

2016

We started Innova on a handshake as two champion players in 1983. We have always wanted the best equipment for ourselves and Disc Golf so we make the best for both. We appreciate the opportunity to share the most desired disc golf gear for the 33rd year in a row.

We will continue to create the best selling discs for your business to succeed, and we will grow the game with EDGE, Throw Pink, and the hundreds of events we proudly support. The course is calling, and we must throwthe best.

Sincerely,
Dave Dunipace & Harold Duvall

/INNOVATIONS/VTECH MODELS

When you think VTech, think control. That is exactly what the convex shaped rim is designed to provide. VTech offers excellent torque resistance and gyroscopic stability.

This means three things:

1. More effective in windy conditions.
2. More forgiving of throwing errors.
3. A slower fade at the end of the flight which helps discs land flatter with more consistent results.

VTech will benefit players of all skill levels.

VTECH PUTTERS

The **Whale** and **Colt** are already popular with players. The upcoming **Stud** and **Mirage** offer the friendly grip of VTech and will be a welcome addition to the best selection of putters in disc golf.

VTECH MID-RANGE DISCS

When players need consistency, they reach for Innova. VTech adds torque resistance to the equation. VTech's torque resistance is especially well fitted to Mid-Range shots. The **VRoc** has proven it is reliable all over the course. Extreme glide gives the **Wombat** beginner-friendly smooth flights. The **VCobra** and **Manta** will offer players a full selection of VTech molds to keep their discs in control on the course.

Comes with:

- **Champion Valkyrie:** For long flights. Specially chosen weight for new players.
- **Champion Panther:** Smooth straight flying Mid-Range for all around accuracy.
- **Champion Aviar:** The putter of choice for top players. Trust the Aviar for short range shots and putts.

DX DISC GOLF SET

\$28.99

A perfect choice for the newer player. A well rounded set of DX discs in ideal weights for newer players. This trio includes our best sellers and is all you need to get started. Includes a Driver, Mid-Range and Putter.

Comes with:

- **DX Leopard:** For long straight flights. Our best driver for beginners
- **DX Shark:** Lightweight to glide in the wind, giving longer flights.
- **DX Aviar:** The Aviar is the #1 putter on the planet. Controllable for short shots and dependable for putting.

/GOLF DISCS/DISC TYPES

DISTANCE DRIVER

Distance Drivers are at the pinnacle of golf disc design. They offer players more distance off the tee than other types of golf discs. Beginners may find Distance Drivers more challenging to control. Proper technique is useful to get the most flight out of these discs.

Benefits

- Deliver maximum distance off the tee
- Our widest selection of models offers a disc for every player's skill level
- Boss (page 16) holds the World Distance Record of 863 feet (263 meters)
- For courses with water hazards, we offer floating drivers including the Wahoo (page 19), and any Blizzard or StarLite model under 140 grams floats too

FAIRWAY DRIVER

Fairway Drivers are designed to offer players more accuracy than Distance Drivers without sacrificing too much distance. These are used when keeping the disc on the fairway or green is more important than maximum distance.

Benefits

- Deliver dependable distance control for consistent, accurate driving
- Valuable disc for shorter, controlled drives and long approaches
- Easier for beginners to use than Distance Drivers
- Help to increase confidence through added control and consistency
- Leopard (page 28) should be everyone's first Fairway Driver

/GOLF DISCS/DISC TYPES

MID-RANGE DISC

Mid-Range discs are great for all types of shots. Mids are often recommended for “your first golf disc” for their ease of use and forgiving nature. Players who can master the Mid-Range can carve up a wooded course.

Benefits

- Designed to provide accuracy and control for mid-range, approach shots and short to medium length drives
- Consistent flights for hard to navigate sections of the course
- Roc is the Mid-Range disc of choice for competitive players (page 35)
- The Atlas uses our unique in-mold process, giving it some of the straightest flights available (page 34)

PUTT & APPROACH

Putt & Approach discs fly true at low and medium speeds, which is highly desirable when putting. These discs are also great for approaches and short drives. The quickest way to lower scores in disc golf is mastery of your Putter.

