

2006 Catalog

In 1983, we created the first true golf disc, changing the game from frisbee golf to Disc Golf—we put the “disc” in Disc Golf. Our innovations allowed throwers to put power behind their shots, thus creating a very exciting and dynamic sport. Over the years, we have worked hard to push the sport to the next level, and we expect that 2006 will be no different as we are releasing Star Plastic—a line of golf discs that offers a superior combination of durability and grip than any other line of golf discs available. Look for a new Star golf disc on the horizon.

Much like golf, Disc Golf provides challenge and competition for those who love the outdoors. Both sports share similar rules, structure, and thrills. However, Disc Golf is much less expensive, easier to learn, and whole lot more fun!

INNOVA provides golf discs for every conceivable shot. While the novice can start with only one disc, more advanced players may carry a disc for every situation. We are a player driven company. We understand the challenges you face on the course and we design the tools you’ll need to overcome them.

Each hole begins with a drive from a

designated tee area and ends with a putt into an elevated basket—reducing the number of shots in between is the challenge.

Disc golfers are always looking for ways to lower their scores. You play to complete the course in as few strokes as possible. Even if you don’t get a low score, it only takes one great throw to get you fired up. Almost everyone has thrown a traditional flying disc to a friend in a relaxing game of catch. It’s a new thrill to throw a disc directly to a target. This game is exciting and enjoyable for people of all ages and abilities. To find a Disc Golf course near you, log on to innovadiscs.com.

In 1983 INNOVA created the first true golf disc.

Innovations - 2006

Innovations - circa 1984

The Wraith - Distance Driver

The Wraith has become the one to beat. This disc seems to effortlessly add distance for all types of throwers. Whether you are a beginner or a pro, there's a Wraith that will become your maximum distance driver of choice. Available in Pro and Star plastics, the Wraith is the forefront of disc technology today.

SL Starfire - Distance Driver

The SL version of the Starfire was released in early 2005 to rave reviews. Many personal best distance throws have been made with the Pro Starfire. It was used to break the Women's distance record at the World Flying Disc Championships. With a predictable high speed turn and excellent glide, the SL simply outsoars the competition. Available in Pro and Star.

Roadrunner - Distance Driver

The Roadrunner was designed to be a long distance roller out of the box. Many players throw their most beat up driver for rollers. The Roadrunner offers stable rolling and a tough rim to make it last. It is also excellent for low ceiling drives and tight wooded shots where more overstable discs tend to stray from the fairway. Available in Champion plastic.

Coyote - Mid-Range Disc

The Coyote is unlike any other INNOVA Mid-Range disc. It has a smooth grip that seems to conform to your hand. When you let it go, it just goes straight. Very little fade and great glide make this an awesome disc for accurate woods holes. Available in both Champion and Star Plastic.

The Aero is the first golf disc created by INNOVA. It was the first disc designed specifically for the sport of disc golf, not for catching. Its patented triangular rim shape allowed it to cut through the air unlike anything that came before it. Within a year, the Aero set the World Distance record. We continue to produce the Aero today, a testament to its amazing innovation. To the right are the original patent drawings submitted in 1983 for our revolutionary triangular rimmed golf disc. The Aero profile is depicted in the top and center drawings. Figure 3 is remarkably similar to our present day distance driver designs. These illustrations show that we designed the shape of the future over 20 years ago.

See [page 25](#) for the Aero.

Star Plastic

At INNOVA, we are constantly striving to improve our products. From the introduction of new disc models, to the use of improved production technology, we continually work to produce better performing products for our customers. This year INNOVA continues this tradition with the introduction of Star Plastic. Our new Star Plastic offers players of all skill levels the perfect match of grip and durability.

Many players choose our Champion Plastic because discs made in Champion Plastic hold flight characteristics over time. Many players in cold or rainy climates prefer discs made with our Pro Plastic for the extra grip it provides. Now players can have it all with our Star Plastic. Our new Star Plastic offers the same great strength of our Champion Plastic along with an enhanced grip like our Pro Plastic.

Many disc models will become available in Star Plastic during the coming year so watch for your favorite disc in Star Plastic.

Different Discs, Different Plastics

ABOUT OUR DISC LINES

INNOVA Disc Golf offers the most complete line of golf discs to meet the needs of every player — from first time player to seasoned veteran. While you can play Disc Golf with just one disc, a variety of discs will allow you to have a more complete arsenal of shots from which to choose. Distance Drivers are designed to fly properly when thrown at high speeds. At low speeds, Distance

Distance Drivers

DISTANCE
CONTROL

Distance drivers are at the pinnacle of golf disc design. They offer players more distance than any other type of golf disc.

Benefits

- Deliver maximum distance off the tee
- Provide the greatest range, speed, glide, and control possible
- Offered in many different models, weights and plastics for players of every skill level
- [Valkyrie](#) currently holds the World Distance Record of 820 feet (250m) (See page 13)

Fairway Drivers

DISTANCE
CONTROL

Fairway Drivers are designed to offer players more accuracy than Distance Drivers without sacrificing too much distance. These are used when keeping the disc on the fairway or green is more important than maximum distance.

Benefits

- Deliver dependable distance control for consistent fairway driving
- Valuable disc for shorter, controlled drives and long approaches
- Easier for beginners to use than distance drivers
- Help to increase confidence through added control and consistency
- Used by World Champions Ken Climo and Barry Schultz for accurate drives

Drivers will fade hard making them inappropriate for putting. Putters are designed to fly with accuracy and consistency at low speeds. When putting, you need a Putt & Approach disc because it is accurate, dependable, and consistent at low speeds. Each category of discs offers a wide selection of flight characteristics for a variety of shots in different plastic types.

Mid-Range

DISTANCE
CONTROL

Mid-Range discs are great for all types of shots and are recommended as a first disc for beginners for their ease of use and forgiving nature.

Benefits

- Designed to provide accuracy and control for mid-range, approach, and short drives
- Provide dependability from fairway to pin
- [Shark](#) is the recommended Mid-Range disc for beginning players (See page 20)
- [Roc](#) is the Mid-Range disc of choice for competitive players (See page 20)

Putt & Approach

DISTANCE
CONTROL

Putt & Approach discs fly true at low speeds, which is highly desirable when putting. These discs are also great for approaches and short drives. The quickest way to lower scores in Disc Golf is mastery of your putter.

Benefits

- Dependable, accurate, and confidence inspiring putts
- Ideal for controlled upshots, short drives and "go for it" shots
- Available in a variety of different models and plastics to match unique putting styles and grips.
- Aviar is the most popular golf disc ever produced (See Pages 22-23)

ABOUT OUR MATERIAL TYPES

INNOVA currently offers four lines of plastic. Each of our plastic lines has its own advantages with regards to performance, grip, durability, price and variety of models offered. The four plastics are compared below. The graphic

Star Plastic

DURABILITY
GRIP

INNOVA's new Star Line is created with a special blend of grippy, resilient polymers. It offers the same outstanding durability of our regular Champion Plastic, plus improved grip like our Pro Plastic.

Benefits

- Superior grip that performs well in most weather conditions
- Provides predictable top performance
- Long-lasting durability — retains INNOVA flight characteristics longer than DX or Pro plastics
- Ideal for those who like the durability of Champion plastic with the superior grip of Pro plastic
- A premium plastic
- Available in a variety of weights
- Available in [I-Dye](#) designs (page 30)
- Certain models available for [custom hot stamping](#) (page 31)
- Best plastic for use with the [INNColor](#) process (page 33)

Champion Plastic

DURABILITY
GRIP

INNOVA's Champion Line is produced with a hi-tech plastic that provides outstanding performance and durability. Champion discs are distinguished by a clear or pearlescent plastic.

