

2015

In 2014 disc golf enjoyed unprecedented success. We witnessed a new distance world record, inspiring tournament performances, and the installation of countless new courses that provide an abundance of places to play.

Our highest priority is to provide the best possible equipment to conquer those courses! This year we will continue to advance our product lines, deliver those products with outstanding customer service, and grow disc golf in a determined and responsible way.

Toll free numbers appear on every page of this catalog. If you have suggestions on how we can improve any aspect of what we do, please let us know. We wish you the best this year and thank you very much for choosing Innova.

Sincerely,

Dave Dunipace and Harold Duvall

# New for 2015

## VTech Discs

Discs with VTech have a more convex shaped rim, which adds to the control of the disc even at high speeds. The first INNOVA disc designed with a convex shape rim was the Shark. Next was the Leopard and then the Valkyrie. We decided to improve on the original technology and try the new VTech with other discs. VTech provides more torque resistance and has a less abrupt fade. This convex rim configuration gives players performance advantages right off of the shelf: more torque resistance, longer sweet spot and slower fade. VTech allows for more consistent results at a wide range of launch speeds.

## 2015 VTech Models

### WHALE

VTech Putt & Approach

The Whale should make a big splash in 2015. With the first models in the hands of Ice Bowl competitors, look for the Whale to breach in early Spring. A meaty feeling putter in the hand, the Whale is designed for players looking for consistent flights regardless of how hard they throw.

SPEED	GLIDE	TURN	FADE
2	3	0	1

### VROC

VTech Mid-Range

The VRoc is a convex rimmed Roc that flies just like the old Ontario, or a broken in Rancho, with more torque resistance and a smaller fade. It also tends to have longer range as a bonus. The VRoc is good to go for shot shaping Mid-Range duty right out of the box.

SPEED	GLIDE	TURN	FADE
4	4	0	1

### WOMBAT

VTech Mid-Range

The Wombat is a large diameter Mid-Range that flies similar to the Foxbat with added convex technology or VTech. The Wombat with VTech feels better in the hand, is easier to throw, and has more meat in the rim for extra torque resistance. Straight shots still go straight and turnovers stay turned with a gentle flat landing.

# New for 2015

In 2014 we expanded our line of drivers and landed two smash hits, the Thunderbird and Daedalus. Players fell in love with the Thunderbird immediately. When Paul McBeth earned his third world title and a new signature model, his decision was easy. The Champion Thunderbird. Done.

The Daedalus was designed to give players with less power more glide and turn. The benefit is maximum distance, with no gorilla skills required. Low smooth flights are the Daedalus' specialty.

## THUNDERBIRD

Distance Driver

The Thunderbird comes from strong bloodlines. The stability of a TeeBird with the speed of a Valkyrie; it can be described as a seasoned Firebird with less fade. The Thunderbird is predictable in wind and is a great long range placement driver. Pros will appreciate the shot shaping ability of this driver while less experienced players will find a consistent, predictable flight.

<b>SPEED</b>	<b>GLIDE</b>	<b>TURN</b>	<b>FADE</b>
<b>9</b>	<b>5</b>	<b>0</b>	<b>2</b>

## DAEDALUS

Distance Driver

The Daedalus has wings to fly far down the fairway. The Daedalus is a new maximum downwind distance driver crafted for less powerful players. The disc will double as a long distance roller for more advanced players. The Daedalus likes to be thrown low. Make sure it doesn't soar too close to the sun.

## Our Most Popular New Plastic

## GSTAR LINE GROWS

More Flexible, Griptastic Star

With great flexibility, comes great response. GStar is a new blend of softer, more flexible Star plastic that also looks great. These discs are more flexible than our original Star plastic and have vibrant colors that shimmer in sunlight. We've expanded the GStar line since the debut in early 2014. Now featuring over 30 models. GStar has been a hit with recreational players and serious competitors. The soft grip, long lasting flight dynamics and durability are hard to beat.

# Innova Plastic Types

For 30 years, Innova's golf discs have been molded in the highest quality plastics. From our original DX plastic, which has superior grip, to Champion, which is our most durable, Innova has always set the bar. New this year is XT plastic, a tough durable blend. Our GStar lineup has expanded dramatically since its release last year.

As always, we have our most popular models in a wide array of plastics to please players with particular preferences.

## STAR FAMILY

### STAR

Innova's Star plastic offers the best combination of grip and durability. Bright colors and slow wear mean players can throw Star discs for a long time.

#### Benefits

- Superior grip
- All-weather performance
- Long-lasting durability

Star	\$17.99
StarLite	\$17.99
I-Dye Star	\$19.99

### GSTAR

GStar is highly grippy and slightly softer than our standard Star material. Flexibility and grip exceeds our other premium plastics. The G stands for grippy.

#### Benefits

- Best premium grip
- Great for cold weather
- Long-lasting durability

GStar	\$17.99
-------	---------

### STARLITE

StarLite plastic offers players the look and feel of Star in weights all the way down to 130 grams.

#### Benefits

- Beginners can throw farther
- Good all-weather grip
- Under 140g floats in water

StarLite	\$17.99
----------	---------

### ECHOSTAR

Innova's Echostar is a premium plastic made from discs that did not meet our quality control standards. The result is buttery smooth plastic at a great price.

#### Benefits

- 50-100% recycled plastics
- Inexpensive but durable
- Better grip than Star

EchoStar	\$15.99
----------	---------

## CHAMPION FAMILY

### CHAMPION

Innova's Champion plastic is the original ultra-durable golf disc plastic. These discs wear slower and last for hundreds of rounds.

#### Benefits

- Holds original characteristics
- Most durable plastic
- Beautiful translucent look

Champion	\$16.99
Glow Champion	\$18.99
I-Dye Champion	\$18.99

### BLIZZARD

Innova's Blizzard plastic offers players lighter weights in popular models. Adding thousands of microbubbles reduces the density of the plastic.

#### Benefits

- Beginners can throw farther
- World record holder (863 ft)
- Under 140g floats in water

Blizzard	\$16.99
I-Dye Blizzard	\$18.99

## DX FAMILY

### DX

Our most popular line of discs offers the widest selection of models and weights. Affordably priced with excellent grip for adverse weather conditions.

#### Benefits

- Superior all-weather grip
- Most economical models
- Widest range of models

DX	\$9.99
----	--------

### GLOW

DX plastic infused with glow-in-the-dark material. Some like the feel of Glow, with a slight grainy texture. Others like to play golf at night! A blast of light and they'll glow!