Benefits

- Dependable, accurate and inspires putting confidence
- Ideal for controlled upshots, short drives and “go for it” shots
- Available in a variety of different models and plastics to match unique putting styles and grips
- Aviar is the most popular golf disc ever produced (page 44)

DISC FLIGHT CHARACTERISTICS

Each disc uses a unique airfoil design that will react differently when thrown.

Red flights (●, ●, & ●) will require more power or advanced technique to achieve full flight. These are only recommended for experienced players or windy play.

Green flights (●, ●, & ●) are better for newer players, these discs are more forgiving and will fly farther with less effort.

Orange and yellow flights (● & ●) are our straightest fliers in their speed category. These are discs designed for controlled flight in most conditions.

TEEBIRD3

The TeeBird3 represents the evolution of the TeeBird. Many people have described a lot of discs as a “faster TeeBird”, but this is the real deal. The flat flight plate promotes speed while reducing glide, effectively producing consistent, accurate flights. This is a point and shoot, target specific Fairway Driver.

YETI PRO AVIAR

The unique slightly concave top of the Yeti allows for a lower profile and a straighter flight than our other big bead models. The Yeti Pro Aviar is a straight flying putter that works well on the course too. We've developed the Yeti in a firm, grippy blend of R-Pro plastic that feels great in any weather.

NOVA / UNIQUE!

The Nova is a triumph of overmold technology. XT plastic gives the Nova superior grip and a straight and consistent flight. Thrown hard or smooth the Nova flies true and stops on a dime. Four-time World Champion Paul McBeth trusts the Nova for upshots at the biggest events. The unique two-part mold deadens impacts allowing more putts to stick. Players everywhere have added the Nova to the bag to lower scores.

DISC FLIGHT CHARACTERISTICS

Each disc uses a unique airfoil design that will react differently when thrown.

Red flights (●, ●, & ●) will require more power or advanced technique to achieve full flight. These are only recommended

for experienced players or windy play.

Green flights (●, ●, & ●) are better for newer players, these discs are more forgiving and will fly farther with less effort.

Orange and yellow flights (● & ●) are our straightest fliers in their speed category. These are discs designed for controlled flight in most conditions.

GLOW DISCS

Don't stop playing when the sun goes down. Innova's Glow discs are made with a rechargeable glow-in-the-dark plastic that has a unique feel and allows play to continue in the dark. Simply use a flashlight, portable black light, or your phone's flashlight to charge glow discs before play and between shots. Champion Glow offers a durable long lasting alternative to DX. All our models are chosen for long straight flights, ideal for night play.

PUTTERS

P2

"PSYCHO"
PRO PUTTER

D P S G X **2 3 0 1**

The P2 is significantly more stable than its older brother the P1. The P2 works for wrist-putts and fade-in shots inside and outside the circle. Great for approaches and can even tackle strong headwinds. It is also a consistent driving putter.

P1x

BEADED
PUTTER

D X **2 3 0 0 1**

The X-Factor of the P1x is its medium sized bead along the bottom rim of the disc. The P1x can handle torque better than just about any other putter on the market while still maintaining a straight and true flight path.

P1

"MANIAC"
PUTTER

D P C S **2 3 0 0**

The P1 flight characteristic is straight at high and low speeds. The P1 is ideal for a putter and it works as an approach disc, too. This is one of the truest flying putters out there. Great choice for all skill levels.

P3

PUTT &
APPROACH

D C **3 2 0 3**

The P3 is fast for a putter and a torque resistant flyer. It has lower profile than a normal putter. The P3's best weapon is its versatility – it is an awesome flyer off the tee and a great tool for putting too. For the fans of fade-in putters this disc is a must try.

MD

MIDRANGE
DRIVER

C

4 5 0 0

The MD is a straight flyer in all speeds and it can easily be thrown straight-as-an-arrow from point A to B. You can handle most of your midrange duties with this one disc.