Benefits

- Suitable for the increased throwing speeds of professional players
- Long-lasting durability — retains INNOVA flight characteristics longer than DX or Pro plastics
- A premium plastic
- Depending on weight, discs can range from a firm flexibility (heavier weights) to a more gummy flexibility (lighter weights)
- Some models available with colorful and unique [I-Dye](#) designs
- Certain models are available for custom hot stamping
- Some models available for the [INNColor](#) process

compares durability and grip at a glance. Choose the plastic that is best suited for your abilities and needs. All of our plastics provide predictable performance.

Pro Plastic

DURABILITY
GRIP

INNOVA's Pro Line is manufactured using a unique blend of plastics and are designed to provide unique qualities for each available model.

Benefits

- Driver models fly with a longer glide than Champion or DX Plastic
- Driver models are slightly less stable than INNOVA Disc Flight Ratings
- Provides an improved grip over our Champion Line plastic
- More durable than regular DX Line plastic and retains flight characteristics longer
- More affordable than our Star or Champion plastics
- Some models are offered in a softer plastic, while others are available in stiffer types of plastic
- Many models available with colorful [I-Dye](#) designs
- Certain models available for [custom hot stamping](#)

DX Plastic

DURABILITY
GRIP

INNOVA's DX Line offers the widest selection of models and weights. These discs are affordably priced and provide an excellent grip in a variety of weather situations.

Benefits

- Good all-weather grip
- Best plastic choice for beginners
- Our original plastic
- Wears in progressively to provide new and varied flight characteristics
- Most economically priced of our plastic lines
- Each model displays a distinctive INNOVA hot stamp design
- Some models available in [Glow](#) plastic (see page 30)
- Some models carried in [Full Color](#) designs
- Many models are available for [custom hot stamping](#)

Distance Drivers

Disc Selection Tips

The INNOVA Flight Chart presents the basic flight characteristics of our drivers and can help you choose a disc that best suits your style and ability. In many sports, players want the same equipment the pros use. In most cases that will work fine; however in Disc Golf there are speed and stability variations in different disc models that must be taken into consideration.

Once you have thrown a driver listed on the Flight Chart, you can use that as a frame of reference. This chart will become a valuable tool in understanding what to expect from our other driver models. The discs are listed from the most understable on the right side of the chart, to the most overstable on the left. The fastest models are at the top. Models get progressively slower as you descend the chart.

If you are just taking up the game, choose one of our more understable drivers listed on the right side of the chart. These discs will fly straighter with less effort and are easier to control in normal conditions. They are all excellent disc

choices for those getting started, especially in lighter weights. These discs provide maximum distance in tail-wind situations for players of all abilities.

The drivers listed in the center section of the Flight Chart are our stable flyers. These stable drivers are our straightest flyers and perform well in most wind conditions. They are excellent choices for players of all skill levels, although newer players should choose lighter weights to get the best results.

Overstable discs are listed on the left side of the Flight Chart and are designed to fade back more noticeably at the end of the flight. They will resist turning over when thrown into a headwind. For newer players, these discs will not go straight for very long and are most useful on dogleg fairways, for sidearm and overhead shots and in windy situations.

Flatten it out for better distance

Throwing the disc with a high trajectory means the disc is fighting gravity. It will eventually slow down and stall, falling to the left. If you throw high enough you may actually lose yardage as the disc stalls. Throwing flat shots will allow your disc to maintain its initial velocity longer, thereby adding distance.

Distance Drivers

ABOUT THESE DISCS

We have the technology. INNOVA leads the way in making today's longest, most dependable Distance Drivers for Disc Golf. The Wraith, which debuted in Fall '05, is THE hot driver for people who want to increase their distance. Building on testing and research, our speed 10 discs provide the ultimate set of drivers to tackle most any situation. From the wind fighting Monster, a relentless headwind driver, to the Beast, for long range turnover shots and amazing tailwind drives, INNOVA has you covered. The Orc continues to provide distance with accuracy. The Pro Starfire provides awesome distance for players of all skill levels. These discs are ready to unleash YOUR power!

WRAITH

speed	glide	turn	fade	diameter
11	5	-1	3	21.2cm

The Wraith is INNOVA's newest addition to the Distance Driver line. It is our longest and fastest Distance Driver to date. It is a stable flyer that performs predictably well in the wind with speed, glide, and accuracy. This disc performs remarkably well when thrown at less than full speed as well as at full speed. The Wraith is an excellent side arm disc.

Available Models:		
DX Wraith	\$8.99	150 class-175 grams
Pro Wraith	\$12.99	170-175 grams
Champion Wraith	\$15.99	170-175 grams
Star Wraith	\$16.99	168-175 grams

USING OUR DISC RATINGS

Speed — Speed is the ability of the disc to cut through the air. 11 is the fastest through the air.
Glide — Glide describes the property of the disc being able to maintain its loft during flight. More glide is best for new players and for producing maximum distance, especially downwind. A disc rated 6 has the most glide.
Turn — *High Speed Turn* — This is the tendency of a disc to bank right (for RHBH throwers) during the initial part of the flight. A disc with a 1 rating is most resistant to turning over, while a -5 rating will turn the most.
Fade — *Low Speed Fade* — At the end of the flight, all discs tail off in the same direction (left for RHBH shots), but some will "hook" harder than others. A disc rated "0" will finish the straightest with very little fade, while a disc rated +5 will hook hard at the end of the flight.

Low Speed Fade

High Speed Turn

- Beast
- SL
- Orc
- Wraith
- Starfire
- Monster

Righthand backhand flights depicted

CHANGES FOR '06

The Wraith burst onto the scene in late 2005 to overwhelmingly positive reviews. With a speed rating of 11 the Wraith has the highest speed rating of any disc INNOVA has made.
The SL is also known as the Starfire-L. In Pro Plastic it is known as the Pro Starfire. The Pro SL has been a great distance disc for newer players and those who throw "hyzer-flips". The Star SL is now available providing a more durable disc.
The Starfire has joined our regular product line. It is now available to everyone in Champion and will soon be released in Star.

MONSTER

speed	glide	turn	fade	diameter
10	3	0	5	21.2cm

The Monster is our most stable, powerful, wind beating distance driver. It is made for people who can turn over other discs into a stiff headwind. The Monster can fight some of the fiercest winds out there. We have not tested it in hurricane force winds... yet. The Monster is best suited for more advanced players.

Available Model:		
Champion Monster	\$15.99	165-175 grams

STARFIRE

speed	glide	turn	fade	diameter
10	4	0	3	21.2cm

The Starfire came out to rave reviews for its long straight flights. The Starfire is great into headwinds and flies long and flat when thrown hard and smooth with a flat release. The Starfire's distance and accuracy make it a must have disc for the serious player. Now available as part of our regular product line.

Available Models:		
Champion Starfire	\$15.99	160-175 grams
Star Starfire (in '06)	\$16.99	160-175 grams

ORC

speed	glide	turn	fade	diameter
10	4	-1	3	21.2cm

When the Orc hit the market, everybody had to have one. It was simply the longest disc available that blended accuracy with phenomenal distance. The Orc is a favorite of players for it's speed, accuracy, and stability. Thrown flat, this disc will fly straight. Suitable for powerful throwers, but still manageable by beginners in lighter weights.

Available Models:		
DX Orc	\$8.99	150 class-175 grams
Champion Orc	\$15.99	160-175 grams
Star Orc (in '06)	\$16.99	160-175 grams

SL AKA STARFIRE-L

speed	glide	turn	fade	diameter
10	5	-1	2	21.2cm

The SL is a retooled Starfire that offers more glide and less low speed fade. It has given many players their best distance ever. The Pro version is called the Pro Starfire, which reflects it's heritage. The Star SL is the same great mold in Star Plastic.