#### Benefits

- Glow-in-the-dark
- Grippy all-weather feel
- Provides years of play

Glow	\$11.99
------	---------

## PRO FAMILY

### PRO

Innova's Pro plastic is manufactured using a unique blend of plastics. Pro plastic is designed to add grip and glide. It is found in fairway & distance drivers.

#### Benefits

- Superior glide during flight
- Improved grip
- More durable than DX

Pro Drivers	\$14.99
I-Dye Pro Drivers	\$16.99

### R-PRO

Innova's R-Pro is softer for the best all-condition grip and improved feel. R-Pro is the best choice for cold weather and has a softer feel and more flexibility.

#### Benefits

- Softest feeling in the hand
- Chain-grabbing action
- Absorbs impacts

R-Pro	\$13.99
JK Pro	\$13.99

### KC PRO

A stiff blend of plastic formulated for grip and reduced wear. Tough and stiff, KC is designed to wear slowly over time.

#### Benefits

- Consistent flights
- Durable in the woods
- Favored by top pros

KC Pro	\$13.99
--------	---------

### XT

XT is a durable, rigid plastic that has good tactile feel in the hands. Long lasting wear even on rugged courses means you'll get more rounds out of an XT disc.

#### Benefits

- Extra Tough durability
- Good all-weather grip
- Slow wear-in phase

XT	\$13.99
XT Nova/Atlas	\$16.99

# Innova Disc Types

Innova produces a complete line of discs for the sport of disc golf. We create golf discs for every situation you may encounter from the tee to the green. Whether you are playing on a wide-open, windy course, threading a narrow wooded fairway, executing a flawless approach, escaping a difficult situation or nailing a crucial putt, Innova has a disc to match all your disc golf situations.

## Selection Charts

Keep your customers in the know. Our Selection Charts offer players a roadmap to choosing the right disc for them.

These charts show up to date models, plastics, and flight characteristics. They allow players to make better decisions on discs that will improve their game.

## Putt & Approach

Putt & Approach discs fly true at low and medium speeds, which is highly desirable when putting. These discs are also great for approaches and short drives. The quickest way to lower scores in disc golf is mastery of your Putter.

### Benefits

- Dependable, accurate and inspires putting confidence
- Ideal for controlled upshots, short drives and "go for it" shots
- Available in a variety of different models and plastics to match unique putting styles and grips
- Aviar is the most popular golf disc ever produced (pages 14-15)

Putt & Approach

Mid-Range

## Mid-Range

Mid-Range discs are great for all types of shots and are recommended as a first disc for their ease of use and forgiving nature. Mid-Ranges are ideal for wooded courses and short drives.

### Benefits

- Designed to provide accuracy and control for mid-range, approach shots and short to medium length drives
- Consistent flights for hard to navigate sections of the course
- Roc is the Mid-Range disc of choice for competitive players (page 20)

Fairway Driver

Distance Driver

## Fairway Driver

Fairway Drivers are designed to offer players more accuracy than Distance Drivers without sacrificing too much distance. These are used when keeping the disc on the fairway or green is more important than maximum distance.

### Benefits

- Deliver dependable distance control for consistent, accurate driving
- Valuable disc for shorter, controlled drives and long approaches
- Easier for beginners to use than Distance Drivers
- Help to increase confidence through added control and consistency
- Leopard (page 27) should be everyone's first Fairway Driver

## Distance Driver

Distance Drivers are at the pinnacle of golf disc design. They offer players more distance off the tee than other types of golf discs. Beginners may find Distance Drivers more challenging to control. Proper technique is useful to get the most flight out of these discs.

### Benefits

- Deliver maximum distance off the tee
- Our widest selection of models offers a disc for every player's skill level
- Boss (page 38) holds the World Distance Record of 863 feet (263 meters)
- For courses with water hazards, we offer floating drivers including the Wahoo (page 37), and any Blizzard or StarLite model under 140 grams floats too

## Putt & Approach

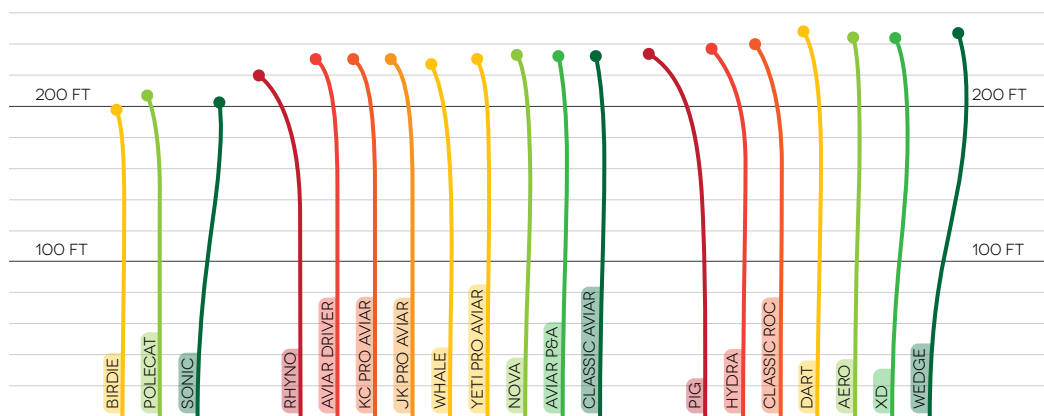

Over 30 years ago, Innova invented the modern golf disc with the release of the Aero (originally called the Eagle) back in 1983. Until then, disc golf was played with flying discs more akin to Ultimate discs. With the invention of the beveled edged golf disc, true golf discs were born. Those early golf discs are the Putt & Approach discs of today. They are designed to fly well at low speeds, but are often used by players for longer shots due to their predictability. Players can shave the most strokes from their putting game, so figuring out the right putter for your game is one of the best ways to lower your disc golf score.

## Putters: The Right Flight Is In Your Sight

Each disc uses a unique airfoil design that will react differently when thrown.

Red flights (●, ●, & ●) will require more power or advanced technique to achieve full flight. These are only recommended for experienced players or windy play.

Green flights (●, ●, & ●) are better for newer players, these discs are more forgiving and will fly farther with less effort.

Orange and yellow flights (● & ●) are our straightest fliers in their speed category. These are discs designed for controlled flight in most conditions.

### Birdie

speed	glide	turn	fade
1	2	0	0

- All skill levels
- Great for kids
- Unique Thumtrac®

The Birdie is our best “go-for-it” disc and an excellent approach disc. It is a slow, straight Putter that lessens the chances of overshooting the green. The sure Thumtrac® grip makes it easy to grip and throw.

