher® Pro is a favorite of parks departments and course professionals — since 2006 over 1000 new courses were installed using DISCatcher® Pro targets. The bright yellow band improves visibility from the tee and also distinguishes the disc golf course to other park visitors.

The price of the DISCatcher® Pro Permanent includes locking collar and one installation tube for in-ground installation.

The DISCatcher® Pro was designed to improve scoring from near and far. There is no better choice for players.

UPGRADED IN 2012

The DISCatcher® Pro was redesigned to catch better than ever. We added more chains and reinforced the basket tray. Great putts stay put.

HIGH VISIBILITY TARGET TOP

Our yellow powder coated target top makes the DISCatcher® Pro highly visible. All stainless steel construction makes it long-lasting and low maintenance.

BUILT TO LAST

Hot-dip galvanized basket, pipe and chains allow our targets to weather the elements for years. Our target tops are made entirely from stainless steel.

28 LAYERED CHAINS CATCH BETTER

14 outer chains and 14 staggered inner chains - Three layers of chains catches more shots. Players want more putts to stick. Our new configuration catches more putts.

INSTALLATION TUBES INCLUDED

Don't pay extra! DISCatcher® Pro permanent target prices include locking collars and installation tubes.

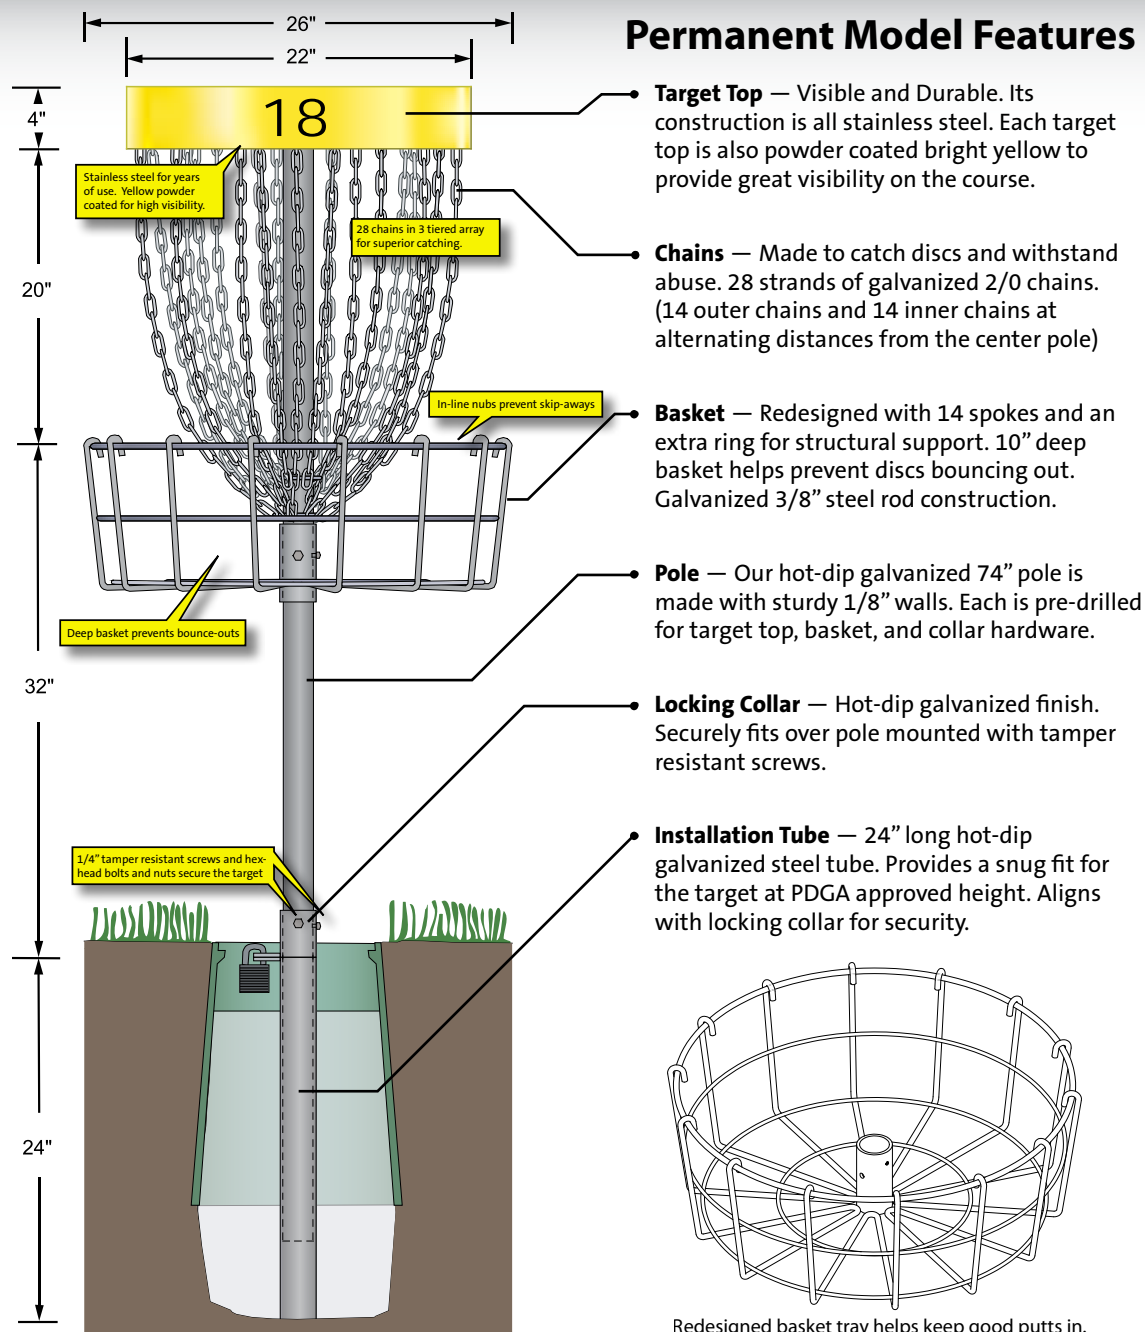

PDGA APPROVED

DISCatcher® Pro permanent and portable models have received Championship certification by the PDGA. It is ideal for all levels of tournament play.

Disc Golf United®

User-Friendly Event Registration

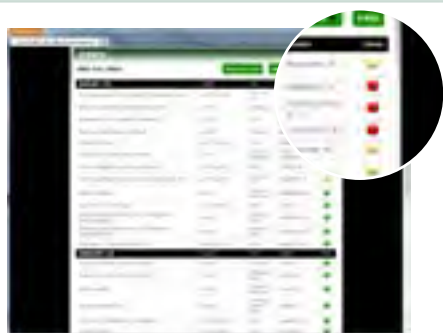

Does any of this sound familiar to you: pages of handwritten notes, spreadsheets of data, a dozen different envelopes for money, and about a zillion phone calls to and from players? Then you must be a Tournament Director. Want to skip the hassle, spend less time with the details and more time running a great event?

Disc Golf United offers a complete online registration and event management system. From collecting entry fees, to managing all of your data, to publishing scores, we have the tools to help simplify your event from start to finish.

- Fully customizable setup
- Exclusive tools and features
- Live Registration
- Wait List registration and management
- Open access to all your data
- Leaderboard manager
- Online prize fulfillment
- Experienced support by phone and email

No experience required. No event too big or small. Trusted by hundreds of events and thousands of players.