Available Models:		
Pro Starfire (SL)	\$12.99	160-175 grams
Star SL	\$16.99	160-175 grams

BEAST

speed	glide	turn	fade	diameter
10	5	-2	3	21.2cm

The Beast ushered in the era of the wide rimmed driver. The wide, shallow rim allows for maximum speed on release and less friction across the underside of the disc, allowing for maximum distance. The Beast was an instant classic when it was released; giving players more distance using less power. It is great for beginners and pros alike. A favorite of two-time World Champion [Barry Shultz](#).
Available Models:
[DX Beast](#) \$8.99 150 class-175 grams
[Pro Beast](#) \$12.99 165-175 grams
[Champion Beast](#) \$15.99 160-175 grams
[Star Beast](#) \$16.99 160-175 grams

Distance Drivers

TEAM CHAMPION MEMBER [MATT ORUM](#) AT US DISC GOLF CHAMPIONSHIP IN ROCK HILL, SC

Distance Drivers

Distance Drivers

FIREBIRD

speed	glide	turn	fade	diameter
9	3	0	4	21.2cm

The Firebird is our most popular upwind distance driver. The Firebird's combination of superior speed and stability make it possible to throw drives into the wind with confidence. An excellent disc for throwing long range flex shots. A favorite of sidearm and overhead throwers, too. This disc is designed for professional level players.

Available Models:				
DX Firebird	\$8.99	150 class-175 grams		
Champion Firebird	\$15.99	160-175 grams		
Star Firebird (in '06)	\$16.99	160-175 grams		

FL AKA FIREBIRD-L

speed	glide	turn	fade	diameter
9	3	0	2	21.2cm

The FL is a modified Firebird. It was designed to have more glide and a less extreme fade at the end of the flight. It is an excellent driver for windy days as well as sidearm throws. The FL is a great first step into the world of overstable drivers. In Pro Plastic the Firebird-L is known as the Pro Firebird.

Available Models:				
Pro Firebird	\$12.99	160-175 grams		
Star FL (in '06)	\$16.99	160-175 grams		

VIKING

speed	glide	turn	fade	diameter
9	4	-1	2	21.2cm

The Viking is one of our most versatile distance drivers from start to finish. The Viking is a long straight flyer with a very predictable fade at the end of the flight. This is an excellent disc for throwing both side arm and backhand shots due to its easy grip and neutral flight. The Viking is perfect for holding long, line drive shots as well as graceful left or right turning shots.

Available Models:				
DX Viking	\$8.99	150 class-175 grams		
Champion Viking	\$15.99	160-175 grams		
Star Viking (in '06)	\$16.99	160-175 grams		

VALKYRIE

speed	glide	turn	fade	diameter
9	4	-2	2	21.2cm

The Valkyrie is our World Record holding distance driver. It is an easy to learn disc, and in lighter weights will give newer players extra distance. Lighter weights also give players extreme range when thrown downwind, while maximum weights can give excellent upwind distance. The Valkyrie's high speed turn and flight characteristics make it great choice for long range turnover shots and rollers.

Available Models:				
DX Valkyrie	\$8.99	150 class-175 grams		
Pro Valkyrie	\$12.99	160-175 grams		
Champion Valkyrie	\$15.99	150 class-175 grams		
Star Valkyrie (in '06)	\$16.99	150 class-175 grams		

SIDEWINDER

speed	glide	turn	fade	diameter
9	5	-3	1	21.2cm

The Sidewinder is a fast flyer with a predictable high speed turn and lots of glide. This disc can add distance to anyone's drive, but is especially useful for those with less power. The Sidewinder is our best disc for long turnover shots and long distance rollers. Even disc golfers who have never had much success throwing a roller shot, will be amazed at the results they can achieve with the Sidewinder.

Available Models:				
Champion S'winder	\$15.99	150 class-175 grams		
Star Sidewinder	\$16.99	150 class-175 grams		

ROADRUNNER

speed	glide	turn	fade	diameter
9	5	-4	2	21.2cm

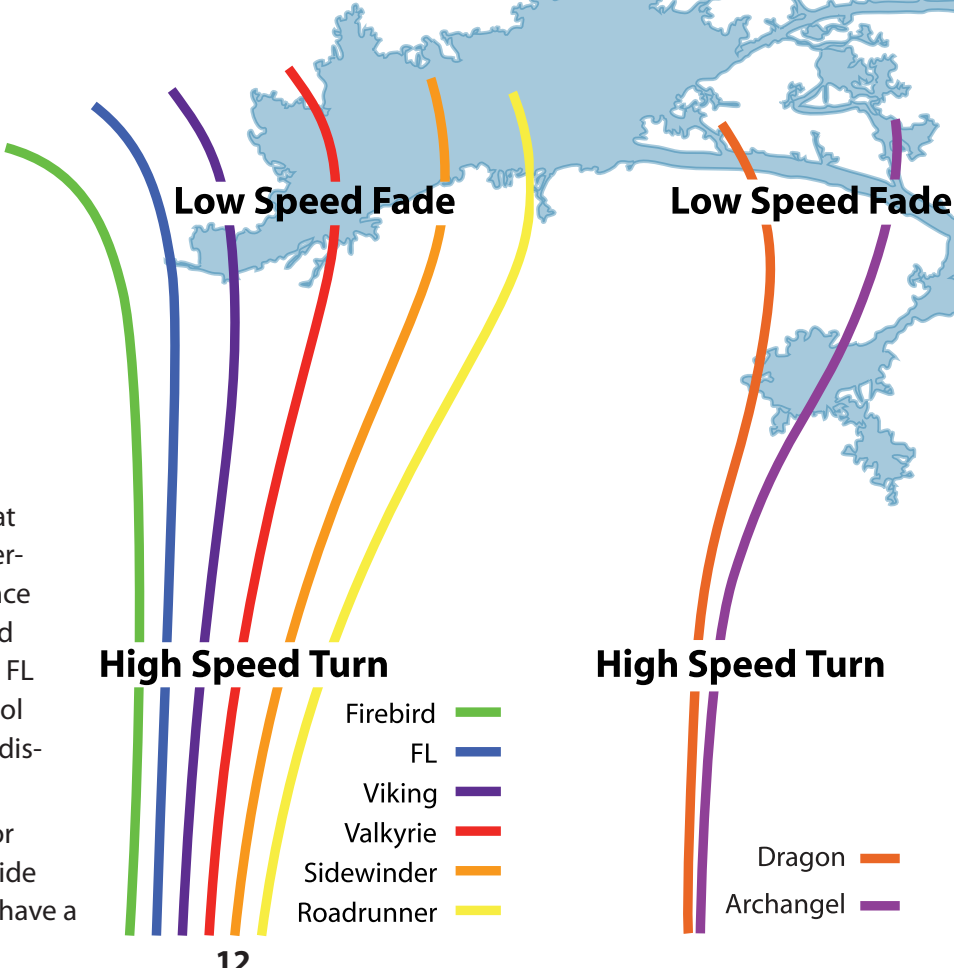

The Champion Roadrunner is a long-range distance driver with lots of glide. It makes an excellent finesse driver or long range roller. Power throwers can use this disc for long turnover shots and rollers. Less powerful throwers can use this disc for long, straight shots or low tunnel shots. Best Distance Driver for turnover shots.

Available Model:				
Champion R'runner	\$15.99	160-175 grams		

ABOUT THESE DISCS

Our Speed 9 discs offer the greatest variety of flight characteristics of our Distance Drivers. Whatever challenges a course may present, we have a disc with a flight path to answer the challenge. The Firebird can handle any wind, and will finish with a hard predictable fade. Not a power player? Then the Sidewinder and Roadrunner are the perfect discs for you. Both offer great glide and turn that is suitable for beginning and less powerful players; they also make great distance rollers for advanced players. If you need something in between these discs, the FL and Viking are excellent distance control discs. The Valkyrie is the current world distance record holder.

The Dragon and Archangel are great for beginner players—both offer lots of glide and turn for those players who do not have a lot of power.

DRAGON

speed	glide	turn	fade	diameter
8	6	-2	2	21.2cm

The Dragon is a lightweight distance driver with excellent glide for less powerful throwers who want to get more distance with less effort. Made in a special DX plastic with a great grip. The Dragon will float in water. Dragons are only available at 150 grams.

