THIS IS DISC GOLF

Much like golf, Disc Golf provides challenge and competition for those who love the outdoors. Both sports share the similar rules, structure, and thrills.

The average par 3 Disc Golf hole is about 300 feet long and a typical course will fit in most public parks with low impact on the established environment. Disc Golf courses can be installed for as little as \$3000 with some volunteer labor.

INNOVA provides golf discs for every conceivable shot. While the novice can start with only one disc, more advanced players may carry a disc for every situation. We are a player-driven company so we understand the challenges you may face on the course, and the tools you'll need to overcome them.

Each hole begins with a drive from a designated tee area and ends with a putt into

an elevated basket. Reducing the number of shots in between is the challenge.

Disc golfers are always looking for ways to lower their scores. You play to complete the course in as few strokes as possible. Even if you don't get a low score, it only takes one great throw to get you fired up.

Almost everyone has thrown a traditional flying disc to a friend in a relaxing game of catch. It's a new thrill to throw a disc directly to a target. This game is exciting and enjoyable for people of all ages and abilities. To find a Disc Golf course near you, log on to innovadiscs.com

In 1983 INNOVA created the first true golf disc. By replacing the park toy of old, INNOVA transformed Disc Golf into a dynamic sport for the 21st century. INNOVA continues to define the state of the game. Our patented beveled edge designs and Thumtrac® technologies enhance accuracy, increase distance and inspire confidence in any wind. For every situation there is an INNOVA answer.

INNOVA was established in 1983 upon a vision that ultimately forged a new direction for Disc Golf. During that period, players were using traditional "lids" designed specifically for throw and catch. These discs were slow and floating and difficult to control in adverse conditions.

INNOVA co-founder Dave Dunipace saw Disc Golf as a sport destined for enormous popularity. His creation of the beveled edge disc immediately changed the way people played the game. The increased speed and distance this new disc technology provided, combined with enhanced control, generated tremendous enthusiasm for this new "power" Disc Golf.

Like a fine surfboard craftsman, Dave Dunipace has always preferred a hands-on approach to production. Every INNOVA disc is manufactured by us under our care and supervision in Southern California. We demand quality, as we too rely on the performance of our products.

For more than two decades, INNOVA discs have dominated competitive Disc Golf. More titles have been won using INNOVA discs than all other brands combined, by far. INNOVA discs have virtually owned the world distance record as well, with new marks set in 1985, 1988, 1993 and 2003.

As we begin the 2005 season we will remain dedicated to the promotion of the sport of Disc Golf, our affiliations with EDGE (Educational Disc Golf Experience) and DGU (Disc Golf United) will help to introduce thousands of new players to Disc Golf. For established players, our prestigious United States Disc Golf Championship will continue to be the crown jewel on the professional tournament scene.

We are proud to have pioneered a revolution for the game we love. So far it has been an incredible journey and we are more excited than ever about the road ahead.

We invite you to join the INNOVA family and take your game to a higher level.

GLOSSARY of TERMS

Abbreviations/Acronyms

RHBH – Right Hand Backhand Throw - All INNOVA flight descriptions are based on a player's throwing right-handed with a back hand style.

LHBH – Left Hand Backhand Throw – Reverse the RHBH flight characteristics.

RHFH – Right Hand Forehand Throw – Reverse the RHBH flight characteristics.

LHFH – Left Hand Forehand Throw – Same flight characteristics as a RHBH throw.

Describing Flight

Stable – The tendency of a disc to remain straight through most of the flight.

Understable/Turnover – The tendency of a disc to turn to the right during the high speed portion of the flight for a RHBH thrower.

Overstable – The tendency of a disc to turn to the left at high or low speeds for a RHBH thrower.

Hyzer – Is an angle of release where the outside edge or left edge of the disc is tilted downward.

Anhyzer – Is an angle of release where the outside edge or left edge of the disc is tilted upward.

Grips

Backhand Grip – The thumb is on top of the flight plate and the fingers are curled under the disc with one or more finger pads pressed against the inside rim. Palm is in the handshaking position. There are many variations.

Two Finger/Sidearm/Forehand Grip – A grip where the palm is up and the thumb is on the flight plate while the index and middle fingers are underneath the disc with one or both fingers pressed against the rim. There are many variations.

Hook Thumb Grip – A grip in which the thumb pad is hooked on the inside of the rim and the rim is squeezed between the thumb pad and the crook of the index finger. The index knuckle is on the top of the outside rim. Hand position resembles using a disposable lighter.

Thumber Grip – A grip in which the entire thumb, from base to thumb pad, is on the inside rim and all four fingers are on top of the disc. Used primarily for Thumber Rollers.

Other Terms

150 Class – A class of discs weighing up to 150 grams. These discs usually weigh from 145 grams up to 150 grams. These are the only class of discs approved for play in Japan.

Shots

Escape Shot – Any shot used to get out of a poor lie or tough situation. Usually these shots are verticals or rollers because it is extremely difficult to throw a normal backhand or sidearm shot.

Touch/Finesse Shot – These are floating shots used for accuracy in tricky situations.

Power Shots – These are shots where high speed is employed to go over, around or through obstacles.

Go For Shot – A risky shot usually thrown from the fairway to land in the basket rather than next to it.

Approach/Lay up Shot – A safe shot thrown to land next to the basket rather than into it.

Fairway Shot – A drive or very long approach shot from the fairway designed to advance closer to the target or land next to the target from a distance.

Roller – A throw where most of the distance comes from rolling the disc on the ground rather than flying through the air. Can be done with a backhand grip, sidearm/forehand grip, thumber grip, hook thumb grip or scooby grip. Different grips produce different rolling patterns for different situations.

Cut Roller – A roller shot that never turns on its back as most rollers do.

Overhead Shot – Any shot thrown vertically or with an overhead baseball throwing motion.

Tomahawk Shot – A vertical/overhead shot resembling the chop of a tomahawk. Discs are usually held with a two finger grip or hook thumb grips.

Spike Hyzer – A shot thrown high with an extreme hyzer angle to land vertically.

Flex Shot – The Flex Shot is performed by throwing an overstable disc with an anhyzer angle of release down the left side of the fairway (for RHBH thrower). The disc travels from left to right then the natural overstableness of the disc and gravity turn the disc back to the left. It is a very reliable shot that pros use.

Hyzer Flip – The Hyzer Flip is very similar to an S-shot but follows a straighter line. An understable disc is thrown very fast with a hyzer angle of release. The disc will naturally turn or "flip" and bring its nose down in the process. This allows for a long straight glide.

S-Shot – This shot is thrown using an understable disc to the left side of the fairway. The natural turn of the disc causes the disc to turn over and fly to the right side of the fairway. As the disc slows down it will fade back to the left.

Fictional Disc Golf hole represented.

Flight Chart Tips

The INNOVA Flight Chart presents the basic flight characteristics of our drivers and can help you choose a disc that best suits your style and ability. In many sports, players want the same equipment the pros use. In most cases that will work fine; however in Disc Golf there are stability variations in different disc models that must be taken into consideration.

Once you have thrown a driver listed on the Flight Chart, you can use that as a frame of reference, then this chart will become a valuable tool in understanding what to expect from our other driver models. The discs are listed from the most understable on the right side of the chart, to the most overstable on the left, and the fastest models are listed from top to bottom.

If you are just taking up the game, choose one of our more understable drivers listed on the right side of the chart. These discs will fly straighter with less effort and are easier to control

in normal conditions. They are all excellent disc choices for those getting started, especially in lighter weights. These discs provide maximum distance in tail-wind situations for players of all abilities.

The drivers listed in the center section of the Flight Chart are our stable flyers. These stable drivers are our straightest flyers and perform well in most wind conditions. They are excellent choices for players of all skill levels, although newer players should choose lighter weights to get the best results.

Overstable discs are listed on the left side of the Flight Chart and are designed to fade back more noticeably at the end of the flight. They will resist turning over at the high speeds advanced players throw even into the wind. For newer players, these discs will not go straight for very long and are most useful on dogleg fairways, for sidearm and overhead shots and in windy situations.

Plastic Types

● CHAMPION ● PRO ● DX ● CFR

Speed – Speed is the ability of the disc to cut through the air. Up the right side of the page are the speed ratings for our drivers. 10 is the fastest through the air.

Listed for each disc are ratings for Glide, Turn and Fade
Glide – Glide describes the property of the disc being able to maintain its loft during flight. More glide is best for new players and for producing maximum distance, especially downwind. A disc rated 7 has the most glide.

Turn – **High Speed Turn** – This is the tendency of a disc to bank (right for RHBH throwers) during the initial part of the flight. A disc with a +1 rating is most resistant to turning over, while a -5 rating will turn the most.

Fade – **Low Speed Fade** – At the end of the flight, all discs tail off in the same direction (left for RHBH throwers) but some will "hook" harder than others. A disc rated "0" will finish the straightest with very little fade, while a disc rated +5 will hook hard at the end of the flight.

About our Disc Types

Distance Driver

Fairway Driver

Multi Purpose

Putt & Approach

INNOVA manufactures a complete line of discs for the sport of Disc Golf. We produce golf discs for every situation you may encounter; from the tee to the fairway to the green. Whether you are playing on wide-open courses or threading narrow wooded fairways, INNOVA has a disc to match all your Disc Golf situations. We also produce recreational and specialty discs for use in Disc Golf, Ultimate, All-Around competitions, as well as beach and backyard fun. Whatever disc you choose you will know it is an INNOVA original.

Distance Drivers

- Designed for maximum distance off the tee
- Provide the greatest range, speed, glide and control possible
- Offered in many different models, weights and plastics for players of every skill level
- Individual models are designed to perform uniquely in various conditions and situations
- Valkyrie currently holds the World Distance Record of 820 feet (250m) (See page 10)

Fairway Drivers

- Deliver dependable distance control for consistent fairway driving
- Valuable disc for shorter, controlled drives and long approaches
- Easier for beginners to use than distance drivers
- Help to increase confidence through added control and consistency
- Offered in several distinct models, weights and plastic types

Multi-purpose Discs

- Designed to provide accuracy and control for mid range, approach and short drives
- Provide dependability from fairway to pin
- Versatile discs that can perform a wide variety of shots
- Available in a wide range of models, weights and a selection of plastics
- Roc is the Multi-purpose disc of choice for professional players (See page 17)

Putt & Approach Discs

- Designed for dependable, accurate, and confidence inspiring putts
- Ideal for executing controlled upshots, short drives and "go for it" shots
- Available in a variety of different models to match unique putting styles
- Aviar is the most popular golf disc ever produced (See Pages 21-22)

Specialty Discs

- Designed for use in Disc Golf and other flying disc sports and games
- Several models from which to choose
- All Models are approved by the PDGA (Professional Disc Golf Association) for use in Disc Golf
- Some models are approved by WFDF (World Flying Disc Federation) for use in Overall competitions

Recreational Discs

- Ideal for playing games where catching is involved
- Pulsar is designed and approved for use in the game of Ultimate as well as Goaltimate
- Lite Polecats are excellent golf discs for the youngest players
- Most models are PDGA approved for use in Disc Golf

About our Plastics

INNOVA currently manufactures discs in three distinct lines of plastic. Each plastic offers unique flight characteristics and advantages to match the various needs of throwers and the diverse environments encountered on different Disc Golf courses. Our superior Champion Line plastic provides very high quality discs with ultimate durability. Our versatile Pro Line

plastic enhances grip and offers increased glide in flight. The ever-popular DX plastic is available in the widest variety of disc models and weights plus it is offered at a value price. Choose the plastic that is best suited for your abilities and situations, and remember that INNOVA is the leader in developing new disc technology.