● DX Birdie

- Beginner friendly
- Great for kids
- Most like catch discs

The Sonic is a great disc if you are new to disc golf and can throw a catch disc. As a Putter, the Sonic has a dead-straight flight and sticks well in the chains. The Sonic also makes a versatile short range approach and escape disc when thrown sidearm or backhand. This disc is very beginner friendly.

## Mid-Range Discs

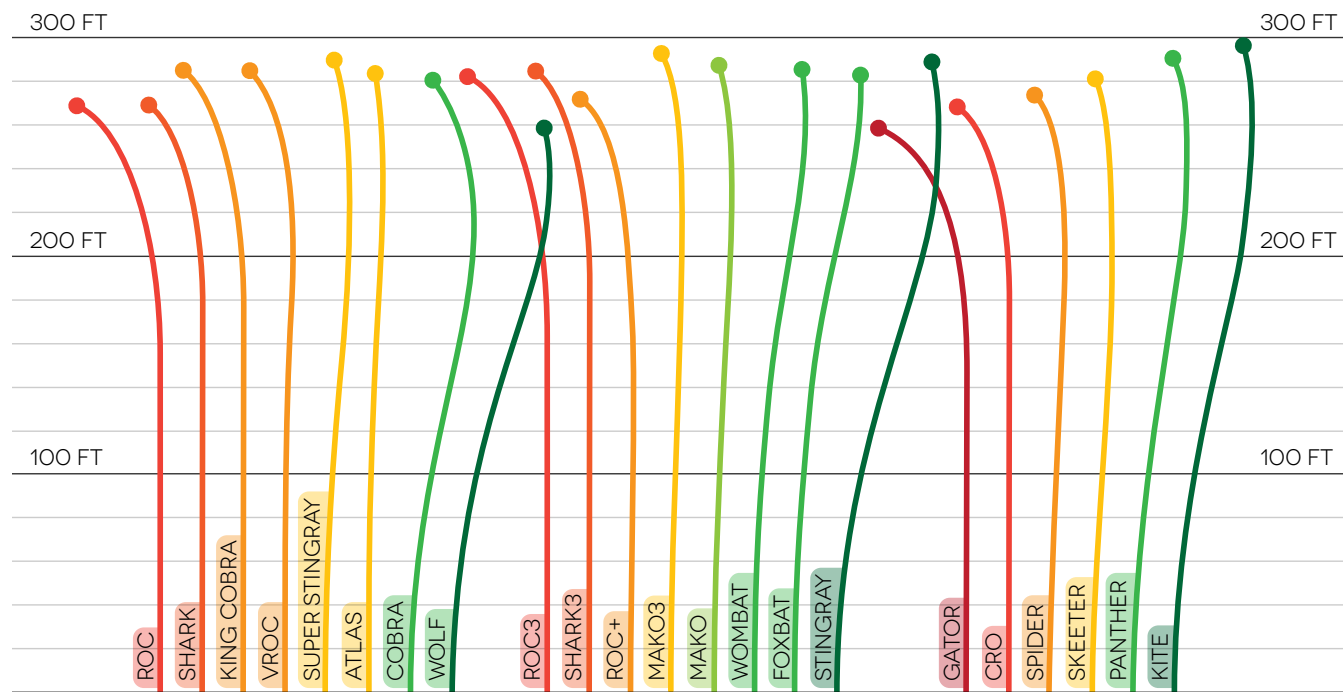

Our Mid-Range discs are the bread and butter of your disc golf game. Whether you are new to the game or a seasoned pro, everybody can benefit from the controlled flights inherent in the Mid-Range category. A beginner will learn more and accelerate their technique by focusing on getting a Mid-Range to fly farther. Top pros rely on Mid-Ranges for their consistent flights round after round.

12x World Champion, **Ken Climo** chooses a KC Pro Roc for this wooded fairway.

## Mid-Ranges: The Right Flight Is In Your Sight

Each disc uses a unique airfoil design that will react differently when thrown.

Red flights (●, ●, & ●) will require more power or advanced technique to achieve full flight. These are only recommended for experienced players or windy play.

Green flights (●, ●, & ●) are better for newer players, these discs are more forgiving and will fly farther with less effort.

Orange and yellow flights (● & ●) are our straightest fliers in their speed category. These are discs designed for controlled flight in most conditions.

## Roc

The Roc is a favorite of pros and amateurs alike. Smooth, accurate flight in any wind condition makes this a must for any serious player's game. Brand new, it is a consistent, accurate wind beater. Well worn, the Roc becomes a trusted and consistent finesse disc with a slow, predictable turn. The Roc is an instant classic.

- Two-Piece Molding
- Grippy Rim
- Stiff Flight Plate

The Atlas is an overmold that combines a firm, low-profile flight plate with a grippy rim. This Mid-Range flies straight with minimal fade, combining accuracy and control with an ergonomic grip. The Atlas performs well for both backhand and forehand throwers forgiving small throwing errors better than any other Mid-Range.

The **Star Atlas** offers great grip and the mellowest flight straight out of the box.

The **Champion Atlas** utilizes a stiffer flight plate for a bit more stability that lasts a long time.

The **XT Atlas** has the best all weather grip among the three Atlas models. New it has a little more stability than the Champion, but will mellow with use. The XT Atlas is an amazing disc in new or seasoned condition.

## Monster

speed	glide	turn	fade
10	3	0	5

- Windy conditions
- Overhead shots
- Good for sidearms

The Monster delivers confidence, power and distance into the wind. It is one of our most overstable, wind beating Distance Drivers. It is designed for pro level players with monster power whether throwing backhand or sidearm.

	Star Monster	165-175 gm	\$17.99
	Champion Monster	165-175 gm	\$16.99

## Starfire

speed	glide	turn	fade
10	4	0	3
10	5	-1	2

- Windy conditions
- Long straight flight
- Good for sidearms

Let the Starfire make you a Star. The Starfire is great into headwinds and flies long and flat. It is a triple threat with speed, accuracy and stability. The Pro version is a great choice for players learning to throw for distance.

## Monarch

speed	glide	turn	fade
10	5	-4	1

- All around performer
- Easy to throw far
- Low fade

The Monarch features a unique grooved rim. This rim gives it significant high speed turn available at slower arm speeds. This predictable high speed turn makes the Monarch a good choice for beginning players. It also makes a great beginner roller disc.

	Champion Monarch	165-175 gm	\$16.99

## Krait

speed	glide	turn	fade
11	5	-1	2

- Straight drives
- 'Go to' distance driver
- Long shot shaping

The Krait is akin to a mellow longer TeeBird. Throw it with power and expect smooth control and a good finish. Power players will be able to use the Krait as a finesse driver. Paul McBeth chose the Krait as a signature model when he won his second of three World Championships.