MIDRANGE DISCS

MD3

MIDRANGE
DRIVER

PCG

5 5 0 3

The Discmania MD3 is a reliable and versatile disc, that in its different weights can be used to fill all your midrange needs. It has a sleek profile that is easy to grip even for those who have experienced problems with midrange discs before.

MD1

MIDRANGE
DRIVER

SD

4 4 0 2

The MD1 was the first Discmania golf disc. It is a stable flyer with good range and a predictable low speed fade. Perfect disc for long approach shots and for those tricky drives you absolutely need to put on the fairway.

MD2

"FIEND"
MIDRANGE
DRIVER

DPCS

4 5 0 2

The MD2 is a 21.7 cm midrange disc that is very versatile to both recreational golfer and touring pro. Straight flying, stable, quick and accurate, this disc will hold whatever line you put them on. Natural grip for a smooth and controlled release every time.

GM

"GREMLIN"
GREATER
MIDRANGE

DS

5 4 0 2

A hybrid between a midrange disc and fairway driver is the best way to describe the GM. You may have seen this disc before as it was a staple in the Innova line for many years. We added this disc as it is a great fit for the Discmania lineup.

FD

"JACKAL"
FAIRWAY
DRIVER

DCSG

7 6 -1 1

The FD offers so much controllability, that once you learn its magic you'll never take it out of your bag. The FD is at its best when you need to make an accurate drive that needs to land smoothly on the fairway.

DRIVERS

CD

"CRAZE"
CONTROL
DRIVER

PS

10 5 -1 2

The CD is an all purpose driver that has good range and great reliability in most wind conditions. It can be thrown to fly straight, on a soft hyzer and it can even be used for long turnover shots. The CD is easy to throw, versatile and reliable.

FD2

FAIRWAY
DRIVER

C

7 4 0 2

The FD2 is a reliable workhorse fairway driver. It's not too glidey to avoid you from sailing off-target and it has a low speed fade you can depend on. The more power you put behind this disc, the straighter lines you will see. When thrown more gently, the fade will kick in earlier making cutting corners easier.

FD3

FAIRWAY
DRIVER

CS

9 4 0 3

The FD3 is targeted at everyone who can appreciate an overstable driver that you can trust in all conditions - from touch sidearms that get you out of trouble to full power drives off the tee.

CD2

CONTROL
DRIVER

CG

9 5 -1 2

The CD2 is a disc for those hungry for control. It provides you with enough stability to conquer most headwinds and a reliable low speed fade that takes you underneath the basket. The majority of players can trust the CD2 as their main driver in a wide range of situations.

TD

"RUSH"
TURNING
DRIVER

DCS

10 5 -2 1

The TD is an easy-to-throw disc suitable from beginners to top level pros. The TD has a comfortable smaller rim grip that offers a lot of glide. When thrown with the right amount of force, this disc just keeps on going straight – almost like floating in the air!

PD

"FREAK"
POWER DRIVER

PCSG

10 4 0 3

The PD is a fast and stable power driver that resists different wind conditions well. The PD has a good glide and it is useful for sidearms, stable power shots, and long flex shots. This disc offers longer and straighter shots with a reliable low speed fade.

DD

"HYSTERIA"
DISTANCE
DRIVER

PCS

11 5 0 2

The DD provides control to your long distance game. It offers accuracy when thrown both on hyzer and anhyzer. Steady, predictable glide and a dependable fade at the end of the flight are this disc's key features.

TD2

"FEVER"
TURNING
DRIVER

SG

10 5 -4 1

The TD2 is best suited for anyone seeking to get more distance with less effort. The Fever is by far the most understable disc in the Discmania lineup. Packed with extra glide, this disc is easy to throw far with little effort. Awesome for rollers and long turning shots for intermediate to pro players.