Champion Line Plastic

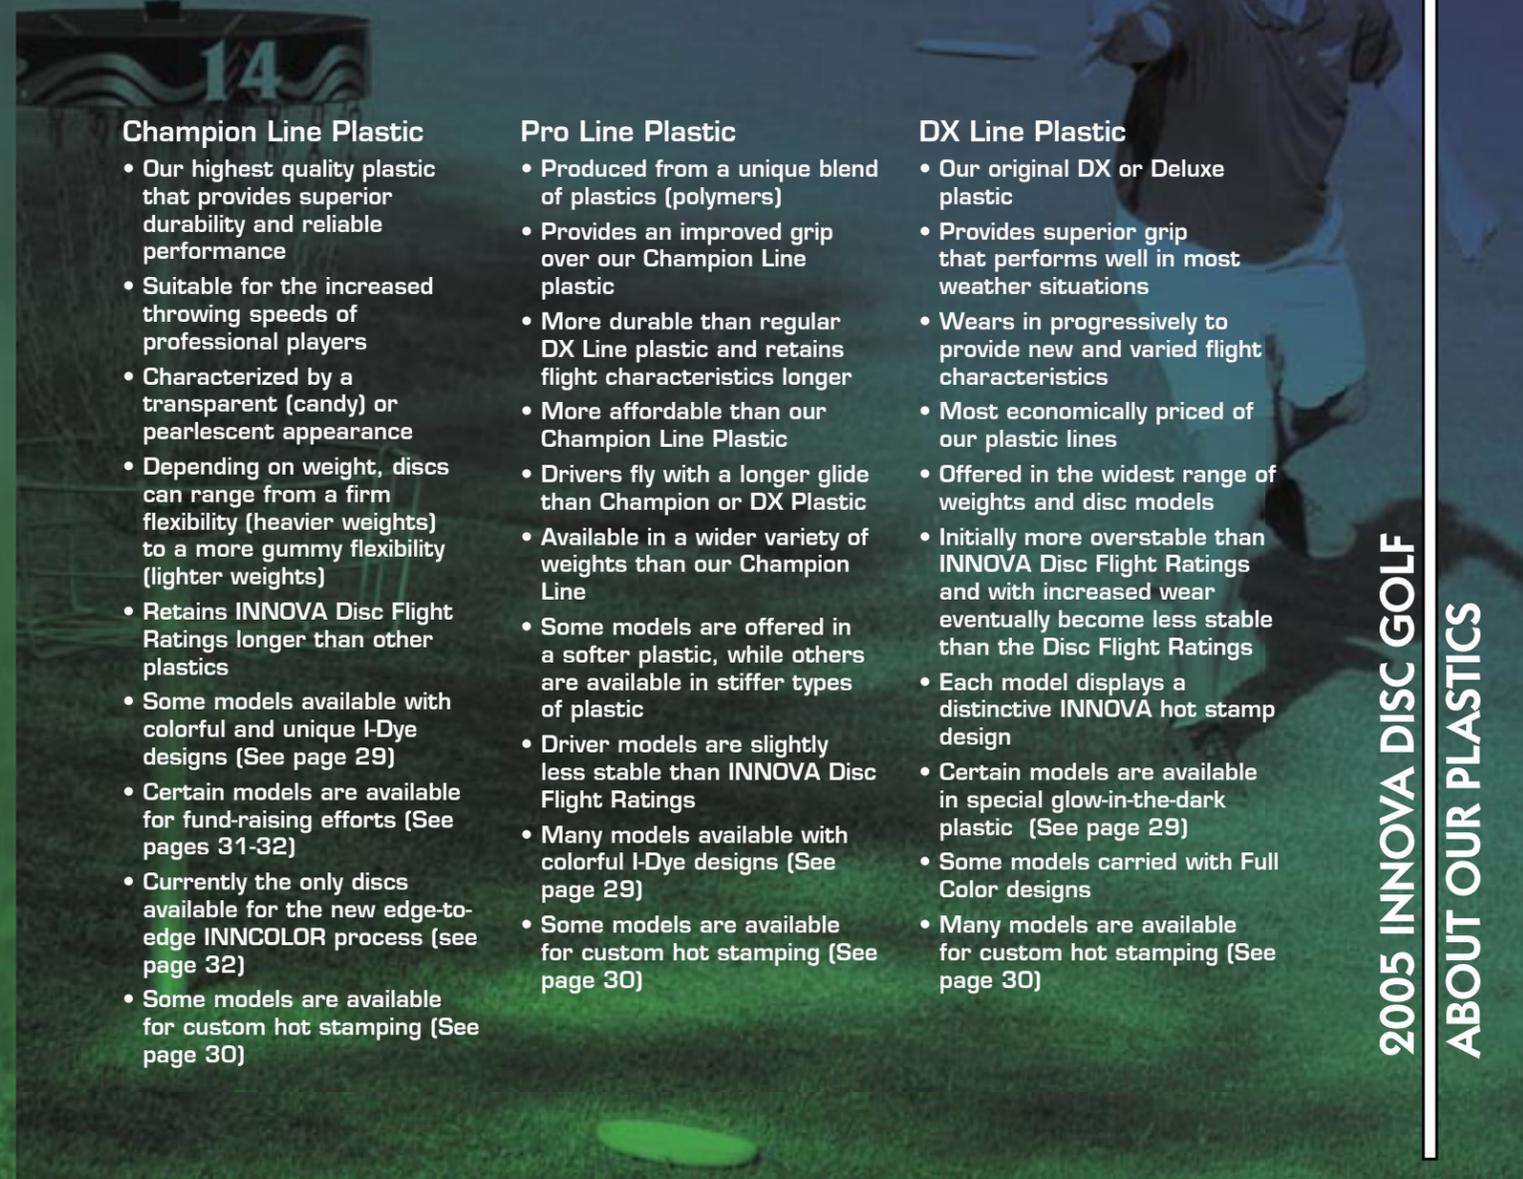

- Our highest quality plastic that provides superior durability and reliable performance
- Suitable for the increased throwing speeds of professional players
- Characterized by a transparent (candy) or pearlescent appearance
- Depending on weight, discs can range from a firm flexibility (heavier weights) to a more gummy flexibility (lighter weights)
- Retains INNOVA Disc Flight Ratings longer than other plastics
- Some models available with colorful and unique I-Dye designs (See page 29)
- Certain models are available for fund-raising efforts (See pages 31-32)
- Currently the only discs available for the new edge-to-edge INNCOLOR process (see page 32)
- Some models are available for custom hot stamping (See page 30)

Pro Line Plastic

- Produced from a unique blend of plastics (polymers)
- Provides an improved grip over our Champion Line plastic
- More durable than regular DX Line plastic and retains flight characteristics longer
- More affordable than our Champion Line Plastic
- Drivers fly with a longer glide than Champion or DX Plastic
- Available in a wider variety of weights than our Champion Line
- Some models are offered in a softer plastic, while others are available in stiffer types of plastic
- Driver models are slightly less stable than INNOVA Disc Flight Ratings
- Many models available with colorful I-Dye designs (See page 29)
- Some models are available for custom hot stamping (See page 30)

DX Line Plastic

- Our original DX or Deluxe plastic
- Provides superior grip that performs well in most weather situations
- Wears in progressively to provide new and varied flight characteristics
- Most economically priced of our plastic lines
- Offered in the widest range of weights and disc models
- Initially more overstable than INNOVA Disc Flight Ratings and with increased wear eventually become less stable than the Disc Flight Ratings
- Each model displays a distinctive INNOVA hot stamp design
- Certain models are available in special glow-in-the-dark plastic (See page 29)
- Some models carried with Full Color designs
- Many models are available for custom hot stamping (See page 30)

DISTANCE DRIVERS

Sitting at the top of the food chain, the Monster, Starfire, Orc, and Beast don't fear any other disc. They are built for speed and distance, distance, distance. In a world filled with imitators, the Beast is the true originator, paving the way for the Monster, Orc and Starfire. Whether you are a beginner looking for distance or a distance thrower looking for more, these discs should fit your needs. From the Monster which is made for a big arm thrower to the Beast, which is suitable for beginners, these discs crashed onto the scene and added distance to the game of pros, ams and recreational players alike.

Barry Schultz - Two Time World Champion

MONSTER

speed	glide	turn	fade	diameter
10	3	0	5	21.2cm

The Monster is our most stable, powerful, wind beating distance driver. It is made for people who can turn over other discs into a stiff headwind. The Monster can fight some of the fiercest winds out there. We have not tested it in hurricane force winds... yet. The Monster is best suited for more advanced players.

Available Model:
Champion Monster \$15.99
165-175 grams

STARFIRE

speed	glide	turn	fade	diameter
10	4	0	3	21.2cm

The Starfire came out to rave reviews for its long straight flights. The Starfire is great into headwinds and flies long and flat when thrown hard and smooth with a flat release. Since the Starfire is only available as a Candy Fund Raising disc, it will appeal to collectors, while its distance and accuracy will make it a must have for the player.

Available Model: 160-175 grams
Candy Fund Raising and INNOCOLOR only. Turn to page 31-32 for more info.

ORC

speed	glide	turn	fade	diameter
10	4	-1	3	21.2cm

When the Orc hit the market, everybody had to have one. It was simply the longest disc available that blended accuracy with phenomenal distance. The Orc is our premier disc in terms of speed, accuracy and stability. Thrown flat, this disc will fly straight. Suitable for powerful throwers, but still manageable by beginners in lighter weights.

Available Models:
Pro Orc \$12.99
160-175 grams
Champion Orc \$15.99
155-175 grams

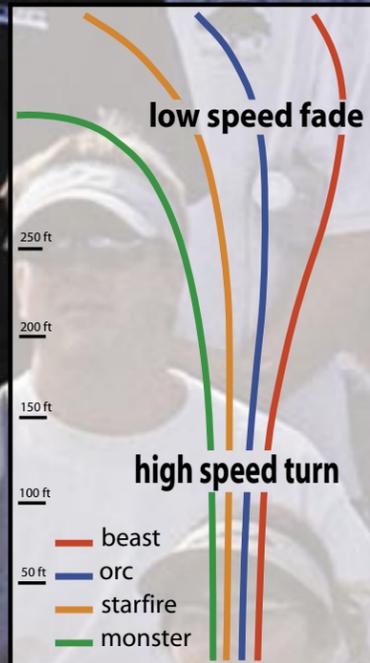

BEAST

speed	glide	turn	fade	diameter
10	4	-2	3	21.2cm

The Beast issued in the era of the wide rimmed driver. The wide, shallow rim allows for maximum speed on release and less friction across the underside of the disc, allowing for maximum distance. The Beast was an instant classic when it was released; giving players more distance using less power. It is suitable for beginners and pros alike. A favorite of two-time World Champion Barry Schultz.

Available Models:
DX Beast \$8.99
150 class-175 grams
Pro Beast \$12.99
160-175 grams
Champion Beast \$15.99
160-175 grams

"The Beast is my main distance driver. The major reason I like the Beast so much is that it is a very controllable driver that has many uses, yet it is so fast it makes a great distance disc. I usually carry 2 or 3 Beasts at a time depending on the course (open vs. wooded) and the weather (hot vs. cold and dry vs. wet). I always carry the very first **Champion Beast** I received in the fall of 2002. It seems to get better with age, as most discs do. I do like the long life of the Champion plastic and therefore like to use it in the woods. I will have a fresh **Champion Beast** in my bag as well. I will throw in a **DX Beast** when it is cold or wet and also if it is an open course."

Barry Schultz
2 Time World Champion

Christian Sandstrom uses what is called a 360 turn around distance shot where his body spins around right before he throws. This throwing style allows Christian to propel the Valkyrie high and hard at a slight anhyzer angle. The Valkyrie has the perfect degree of turn for his throwing style and as the disc hits peak altitude it turns over, allowing it to glide a long long way before the speed of the disc is slow enough that it finally fades out. This is not your typical Disc Golf accuracy shot, but Christian demonstrates just how far a disc can really fly.