Players and TDs can see upcoming events and check results of past events. Know which tournaments are open or are close to filling from the calendar view.

Satisfied Tournament Directors say:

Mike Barnett (Sun King Disc Sports & Tour del Sol Disc Golf Series)

"DGPU is, by far, the most comprehensive, feature-rich, disc golf specific registration software system available today. Continuous improvements and the "no hassle" Wait List option make it a TD's dream."

Chuck 'Chuckster' Connolly (Spike Hyzer)

"I have used DGPU as my sole source of online registration for over 50 PDGA events through the past 3 years. The efficiency and ease of use for the tournament director and event participants makes my online choice for tournament registration easy...DGPU is the one for me!"

Josh Hamm (Widye Discs)

"DGPU's online registration is quick and easy. Players can register and view everything Live."

HB Clark (Professional Course Designer and Event Director)

"I have used the DGPU online registration for over 35 events, including the 640 player Bowling Green Amateur event, and have found this service to be the best option for both players and tournament directors available. Ease of use, ease of reports and transfers to PDGA, simple player refund options, and great service from DGPU staff! I can e-mail all players updates from the dash board, keeping all informed as the event approaches – a great service for the players as the event draws near."

Attract Customers with Display Products

Display your inventory on our specially designed brackets

Whether you have a small or large section to give to your Innova inventory, our disc racks are the easiest way to present your selection to customers. Our waterfall brackets can hold up to 12 discs each, and allow buyers to browse for their disc of choice without removing all of the discs displayed in front of it.

Each bracket has a faceplate designed to fit a placard for that particular model or type, all available to download and print straight from our website.

Hanging Display Brackets

Our display brackets allow you to easily and neatly arrange your Innova discs. Each holds up to 12 discs. They work with gridwall, slatwall and pegboard. We also offer gridwall for creating your own custom Innova Disc Golf display. Call for more info.

Bracket Placards

We have convenient printable placard sheets on our website. Just go to Downloads > Retail Disc Placards.

Cardboard Display Box

Our cardboard display boxes allow discs to be displayed on most shelves. They can also be mounted to gridwall. Each cardboard display fits up to 12 drivers or 10 Putters.