PD2

"CHAOS"
POWER DRIVER

PCSBG

12 4 0 4

Let's face it – the PD2 Chaos is not meant for everyone. It is abnormally fast for the stability it offers. Targeted at the strong-armed touring pro, this disc is reliable thrown backhand, forehand and overhead in pretty much all conditions.

DD2

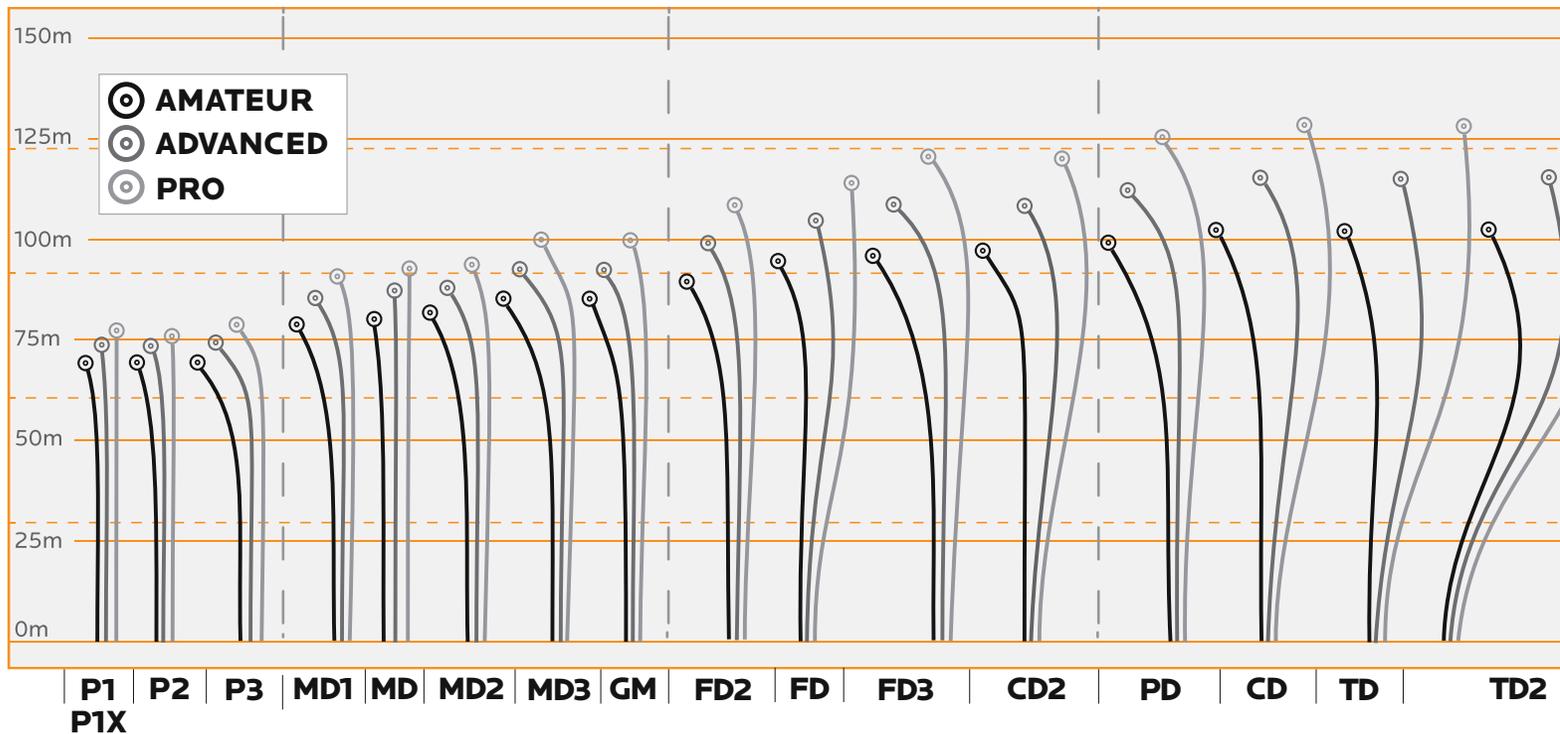

"FRENZY"
DISTANCE
DRIVER

PCSGBG

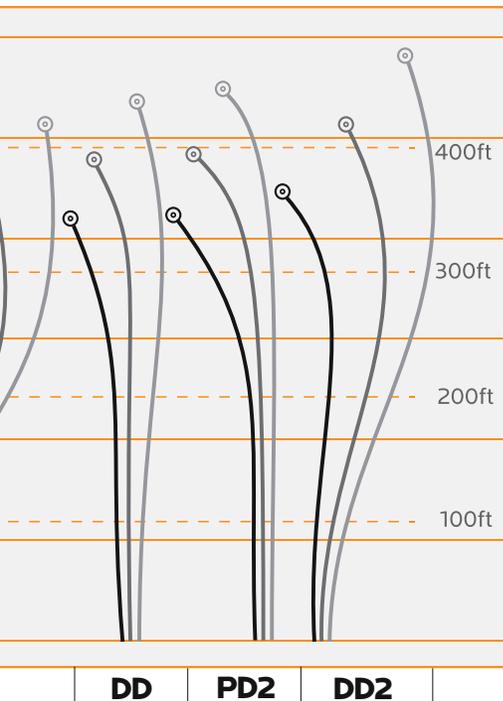

13 5 -2 2

The DD2 Frenzy is currently the farthest flying Discmania driver. This disc offers tremendous speed combined with good glide and great control! Give it a try – you'll probably reach distances you've never reached before.

DISCMANIA FLIGHT CHART

DISCMANIA PLASTICS

D D-LINE

Lots of grip even in wet conditions. The most affordable plastic in our line. Soft but firm feel – ideal for putters. Fine-tuneable flight characteristics thanks to gradual wear.

P P-LINE

Great feel and added glide. Easily one of the grippiest plastic types out there. Reveals new features in your disc when worn down. P-line plastic is typically a bit more understable.

C C-LINE

Our most durable plastic. Performs predictably and avoids damage better than any other plastic. Typically the most stable blend of plastic in our lineup.

S S-LINE

Excellent grip in all weather conditions with great durability. S-line is the recommended plastic for drivers.

G G-LINE

The G-line provides great grip, durability and shock-absorbance. It is a flexy plastic blend with a unique look and added glide compared to the S-line plastic.

B BLIZZARD C-LINE

Blizzard C-line employs microscopic air bubbles inside the rim of the disc, allowing the production of high speed drivers in very low weights. With lower weights you can throw farther with less effort.