Christian Sandstrom demonstrates his world record technique

DISTANCE DRIVERS

INNOVA provides Distance Drivers for players of all skill levels. Whether you are new to the game, or an experienced professional, INNOVA has the disc to suit your needs. From our new disc, the Sidewinder, which turns and glides with ease and is an extraordinary roller, to the dependable Firebird, which will fly into headwinds and handle the extra snap and power of professional players, INNOVA has a Distance Driver to match your game. You may choose the current holder of the world distance record, the Valkyrie, to stretch out your distance or the straight flying Viking to thread long narrow fairways.

NOTE: The current World Distance Record was set by INNOVA Team Member, Christian Sandstrom, on April 26, 2002 with a record throw of 250 meters (820 feet) throwing a 164g DX Valkyrie.

2005 INNOVA DISC GOLF

DISTANCE DRIVERS

FIREBIRD

speed	glide	turn	fade	diameter
9	3	0	4	21.2cm

The Firebird is our most popular upwind distance driver. The Firebird's combination of superior speed and stability make it possible to throw drives into the wind with confidence. An excellent disc for throwing long range flex shots. A favorite of sidearm and overhead throwers, too. This disc is designed for professional level players.

Available Models:
DX Firebird \$8.99
 150 class-175 grams
Champion Firebird \$15.99
 155-175 grams

VIKING

speed	glide	turn	fade	diameter
9	4	-1	2	21.2cm

The Viking is one of our most versatile distance drivers from start to finish. The Viking is a long straight flyer with a very predictable fade at the end of the flight. This is an excellent disc for throwing both side arm and backhand shots due to its easy grip and neutral flight. The Viking is perfect for holding long, line drive shots as well as graceful left or right turning shots.

Available Models:
DX Viking \$8.99
 150 class-175 grams
Champion Viking \$15.99
 150 class-175 grams

VALKYRIE

speed	glide	turn	fade	diameter
9	4	-2	2	21.2cm

The Valkyrie is a World Record holding distance driver. It is an easy to learn disc, and in lighter weights will give newer players extra distance. Lighter weights also give players extreme range when thrown downwind, while maximum weights can give excellent upwind distance. The Valkyrie's high speed turn and flight characteristics make it great choice for long range turnover shots and rollers.

Available Models:
DX Valkyrie \$8.99
 150 class-175 grams
Champion Valkyrie \$15.99
 150 class-175 grams

SIDEWINDER

speed	glide	turn	fade	diameter
9	5	-3	1	21.2cm

The Sidewinder is a fast flyer with a predictable high speed turn and lots of glide. This disc can add distance to anyone's drive, but is especially useful for those with less power. The Sidewinder is our best disc for long turnover shots and long distance rollers. Even disc golfers who have never had much success throwing a roller shot, will be amazed at the results they can achieve with the Sidewinder.

Available Model:
Champion Sidewinder \$15.99
 155-175 grams

2005 INNOVA DISC GOLF

DISTANCE DRIVERS

DISTANCE DRIVERS

Choose an INNOVA Distance Driver to generate maximum distance off the tee. Different models are available to fill different needs. There is a distance driver designed with your game in mind. Newer players and those with less power will want to choose a disc with excellent glide, such as the Archangel and Dragon to provide additional distance, plus the Archangel makes an excellent turnover disc or roller. For headwind performance and for executing sidearm drives the Banshee is an excellent choice. To achieve a straighter line of flight with a predictable fade, consider the TeeBird or the new TeeBird-L or Eagle. Whichever Distance Driver you choose, you know it will be the choice of champions.

DRAGON

speed	glide	turn	fade	diameter
8	6	-2	2	21.2cm

The Dragon is a lightweight distance driver with excellent glide for less powerful throwers who want to get more distance with less effort. Made in a special DX plastic with a great grip. The Dragon will float in water. Dragons are only available at 150 grams.

Available Model:
DX Dragon \$8.99
150 grams

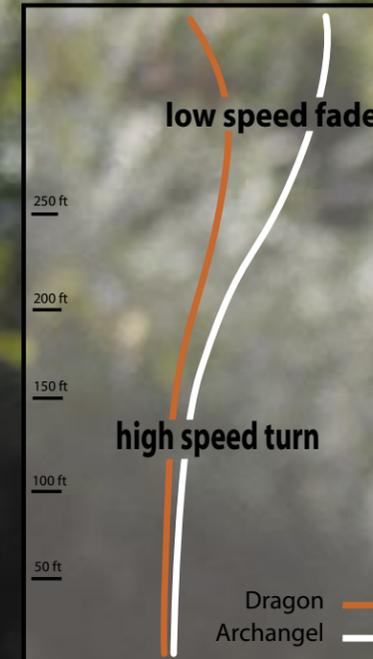

ARCHANGEL

speed	glide	turn	fade	diameter
8	6	-4	1	21.2cm

The Archangel is our easiest distance driver to throw for distance - especially for those with less power. The Archangel's high glide, fast speed and turning characteristic all combine to stretch out distance shots. The Archangel also doubles as an easy to turn roller disc. Lighter weights work great for younger players.

Available Model:
DX Archangel \$8.99
150 class-175 grams

BANSHEE

AVERY JENKINS - TEAM CHAMPION

speed	glide	turn	fade	diameter
7	3	0	3	21.2cm

The Banshee is a versatile and dependable overstable driver. It has a high degree of predictability, throw after throw. You can count on a Banshee to perform even into the wind. It is an excellent disc for sidearm, backhand and overhead throws, offering predictable, dependable flights.

Available Models:
DX Banshee \$8.99
150 class-175 grams
Champion Banshee \$15.99
150 class-175 grams

TEEBIRD

speed	glide	turn	fade	diameter
7	5	0	2	21.2cm

The TeeBird is one of our most accurate and reliable distance drivers. It has a combination of straight flight, high glide and good speed making it accurate and long flying both upwind and downwind. A popular choice for pros including 11-time World Champion and Hall-of-Famer Ken Climo. Great for accuracy, distance and sidearm.

Available Models:
DX TeeBird \$8.99
150 class-175 grams
Pro TeeBird \$12.99
150 class-175 grams
Champion TeeBird \$15.99
150 class-175 grams

EAGLE

speed	glide	turn	fade	diameter
7	4	-1	3	21.2cm

The Eagle is our original, professional level distance driver. It ushered in a new era for distance and reliability. The Eagle's superior speed and predictable flight characteristics let you make confident and accurate long range power shots. The Eagle's high speed turn is excellent for power turn over shots.

Available Models:
DX Eagle \$8.99
150 class-175 grams
Champion Eagle \$15.99
150 class-175 grams

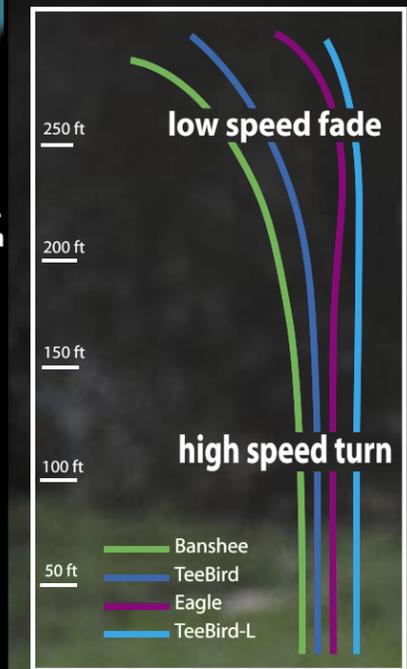

TEEBIRD-L

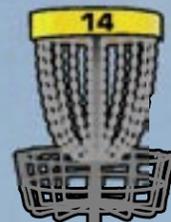

speed	glide	turn	fade	diameter
7	5	0	1	21.2cm

The TeeBird-L is the brother of the reliable TeeBird. The "L" stands for "Less Overstable" and "Longer". This disc has the same great speed and glide as the TeeBird, but is straighter flying with less fade at the end of the flight. If you are looking for a straight flying maximum distance driver in Pro-line Plastic, the TeeBird-L is the answer.

Available Models:
Pro TeeBird-L \$12.99
150 class-175 grams

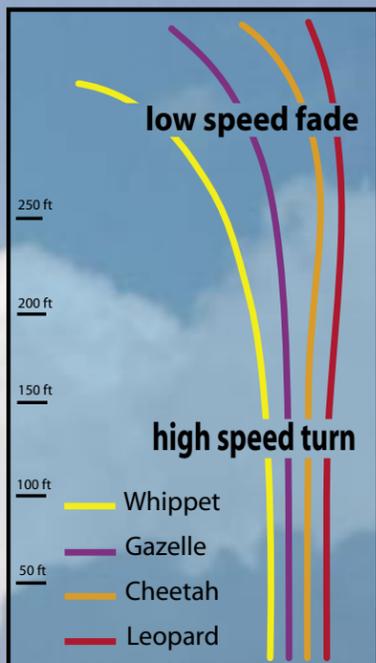

Whippet

speed	glide	turn	fade	diameter
6	3	+1	5	21.2cm

The Whippet is a very overstable driver used for medium long left hooking shots. It holds a line extremely well even when thrown into stiff headwinds. Great for specialty shots like overheads, spike hyzers, forehand rollers, hook thumbers and skip shots. Designed to handle the power of professional level players.

Available Models:
 DX Whippet \$8.99
 150 class-175 grams
 KC Pro Whippet \$12.99
 150 class-175 grams

Gazelle

speed	glide	turn	fade	diameter
6	4	0	2	21.2cm

The Gazelle is a great overall disc for players of all skill levels because of its versatility and control. It is a dependable driver that has a long straight flight with a predictable fade at the end. The Gazelle works well in headwind situations for both long and medium range shots. It has a narrow rim that is easy for smaller hands to grip.

Available Models:
 DX Gazelle \$8.99
 150 class-175 grams
 Champion Gazelle \$15.99
 165-175 grams

Cheetah

speed	glide	turn	fade	diameter
6	4	-2	2	21.2cm

The Cheetah is a great driver for throwing straight long shots at any skill level. It is a very versatile disc that is predictably stable at lower speeds and will turnover slightly at higher speeds. It is an excellent disc choice for younger disc golfers

Available Models:
 DX Cheetah \$8.99
 150 class-175 grams
 Champion Cheetah \$15.99
 150 class-175 grams

Leopard

speed	glide	turn	fade	diameter
6	5	-2	1	21.2cm

The Leopard should be everyone's first fairway driver as it has excellent glide and is easy to throw straight and far. The Leopard is a great turnover disc for players of all skill levels. The Leopard makes a dependable long range roller.

Available Models:
 DX Leopard \$8.99
 150 class-175 grams
 Pro Leopard \$12.99
 150 class-175 grams
 Champion Leopard \$15.99
 150 class-175 grams

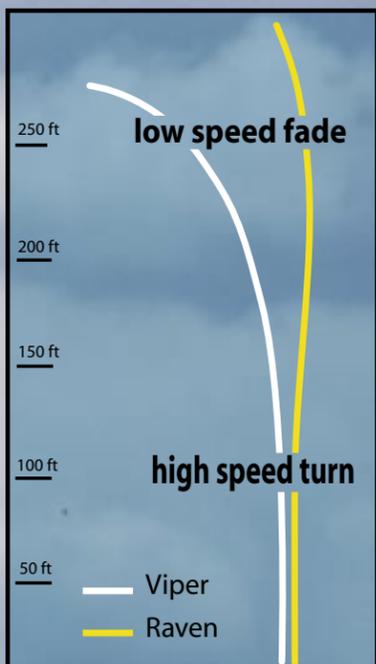

Viper

speed	glide	turn	fade	diameter
5	4	+1	5	21.7cm

The Viper is a stable to overstable disc that is very reliable in all wind conditions. The Viper changed the way Disc Golf is played by becoming the first disc used for the "Flex Shot". Excellent choice for sidearm throwers. Recommended for experienced players only.