Available Model:		
DX Dragon	\$8.99	150 grams

ARCHANGEL

speed	glide	turn	fade	diameter
8	6	-4	1	21.2cm

The Archangel is our easiest distance driver to throw for distance - especially for those with less power. The Archangel's high glide, fast speed and turning characteristic all combine to stretch out distance shots. The Archangel also doubles as an easy to turn roller disc. Lighter weights work great for younger players.

Available Model:		
DX Archangel	\$8.99	150 class-175 grams

CHANGES FOR '06

The Roadrunner joined our line of discs late in 2005 as the first INNOVA disc touted as a distance roller for more advanced throwers. The Roadrunner is a great Distance Driver for those with less power.

The FL, formerly known as the Firebird-L, has been renamed to prevent future confusion. This disc is a less overstable Firebird, and will also be offered in Star Plastic in 2006.

Fairway Drivers

ABOUT THESE DISCS

New to the Fairway Drivers category this year are the Speed 7 drivers. The TeeBird is the flagship of the Fairway Drivers. It is the preferred driver of many of the top pros. It offers remarkable distance and precision driving. The Banshee is an all around wind beater and our only overstable driver offered in 150 Class in our Champion Plastic. The Eagle has long been a favorite of pros for its long, straight predictable flight. The TL (TeeBird-L) offers great glide and a long straight flight. The TL will become available in our Star Plastic in 2006.

11x WORLD CHAMPION **KEN CLIMO**
AT THE 2005 HALL OF FAME CLASSIC

THE TEEBIRD BY **KEN CLIMO**

Despite being reclassified a Fairway Driver, the TeeBird is still one of the best discs that you can use off the tee. Don't let the new classification confuse you because it is still a very long disc off the tee. I may be able to get more distance out of other discs, such as the Wraith, but for wooded technical shots, there is no better disc than the TeeBird. It is stable at high speeds, carries an amazing line, and I know that it will finish predictably every time. Personally, it is my favorite driver.

What I like about the TeeBird the most is that it has great glide and is still great in all wind conditions. Most discs that have great glide are not good into a stiff headwind. But with the TeeBird, I know that the disc is not going to turn over into the wind and is going to finish on the intended flight path consistently with that same great glide.

I've said it before and I still believe that the TeeBird is the best all around driver disc out! Brand new they are stable and handle most every wind condition, and as you break them in, they fly reliably straight, and eventually become tuned to make great turnover discs. Learn to throw the TeeBird and your game is sure to improve.

- TL

BANSHEE

speed 7 glide 3 turn 0 fade 3 diameter 21.2cm

The Banshee is a versatile and dependable overstable driver. It has a high degree of predictability, throw after throw. You can count on a Banshee to perform even into the wind. It is an excellent disc for sidearm, backhand and overhead throws, offering predictable, dependable flights.

Available Models:
DX Banshee \$8.99 150 class-175 grams
Champion Banshee \$15.99 150 class-175 grams

TEEBIRD

speed 7 glide 5 turn 0 fade 2 diameter 21.2cm

The TeeBird is one of our most accurate and reliable fairway drivers. It has a combination of straight flight, high glide, and good speed making it accurate and long flying both upwind and downwind. A popular choice for pros including 11-time World Champion and Hall-of-Famer **Ken Climo**. Great for accuracy, distance, and sidearm shots.

Available Models:
DX TeeBird \$8.99 150 class-175 grams
Champion TeeBird \$15.99 150 class-175 grams
Star TeeBird \$16.99 150 class-175 grams

EAGLE

speed 7 glide 4 turn -1 fade 3 diameter 21.2cm

The Eagle is our original, professional level fairway driver. It ushered in a new era for distance and reliability. The Eagle's superior speed and predictable flight characteristics let you make confident and accurate long range power shots. The Eagle's high speed turn is excellent for power turnover shots.

Available Models:
DX Eagle \$8.99 150 class-175 grams
Champion Eagle \$15.99 150 class-175 grams
Star Eagle (in '06) \$16.99 150 class-175 grams

TL AKA TEEBIRD-L

speed 7 glide 5 turn 0 fade 1 diameter 21.2cm

The TL is the brother of the reliable TeeBird. The "L" stands for "Less Overstable" and "Longer". This disc has the same great speed and glide as the TeeBird, but is straighter flying with less fade at the end of the flight. If you are looking for a straight flying, maximum distance Fairway Driver in Pro or Star plastic the TL is the disc for you.

Available Models:
Pro TL \$12.99 150 class-175 grams
Star TL (in '06) \$16.99 160-175 grams

CHANGES FOR '06

The Banshee has been moved to the Fairway Driver classification along with the TeeBird, Eagle, and TL

The TeeBird is still a great driver for distance off the tee. This was one of the first discs released in the new Star Plastic.

The Eagle has been reverted to the original EL mold which adds glide to the Eagle's excellent speed and control. This adds more diversity to our Fairway Drivers.

The TL is the new name for the TeeBird-L. It is the same great disc with the straight flight players depend on. This disc will be available in the Star Plastic in 2006.

Fairway Drivers

WHIPPET

speed	glide	turn	fade	diameter
6	3	+1	5	21.2cm

The Whippet is a very overstable driver used for medium long left hooking shots. It holds a line extremely well even when thrown into stiff headwinds. Great for specialty shots like overheads, spike hizers, forehand rollers, hook thumbers and skip shots. Designed to handle the power of professional level players.

Available Models:		
DX Whippet	\$8.99	150 class-175 grams
KC Pro Whippet	\$12.99	170-175 grams

Low Speed Fade

High Speed Turn

- Viper
- Whippet
- Gazelle
- Cheetah
- Leopard

VIPER

speed	glide	turn	fade	diameter
5	4	+1	5	21.7cm

The Viper is a stable to overstable disc that is very reliable in all wind conditions. The Viper changed the way Disc Golf is played by becoming the first disc used for the "Flex Shot". Excellent choice for sidearm throwers. Recommended for experienced players only.

Available Model:		
DX Viper	\$8.99	150 class-180 grams

STAYING IN THE FAIRWAY

Choosing the right disc for the shot is an art. A good player will run several scenarios through their head. They don't necessarily go for the shot that will "potentially" get them closest to the basket. They review the risk and reward of each potential shot and choose the one that is most likely to produce a successful result, even if the shot doesn't go as planned. Using a Fairway Driver is akin to playing the smart shot. It's not all about distance, it's about accuracy too. Play smart, accurate Disc Golf and you will start to play winning Disc Golf.

GAZELLE

speed	glide	turn	fade	diameter
6	4	0	2	21.2cm

The Gazelle is a great overall disc for players of all skill levels because of its versatility and control. It is a dependable driver that has a long straight flight with a predictable fade at the end. The Gazelle works well in headwind situations for both long and medium range shots. It has a narrow rim that is easy for smaller hands to grip.

Available Model:		
DX Gazelle	\$8.99	150 class-175 grams

CHEETAH

speed	glide	turn	fade	diameter
6	4	-2	2	21.2cm

The Cheetah is a great driver for throwing straight long shots at any skill level. It is a very versatile disc that is predictably stable at lower speeds and will turnover slightly at higher speeds. It is an excellent disc choice for younger disc golfers

Available Model:		
DX Cheetah	\$8.99	150 class-175 grams

LEOPARD

speed	glide	turn	fade	diameter
6	5	-2	1	21.2cm

The Leopard should be everyone's first fairway driver as it is has excellent glide and is easy to throw straight and far. The Leopard is a great turnover disc for players of all skill levels. The Leopard makes a dependable long range roller.

Available Models:		
DX Leopard	\$8.99	150 class-175 grams
Pro Leopard	\$12.99	160-175 grams
Champion Leopard	\$15.99	150 class-175 grams
Star Leopard ('06)	\$16.99	150 class-175 grams

ABOUT THESE DISCS

The Leopard is by far the best driver that any new player can pick up. The Leopard is great for experienced players as well—Barry Schultz says, "Leopards are key to my success. They keep me on the fairway, which makes it easier to get lower scores on par 4 holes."