X X-LINE

The X-line is a new blend of plastic that takes the best features of the D-line and our P-line material while remaining nice and firm structurally. The end result is probably our grippiest plastic to date, which makes the X-line plastic perfect for putters. It is a plastic blend that wears slower than the D-line, but is still fine-tuneable like the D-line plastic.

DISCATCHER® PRO 28

The DISCatcher Pro is installed on more disc golf courses than any other brand. The DISCatcher was designed to be highly visible on the course and catch putts and aces like a boss. Each DISCatcher Pro has a 28 chain assembly featuring 14 outer chains and 14 inner chains. More chains provide improved “catchability”. The basket tray features 14 spokes and an extra stabilizer ring adding rigidity while improving disc containment.

The DISCatcher Pro represents the state of the art in disc golf target technology. It is a favorite of parks departments and course professionals — since 2007 the DISCatcher has been chosen more than any brand for new course installations. The bright yellow band improves visibility from the tee and also distinguishes the disc golf course to other park visitors.

The DISCatcher Pro has always represented the state of the art in disc golf target technology. The Innova DISCatcher Pro is the best catching and most visible disc golf target.

The DISCatcher Pro was designed to improve scoring from near and far. There is no better choice for players.

DISCATCHER PRO WITH INSTALLATION TUBE	\$425.00
COURSE SALES	TARGETS DISCOUNTED TO \$325.00

A BETTER MOUSETRAP

The DISCatcher® Pro was redesigned to catch better than ever. We added more chains and reinforced the basket tray. Great putts stay put.