Available Model:
 DX Viper \$8.99
 150 class-180 grams

Raven

speed	glide	turn	fade	diameter
5	4	-1	2	21.7cm

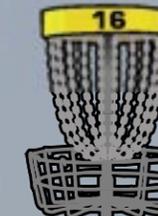

The Raven is a long range, straight flier with an excellent grip. It offers outstanding control and predictability on the fairway. Its large diameter makes it easier to throw than smaller diameter discs. The Raven is the longest range large diameter driver we make and it can double as a roller. Recommended for all skill levels.

Available Model:
 DX Raven \$8.99
 150-164, 175-180 grams

Fairway Drivers

Choose a Fairway Driver from INNOVA to add confidence to your game. These discs can be used for driving situations as well as approach shots. Whether you are playing wide-open fairways or a tight wooded course, we have a Fairway Driver to handle the job. Ken Climo's first six Disc Golf World Championship titles were won using Vipers and Cheetahs as his main drivers. From the Whippet which handles headwinds with ease, to the Leopard which can provide smooth, easy turning drives, you can find a Fairway Driver that is right for you.

Brian Schweberger - Team Champion

Craig Leyva powers his Gator

MULTI PURPOSE

Putting INNOVA Multi-purpose discs in your bag can help you achieve the precision and control you need in a variety of situations. Our Multi-purpose discs can add accuracy to your short drives, boost confidence in your upshots and make "go for it" shots an attainable goal. From the Gator, which is a reliably stable disc even in windy situations, to the Stingray, a great turning disc and popular roller, choose any of our Multi-purpose discs with confidence because every shot counts.

GATOR

speed	glide	turn	fade	diameter
5	2	0	3	21.2cm

The Gator is a very reliable over-stable multi-purpose disc with a predictable finish. The Gator delivers pin-point accuracy for shorter drives and approach shots even in windy conditions. This is a great disc for mid range shots especially for players who need to control their power and increase their accuracy.

Available Model:
DX Gator \$8.99
150 class-175 grams

SPIDER

speed	glide	turn	fade	diameter
5	3	-1	1	21.2cm

The Spider is a multi-purpose disc that works for hyzer, straight and turnover throws. Throw it with the nose up and the Spider will turn left, with the nose down it will turn right. The Spider is a low speed predictable disc that makes a great approach disc. Excellent for all skill levels and players who prefer a smaller diameter disc.

Available Models:
DX Spider \$8.99
150 class-175 grams
Champion Spider \$15.99
165-175 grams

COBRA

speed	glide	turn	fade	diameter
5	4	-2	2	21.7cm

The Cobra is a predictable multi-purpose large diameter disc that is easy to grip. It is very beginner friendly with a long and useful lifespan. The Cobra is a great disc choice for long slow turning shots and rollers. The thin rim is great for smaller hands and creates a clean predictable release.

Available Models:
DX Cobra \$8.99
150 class-180 grams
Pro Cobra \$12.99
165-180 grams
Champion Cobra \$15.99
150 class-180 grams

PANTHER

speed	glide	turn	fade	diameter
5	3	-2	1	21.2cm

The Panther is a slightly understable multi-purpose disc with a shallow rim. Players of all abilities can use it for throwing medium and short range shots. The Panther is a perfect disc for those learning to throw a slow controlled turnover shot. The Panther makes a great small diameter roller for mid to long range shots.

Available Models:
DX Panther \$8.99
151-160, 170-175 grams
Champion Panther \$15.99
150 class-175 grams

STINGRAY

speed	glide	turn	fade	diameter
5	5	-5	1	21.7cm

The Stingray is a large diameter disc that has a very predictable turn and excellent glide. It has a shallow rim that makes it easy to grip for smaller hands and allows for a smooth consistent release. These characteristics make it a good choice for beginners. The Stingray is also an excellent disc for throwing controllable mid to long range roller shots.

Available Models:
DX Stingray \$8.99
150 class-180 grams
Champion Stingray \$15.99
150 class-180 grams

Sweden's Jesper Lundmark - Team Champion

MULTI PURPOSE

Choose our Multi-purpose discs to handle a wide variety of shots and bring an extra dimension to your game. These versatile discs can be used for short drives and upshots, as well as putting. From the Hydra which floats in water, to the Wolf, which can navigate narrow fairways; use our Multi-purpose discs and provide yourself with additional confidence in your short game. Whether you choose the ever-popular Roc, one of our original discs, the dependable Shark, an excellent all-around disc, or any of our Multi-purpose discs, you can be assured you are playing with the best discs available.

2005 INNOVA DISC GOLF
MULTI PURPOSE

BULLDOG

speed	glide	turn	fade	diameter
4	3	0	3	21.2cm

The Bulldog is an over stable multi-purpose disc that is a predictable flier. It is designed to improve your short game in windy situations. It is excellent for players who need to control their power. The Bulldog is a firm disc with a tall rim and is a good fit for players with larger hands. The unique feel and easy to release grip makes the Bulldog an excellent putter as well.

Available Model:
DX Bulldog \$8.99
165-175 grams

ROC

speed	glide	turn	fade	diameter
4	4	0	3	21.7cm

The Roc is simply the best, most versatile multi-purpose disc ever made. It provides accuracy at any range. This disc can take and hold the angle of release, even into a headwind. It can be used for driving, upshots, straight shots, hyzer shots or anhyzers. The Roc ages gradually and predictably. If you're not sure what disc to throw, choose the Roc just like most pros.

Available Models:
DX Roc \$8.99
150 class-180 grams
KC Pro Roc \$12.99
150 class-180 grams

CLASSIC ROC

speed	glide	turn	fade	diameter
4	3	0	2	21.2cm

The Classic Roc is a small diameter multi-purpose disc that makes a great midrange driver for players of all abilities. This accuracy disc provides a great "touch" for shorter holes and longer approach shots. It is a solid performer for straight or turnover shots. The Classic Roc makes a good putter as well.

Available Models:
DX Classic Roc \$8.99
150 class-175 grams
Pro Classic Roc \$12.99
150 class-175 grams

SHARK

speed	glide	turn	fade	diameter
4	4	0	2	21.7cm

The Shark is the perfect multi-purpose disc for players of all skill levels. It is great for predictable straight, hyzer or anhyzer drives and approach shots, plus you can even putt with it. Beginners will benefit from the smooth rim and consistent release. It has good carry and makes long approaches easy to reach.

Available Models:
DX Shark \$8.99
150 class-180 grams
Pro Shark \$12.99
160-180 grams
Champion Shark \$15.99
160-180 grams

HYDRA

speed	glide	turn	fade	diameter
4	3	-1	1	21.2cm

The Hydra is a multi-purpose disc for short turning drives and approach shots. It is made with a grippy, durable plastic that floats in water. It is easy to release and has a friendly grip making it a great putter as well. All Hydras are approximately 170 grams.

Available Model:
DX Hydra \$8.99
170 grams only

WOLF

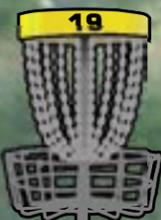

speed	glide	turn	fade	diameter
4	3	-4	1	21.7cm

The Wolf is an under-stable multi-purpose disc designed for making medium range straight and turnover shots. It features the patented INNOVA Thumtrac® for added grip and reliability. The Wolf allows any player to learn turnover shots with very little effort. A great feeling disc that is easy to release. The Wolf is great in the woods and also makes an excellent mid range roller disc.

Available Models:
DX Wolf \$8.99
150 class-180 grams

2005 INNOVA DISC GOLF
MULTI PURPOSE

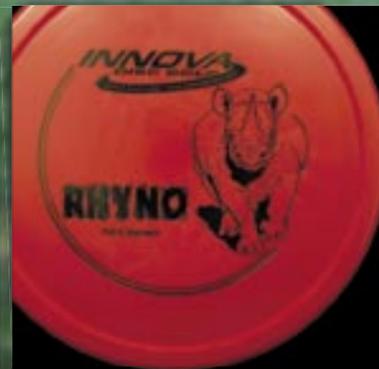

Putt and Approach

Nowhere else in Disc Golf can you shave as many strokes from your game than around the green. When performance counts, INNOVA offers putters in a variety of models and plastics for every putting style. Choose an INNOVA Putt & Approach disc to match your unique putting style and grip preference. Whether you choose the Aviar, the choice of champions or any of our other fine Putt and Approach discs, INNOVA makes a putter that is designed for you. Beginners will love the Aero, Polecat and Birdie, three of our straightest fliers. The Aero, the first true golf disc, offers the straightest flight path and the most glide of any Putt and Approach disc. The XD is a low profile disc that behaves most like a mid range, while the Rhino is a great windy day putter and works well for those who like to attack the chains. Choose an INNOVA Putt and Approach disc and add confidence to your putting game.

Michael Johansen putts with a Rhino

RHYNO

speed	glide	turn	fade	diameter
3	1	0	+3	21.2cm

The Rhino is an overstable putt and approach disc that can handle headwinds. Great for players with lots of throwing power as the Rhino stops on a dime and stays close to the basket. It is a must have disc for short to medium up shots and putting into the wind. The Pro-line model is also called a "Soft" Rhino and is made to be super soft and flexible in an extra grippy plastic that grabs the chains.

Available Models:
DX Rhino \$8.99
 150 class-175 grams
Pro Rhino \$12.99
 160-175 grams
Champion Rhino \$15.99
 160-175 grams

AERO

speed	glide	turn	fade	diameter
3	6	0	0	21.7cm

The Aero is our best disc for beginners and players using only one disc. It is the straightest point-to-point golf disc and the easiest disc to keep on the fairway for beginners. It is a slow flying control disc with a large diameter and a significant amount of float. When broken in the Aero will turnover very slowly and predictably. The Aero was introduced in 1983 as the first disc designed specifically for Disc Golf.

Available Models:
DX Aero \$8.99
 150-180 grams
Champion Aero \$15.99
 175-180 grams

XD

speed	glide	turn	fade	diameter
3	4	-1	1	21.2cm

The XD has a low profile, thin rim which promotes a secure grip and an easy, natural release. These features combined with straight flight characteristics make the XD an easy to throw and control disc. It is the most driver-like putter we have and is useful for putts, drives and approach shots. Good disc for developing a "touch" around the basket.

Available Models:
DX XD \$8.99
 165-175 grams

POLECAT

speed	glide	turn	fade	diameter
2	3	0	0	21.2cm

The Polecat is a beginner friendly putt and approach disc. It is a straight flying disc made in a comfortable, grippy plastic. This putter is great for short drives and approaches as it takes and holds the angle of release regardless of speed. A great choice for pros and beginners as it works well with all putting styles.

Available Models:
DX Polecat \$8.99
 150 class-175 grams

BIRDIE

speed	glide	turn	fade	diameter
1	2	0	0	21.2cm

The Birdie is a slow, straight flyer with our Thumtrac® grip for a sure release. It has great chain catching ability. Great for approach shots as it flies straight and slow start to finish. It is one of our best "go for" discs as it doesn't go far past the basket on misses, and stays put when it hits the ground. A good disc for those players making the conversion from flat edged disc sports: Catch, Ultimate, Freestyle, etc.