The Whippet and Viper make for great overstable Fairway Drivers and are perfect for shorter side arms. The Gazelle and Cheetah round out this group of discs serving as relatively straight flyers.

TWO-TIME WORLD CHAMPION [BARRY SCHULTZ](#) THROWS A LEOPARD ROLLER AT TUPELO BAY GOLF CENTER IN MYRTLE BEACH, SC.

Mid-Range Discs

ABOUT THESE DISCS

Putting INNOVA Mid-Range discs in your bag can help you achieve the precision and control you need in a variety of situations. Our Mid-Range discs can add accuracy to your short drives, boost confidence in your upshots, and make “go for it” shots an attainable goal. From the Gator, which is a reliably overstable disc even in windy situations, to the Stingray, a great turning disc and popular roller, choose any of our Mid-Range discs with confidence because every shot counts.

POWER GRIP

CONTROL GRIP

GRIP TIP BY DES READING

Grips are a very important aspect of the game. I use two basic grips—the power and control grips, but there are many variations on these two.

When I drive, I use what is called a power grip. Basically, I tuck all my fingers underneath the rim of the disc (with the finger pads pressed to the inside wall of the rim) and I put my thumb mostly towards the center of the disc's flight plate. I will use that grip for my drives, mid-ranges, and some of my longer approaches (roughly 80 to 200 feet).

Once I am within 80 feet of the target, I use what is considered to be a control grip. For that grip, I just put my index finger on the outside edge of the rim, and the other three fingers are fanned on the bottom of the disc. The theory behind this grip is when I go to release the disc that last point to touch the disc is my index finger and a nice smooth release and follow through are going to cause the disc to travel directly to the target.

GATOR

speed	glide	turn	fade	diameter
5	2	0	3	21.2cm

The Gator is a very reliable overstable Mid-Range disc with a predictable finish. The Gator delivers pin-point accuracy for shorter drives and approach shots even in windy conditions. This is a great disc for Mid-Range shots especially for players who need to control their power and increase their accuracy.

Available Models:				
DX Gator	\$8.99	150 class-175 grams		
Champion Gator	\$15.99	160-175 grams		
Star Gator (in '06)	\$16.99	160-175 grams		

SPIDER

speed	glide	turn	fade	diameter
5	3	-1	1	21.2cm

The Spider is a Mid-Range disc that works for hyzer, straight and turnover throws. Throw it with the nose up and the Spider will turn left, with the nose down it will turn right. The Spider is a low speed predictable disc that makes a great approach disc. Excellent for all skill levels and players who prefer a smaller diameter disc.

Available Models:				
DX Spider	\$8.99	150 class-175 grams		
Champion Spider	\$15.99	160-175 grams		
Star Spider (in '06)	\$16.99	160-175 grams

COBRA

speed	glide	turn	fade	diameter
5	4	-2	2	21.7cm

The Cobra is a large diameter Mid-Range that is very easy to grip. It is very beginner friendly with a long and useful lifespan. The Cobra is a great disc choice for long slow turning shots and rollers. The thin rim is great for smaller hands and creates a clean predictable release.

Available Models:				
DX Cobra	\$8.99	150 class-180 grams		
Pro Cobra	\$12.99	160-180 grams		
Champion Cobra	\$15.99	160-180 grams		

PANTHER

speed	glide	turn	fade	diameter
5	3	-2	1	21.2cm

The Panther is a slightly understable Mid-Range disc with a shallow rim. Players of all abilities can use it for throwing medium and short range shots. The Panther is a perfect disc for those learning to throw a slow controlled turnover shot. The Panther makes a great small diameter roller for mid to long range shots.

Available Model:				
Champion Panther	\$15.99	150 class-175 grams		

STINGRAY

speed	glide	turn	fade	diameter
5	5	-5	1	21.7cm

The Stingray is a large diameter disc that has a very predictable turn and excellent glide. It has a shallow rim that makes it easy to grip for smaller hands and allows for a smooth consistent release. These characteristics make it a good choice for beginners. The Stingray is also an excellent disc for throwing controllable mid to long range roller shots.

Available Models:				
DX Stingray	\$8.99	150 class-180 grams		
Star Stingray	\$16.99	165-180 grams		

Mid-Range Discs

ABOUT THESE DISCS

The Roc and the Shark have long been two of the most popular and versatile Mid-Range golf discs that INNOVA offers. The Roc tends to be preferred by more advanced players. Intermediate and beginning players tend to prefer the Shark because of its increased glide and straighter flight characteristics. Both discs fly predictably every time. The Coyote was released midway through the 2005 season and has quickly become a favorite of players of all skill levels. It offers good glide and will fly predictably for straight, gentle turnover, or hyzer shots. If you play on a course that has a lot of water in play, choose the Hydra as your Mid-Range disc because it floats in water. The Wolf is a great medium range straight and turnover disc.

CHANGES FOR '06

The **Coyote** began howling down fairways in the middle of 2005. This disc is an amazing flyer and will be offered in Star Plastic in '06.

The **Shark** will be available in five models, including the kid friendly EDGE Shark and the Star Shark.

FIND A MOLD AND STICK WITH IT.

A lot of players are surprised when they find out that a majority of the top pros use the same type of disc for a variety of shots. Take a look at "What the Pros Throw" on page 26, and you will see that Ken Climo, for example, carries 4 to 5 Rocs. Why does he carry five of the same disc? Because each of these Rocs is broken in or "tuned" to fly in certain manner. One new for hyzer shots, another with some good use for straight flights, a pretty worn one for turnover shots, and so on. By becoming an "expert" with a particular disc, a player can throw with the same motion, and the resulting flight will vary depending upon the wear on the disc.

INNOVA offers an assortment of discs with different grips and plastics to meet the needs of every player. Experiment with a number of molds and find the disc that has the best grip and feel for you. Once you become comfortable with a particular disc, keep an old one in your bag for turnover shots, and a new one for hyzer shots. Once your "new" disc gets worn in a good bit, you can move it to a turnover spot in your bag or take it out to save it as a replacement for your current turnover disc. As you progress in skill level, you may find yourself carrying five Rocs too.

Limiting your golf bag to a smaller number of molds means you will have to master less discs, and can focus on your accuracy, form, and putting. The top players who only carry 4 or 5 molds in their bag are confident in both the feel of the discs and executing varying shots with them. Gain confidence in your game by mastering just a few molds.

ROC

speed	glide	turn	fade	diameter
4	4	0	3	21.7cm

The Roc is simply the best, most versatile Mid-Range disc ever made. It provides accuracy at any range. This disc can take and hold the angle of release, even into a headwind. It can be used for driving, upshots, straight shots, hyzer shots or anhyzers. The Roc ages gradually and predictably. If you're not sure what disc to throw, choose the Roc just like most pros.

Available Model:		
DX Roc	\$8.99	150 class-180 grams
KC Pro Roc	\$12.99	160-180 grams

SHARK

speed	glide	turn	fade	diameter
4	4	0	2	21.7cm

The Shark is the perfect Mid-Range disc for players of all skill levels. It is great for predictable straight, hyzer or anhyzer drives, and approach shots, plus you can even putt with it. Beginners will benefit from the smooth rim and consistent release. It has good carry and makes long approaches easy to reach.

Available Models:		
DX Shark	\$8.99	150 class-180 grams
EDGE Shark	\$8.99	130 grams
Pro Shark	\$12.99	160-180 grams
Champion Shark	\$15.99	160-180 grams
Star Shark (in '06)	\$16.99	160-180 grams

HYDRA

speed	glide	turn	fade	diameter
4	3	0	2	21.2cm

The Hydra is a Mid-Range disc for short drives and approach shots. It will handle all wind conditions. It is made with a grippy, durable plastic that floats in water. It is easy to release and has a friendly grip making it a great putter as well. All Hydras are approximately 172 grams.