HIGH VISIBILITY TARGET TOP

Our yellow powder coated target top makes the DISCatcher Pro highly visible. All stainless steel construction makes it long-lasting and low maintenance.

BUILT TO LAST

Hot-dip galvanized basket, pipe and chains allow our targets to weather the elements for years. Our target tops are made entirely from stainless steel.

28 LAYERED CHAINS CATCH BETTER

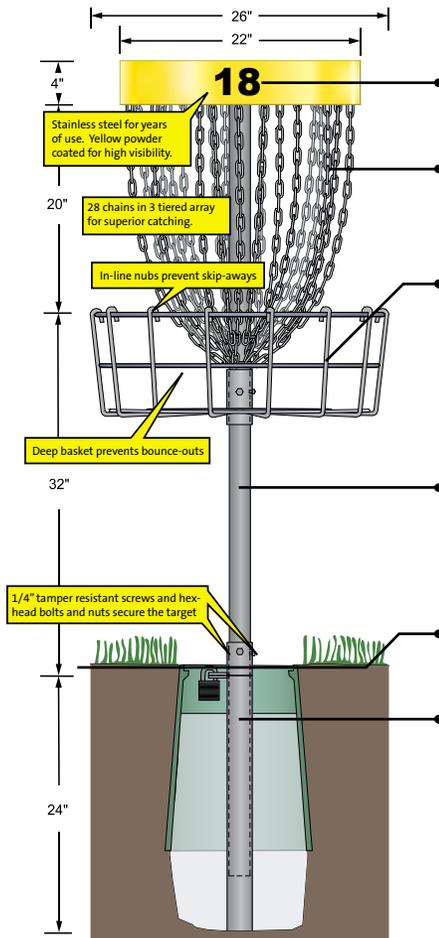

14 outer chains and 14 staggered inner chains - Three layers of chains catches more shots. Players want more putts to stick. Our new configuration catches more putts.

INSTALLATION TUBES INCLUDED

Don't pay extra! DISCatcher Pro permanent target prices include locking collars and installation tubes.

PDGA "CHAMPIONSHIP" APPROVED

DISCatcher Pro permanent and portable models have received Championship certification by the PDGA. It is ideal for all levels of tournament play.

ANATOMY OF A DISCATCHER

Target Top - Visible and Durable. Its construction is all stainless steel. Each target top is also powder coated bright yellow to provide great visibility on the course.

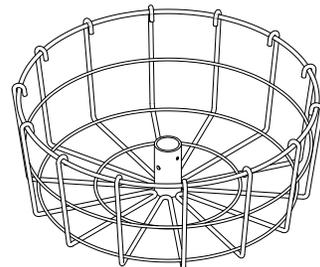

Chains - Made to catch discs and withstand abuse. 28 strands of galvanized 2/0 chains. (14 outer chains and 14 inner chains at alternating distances from the center pole)

Basket - Redesigned with 14 spokes and an extra ring for structural support. 10" deep basket helps prevent discs bouncing out. Galvanized 3/8" steel rod construction.

Pole - Our hot-dip galvanized 74" pole is made with sturdy 1/8" walls. Each is pre-drilled for target top, basket, and collar hardware.

Locking Collar - Hot-dip galvanized finish. Securely fits over pole mounted with tamper resistant screws.

Installation Tube - 24" long hot-dip galvanized steel tube. Provides a snug fit for the target at PDGA approved height. Aligns with locking collar for security.

Redesigned basket tray helps keep good putts in.

Warranted for 20 years against structural failure due to rust, corrosion, or manufacturing defects. For full details go to innovadiscs.com.

DISCATCHER® PRO PORTABLE

The Pro Portable has all the features of the Pro 28 Permanent, but with a galvanized base making it transportable. It is the ultimate portable target. Four main parts allow you to set it up and take it down easily. The target top and base fit nicely in the basket for storage. PDGA approved for tournament play at all levels.