Available Models:
DX Birdie \$8.99
 150 class-175 grams
Pro Birdie \$12.99
 165-175 grams

Some tips for becoming a better putter:

- Putting is all about the "feel" of the disc flying to the target with the proper speed, height, line and disc angle. All these components are important, and when done properly, they become integrated into one "feel".
- Consider getting five or more putters to use just for practice. They should all be of the same model and weight. Repetition helps to reinforce the "feel" of a quality putt, plus you can practice many more putts with five discs than you can using only one.
- Practice quality putts. These are the putts you want to practice and reinforce. Forget the bad putts. Putting just to hit a certain number of putts, or for a set period of time, is useless without quality.
- Create a pre-putt routine by saying the same words to yourself before every putt or by completing a specific string of actions each time you putt. When you make your pre-putt routine a habit, it can help to lift the mental pressure you may feel when it comes time to sink that "big putt".
- You can view more putting advice from Dave Dunipace at innovadiscs.com

Putting Jargon

Holing Out – A successful putt/shot that is suspended in the chains or at rest in the basket tray.

Straddle Putt – Putting with the feet spread about shoulder width apart and equidistant to the target.

Jump Putt – A putt outside of 10 meters where the player's feet leave the ground after the disc is released.

Falling Putt – Inside 10 meters of the target, when a player steps past the marker disc during the shot. First violation is a warning, after that it's a stroke penalty. **Spit Out** - AKA Bounce Back or Kick Out– A solid putt that bounces out of the target instead of staying in the chains or dropping into the basket.

Blow-Through - A putt that goes through the chains and out the back.

Wus – A weak putt that has no chance to go in the basket.

Hyzer Putt – Refers to the angle of release where the putter is tilted with the right side of the disc raised at an angle above the left side for RHBH thrower. (reverse for left handed)

Floater – A putting style where the putter is thrown slowly with the nose up to float into the chains.

Bullet or Jam – A putt which uses speed to make the disc go straight. Missed bullet putts make for long come back putts.

Wedge Putt – A putt that wedges into the side of the basket. Grab your disc quick, as this is legal until it falls out.

DROT – Acronym meaning Disc Resting On Top – This is where a disc comes to rest on top of the basket. This does not count as "holing out".

Doink – The horrible sound a disc makes when it crashes into the side of the basket and falls to the ground.

The Aviar - Still the best after more than 20 years

The Aviar has long been a key component in the game of more world champions than any other disc. The Aviar is one of our original discs, and is still as popular today as when it was introduced in 1984, a testament to the pioneering genius of INNOVA co-founder and disc designer Dave Dunipace. We offer several versions of the Aviar to complement everyone's game. For a firmer disc, choose the KC Aviar or Classic Aviar. If you prefer a softer touch, try the JK Aviar or the Aviar Putt & Approach. Whichever Aviar you choose, it is still the choice of world champions.

Eleven Time World Champion Ken Climo

2005 INNOVA DISC GOLF
PUTT & APPROACH

KC Pro Aviar

speed	glide	turn	fade	diameter
3	3	0	+2	21.2cm

The KC (Ken Climo) Pro Aviar is made from the Aviar driver mold in a firm blend of special KC plastic (which is also used for the KC Roc and KC Whippet) for players who prefer a stiffer disc. This is the preferred model of professional players. Great for drives, approaches and putts.

Available Model:
KC Pro Aviar \$12.99
160-175 grams

Pro Aviar

speed	glide	turn	fade	diameter
3	3	0	+2	21.2cm

The Pro Aviar is made with a durable blend of Pro-line Plastic for great grip and a straight, true flight. This Aviar is made from the driver mold to provide additional stability over the Putt and Approach model. Like all Aviars, it is perfect for driving, approaching and putting.

Available Model:
Pro Aviar \$12.99
160-175 grams

JK Pro Aviar

speed	glide	turn	fade	diameter
3	3	0	+2	21.2cm

The JK (Juliana Korver) Pro Aviar is made from the driver mold in a special blend of durable Pro-line Plastic that is more flexible and grippier than the other Aviar models. It has the same flight characteristics as the KC Aviar. Its softer plastic is better in colder climates and for those who have dry hands and require a tackier grip.

Available Model:
JK Pro Aviar-X \$12.99
160-175 grams

Champion Aviar

speed	glide	turn	fade	diameter
3	3	0	+1	21.2cm

The Champion Aviar offers all the same features of the Aviar Putt & Approach except it is made in our durable Champion Plastic. This disc is made with a special putter blend that is very grippy and has very little bounce to help keep putts in the basket.

Available Model:
Champion Aviar \$15.99
150 class-175 grams

Aviar Putt & Approach

speed	glide	turn	fade	diameter
3	3	0	+1	21.2cm

The Aviar Putt & Approach is our most popular disc model and the number one putter in Disc Golf. It is versatile and is dependable in all conditions. A must have disc for any serious competitor's bag. This is the small bead model that is a straight flyer with a predictable finish.

Available Model:
DX Aviar P & A \$8.99
150 class-175 grams

Classic Aviar

speed	glide	turn	fade	diameter
3	3	0	0	21.2cm

The Classic Aviar is the original model that gave rise to all other Aviars. The Classic is our straightest flying Aviar model from start to finish. It is made in a firm plastic with a good grip. Like all other Aviar models it is reliable and dependable in all conditions.

Available Model:
DX Classic Aviar \$8.99
150 class-175 grams

3 Time Masters World Champion

INNOVA'S DX Line is produced with our deluxe plastic. The DX Line offers the widest selection of models and weights. These discs are affordably priced and provide an excellent grip in a variety of weather conditions. DX discs over time will eventually take on new and varied flight characteristics. Many top pros carry several DX discs of their favorite models to provide different flight patterns for different situations.

Some DX discs are available in glow-in-the-dark plastic, with Throw Art designs or with our Full Color hot stamps. Most models are available for custom hot stamping.

INNOVA's Disc Golf Set features 3 DX favorites. It is the ideal selection of discs to get you started.

MSRP \$28.99

"As a general rule, I prefer to use DX Plastic. I am what you call a "feel" player. The DX plastic just has a more consistent feel or texture in all conditions."

Pro Line Discs

Great Grip, Improved Durability

INNOVA'S Pro Line is manufactured using special blends of plastics and are designed to provide unique qualities for each available model. These quality discs offer increased durability over discs made in our DX plastic and provide an enhanced grip when compared to the Champion plastic. Our Pro Line drivers provide additional glide when compared to all our other disc lines and are more affordable than our premium Champion Line discs. The special blend of our Pro Line plastics can produce discs in a wide range of rigidity, from the extremely soft and flexible Pro Rhino or JK Aviar to the stiff, firm plastic of the KC Pro Aviar. Regardless of the firmness of the disc, all of the INNOVA Pro Line models offer unique "gripability".

Many Pro Line discs are also available in colorful I-Dye designs.

Champion Discs

The Difference is Clear

INNOVA's Champion Line is produced with a hi-tech plastic that provides outstanding performance and durability. Champion discs are distinguished by a clear or pearlescent plastic. Our Champion Line discs retain original flight characteristics for an extended period of time. Whether used in heavily wooded situations or on extremely rugged courses, our Champion Line plastic will continue to perform predictably and avoid damage better than any other plastic. Originally designed for professional players, Champion Line discs can handle the increased power of top level players. The Champion Line has recently expanded to include most of our drivers as well as many of our popular disc models in other categories.

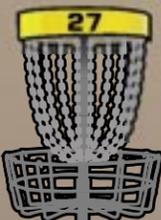

Many Champion Line discs are now available for fund-raising, custom hot stamping and now INNOVA'S new edge-to-edge INNCOLOR process.

The Champion 3 Pack is a great gift for those serious about improving their game.

Specialty Discs

Specialty Discs are designed for use in Disc Golf and other flying disc sports and games. Several of these discs are classic "Old School" models with a loyal following. Some models are also approved by WFDF (World Flying Disc Federation) for use in the Overall events of Accuracy, Discathon and Self-Caught Flight. Our entire line of Specialty discs are PDGA (Professional Disc Golf Association) approved for use in Disc Golf.

Dave Greenwell throws a thumb roller with his trusty Condor

Ace

The ACE is a fairway driver that flies long and straight with lots of glide. It is a great disc for those learning the game, but is also a great finesse disc for more experienced players.

Available Model:
DX Ace \$8.99
165 grams

Classic Cobra

The Classic Cobra is an all around finesse driver that is easy to grip. This is a large diameter disc that is easy to throw and forgives small throwing errors. The Classic Cobra also has a long life span, becoming a good roller as it ages.

Available Model:
DX Classic Cobra \$8.99
165-180 grams

Condor

The Condor has long been a favorite of Disc Golf pros throwing thumb rollers and is available in heavy weights for just that purpose. The Condor is our largest diameter and heaviest weight golf disc. The Condor has a very stable true flight. It is very accurate at all ranges. In the very light weight (138grams) the Condor is used for Self Caught Flight events of Throw, Run and Catch (TRC) and Maximum Time Aloft (MTA). The Condor currently holds the TRC World Record of 94 meters.

Available Model:
DX Condor \$8.99
138, 190-200 grams

Jaguar

The Jaguar is an ideal disc for low power players who need to stretch out their distance. The Jaguar's turning characteristic and high glide make the most out of weak throws whether they are backhand air shots or rollers. This is our largest diameter golf disc and is available up to 200 grams.

Available Model:
DX Jaguar \$8.99
160-200 grams

Optimizer

The Optimizer is a beginner friendly disc that features a small rim, soft material, and an understable flight. It is a great disc for beginners and demonstrations as it is easy to learn, making it perfect for one-day events and festival courses.

Available Model:
Optimizer \$6.99
170 grams

Super Nova

The Super Nova is an excellent all around recreational disc. It features our patented Thumtrac® technology for great grip and true flights throw after throw. Great for Ultimate, catch or Freestyle. It is a PDGA approved golf disc. A great disc for a day at the beach.

Available Model:
Supernova \$9.99
180 grams

Zephyr

The Zephyr is a throw and catch disc. It has long been a favorite for the Overall events of Discathon and Accuracy (160 grams). The Zephyr is great at the beach, at the park or on the Disc Golf course. The Zephyr has a very straight and true flight characteristic. The Zephyr's Thumtrac® gives it extra durability and a great grip, especially for sidearm throws. It's an awesome disc for playing catch at the beach, dude.

Available Models:
Light Zephyr \$8.99 138 grams
DX Zephyr \$8.99 160-200 grams

Lite Polecat

The Lite Polecat is an excellent golf disc for children. It makes an excellent catch disc as well. Weight: 105 grams

Available Model:
Lite Polecat \$4.99 105 grams

Flying Disc Jargon

WFDF – World Flying Disc Federation is worldwide organization providing rules, recordkeeping as well as continuity to the nine major flying disc events.

UPA – Ultimate Players Association serves as the governing body of the sport of Ultimate in the United States.

Guts is like dodgeball, but with flying discs. 5 players stand in a wall, facing 5 players in a wall. Points are earned by throwing an uncaught shot or when the other team throws a bad shot.

Ultimate is played with two teams of seven players each and with one flying disc on a 110 meter playing field with two end zones. Points are scored when a team catches a disc thrown into the opposing team's end zone.

Overall Events – Are comprised of a mix of seven individual events. Players may participate in one or all of the events: Disc Golf, Discathon, Self Caught Flight, Distance, Double Disc Court, Accuracy and Freestyle.

DDC – Double Disc Court - Is played by two teams of two players each and two discs. There are two courts, 13m x 13m and 17m apart; each court is defended by one of the teams. Two discs are simultaneously thrown back and forth by the teams and there are several ways to score.

MTA – Maximum Time Aloft. MTA measures the time a throw is in the air prior to being caught cleanly with one hand. The current world record is 16.72 seconds.