Available Model:		
DX Hydra	\$8.99	172 grams

COYOTE

speed	glide	turn	fade	diameter
4	4	-1	1	21.7cm

The Coyote is a larger diameter Mid-Range disc with good glide that flies predictably for straight, gentle turnover, or hyzer shots. It holds a soft flight line and has a friendly grip that makes it easy to throw and release. The Coyote is an excellent disc for many types of long or short approach shots, short drives, roller shots, and even short range putts. A great choice for beginners, intermediates and pros using only one disc.

Available Models:		
Champion Coyote	\$15.99	160-180 grams
Star Coyote (in '06)	\$16.99	160-180 grams

WOLF

speed	glide	turn	fade	diameter
4	3	-4	1	21.7cm

The Wolf is an understable mid-range disc designed for making medium range straight and turnover shots. It features the patented INNOVA Thumtrac® for added grip and reliability. The Wolf allows any player to learn anhyzer shots with very little effort. A great feeling disc that is easy to release. The Wolf is great in the woods and also makes an excellent Mid-Range roller disc.

Available Model:		
DX Wolf	\$8.99	150 class-180 grams

TEES OFF WITH A **KC Pro Roc**

Putt & Approach Discs

ABOUT THESE DISCS

“Drive for show, putt for dough” is a common saying in Disc Golf. This saying holds true for the Aviar more than any other golf disc on the market. The Aviar has been used to win more World Titles than all other Putt and Approach discs combined. Introduced in 1984, the disc is truly a testament to the pioneering genius of INNOVA cofounder and disc designer Dave Dunipace. The Aviar is still the best Putt and Approach disc on the market today. From the stiff feel of the KC Pro Aviar and Classic Aviar to the soft tacky JK Pro Aviar-X and Aviar Putt & Approach, INNOVA makes an Aviar that you are sure to love.

KC AVIAR

speed	glide	turn	fade	diameter
3	3	0	2	21.2 cm

The KC (Ken Climo) Pro Aviar is made from the Aviar driver mold in a firm blend of special KC plastic (which is also used for the KC Roc and KC Whippet) for players who prefer a stiffer disc. This is the preferred model of professional players. Great for drives, approaches and putts.

Available Model:		
KC Pro Aviar	12.99	170-175 grams

AVIAR

speed	glide	turn	fade	diameter
3	3	0	2	21.2 cm

These Aviar are made from the Big Bead Driver mold to provide additional stability over the Putt & Approach model. The Pro Aviar is made in a durable blend of Pro plastic for a great grip and a straight true flight. Champion plastic offers great durability and consistent performance. Star Plastic will be available in 2006 and will offer the great grip of the Pro with the durability of Champion. Like all Aviar they are perfect for driving, approaching and putting.

Available Models:		
Pro Aviar	\$12.99	160-175 grams
Champion Aviar	\$15.99	160-175 grams
Star Aviar (in '06)	\$16.99	160-175 grams

JK AVIAR

speed	glide	turn	fade	diameter
3	3	0	2	21.2 cm

The JK (Juliana Korver) Pro Aviar is made from the driver mold in a special blend of durable Pro-line Plastic that is more flexible and grippier than the other Aviar models. It has the same flight characteristics as the KC Aviar. Its softer plastic is better in colder climates and for those who require a tackier grip.

Available Model:		
JK Pro Aviar	\$12.99	165-175 grams

AVIAR P&A

speed	glide	turn	fade	diameter
3	3	0	1	21.2 cm

The Aviar Putt & Approach is our most popular disc model and the number one putter in Disc Golf. It is versatile and dependable in all conditions. A must have disc for any serious competitor's bag. This is the small bead model that is a straight flyer with a predictable finish. The Star Aviar P&A will be available in early 2006.

Available Models:		
DX Aviar P&A	\$8.99	150 class-175 grams
Star P&A (in '06)	\$16.99	160-175 grams

CLASSIC AVIAR

speed	glide	turn	fade	diameter
3	3	0	0	21.2 cm

The Classic Aviar is the original model that gave rise to all other Aviar. The Classic Aviar is our straightest flying Aviar model from start to finish. It is made in a firm plastic with a good grip. Like all other Aviar models it is reliable and dependable in all conditions.

Available Model:		
DX Classic Aviar	\$8.99	150 class-175 grams

CHANGES FOR '06

The **Star Aviar P&A** which will debut in the first half of 2006, is the long awaited Holy Grail of putters. Great grip and durability will make this a putter for the ages.

The **Star Aviar** which will debut in the second half of 2006, adds yet another choice for those looking for a solid feeling Aviar putter.

Putt & Approach Discs

RHYNO

speed	glide	turn	fade	diameter
3	1	0	3	21.2cm

The Rhino is an overstable putt and approach disc that can handle strong headwinds. Great for players with lots of throwing power as the Rhino stops on a dime and stays close to the basket. It is a must have disc for short to medium up shots and putting into the wind. The Pro-line model is also called a "Soft" Rhino and is made to be super soft and flexible in an extra grippy plastic that grabs the chains.

Available Models:		
DX Rhino	\$8.99	150 class-175 grams
Pro Rhino (soft)	\$12.99	165-175 grams
Champion Rhino	\$15.99	165-175 grams
Star Rhino (in '06)	\$16.99	165-175 grams

CLASSIC ROC

speed	glide	turn	fade	diameter
3	3	0	2	21.2cm

The Classic Roc is a small diameter Putt and Approach disc that makes a great Mid-Range driver for players of all abilities. This accuracy disc provides a great "touch" for shorter holes and longer approach shots. It is a solid performer for straight or turnover shots. The Classic Roc makes a good putter as well.

Available Models:		
DX Classic Roc	\$8.99	150 class-175 grams
Champion Cl. Roc	\$15.99	160-175 grams
Star Cl. Roc (in '06)	\$16.99	160-175 grams

ABOUT THESE DISCS

Prefer a different feel than the Aviar? INNOVA offers six other Putt and Approach discs in a variety of plastics that should meet the needs of every player. The Classic Roc, Rhino, and XD are thinner profile discs, while the Birdie, Polecat, and Aero have a thicker profile. Both the Rhino and Birdie are molded with our Thumtrac® grip for a sure release. Regardless of your style of putt or grip preference, INNOVA Disc Golf makes a Putt and Approach disc that will suit your game.

POLECAT

speed	glide	turn	fade	diameter
2	3	0	0	21.2cm

The Polecat is a beginner friendly putt and approach disc. It is a straight flying disc made in a comfortable, grippy plastic. This putter is great for short drives and approaches as it takes and holds the angle of release regardless of speed. A great choice for pros and beginners as it works well with all putting styles.

Available Model:		
DX Polecat	\$8.99	150 class-175 grams
EDGE Polecat	\$8.99	95 class-110 grams

AERO

speed	glide	turn	fade	diameter
3	6	0	0	22.2cm

The Aero is our best disc for beginners and players using only one disc. It is the straightest point-to-point golf disc and the easiest disc to keep on the fairway for beginners. It is a slow flying control disc with a large diameter and a significant amount of float. When broken in the Aero will turnover very slowly and predictably. The Aero was introduced in 1983 as the first disc designed specifically for Disc Golf.

Available Models:		
DX Aero	\$8.99	150 class-180 grams
Star Aero (in '06)	\$16.99	160-180 grams

BIRDIE

speed	glide	turn	fade	diameter
1	2	0	0	21.2cm

The Birdie is a slow, straight flyer with our Thumtrac® grip for a sure release. It has great chain catching ability. Great for approach shots as it flies straight and slow start to finish. It is one of our best "go for" discs as it doesn't go far past the basket on misses, and stays put when it hits the ground. A good disc for those players making the conversion from flat edged disc sports: Catch, Ultimate, Freestyle, etc.