• PM GStar Krait	165-175 gm	\$17.99

## Wraith

speed	glide	turn	fade
11	5	-1	3

- All skill levels
- Top seller!
- All around performer

The ever popular Wraith is a long, stable Distance Driver. The Star Wraith is the driver of choice for Twelve-Time World Champion Ken Climo. The Wraith provides great distance for players of all skill levels.

*"If I could only use one driver for all of my long throws it would be a Wraith!"*

Ken Climo | 12x World Champion

## TeeRex

speed	glide	turn	fade
11	4	0	4

- Windy conditions
- Good for sidearms
- Developed for pros

The TeeRex is a fast, stable to overstable power driver with significant glide. This disc is recommended for advanced to professional level players. A great Distance Driver for windy conditions and sidearm throwers.

• Star TeeRex	165-175 gm	\$17.99
---------------	------------	---------

## Archon

speed	glide	turn	fade
11	5	-2	2

- All skill levels
- Top performer
- Easy to throw far

The Archon is the finesse you need when the course throws you curves. It blends the graceful long turn of the Katana with the smooth fade of a Wraith. This is the disc for players looking to master their game and rule the course.

• Star Archon	165-175 gm	\$17.99
• Champion Archon	165-175 gm	\$16.99
• Echostar Archon	165-175 gm	\$15.99

## Mamba

speed	glide	turn	fade
11	6	-5	1

- All around performer
- Easy to throw far
- Low fade

The Mamba has more high speed turn than any of our long range drivers, it might be the easiest disc to roll when brand new. For those with less driving speed, it will add distance. For the medium armed crowd, choose the Mamba for turnovers and huge rollers.

• Star Mamba	165-175 gm	\$17.99
• Starlite Mamba	130-159 gm	\$17.99
• GStar Mamba	160-175 gm	\$17.99
• Champion Mamba	150-175 gm	\$16.99
• Echostar Mamba	165-175 gm	\$15.99

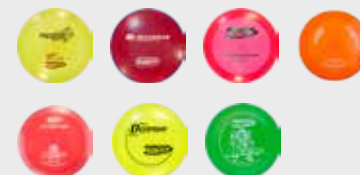

## Destroyer

The Destroyer is a very fast stable long Distance Driver. This disc is much like a faster Wraith, but with a little more high and low speed stability. Great disc for sidearm throwers and those with lots of power. Can handle headwinds and throws with off axis torque. The Star Destroyer is the signature disc of 2009 World Champion Avery Jenkins.

speed	glide	turn	fade
12	5	-1	3

- Accurate drives
- Controlled hyzers
- Placement shots

*"My go-to Distance Driver. It has incredible speed & amazing downrange glide. I recommend the Destroyer to players in all levels of competition."*

## TeeDevil

speed	glide	turn	fade
12	5	-1	2

- Beginner Friendly
- Roller Disc
- All skill levels

The TeeDevil was designed to give the thrower huge distance along with complete control. The increased glide and decreased fade lead to an easily controlled Distance Driver that really rips! The TeeDevil was made to be your go-to distance driver. An ideal choice for almost any shot off the tee.

● Star TeeDevil	165-175 gm	\$17.99
● Blizzard TeeDevil	130-159 gm	\$16.99

## Wahoo

speed	glide	turn	fade
12	6	-2	2

- Floats in water!
- Great glide
- Easy to throw far

The R-Pro Wahoo is a long range Distance Driver that floats in water and will keep you at the top of the food chain. The Wahoo is a fast disc with a lot of glide. This disc has a flight similar to a Dragon with increased speed and range.

## Boss

## WORLD RECORD HOLDER

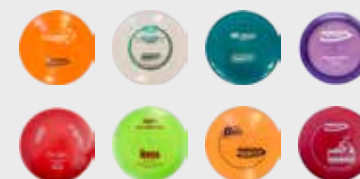

The Boss is large and in charge. It is the fastest long-range Distance Driver with stability and control. It is a great choice for sidearm or backhand throwers. The deep rim may not be suitable for players with smaller hands. Simon Lizotte set the World Record with a Blizzard Boss thrown 863 feet in 2014. Before that, David Wiggins held the record at 836 feet with the Boss.

## Ape

speed	glide	turn	fade
13	5	0	4

- Windy conditions
- Developed for pros
- Good for sidearms

The Ape can handle the raw, primal power of disc golf's biggest arms. Extremely fast and stable, the Ape is a "must have" distance driver for windy conditions and sharp doglegs. Sidearm drivers will appreciate the Ape's resistance to intense torque.

● Champion Ape	170-175 gm	\$16.99
● Blizzard Ape	130-169 gm	\$16.99

## Dominator

### Vulcan

speed	glide	turn	fade
13	5	-4	2
13	5	-3	2

- All skill levels
- Easy to throw far
- Tailwind driver

The Vulcan was designed for less powerful players that want to throw the shots of their dreams. Similar in flight to our Katana with less low speed fade. Lighter weights are available for less powerful players. A long-range roller.

• Star Vulcan	165-175 gm	\$17.99
• GStar Vulcan	165-175 gm	\$17.99
• Champion Vulcan	170-175 gm	\$16.99

## DISCMANIA PLASTICS

### **D** D-LINE

Resembles Innova DX-line

Lots of grip even in wet conditions. The most affordable plastic in our line. Soft but firm feel – ideal for putters. Fine-tuneable flight characteristics thanks to gradual wear.

### **P** P-LINE

Resembles Innova Pro-line

Great feel and added glide. Easily one of the grippiest plastic type out there. Reveals new features in your disc when worn down. Typically a bit more understable plastic type comparing to S- and C-line.

### **C** C-LINE

Resembles Innova Champion-line

Our most durable plastic – these discs wear down very slowly. C-Line discs retain original flight characteristics for an extended period of time. C-Line plastic will continue to perform predictably and avoid damage better than any other plastic. Good grip and showstopper see-through look. Typically the most stable blend of plastic in our line.

### **S** S-LINE

Resembles Innova Star-line

Excellent grip in all weather conditions with great durability. This plastic ages well, which means that your disc doesn't change drastically in its flight behaviour after a couple of collisions with trees. Recommended plastic for drivers.

### **G** G-LINE

Resembles Innova Gstar-line

The G-line is a modified version of our popular S-line version that provides great grip, durability and shock-absorbance. It's a flexy plastic blend with an unique look and added glide compared to the S-line plastic.