TRC – Throw Run Catch measures the distance in meters that a player can throw a disc and then successfully catch it with one hand. The object is to cover the greatest distance. The current world record is 94 meters.

SCF – Self Caught Flight is an overall event combining MTA and TRC. Each round, an SCF score is 5.5 times MTA score added to the TRC score in meters.

Accuracy – Players attempt to throw through a target of 1.5 by 1.5 meters that is 1 meter off the ground. Players attempt four throws from from seven different stations. The current world record is 25 of 28.

Freestyle – Freestyle is simply throwing and catching in creative ways. It is also an Overall Event where teams of two to three players perform a catch and throw routine lasting from three to five minutes with one or more discs. Routines are judged on: difficulty (10), artistic impression (10) and execution (10).

Discathon - A race in which players alternately throw two discs through a 200 to 1000 meter course, using the prior throw as the mark for the next throw. The discs thrown by the players must traverse the entire course through obstacles and mandatories. The object is to have the discs complete the course in the shortest time possible.

Recreational Discs

Recreational Discs are discs made for playing games where throwing and catching are involved. Enjoy these discs for your next game of catch at the beach, the park or in your backyard. The Pulsar and Super Nova are excellent discs for playing Ultimate and for Freestyling. These are all quality INNOVA products that will provide fun and enjoyment throw after throw.

Pulsar

The Pulsar is an excellent disc for Ultimate, Freestyle or for a game of throw and catch. Designed specifically to the UPA (Ultimate Players Association) standards in size and weight. It is the official disc for the sport of Goaltimate. A great throw and catch disc.

Available Model:
Pulsar \$8.99 175 grams

I-DYE DISCS

Add unique color to your game with I-Dye Discs! Each disc is individually dyed with bold colors and exciting designs. No two are exactly alike. These discs are attractive enough to display on your walls, yet much more fun to watch flying down the fairway.

I-Dye discs are available in the INNOVA Champion and Pro Lines as well as the Millennium and Millennium Quantum lines. Availability is limited to stock on hand with new shipments arriving often.

Champion
\$ 19.99
Pro Line
\$16.99

GLOW DISCS

There is no need to stop playing when the sun goes down. INNOVA'S Glow discs are made with a rechargeable glow-in-the-dark plastic that has a unique feel and allows play to continue in the dark. Simply use a portable black light, camera flash attachment, or flashlight to charge glow discs before play and between shots.

Our glow discs are not just for nighttime play! Glow plastic has a slightly different texture than our other discs. Many prefer the glow plastic for its unique feel, so it is not uncommon to see someone with a glow disc that they use every day.

Model and Weight Availability Varies.

Available Models:

Glow Aviar Putter
165-175 grams

Glow Roc
165-180 grams

Glow Leopard
165-175 grams

Glow TeeBird
165-175 grams

Glow Beast
165-175 grams

MSRP
\$ 12.99

Tips for Glow Golf Fun

Check the park hours and ask for permission if it is after normal operating hours.

A portable black light makes the ultimate glow charger and won't impair your night vision.

Bring a good flashlight with good batteries.

Throw safe shots, keeping the disc on the fairway.

The week before and after the new moon is ideal for glow golf.

Carry a mobile phone for emergencies.

Wear light colors and make sure nobody is in front of you when you throw.

Turn your head away and close your eyes when charging your discs with a flash.

Attach glow sticks to identify targets.

Custom Discs for Your Business, Course, Club or Tournament

Custom hot stamping is now available on select Pro-Line and Champion-Line models as well as most DX models

Use Custom Hot Stamping to Promote your Business

INNOVA offers Custom Hot Stamping on many models of our discs. We can imprint traditional one or two color foil designs or a full color design. Your business can sell customized discs bearing your company logo, business locations and information. This is great way to promote your disc business on the course and add a new dimension to your disc sales. Unique disc designs spark the interest of players and collectors alike. Every disc business should consider offering at least one line of custom stamped discs for sale to customers. It is a proven method to help increase sales. Place a custom hot stamp on a mini marker disc to create unusual business cards.

Promote your Course, League, Tournament or Special Event

Custom Hot Stamping is available for tournament and league directors, course pros or any organization wishing to offer a special disc for sale. The sales of Custom Stamped discs can provide a source of revenue for clubs and organizations. Since there is no limit to the amount of custom discs ordered, Custom Hot Stamping allows tournament directors to raise additional funds to supplement the successful CFR program, plus a wider variety of discs are available.

from this....

to this....

We can handle small or large custom orders, we have thousands of discs in stock ready to hot stamp.

Custom Hot Stamping

Place traditional one color or two-color foil designs on select disc models from our DX line, Pro-line and Champion line. Custom Hot Stamping is also available on mini marker discs. Please call for availability of models.

Full Color Hot Stamping

This is a process where complex full color images are imprinted on discs. Discs may be produced with individual labeled text for trophies or include numerical series. For example: We can produce custom full color trophy discs for your event showing each winner's name, division and place of finish. Full Color Designs are available on a selection of DX models.

We can provide an assortment of colorful stock designs, or we will assist you in creating your own custom graphics with affordable design and production costs. Consult with our graphics department to determine which custom application is suitable for your project.

Ordering Guidelines:

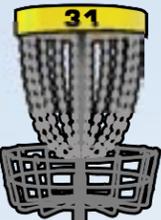

Custom Hot Stamps are available on a minimum order of 100 discs and must include at least 25 discs per individual model.

Models Available:

Available on most DX models and select Pro-line and Champion line models. Call for model and color availability.

Delivery:

Please allow three to four weeks for the set up, processing and delivery of your custom order. Tournaments should order at least six weeks in advance of an event to ensure timely delivery.

In 2004, INNOVA helped tournament directors and organizations raise over \$300,000 for tournaments, special projects and charity events through our Candy Fund Raising Program

The goal of the Candy Fund Raising Program is to allow tournament directors and organizations to collect the profits from selling Candy. That is, from selling custom stamped discs in special Candy/Champion plastic that are available only in limited quantities.

Since INNOVA can not provide cash sponsorship for every tournament or a cash donation for every charity event or fundraiser, we created the Candy Fund Raising Program (CFR). We sacrifice our potential profit on special limited edition discs to make them available at an extra special price. These CFR discs are models that are not available for sale in our regular product line, or they are models available only in limited runs of special Candy/Champion plastics which further enhances the value.

Current CFR discs available:

Candy Starfire

Candy TeeBird-L

Candy Classic Roc

Plus other Candy models and Glow Candy models on a limited basis. Please call for availability.

Interested?

If you are interested in participating in our Candy Fund Raising Program, we need to receive a sponsorship proposal in writing (written letter, e-mail, or fax). Be detailed about how you intend to use the money you raise, and be specific about how INNOVA will benefit from this sponsorship. Our sponsorship committee will review each request. Please call INNOVA to speak with a sponsorship coordinator. They will be glad to provide you with the complete details of the Candy Fund Raising Program.

Tips for successful Candy Fund Raising

Have a unique custom design. Creating the right piece of artwork will really make your disc stand out from the crowd. Be creative or find a designer to create your vision. That extra bit of effort will pay off in better sales and more money raised. Artwork really helps to make the product. Order early. Get the most benefit from the Candy Fund Raising Program by having your discs available for purchase well ahead of your event date. This will help provide advanced promotion and also raise money needed to pay for expenses incurred before the event.

INNCOLOR™ Full Color CFR Discs

Announcing our latest INNOVation that adds value and selection to the Candy Fundraising Program:

The INNOVA INNCOLOR™ Full Color Disc Imaging Process.

Now you can make your Candy Fund Raising discs extra special by using our new INNCOLOR™ process. INNCOLOR™ gives you the ability to present high resolution custom full color art from edge to edge.

Since this unique custom process is currently only available to participants in our CFR Program, it enhances the value of CFR products and makes these discs even more desirable to players and collectors alike. The INNCOLOR™ process will also be available on some of our regular Champion Plastic models for the CFR Program on a limited basis.

INNCOLOR™ creates a lasting impression that your sponsors and players will enjoy

Our Candy Fund Raising Discs Make People Happy

They make each person who buys one happy because they are getting a cool, hard to get disc, plus they become a sponsor of your event.

They make Tournament Directors happy because it cuts down on hunting for sponsors.

They make the players happy because the money raised from the discs goes right back into making the tournament a success.

The **Champion Starfire** is INNOVA's flagship model. It is highly sought after for its long flying, predictably straight flight. The Starfire is only available through the CFR program.

Available Disc Models

- CFR discs are limited in quantity for the INNCOLOR™ program. Please call for availability.

Minimum Order – Order quantities are based on the size of the event. Please call and speak to one of our sponsorship coordinators for complete details.

Delivery - Due to the special customization of the INNCOLOR™ process, please allow six to eight weeks for the set up, processing and delivery of your order.

OMEGA SS

Putting is all about touch, and the Omega Supersoft putter has a unique grip that maximizes control. Its softness helps it stick in the chains. It's the last putter you'll ever need.

Omega SS \$12.99
150 class-175 grams

OMEGA AP

The Omega AP is super predictable for the all-important short game. It's just about dead straight stable, so it'll hold any angle on its way to the basket.

Omega AP \$12.99
170-175 grams

Q-MEGA

Tough Quantum means the Q-Mega will last just about forever. The Q-Mega was designed for maximum control and has a firm feel for players who don't like a soft putter. For anything on or near the green, call on the Q-Mega.

Q-Mega \$15.99
150 class-175 grams

AURORA MS

The MS (Midrange Straight) may be one of the truest flying golf discs ever made. It's the best disc to have if you only have one - indispensable for beginners and experts.

Aurora MS \$12.99
165-180 grams

Q MS

The Q MS is a Quantum plastic version of the popular Aurora MS. With identical characteristics, it is straight and true, and simple to learn. The Q MS was constructed to last in your bag a long time.

QMS \$15.99
165-180 grams

Q SENTINEL

The Q Sentinel is a unique mix of speed and fade. It works best for low ceiling approaches and drives. Don't play on a windy day without it. Quantum plastic means it will survive many lashings from all sorts of obstacles.

Q Sentinel \$15.99
160-180 grams

MILLENNIUM

golf discs

Golf is a game of accuracy. For players who want the best in course management, Millennium makes discs designed for maximum control. Millennium plastic offers the best grip in the industry, and Millennium's straight-flying discs stay in the fairway.

For players who demand even more durability, most Millennium models are also available in Quantum plastic.

**PLAY SMART.
KEEP IT SIMPLE.
THROW MILLENNIUM.**

POLARIS LS

The Polaris LS (Long Straight) is the legendary driver that revolutionized the game. For holes where the pin is reachable from the tee, the LS makes the job easy.

Polaris LS \$12.99
150 class-175 grams

EXP1

The EXP1 combines the speed and fade players need for windy days and for tricky "flex" drives. Sometimes you just need a driver with a little extra something - and the EXP1 has it.

EXP1 \$12.99
160-175 grams

JLS

Smart golfers know that success starts by keeping your drive in the fairway. The JLS is still the best combination of control and distance available in a driver.

JLS \$12.99
150 class-175 grams

Q JLS

The Q JLS (fondly referred to as the "QJ") takes the success of the JLS into Quantum material which allows for maximum durability and life. A QJ is a great first driver that will work well as a turnover driver long after the word beginner stops describing you.

QJLS \$15.99
165-175 grams

Tour Bag

The INNOVA Tour Bag has been improved for 2005. We listened to what players were looking for in a larger bag and the result is our roomier, more durable and functional INNOVA Tour Bag. This bag is designed to easily hold 20 to 30 golf discs PLUS accessories. This is the ultimate bag for tournament use and for players who require a more durable and spacious bag.