Available Models:		
DX Birdie	\$8.99	150 class-175 grams
Pro Birdie	\$12.99	160-175 grams

Putt & Approach Discs

PITCH OR SPIN PUTT

BY [DAVID FELDBERG](#)

Basically there are two kinds of putting in Disc Golf: pitch putting (also referred to as loft putting) and spin putting. To pitch putt, hold the disc at any angle near flat and push it forward without breaking your wrist over to the right at all—really use your legs in order to get power behind the putt. The biggest advantage of pitch putting is the level of consistency you gain when inside the 10-meter circle. The top players in the world, [Ken Climo](#) and [Barry Schultz](#), both putt with pitch putts because it is so consistent inside the circle. Barry uses the straddle style, easily making putts because he is never off balance, while Kenny and I have more of a front foot stance. However, when loft putting you will not be as effective in low ceiling situations because you do not have as much space to lob the disc. Also, wind can greatly affect loft putters—you have to be very confident to loft putt in the wind.

To spin putt, break your wrist to the right and spin the disc towards the basket. The advantages of a spin putt come when you are in a low ceiling situations or trying to gain distance needed for longer putts. When you land under a tree and there is no

XD

speed	glide	turn	fade	diameter
3	4	-1	1	21.2cm

The XD has a low profile, thin rim which promotes a secure grip and an easy, natural release. These features combined with straight flight characteristics make the XD an easy to throw and control disc. It is the most driver-like putter we have and is useful for putts, drives and approach shots. Good disc for developing a "touch" around the basket.

Available Models:		
DX XD	\$8.99	150 class-175 grams

opportunity to pitch putt because you do not have the ceiling to carry it, use a spin putt with the nose of the disc up. Another advantage to the spin putt is when you are putting from one knee. It is easier to get power behind a spin putt than a pitch putt because you don't have to rely on the use of your legs to generate power. The big disadvantage of spin putting is that you may find yourself three putting—blowing by the basket on misses, and then having to make 20-22 footers consistently to save your pars or bogeys, instead of 5-10 footers when

using the pitch putt. Leaving yourself 20 foot comeback putts is not something you want to find yourself doing if you want to be a consistent putter and lower your score. Weigh your options to see if you want to be a spin putter or a pitch putter, but I believe that the future is the person that can put both of them together. Someone who can spin putt at one point and pitch putt at another, and never be nervous about a certain putt that they are not as confident with because he/she will be able to just pick the style of putt that the situation calls for.

What the Pros Throw

Ken Climo
Clearwater, FL
3-4 Champion TeeBirds - Semi-Long controlled turn or hyzer shots

Specialty Discs

Specialty Discs are designed for use in Disc Golf and other flying disc sports. Several of these discs are classic “Old School” models with a loyal following. Some models are also approved by WFDF (World Flying Disc Federation) for use in the Overall events of Accuracy, Discathon and Self-Caught Flight. Our entire line of Specialty discs is PDGA (Professional Disc Golf Association) approved for use in Disc Golf.

Condor

The Condor has long been a favorite of Disc Golf pros throwing thumb rollers and is available in heavy weights for just that purpose. The Condor is our largest diameter and heaviest weight golf disc available. The Condor has a very stable true flight. It is very accurate at all ranges. In the very light weight (138 grams) the Condor is used for Self Caught Flight events of Throw, Run and Catch (TRC) and Maximum Time Aloft (MTA). The Condor currently holds the TRC World Record of 94 meters.

Available Model:
[DX Condor](#) \$8.99 138, 190-200 grams

Ace

The ACE is a fairway driver that flies long and straight with lots of glide. It is a great disc for those learning the game, but is also a great finesse disc for more experienced players. The narrow width of the rim on this disc is perfect for young children and other individuals with small hands.

Available Models:
[DX Ace](#) \$8.99 165 grams
[EDGE Ace](#) \$8.99 125 grams

Jaguar

The Jaguar is an ideal disc for low power players who need to stretch out their distance. The Jaguar's turning characteristic and high glide make the most out of weak throws whether they are backhand air shots or rollers. This is our largest diameter golf disc and is available up to 200 grams.

Available Model:
[DX Jaguar](#) \$8.99 160-200 grams

Optimizer

The Optimizer is a beginner friendly disc that features a small rim, soft material, and an understable flight. It is a great disc for beginners and demonstrations as it is easy to learn how to throw this disc.

Available Model:
[Optimizer](#) \$6.99 170 grams

Recreational Discs

Recreational Discs are discs made for playing games where throwing and catching are involved. Enjoy these discs for your next game of catch at the beach, the park, or in your backyard. The Pulsar and Super Nova are excellent discs for playing Ultimate and for Freestyling. These are all quality INNOVA products that will provide fun and enjoyment throw after throw.

Super Nova

The Super Nova is an excellent all around recreational disc. It features our patented Thumtrac® technology for great grip and true flights throw after throw. Great for Ultimate, catch or Freestyle. It is also a PDGA approved golf disc. A great disc for a day at the beach.

Available Model:
[Super Nova](#) \$9.99 175 grams

Pulsar

The Pulsar is one of the most versatile discs that we offer in our recreational line. Designed specifically to the UPA (Ultimate Players Association) standards in size and weight, because of its superior catchability. The Pulsar is an excellent choice for a game of Ultimate. Currently, the Pulsar is the official disc for the sport of Goaltimate. This disc is not just a “competition” disc. It is perfect for Freestyling at the beach or for a game of throw and catch in the backyard.

Available Model:
[Pulsar](#) \$9.99 175 grams

Lite Polecat

The Lite Polecat is an excellent golf disc for children. It makes an excellent catch disc as well. Weight: 105 grams

Available Model:
[Lite Polecat](#) \$4.99 105 grams

Zephyr

The Zephyr is a throw and catch disc. It has long been a favorite for the Overall events of Discathon and Accuracy (160 grams). The Zephyr is great at the beach, at the park, or on the Disc Golf course. The Zephyr has a very straight and true flight characteristic. The Zephyr's Thumtrac® gives it extra durability and a great grip, especially for sidearm throws. It's an awesome disc for playing catch at the beach, dude.

Available Models:
[Light Zephyr](#) \$8.99 138 grams
[DX Zephyr](#) \$8.99 160-200 grams

I-Dyed Discs

Add unique color to your game with I-Dye Discs! Each disc is individually dyed with bold colors and exciting designs. No two are exactly alike. These discs are attractive enough to display on your walls, yet much more fun to watch flying down the fairway.

I-Dye discs are available in the INNOVA Pro, Champion, and Star lines. Availability is limited to stock on hand with new shipments arriving often.

I-Dye Pro Discs	\$15.99
I-Dye Champion Discs	\$ 18.99
I-Dye Star Discs	\$19.99

GLOW DISCS

There is no need to stop playing when the sun goes down. INNOVA'S Glow discs are made with a rechargeable glow-in-the-dark plastic that has a unique feel and allows play to continue in the dark. Simply use a portable black light, camera flash attachment, or flashlight to charge glow discs before play and between shots.

Our glow discs are not just for nighttime play! Glow plastic has a slightly different texture than our other discs. Many prefer the glow plastic for its unique feel, so it is not uncommon to see someone with a glow disc that they use every day.

MSRP \$12.99

Tips for Glow Golf Fun

Check the park hours and ask for permission if it is after normal operating hours.

A portable black light makes the ultimate glow charger and won't impair your night vision.

Bring a good flashlight with good batteries.

Throw safe shots, keeping the disc on the fairway.

The week before and after the new moon is ideal for glow golf.

Carry a mobile phone for emergencies.

Wear light colors and make sure nobody is in front of you when you throw.

Turn your head away and close your eyes when charging your discs with a flash.

Attach glow sticks to identify targets.

Model and Weight Availability Varies.

Custom Stamped Discs

Custom golf discs and mini markers are a great way to raise money and promote your business, club, or upcoming event. They are a mainstay at PDGA tournaments and help raise thousands of dollars each year.