DISCATCHER PRO PORTABLE W/FREESTANDING BASE \$425.00

CUSTOM COLOR DISCATCHER® PRO

Is your course in need of a blast of new color? Do you want to install a course that matches your school colors? Maybe your course has two permanent target locations, give one a special color. You now have the power!

DISCatcher targets are now available in a multitude of colors. We will work with you; be it for a backyard target or an entire course. Please contact Innova for more information and pricing.

DISCMANIA LITE BASKET

The LITE Basket is a game changer in the lightweight practice basket market.

Weighing in at an amazing 17.6 pounds, the LITE Basket uses a unique mesh-like chain configuration that reduces putt rejection. By linking the vertical chains with horizontal connector chains, the ability to “spit through” is virtually eliminated.

Easy to assemble and disassemble, this target is designed to go anywhere. It can easily fit in a car trunk, and is a great temporary target for those safari holes.

The LITE Basket is also the lowest priced all metal target in our lineup, as well as one of the lowest priced targets on the market. Period.

TRUST THE DISC GOLF EXPERTS

Good disc golf course design, simply put, provides lasting value. That's easily seen as players return year after year to a course filled with challenge and memorable holes. However, a well-designed course has more than just cool disc golf holes.

Taking into account land conservation, future course needs, and cost control, an ideal course can coexist with its surroundings and be a self-sufficient asset. A good course will not only be embraced by local disc golfers but also by the greater community.

The Innova Course Design Team has decades of experience in good design and we can refer designers to help with any phase of your project.

SUPPORT AT EVERY LEVEL

We want to make more disc golf possible at every level. That's why we back today's biggest events like the PDGA World Championships, the US Disc Golf Championship, the US Women's Disc Golf Championships, and Europe's finest action. But, we also provide sponsorship, equipment, and guidance to local start-up tournaments, which are just as important to building the game.

RUNNING AN EVENT: THE BASICS

No matter the size of your event, we can tailor our resources and know-how to fit your needs. Wondering how to run an event? Here are a few main points to help get you started:

1 PURPOSE

Determine what type of event you plan on running. Will it be a small local affair or a club championship? Will it be to benefit Throw Pink, EDGE or your favorite local charity? It helps to know your audience and what your players may expect.

2 REGISTRATION

Processing player registration and event fees early and smoothly is crucial to setting an event in motion. DiscGolfUnited.com provides an advanced online registration system that is simple to use and free to setup, making your life much easier.

3 PLAYERS PACKS

Decide if you want to offer your players a single custom disc or an entire package of goodies. We can hot stamp unique artwork on to discs of your choice so every player has a souvenir of the event. We also offer supported pricing on complete player packages loaded with Innova gear.

4 FUND RAISING

Whether your event is raising money for charity, for a new course or your event just needs some extra cash, the INNOVA Custom Fund Raising Program (CFR) is here to help. It allows your event to raise funds while providing sweet custom discs to your disc golf community.

/SPONSORSHIP OPPORTUNITIES

PRESENTED BY INNOVA EVENTS

The Innova Player Pack is an unbeatable deal for events that want to be “Presented by Innova”. Competitors get a complete player package that includes an exclusive Innova disc, a shirt, hat, mini and more. Our Deluxe Players Pack includes 7 items and the Premium Pack offers 11 items. Available to events large and small.

SPONSORSHIP SHOPPING CART

Qualified events that complete a custom hot-stamp order become eligible to receive bonus event sponsorship at no additional cost. Innova issues SSC credit based on the size of your event custom order. Events then use the SSC credit to hand pick additional prize merchandise.

DISCATCHER® TARGET SUPPORT

Innova offers reduced pricing to qualified events on several DISCatcher® models. These targets may be awarded as trophies or prizes. Consider holding a raffle, ring-of-fire, or hole-in-one contest to entertain players and raise additional funds. Call us for more details and support pricing.