The INNOVA Tour Bag allows you to carry the equipment you need to be prepared for any situation. Whether you plan to be on the course all day, or if you need to carry lots of accessories and weather gear, or you simply like to carry A LOT of discs, this bag has the space you need. The extra large, zippered main disc compartment holds 18 — 22 discs. Three removable accordion disc sleeves provide extra protection for your discs, and along with the adjustable dividers, allow you to customize your main disc storage area.

The INNOVA Tour Bag also comes with two beverage holders, a front putter pocket and a rear zippered compartment. There is room for cell phones and other accessories in the additional exterior Velcro side pocket, plus you can carry even more gear in the two roomy zippered side compartments (one contains a bonus security pocket).

- Easily holds 20- 30 discs PLUS accessories
- Includes padded adjustable shoulder strap
- Made with two sets of heavy duty reinforced strap connectors to accommodate backpack-style straps — straps not included
- Two exterior beverage holders with cinch straps secure containers of various sizes up to 32 oz
- Zippered main compartment easily holds 18 — 22 discs
- Includes three removable sleeves to provide extra protection for discs - each sleeve holds up to six discs
- Adjustable main compartment dividers included
- Two roomy zippered side compartments — one with interior security pocket — can hold up to four additional discs each
- Easy-access front putter pocket
- Zippered rear compartment for accessories will hold up to two additional discs
- Additional exterior Velcro side pocket will hold more gear or up to two additional discs.
- Reinforced carrying handles
- Reinforced bottom with rigid platform to provide extra support
- Water resistant
- Constructed of Durable Nylon Material
- Available in four colors - Navy Blue, Black, Burgundy and Grey

MSRP
\$ 69.99

Deluxe Bag

The INNOVA Deluxe Bag is an excellent choice for all players. The Deluxe bag is a durable, spacious bag with room for 15 to 20 discs plus accessories. The Deluxe Bag has a front putter pocket plus a zippered side pocket to hold additional equipment and accessories.

- Holds 15-20 golf discs
- Water resistant with reinforced bottom
- Padded adjustable shoulder strap
- 32 oz bottle holder with cinch strap
- Two outer pockets, plus a mesh zippered pocket on inside of flap
- Adjustable compartment divider for various configurations
- Removable accordion disc sleeve protects discs (more available)
- Quick access front putter pocket
- Available in Green, Burgundy, Navy Blue and Black
- Also available in our eye-catching Diamond Bag colors are subject to availability

\$ 51.99

Standard Bag

The INNOVA Standard Bag is a high quality, durable, and lightweight bag, designed for players that do not wish to carry a large bag. The Standard Bag holds up to 12 discs with room for accessories. Comes with detachable dividers and a disc sleeve to protect discs. There is a quick access front putter pocket as well as a zippered rear compartment.

- Holds up to 12 golf discs
- Water resistant with reinforced bottom
- Padded adjustable shoulder strap
- Removable disc sleeve provides additional protection for up to six discs
- Two adjustable compartment dividers
- 32 oz bottle holder with cinch strap
- Zippered mesh pocket on inside of top flap for valuables
- Velcro side pocket designed to hold minis, snacks, and cell phones
- Easy access front putter pocket
- Available in Navy Blue, Green and Black
Bag colors are subject to availability

MSRP
\$ 25.99

Starter Bag

The INNOVA Starter Bag is an affordable choice for new players or folks who don't carry a lot of discs. It is lightweight and designed to hold 6 to 12 golf discs. The Starter Bag is an ideal choice for youth players. The compact size makes it easy to pack in your suitcase when traveling.

- Holds up to 12 golf discs
- Water resistant with reinforced bottom
- 32 oz bottle holder with cinch strap
- Divided interior
- 1 outer zippered pocket to carry keys, wallets, minis, etc.
- Available in Blue and Black

DISCatcher® PRO

Disc Golf Target

Since introducing the DISCatcher® PRO almost 10 years ago, INNOVA has continued to improve on its excellent quality and features, making the DISCatcher® PRO the best catching, most visible and long lasting Disc Golf target available. The DISCatcher® PRO comes in both Permanent and Portable models. With our new 24 chain configuration, the DISCatcher® PRO was designed to catch the widest range of discs thrown into its larger "sweet spot". 12 outer chains slow discs down while our 6 intermediate and 6 inner chains help prevent "blow-throughs" and "bounce-backs". The DISCatcher® PRO offers a deep basket that virtually eliminates "bounce outs". The basket rim has in-line nubs that helps to prevent skips off the basket rim while not hindering low putts. Our signature yellow band makes the basket easily visible from the tee. All these features make the DISCatcher® PRO a favorite of players.

The DISCatcher® PRO Permanent model was made to frustrate would-be vandals and thieves with superior welding, one way screws, heavy duty baskets, locking tabs, and structural steel pipes. All these security features were built into a target that is also made to take the abuse of the environment as well. The DISCatcher® PRO has a stainless steel and yellow powder coated chain rack, and hot dipped galvanized basket, pole and chains to withstand the harshest of elements. All these features make the DISCatcher® PRO a favorite of parks departments and course professionals. We are sure that the DISCatcher® PRO Permanent will suit your needs, whether installing a new course or upgrading existing targets. The DISCatcher® Pro Portable offers the same great "catchability" as the Permanent model but with a metal base that allows it to be set up anywhere. The Portable is ideal for use on temporary courses or as a heavy-duty full-size target for backyard practice. The DISCatcher® PRO was built to catch, built to be seen, built to last.

Built to Catch Built to Be Seen Built to Last

The DISCatcher® PRO is highly visible in most any terrain

DISCatcher® Pro Features

- **HIGH VISIBILITY** — Our yellow powder coated stainless steel chain rack makes the INNOVA DISCatcher® highly visible and able to withstand the elements.
- **GALVANIZED CONSTRUCTION** — Hot-dip galvanizing basket, pipe and chains allow a DISCatcher® target to weather the elements better than painted or zinc plated baskets.
- **THREE TIERED CHAINS** — 12 outer chains grab your disc, while 6 intermediate chains and 6 inner chains hold your disc in the basket.
- **PDGA APPROVED** — Both the DISCatcher® Pro Permanent and Portable models are PDGA approved for use in tournament play.
- **DISCATCHER® PRO PORTABLE** offers all the same great features as the permanent model but is mounted on a metal base allowing for disassembly and transportation.

Permanent or Portable, same price.

The DISCatcher® PRO is available in both Permanent and Portable models.

- The Portable model comes with a metal base, allowing you to disassemble it and transport it. The Portable model is perfect for use as a practice target at home as you will be putting into the same heavy duty target that is available on DISCatcher® courses.
- The Permanent model utilizes an installation sleeve that will allow removal of target as well as multiple pin positions. A locking tab is included that will help deter theft and allow you to protect your investment in the finest Disc Golf target available. Additional installation sleeves are available.

The DISCatcher PRO has 3 layers of chains to catch discs
Official target of the United States Disc Golf Championship

Permanent Model Specifications

- **Chain Rack** — Our chain rack is all stainless steel construction. It measures 22" in diameter and 4" high. The band is 13 gauge stainless and the frame is made of 5/16" stainless rod. All TIG welded and then yellow powder coated for high visibility. Decals affixed.
- **Chain** — Hot-dip galvanized finish. 2/0 straight link coil chain. 24 strands. (12 outer, 6 intermediate, 6 inner)
- **Basket** — Our baskets are made using 3/8" steel rod, welded to a 5" steel sleeve then hot-dip galvanized to protect against the elements.
- **Pole** — Hot-dip galvanized finish, 74" tall with 1/8" wall thickness for strength. Drilled for chain rack, basket, and collar hardware.
- **Collar** — Hot-dip galvanized finish. Securely fits over pole mounted with tamper resistant screws. Lock tab.
- **Installation Tube** — Hot-dip galvanized finish. 24" long. Made to easily but snugly allow target pole to slide in. Locking tab mates with target collar tab.

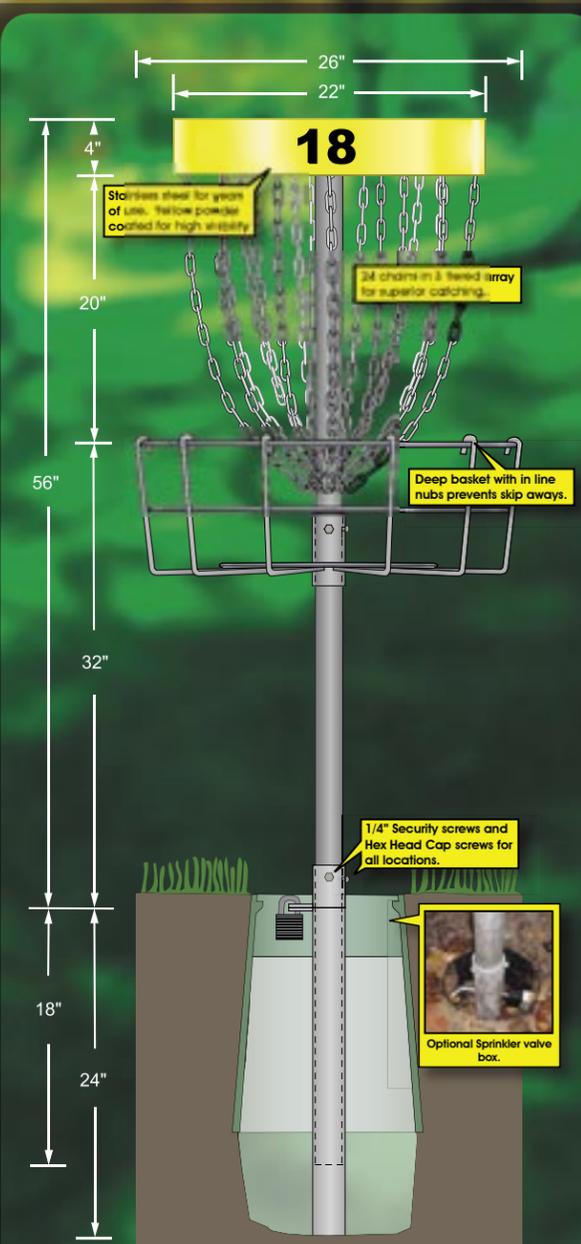

Custom Color Tops

Is your course in need of a blast of new color? Does your school want a Disc Golf course that matches the team's colors? You now have the power!

Custom color DISCatcher® are now available in a multitude of colors. If that isn't enough you can add cool special effects so your targets ooze cool. We will work with you; be it for a backyard target or an entire course. Please contact INNOVA for more information and pricing.

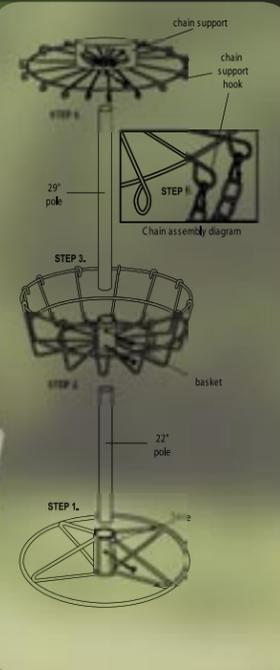

Model	MSRP
DISCatcher® PRO	\$350.00
DISCatcher® PRO Portable	\$350.00
Course sales	\$300.00 ea

DISCatcher® Sport Portable Target

The INNOVA DISCatcher® Sport is a full-size portable target. Durable construction with 18 galvanized chains, yet the DISCatcher® Sport model weighs only 40 pounds. The DISCatcher® Sport is an excellent target choice for youth camps, schools, backyard practice or to create a temporary course. Constructed of six parts, the DISCatcher® Sport can be set up in about 5 minutes with just a screwdriver. It disassembles for easy transportation or for compact storage when not in use. Regulation sized and PDGA approved for tournament play.