### **B** BLIZZARD C-LINE

Resembles Innova  
Blizzard Champion-line

Blizzard C-line is an unique blend of our durable C-line material that employs microscopic air bubbles inside the rim of the disc, allowing the production of high speed drivers in very low weights. With lower weights you can gain more distance to your throw with less effort.

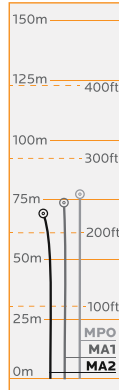

**NEW!**

## P1x BEADED PUTTER

**D****2 3 0 0 1**

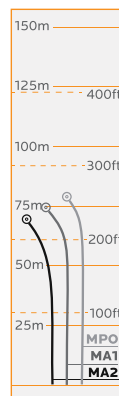

The X-Factor of the P1x is its medium sized bead along the bottom rim of the disc. This bead just fits in the hand much better than the very apparent bigger bead on most other beaded putters. The P1x can handle torque better than just about any other putter in the market while still maintaining a straight and true flight path. Find your X-Factor and start nailing your putts with the P1x!

## P3 PUTT & APPROACH

**C**  
**D****3 2 0 3**

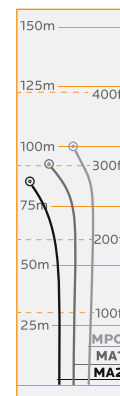

The P3 is fast for a putter and a very torque resistant flyer. It has lower profile than normal putter and can be used as a midrange disc too. It is a stable disc with predictable fade at the end. It's a hybrid between the putter and a midrange disc— you make the call! The P3's best weapon is its versatility – it's an awesome flyer off the tee and a great tool for putting too. For the fans of fade-in putters out there this disc is a must try.

## MD3 MIDRANGE DRIVER

**C****5 5 0 3**

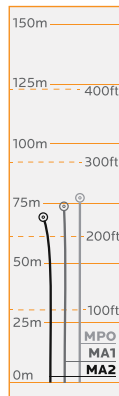

The Discmania MD3 is a reliable and versatile midrange disc, that in its different weights can be used to fill all midrange needs of an average player. It has a sleek profile that is easy to grip even for those who have experienced problems with midrange discs before. Tight and long fairway shots, medium range drives and really long approach shots are not a problem with this disc.

## P1 "MANIAC" PUTTER

**SC**  
**PD****2 3 0 0**

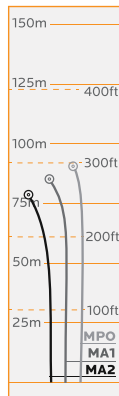

The P1 flight characteristic is very straight at high and low speeds. The P1 is ideal for a putter and it works great as an approach disc. This is one of the truest flying putters out there. Great choice for all skill levels.

## MD1 MIDRANGE DRIVER

**S**  
**D****4 4 0 2**

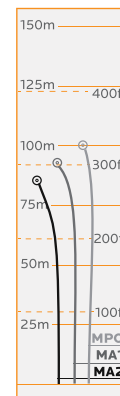

The MD1 was the first Discmania Golf Disc. It is a stable flyer with good range and a predictable low speed fade. Perfect disc for long approach shots and for those tricky drives you absolutely need to put on the fairway.

## GM "GREMLIN" GREATER MID-RANGE

**S**  
**D****5 4 0 2**

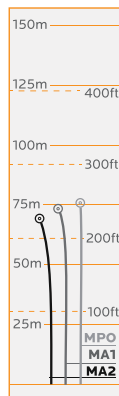

A hybrid between a midrange disc and fairway driver is the best way to describe the GM. You have seen this disc before as it was a staple in the Innova line for many years. We added this disc to our line up as it is a great fit for among the pre-existing Discmania models.

## P2 "PSYCHO" PRO PUTTER

**S**  
**PD****G 2 3 0 1**

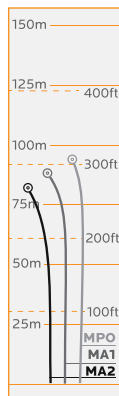

The P2 is significantly more stable than its older brother the P1. Targeted especially for pro-players the P2 works great for wrist-putts and fade-in shots inside and outside the circle. Due to its stability the P2 works great for approaches and can even tackle strong headwinds. It is also a very consistent driving putter.

## MD2 "FIEND" MIDRANGE DRIVER

**SC**  
**PD****4 5 0 2**

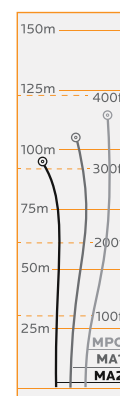

The MD2 Fiend is a 21.7 cm mid-range disc that is very versatile to both recreational golfer and touring pro. Straight flying, stable, quick and accurate these discs will hold whatever line you put them on. Tight and long fairway shots, medium range drives and really long approach shots are not a problem with this disc. Natural grip for a smooth and controlled release every time.

## FD "JACKAL" FAIRWAY DRIVER

**SCG**  
**D****7 6 -1 1**

Discmania's first true fairway driver is also known as the Jackal. The FD offers so much controllability, that once you learn its magic you'll never leave it out of your bag. Packed with gigantic glide, this bad boy is also sneaky long if thrown accordingly. The Jackal is at its best when you need to make an accurate drive that needs to land smoothly on the fairway.

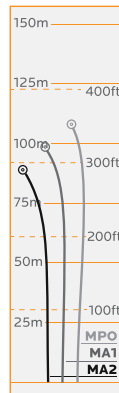

## FD2 FAIRWAY DRIVER

**C** 7 4 0 2

The FD2 is a reliable speed 7 workhorse fairway driver for all skill levels. It's not too glidey to avoid you from sailing off-target and it has a low-speed fade you can depend on. Packed with a nice amount of high speed stability, this disc gives you nice straight lines when thrown flat and hard. The more power you put behind this disc, the straighter lines you will see it perform. When thrown more gently, the fade will kick in earlier in flight making cutting corners easier.

## TD "RUSH" TURNING DRIVER

**SCD** 10 5 -2 1

The TD is an easy-to-throw disc suitable from beginners to top level pros. This speed 10 driver has a comfortable smaller rim grip that offers a lot of glide with a very straight flight path. If you're looking for a disc that can keep a straight line from point A to B, but still offers some of the best glide in the market, the Turning Driver is your choice! When thrown with the right amount of force, this disc just keeps on going straight – almost like floating in the air!

## PD2 "CHAOS" POWER DRIVER

**SCPB** 12 4 0 4

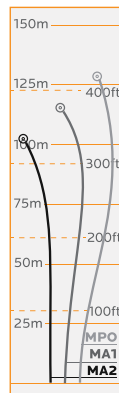

Let's face it – the PD2 Chaos is not meant for everyone. Picture Innova's Xcaliber with a little more speed and stability and you'll know what this disc is like. It is abnormally fast for the stability it offers. Targeted for the strong-armed touring pro, this disc is very reliable thrown backhand, forehand and overhead in pretty much all conditions. Available in multiple plastic blends to suit different tastes. Do you think you have what it takes to throw this disc?

## CD "CRAZE" CONTROL DRIVER

**SP** 10 5 -1 2

Our very first driver, The CD is an all purpose driver that has good range and great reliability in most wind conditions. It can be thrown to fly straight, on a soft hyzer and it can even be used for long turnover shots. The CD is easy to throw, versatile and reliable.

## TD2 "FEVER" TURNING DRIVER

**S** 10 5 -4 1

The TD2 is best suited for anyone seeking to get more distance with less effort. The Fever is by far the most understable disc in the Discmania line-up. Packed with a great glide, this disc is easy to throw far with a little effort. Awesome for rollers and long turning shots for intermediate to pro players.

## DD "HYSTERIA" DISTANCE DRIVER

**SCP** 11 5 0 2

Our first distance driver, nicknamed "Hysteria" has the reliability of Innova's Roc but it flies a lot further. The DD provides control to your long distance game. It offers great accuracy when thrown both on hyzer and anhyzer. Steady, predictable glide and a dependable fade at the end of the flight are some of this disc's key features.

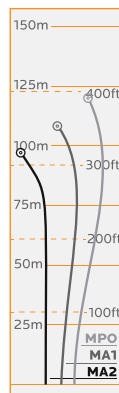

**NEW!**

## CD2 CONTROL DRIVER

**CG** 9 5 -1 2

The CD2 is a disc for those hungry for control. It doesn't get too flashy with a lot of turn and fade like many distance drivers out there, but on the contrary it can hold a line and still bring you the distance needed to cover most fairways. The CD2 provides you with enough stability to conquer most headwinds and a reliable low speed fade that takes you underneath the basket. Majority of players can trust the CD2 as their main driver in a wide range of situations.

## PD "FREAK" POWER DRIVER

**SCGP** 10 4 0 3

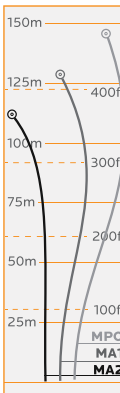

The PD is a fast and stable power driver that resists different wind conditions very well. The PD has a good glide and it's useful for sidearms, stable power shots, and long flex shots for experienced players. This disc offers longer and straighter shots with a reliable low speed fade. If you're hesitant to try the PD, ask anyone who's tried it – this disc is a true crowd favourite.

## DD2 "FRENZY" DISTANCE DRIVER

**SCGPB** 13 5 -2 2

The DD2 Frenzy is currently the farthest flying Discmania brand driver and is possibly the longest flying Innova disc made! This disc offers tremendous speed combined with good glide and great control! This disc is a hybrid of Innova's Katana and Boss. You get the best of both in the DD2! Give it try – you'll probably reach distances you've never reached before. Also available in light weights, thanks to the Blizzard C-line plastic.

## SuperHero

### Made for dogs, loved by humans

Made of amazingly durable plastic, the SuperHero is an awesome disc for canine or human. Keep one in the trunk for an impromptu game of catch anywhere or anytime. It may be the best disc made for teaching new players about disc flight. The SuperHero come in a wide range of vivid, translucent colors. Choose your stamp, SuperMan or SuperDog. SuperAero variant available in lightweight Blizzard plastic!

Diameter: 23.7 cm

SuperHero	136 grams	\$13.99
SuperAero	105 grams	\$13.99

## SuperStar

### Flying disc seeks flying dog

Much like the SuperHero, the SuperStar is made for fun and fetching. Made from our popular Star Plastic, the SuperStar goes where you throw it. The SuperStar is competition ready at 130 grams. Identical to our SuperHero, but a little lighter and in a softer plastic. Make your dog a SuperStar!

Diameter: 23.7 cm

SuperStar	130 grams	\$12.99

## Zephyr

### A great all-around disc

The Zephyr has a very straight and true flight characteristic. The Thumtrac® adds durability and a great grip, especially for sidearms. Approved for Super Class and PDGA tournament play. The 160 gm Zephyr is the disc of choice for accuracy competitions. Diameter: 24.1 cm

Zephyr (Premium)	140 grams	\$9.99
Zephyr (Accuracy)	160 grams	\$9.99
Zephyr (Golf)	190-200 grams	\$9.99

## SuperSonic

### Designed for dog disc pros

The SuperSonic is a smaller, lighter version of the SuperHero. The SuperSonic weighs in at 112 grams making it one of the lightest, most durable dog discs on the market. Compared to traditional dog discs, these offer much better durability and puncture resistance. Available for custom hot-stamping. Diameter: 21.6 cm

SuperSonic	112 grams	\$11.99

# Custom Disc Designs

## Custom Discs

Innova custom golf discs are a great way to raise awareness for your event. With the right market and design, custom discs can generate money too. Innova can customize discs for your course, event, or to promote your business. Custom discs are a mainstay at successful events and help raise thousands of dollars each year. There is value in an event stamped disc. It tells the world "I was there!"

## How to Order

Call the Innova Custom Department or e-mail at [info@innovadiscs.com](mailto:info@innovadiscs.com) for details on graphic design specifications and model availability. We will gladly help you determine which custom application is suitable for your project. Custom hot-stamp design is also available at affordable costs.

Be sure to submit your custom order early enough to get your discs when you need them.

## Hot-stamped Discs

This traditional process still reigns supreme and offers the widest selection of models to choose from. We offer a variety of foil colors to enhance your design.

Minimum order	50 discs (25 discs minimum per model)
Golf Discs	DX, Pro, R-Pro, Champion, Star, Echo
Catch Discs	Pulsar, SuperHero, SuperStar
Mini markers	Standard, Glow and Metalflake Champion
Lead time	4 weeks

## INNColor™ Discs

The latest evolution of the ever popular Custom Fund Raiser Program. This process produces the most brilliant high resolution images across the face of select Star discs. INNColor™ discs are available to PDGA tournament directors and other qualified fund raising events.

Maximum order	Varies, dependent on event type
Discs	Select models in premium plastics
Lead time	4-6 weeks

## Sponsorship Opportunities

Innova supports hundreds of tournaments, course development projects, and charity events every year. We offer a variety of sponsorship options to assist events of all sizes. Our staff includes top level event directors and multiple world champions. With your vision and our experience we can help your event thrive.