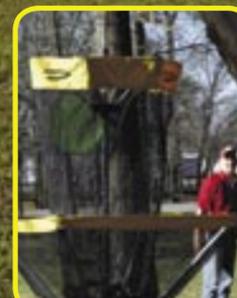

- Chain Support - Durable yellow powder coated finish
- Chain Assembly - 18 strands with a galvanized finish
- Basket - Galvanized finish
- 2 poles - Two sections with a galvanized finish
- Base - Our galvanized four spoke system is wide enough and strong enough to stabilize the target, yet is still lightweight.

MSRP \$199.99

DISCatcher® Mini Target

The INNOVA DISCatcher® Mini basket is the perfect trophy basket to award to top competitors in tournaments. It is also a great basket for your mini golf course. Create your own cool course in your yard, or pool a bunch of baskets together and set up a temporary course at your local park. With 18 real chains and solid steel construction, the DISCatcher® Mini works like the real deal. Metal band on top is perfect for a trophy plaque. Coming in the Spring of 2005, call for availability.

MSRP \$99.99

The Newest Member of the INNOVA DISCatcher® Family:

The DISCatcher® Traveler

The DISCatcher® Traveler Disc Golf Target is ready to accompany you on all your Disc Golf expeditions. The DISCatcher® Traveler is INNOVA's lightest weight portable Disc Golf target. The Traveler sets up with ease and take down is a breeze. Ideal for taking on camping adventures, to the beach or mountains or on trips to the park. The Traveler's light weight and easy set up and take down make it an excellent choice for schools and youth camps. The DISCatcher® Traveler is always ready to go, yet it is great for backyard putting practice as well.

- Simple one-action set up
- At just 12 pounds, the DISCatcher® Traveler is the lightest portable target available from INNOVA
- The chain assembly is surrounded with a unique target area net that provides additional catching power by preventing "blow-throughs" and decreasing "spit-outs"
- The extra wide basket tray is made of a lightweight yet durable, quick-drying mesh fabric
- Basket tray features elastic band on bottom for easier disc retrieval by children or disabled players
- Four legs provide a wide sturdy base. Attached anchor rings and included anchor stakes serve to secure target on uneven surfaces and on windy days
- Available in three eye-catching colors: Yellow, Red, Blue (Subject to availability)
- Comes with matching tote bag for easy transportation and storage
- Includes removable flag for easy visibility and wind direction indication
- Early or late putting sessions won't disturb others with quieter chain action of Traveler

MSRP \$124.99

INNOVA™
DISC GOLF

SkillShot™

The INNOVA SkillShot™ is the original lightweight portable Disc Golf target. The SkillShot target weighs in at 26 pounds and it offers a 16 chain assembly. The SkillShot allows you to play Disc Golf in the park, on your next camp-out or around the backyard. This SkillShot is affordable, easy to transport and is PDGA approved. Offered in Red, Green, Black or Blue. (Subject to availability). The SkillShot comes complete with flag and carrying case.

SkillShot™ Features:

- Umbrella Action - Pops up in an instant and collapses quickly too.
- 16 Chains - 16 real zinc plated chains grab and hold discs.
- Tripod Base - Powder coated tripod base allows for basket to be mounted on uneven ground. Stake rings at end of each foot for added stability when needed.
- Colorful Skins - 600 denier polyester skins, the SkillShot™ is made to take abuse from the elements. Available in red, blue, forest green and black.
- Convenient Carry Case - Great for storing the SkillShot™ in your car.

Weight 26 lbs
MSRP \$124.99

Trust the Disc Golf Experts with your Disc Golf Course Project

Disc Golf Course Design is a growing discipline in park/land development planning. The INNOVA Design Team has extensive experience and unique insight into the successful creation of Disc Golf facilities. We can tailor the design requirements for any project: whether it is for an elaborate World Championship level course, a private use facility or small local park with limited land and resources.

Take the first step in getting your course in the ground. Let us review your project plans with realistic estimates that suit your specific needs.

The INNOVA Design Team will work with you or your client in every step of the course planning process:

- Regional Market Analysis
- Site Planning & Proposal
- Cost Projection
- Project Presentation
- Phase Development
- Labor/Hardware Installation Bids

Call us today and order our free Course Design Brochure. It is a valuable tool that will help you make an informed decision.

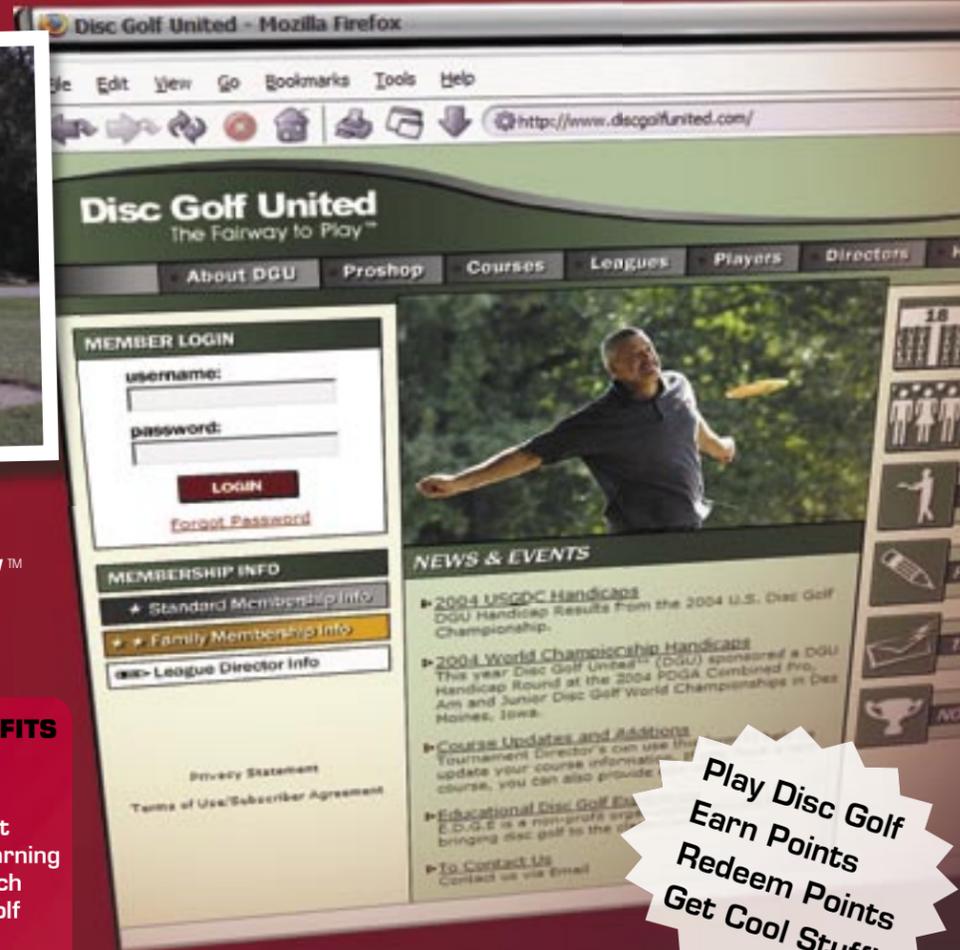

Disc Golf United™

DGU is a new Disc Golf handicap subscription service. DGU has developed a Universal Handicapping System for the sport of Disc Golf that will generate handicaps for individuals and league players. DGU operates an interactive website at discgolfunited.com where all visitors can find valuable information about Disc Golf and subscribers can receive Personal Handicap Factors and track their round by round scoring and progress.

DGU subscriptions are available for \$19.95 annually or for only \$2.95 on a monthly basis. Log on to discgolfunited.com today to subscribe or call 1-866-391-3343

DGU players compete regardless of skill level

THE Fairway to PLAY™

DGU SUBSCRIBER BENEFITS

- Receive Personal Handicap Factors™
 - Have the opportunity to "Get Paid to Play Disc Golf" by earning Player Reward Points™ which can be redeemed for disc golf products at the DGU Online ProShop
 - Gain complete access to all the features and services available at discgolfunited.com
 - Maintain a Personal Scoring Record with handicaps for all rounds of Disc Golf played
 - Participate in Official DGU Leagues on courses around the country as well as receive League and DGU Handicap Factors
 - Earn funds for local organizations by becoming an Official DGU League Director
- www.discgolfunited.com
Log on today and join

Official Handicap Leagues

In addition to providing handicap factors for individual subscribers, Disc Golf United™ provides handicapping and record keeping services to League Directors. DGU has put together the information and tools you need to organize a successful handicap league.

DGU League Directors can be rewarded for operating a DGU League and introducing new players to Disc Golf United™. League Directors may keep these rewards or donate them to local organizations or for Disc Golf course improvement projects.

To become a DGU League Director, the first step is to log on to discgolfunited.com today and become a subscriber. DGU will then provide you with step by step instructions.

Use the DGU Course Locator to find a course near you at www.discgolfunited.com

EDGE - Educational Disc Golf Experience™

EDGE, the Educational Disc Golf Experience, is a non-profit organization that was founded to introduce the fun, lifetime sport of Disc Golf to young people. EDGE has developed a program to provide schools and other youth programs with a sound curriculum for teaching Disc Golf fundamentals and related skills.

The Sport of a Lifetime

EDGE introduces the lifetime sport of Disc Golf to students and campers of all ages. While introducing rules and techniques of disc golf, EDGE also provides teaching points on life skills such as responsibility and cooperation as well as the life-long benefits that an active lifestyle provides.

Des Reading teaches students the game of Disc Golf

EDGE PROGRAM BENEFITS:

- Students learn through hands on lessons using real golf discs and equipment
- SkillShot™ fundamentals testing allows students to test the skills they have learned and rewards students who have reached predefined levels with cool patches of achievement
- EDGE curriculum also teaches: stretching, addition, courtesy, environmentalism
- EDGE Packages start at under \$500 with enough equipment for a 30 person class

www.edgediscgolf.org

Disc Golf is the sport of the future and children are the future of the sport

The EDGE program introduces the basic physical skills required for the sport along with integrated math, science, fitness, nutrition, and civics lessons. Children get to have fun, participate in much needed physical activity and learn skills that can last a lifetime.

Teach a Child to Play Disc Golf Today

If you are interested in finding out more about EDGE or would like information on how to bring the EDGE program to a school or youth organization in your area, visit the EDGE website online at: www.edgediscgolf.org or call 1-866-391-EDGE (3343).

New for 2005

INNCOLOR™ Candy Fund Raising

The INNCOLOR™ Process allows your full color high resolution graphics to be applied to cool Candy Fund Raising discs. These make great collectibles for sponsors, and also make it easier to raise needed funds to run your tournaments.

See pages 31-32.

Pro-Line Expands Offerings

The Pro Line of discs has expanded with the introduction of a new blend of plastic which offers great grip and durability in our driver molds. Look for more discs being added to this popular line.

See page 25.

Super Roc Worlds Fund Raising

The Super Roc is a cool collectable Roc made in a special blend of Pro Line plastic. Contact your favorite Disc Golf pro shop for availability. Proceeds from each Super Roc sale go to support the 2005 Pro World Championships in Pennsylvania.

DISCatcher® Traveler Portable

The Traveler, weighing in at 12 pounds, is INNOVA's lightest target. Bring it to the beach, camping or set it up in your backyard for some practice.

See page 42.

Vikings Discover DX Plastic

The popular Viking is now available in DX plastic. The Viking is perfect for holding long, line drive shots as well as graceful left or right turning shots.

See page 9.

DISCatcher® Mini Target

The DISCatcher® Mini is a cool version of our popular sport model DISCatcher® made for mini golf and to be rewarded as trophies at tournaments. Available Spring 2005.