### Promotion

Want to boost your presence at an event? Innova banners can help. Dimensions: 8' x 3'. Available in black and sunset.

### Call for more...

We can explain more about these programs or find a solution to fit your event and budget.

## Custom Fund Raising

CFR hot-stamp and INNColor discs are available to qualified events and course projects at discounted pricing to help meet fund raising goals. CFR hot-stamp discs feature your custom line art on highly sought after Champion models. CFR INNColor offers high resolution, full color images on select Star models.

## Sponsorship Shopping Cart

Qualified events that complete a custom hot-stamp order become eligible to receive bonus event sponsorship at no additional cost. Innova issues SSC credit based on the size of your event custom order. Events then use the SSC credit to hand pick additional prize merchandise.

\*CFR price supported discs are not eligible for SSC credit.

## DISCatcher® Target Support

Innova offers reduced pricing to qualified events on several DISCatcher® models. These targets may be awarded as trophies or prizes. Consider holding a raffle, ring-of-fire, or hole-in-one contest to entertain players and raise additional funds.

## BackSaver Straps \$24.95

Be kind to your spine, wear BackSaver Straps. Made to fit our DISCarrier, Competition and Deluxe Bags. Durability, comfort, and all day support.

- 4-way adjustable for many body types
- Properly configured, our BackSaver Straps can help reduce back fatigue
- Adjustable sternum strap for more comfort on hikes
- Can be combined with our CaddySeat on compatible bags (see inset)

## CaddySeat \$39.99

The CaddySeat was specifically engineered to integrate with INNOVA BackSaver Straps and CaddySeat compatible bags. With our BackSaver Straps, the lightweight aluminum seat doubles as a backpack frame and offers built-in lumbar support. CaddySeat is sold separately, and only works with INNOVA BackSaver straps and CaddySeat compatible bags. (See illustration)

Look for these straps on the back of Deluxe, Competition, and DISCarrier bags. These straps were engineered for the Caddy Pack system.

## Straps/Seat Combo \$64.90

Our Caddy Combo is a pair of BackSaver Straps and a CaddySeat that comes pre-assembled. The Straps/Seat Combo transforms a compatible Deluxe, Competition or DISCarrier into a Caddy Pack. The Straps/Seat Combo doubles as a backpack frame allowing the weight of the bag to rest on the built-in lumbar pad. Seat/Strap can be used as a handle, to reduce bending over. Adjustable to provide a custom fit for each player.

- Only for use with compatible bags (see inset)
- Seat holds up to 250 pounds
- Seat includes adjustable Lumbar support
- Reduces bending to pick up your bag

## **DISCatcher® PRO** **Disc Golf Target 28**

The DISCatcher® Pro is installed on more disc golf courses than any other brand. The DISCatcher® was designed to be highly visible on the course and catch putts and aces like a boss. Each DISCatcher® Pro has a 28 chain assembly featuring 14 outer chains and 14 inner chains. More chains provide improved “catchability”. The basket tray features 14 spokes and an extra stabilizer ring. This adds structural strength while improving disc containment.

The DISCatcher® Pro represents the state of the art in disc golf target technology. It is a favorite of parks departments and course professionals — since 2007 the DISCatcher® has been chosen more than any brand for new course installations. The bright yellow band improves visibility from the tee and also distinguishes the disc golf course to other park visitors.

The price of the DISCatcher® Pro Permanent includes locking collar and one installation tube for in-ground installation.

The DISCatcher® Pro was designed to improve scoring from near and far. There is no better choice for players.

### A BETTER MOUSETRAP

The DISCatcher® Pro was redesigned to catch better than ever. We added more chains and reinforced the basket tray. Great putts stay put.

### HIGH VISIBILITY TARGET TOP

Our yellow powder coated target top makes the DISCatcher® Pro highly visible. All stainless steel construction makes it long-lasting and low maintenance.

### BUILT TO LAST

Hot-dip galvanized basket, pipe and chains allow our targets to weather the elements for years. Our target tops are made entirely from stainless steel.

### 28 LAYERED CHAINS CATCH BETTER

14 outer chains and 14 staggered inner chains - Three layers of chains catches more shots. Players want more putts to stick. Our new configuration catches more putts.

### INSTALLATION TUBES INCLUDED

Don't pay extra! DISCatcher® Pro permanent target prices include locking collars and installation tubes.

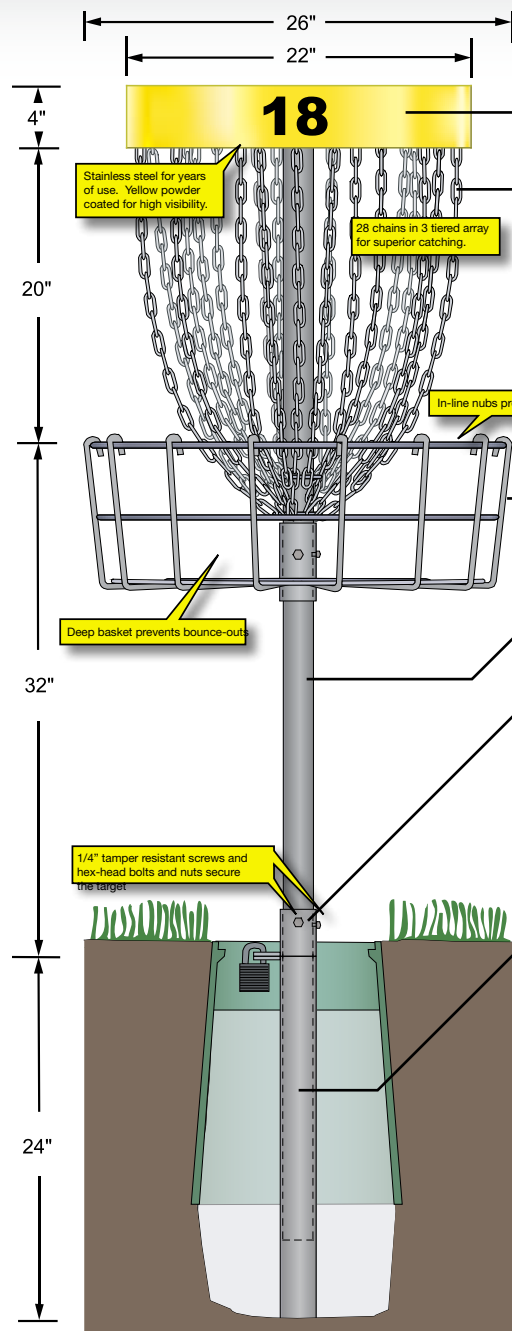

### PDGA “CHAMPIONSHIP” APPROVED

DISCatcher® Pro permanent and portable models have received Championship certification by the PDGA. It is ideal for all levels of tournament play.

# DISCatcher® Pro

## Permanent Model Features

**Target Top** — Visible and Durable. Its construction is all stainless steel. Each target top is also powder coated bright yellow to provide great visibility on the course.

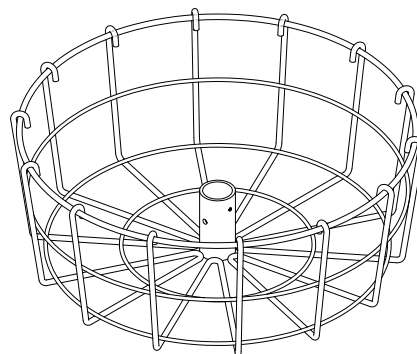

**Chains** — Made to catch discs and withstand abuse. 28 strands of galvanized 2/0 chains. (14 outer chains and 14 inner chains at alternating distances from the center pole)

**Basket** — Redesigned with 14 spokes and an extra ring for structural support. 10" deep basket helps prevent discs bouncing out. Galvanized 3/8" steel rod construction.

**Pole** — Our hot-dip galvanized 74" pole is made with sturdy 1/8" walls. Each is pre-drilled for target top, basket, and collar hardware.

**Locking Collar** — Hot-dip galvanized finish. Securely fits over pole mounted with tamper resistant screws.

**Installation Tube** — 24" long hot-dip galvanized steel tube. Provides a snug fit for the target at PDGA approved height. Aligns with locking collar for security.

Redesigned basket tray helps keep good putts in.

## DISCatcher® Pro Portable Target

The Pro Portable is the ultimate portable target. It has all the features of our permanent target on a galvanized base for more portability. Four main parts allow you to set it up and take it down easily. The target top and base fit nicely in the basket for storage. PDGA approved for tournament play.

# More Target Choices

## Discmania LITE Basket Portable Target

After months of testing, the LITE Basket is a game changer in the lightweight practice basket market.

Weighing in at an amazing 17.6 pounds, the LITE Basket uses a unique mesh-like chain configuration that reduces putt rejection. By linking the vertical chains with horizontal connector chains, the ability to “spit through” is virtually eliminated.

Easy to assemble and disassemble, this target is designed to go anywhere. It can easily fit in a car trunk, and is a great temporary target for those safari holes.

The LITE Basket is also the lowest price all metal target in our lineup, as well as one of the lowest priced targets on the market. Period.

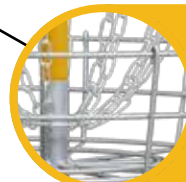

**\$120.00**

LITE as a feather, but strong enough to deal with whipping winds. This flag will help you judge that wind and get your putt in.

The LITE features chains vertically AND horizontally. This creates a net that reduces spit throughs. It catches like Johnny Bench. Lighter chains, better action. The LITE gives you more confidence putting.

All metal construction and simple setup and take down. The bright yellow pole makes it easy to spot in the shade. Where will you use yours?

## SkillShot™ Portable Target

The Innova SkillShot™ is the original lightweight portable disc golf target. It weighs in at 26 pounds with a 16 chain assembly. The SkillShot™ allows you to play disc golf in the park, on your next camp-out or around the backyard.

It is affordable, easy to transport, catches great and is PDGA approved. It comes complete with stakes, flag and carrying bag. Weight 26 lbs.

Available in blue, black, green, and red.

## Attention Signs

If your course is in a high traffic park, or you are a new addition to an existing park, these help to maintain good relations with all park users.

They are built to last: two aluminum outer sheets with a strong synthetic core. Available in Small (12 by 9 inches) and Large (16 by 12 inches).

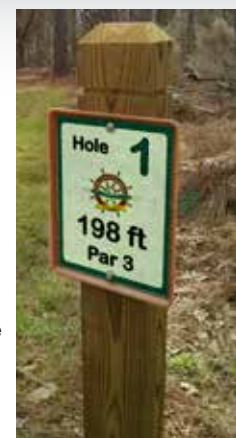

**\$15 and \$25 each**

## INNOsign Tee Signs

The new INNOsign Tee Sign is designed for value and simplicity. We make the frames in our own factory and custom print each sign with your detailed specs, hole number, distance, and par. Each has a protective Lexan® sheet and aluminum printed sign. They are supplied with hardware to mount them to wooden posts. We recommend treated 4x4 fence posts.

**\$40.00 each**

## Installation Tubes

Galvanized to last, this installation tube is the same as the one that comes with our DISCatcher® PRO permanent model.

Install multiple pin positions to mix it up a bit. Move them around to create more variety and fun. Perhaps a winter short position to allow players to play a faster round when the days are short.

**\$25.00 each**

# Outfit Your Pro Shop

## Trust the Disc Golf Experts

Disc golf is growing and Innova products are in high demand. The greater selection our dealers have to offer, the greater the potential to reach more customers.

We offer retail display fixtures that work with your existing fixtures or stand alone. Customize the look of your display to meet the needs of your customers. If you need disc selection charts, window decals or brochures, we'll be glad to send them along in your next order.

## Display your inventory on our specially designed brackets and fixtures

Whether you have a small or large section to give to your Innova inventory, our disc racks are the easiest way to present your selection to customers. Our waterfall brackets can hold up to 12 discs each, and allow buyers to browse for their disc of choice without removing all of the discs displayed in front of it.

Each bracket has a faceplate designed to fit a placard for that particular model or type, all available to download and print straight from our website.

## Display Box

Our cardboard display boxes allow discs to be displayed on most shelves. They can also be mounted to gridwall. Each cardboard display fits up to 12 drivers or 10 Putters.

## POP Materials

Call our sales representatives and we'll help you get set up to attract players, new and experienced: Charts and pamphlets to help players find the right disc. Signs and banners will help players discover your disc golf selection.

A. Disc Selection Charts B. Authorized Dealer window decal C. Small folding brochure D. Disc Golf brochure E. Nylon Banners F. Player Posters (designs may change) G. Innova Champion Tacker Sign H. Innova Dealer Tacker Sign

## Hanging Display Brackets

Our display brackets now come in 6 and 12 disc sizes. They allow you to easily and neatly arrange your Innova discs. Order the type for your particular mounting system: gridwall (also available), slatwall or pegboard. Call for info.

## Bracket Placards

We have convenient printable placard sheets on our website. Just go to Downloads > Retail Disc Placards.