We have several options to choose from:

Hot stamp:

This traditional process still reigns supreme and offers the widest selection of models to choose from. You can choose from a variety of foil colors from black to metallic rainbow and mix and match disc colors as well.

- Minimum order: 100 discs (25 discs minimum per model)
- Golf discs: DX, Pro, Champion, Star model Golf discs.
- Mini markers: Standard, UV, Glow, Golf weight, Champion, & Star

Full Color:

Photos and multi-color art make beautiful Full Color discs. We can also personalize each disc individually for trophy discs or to recognize club members by name. Full Color minis are great collectors items and make great bag tags.

- Minimum order: 25 discs
- Golf discs: Select white DX models
- Mini markers: White Golf weight minis.

INNColor™ :

The latest evolution of the ever popular Champion Fund Raiser Program. This process produces the most brilliant high resolution images from edge to edge. INNColor discs are available to PDGA tournament directors and other qualified fund raising events. For INNColor™ pricing, turn to page 33.

- Order qty. varies with event size
- Golf discs: Select Champion & Star models.
- Mini markers: Champion & Star

Call (or email at custom@innovadiscgolf.com) the INNOVA Custom dept. for details on graphic design specifications & model availability. We will gladly help you determine which custom application is suitable for your project. Custom design is also available at affordable costs.

* Please allow 3-5 weeks to process and deliver your order

We can handle small or large custom orders, we have thousands of discs in stock ready to hot stamp.

Sponsorship Opportunities

INNOVA was founded by players and promoters for players and promoters. Whether it's a local school demo or the United States Disc Golf Championship, we want to help you promote disc golf. No event is too big or too small to receive our support. INNOVA offers many forms of support. From packaged options to tailored sponsorship solutions, we want to work with you to best meet your specific goals.

Need to raise money for your event or course development? INNOVA offers THE proven fundraising discs. Whether you choose traditional hot stamping or INNColor (see next page), we forego profit and market share on these special discs to help your fundraising succeed. Along with your custom artwork, each fundraising disc includes a [Sponsor Reward Program](#) certificate to further enhance the disc value and help events say "thank you" to their supporters. Supporters can enter INNOVA Gear Drawings with one lucky winner receiving the highly sought-after Sponsor's Exemption to the 2006 United States Disc Golf Championship in Rock Hill, South Carolina.

Want custom plastic players prefer? More tour events are won with INNOVA discs than all other brands combined. Small orders or large orders, our custom stamping specialists will help folks see your artwork on the right models. Our simpler pricing and friendlier ordering means one less thing to worry about before your event. We'll also include tournament supplies (scorecards, pencils, and banners) and select INNOVA merchandise because we appreciate your promotional efforts.

Want some free stuff because your promotional efforts enhance the future of Disc Golf? We can hook you up! For this or any sponsorship questions, please visit our website or contact us toll free at 800-408-8449 (West Coast) or at 800-476-3968 (East Coast) or send us an email at sponsorship@innovadiscs.com. Remember, the players that brought you the first true golf disc are here to help support your event. Just give us a call.

INNOVA - #1 in Disc Golf Support

INNColor™ CFR Discs

The CFR INNColor™ program was successfully introduced in 2005 and over 90 events benefited from our unique fund raising program. The INNColor™ Program makes it possible for events to offer special discs that display unique custom artwork. The INNColor process allows high resolution, full color art to be exhibited from edge to edge.

The INNColor™ program helps makes CFR fund raising easy for event directors, as both players and collectors enjoy purchasing discs with attractive custom artwork. Since INNColor™ discs are available in limited quantities, and only to participants in our CFR Program, the value of INNColor™ discs is enhanced.

The INNColor™ process is available on our current CFR disc models and there is no extra charge for glow CFR models. This year the CFR INNColor™ program will also be available on select models in our Champion and Star plastics. The INNColor™ process works extremely well on white Star discs. The white Star plastic adds intensity to INNColor™ designs and brings out details in the artwork. We also offer the INNColor™ process on Champion Aviar Mini discs as an additional way to raise sponsorship funds.

Doing well with INNColor™ fund raising depends heavily on quality artwork that is sought-after. Using a talented artist or graphic designer to create eye-catching art is a good way to be successful.

Remember, INNColor™ discs can create a lasting impression that your sponsors and players will enjoy.

Purchasers of CFR discs are event sponsors. They are qualified to enroll in our [Sponsor Reward Program](#) and may participate in our monthly Sponsor Reward drawings.

Charges for CFR discs include the cost of the disc, set up fees and all process charges. Artwork that does not meet INNColor specifications may be subject to extra fees.

Disc Golf Targets

www.innovadiscs.com

Innova offers several different types of targets. From permanent course models to collapsible model, we carry a target for you. The DISCatcher® PRO target is PDGA approved for tournament play.

For park installations or a backyard target, there is no better choice than the DISCatcher® PRO. The PRO model is the most visible symbol of Disc Golf today. The bright yellow top is easy to see from far away. You can read distances better with the DISCatcher® PRO.

Our most popular target for practice is the DISCatcher® Sport. It is a lighter weight, full size target that catches like a

professional target. It is easy to set up and disassembles for transporting.

Our SkillShot™ and DISCatcher® Traveler offer quick setup and clean up. Both our Traveler and SkillShot™ targets offer students the opportunity to experience Disc Golf in gym classes with easy equipment set up. Both targets come in bright colors that appeal to young players.

DISCatcher® PRO

www.innovadiscs.com

The DISCatcher® PRO is highly visible in most any terrain

DISCatcher® PRO Disc Golf Target

The INNOVA DISCatcher® PRO is the best catching, most visible, and longest lasting Disc Golf target. The DISCatcher® PRO is available in both Permanent and Portable models, making it perfect for a local course or for play in the back yard.

The DISCatcher® PRO Permanent is a favorite of parks departments and course professionals—in 2005 over 100 new courses were installed using DISCatcher® PRO Permanent targets. The bright yellow band improves target visibility from afar and also distinguishes the disc golf course to non players. The DISCatcher® PRO has 24 chains designed to catch and stop discs. Discs thrown into its large “sweet spot” resist “blow-throughs”, “bounce-backs”, and “bounce-outs”. We are sure that the DISCatcher® PRO will suit your needs, whether you are installing a new course or upgrading an existing one.

The DISCatcher® PRO Portable offers the same great “catchability” as the Permanent model but with a metal base that allows it to be set up anywhere. The Portable is ideal for use on temporary courses or as a heavy-duty full-size target for backyard practice.

The DISCatcher® PRO was designed by pros to improve scoring from near and far. There is no better choice than the DISCatcher® PRO.

HIGH VISIBILITY TARGET TOP
Our yellow powder coated target top makes the INNOVA DISCatcher® PRO highly visible and able to withstand the elements. Under the powder coating is all stainless steel construction making it long-lasting and maintenance free.
GALVANIZED CONSTRUCTION
Hot-dip galvanizing basket, pipe and chains allow a DISCatcher® PRO target to weather the elements better than painted or zinc plated baskets.
THREE TIERED CHAINS
12 outer chains grab your disc, while 12 more inner chains buffer and slow the disc, improving catching performance. This makes the DISCatcher a favorite target of players.
PDGA APPROVED
Both the DISCatcher® Pro Permanent and Portable models are PDGA approved for tournament play.

DISCatcher® PRO

The DISCatcher® PRO has 3 layers of chains to catch more shots
Official target of the United States Disc Golf Championship

Permanent Model Specifications

- Target Top — Our yellow target tops are made from stainless steel. They are 22 inches across and 4 inches high. The band is also stainless steel welded to stainless steel “spokes”. Each target top is then powder coated in bright yellow for best visibility on the course.
- Chains — Our chains are made to handle abuse. 24 strands of marine grade galvanized 2/0 chains. (12 outer, 6 middle, 6 inner)
- Basket — Our baskets will provide years of loyal service. They are made using 3/8” steel rod, which is hot-dip galvanized to survive years of harsh weather.
- Pole — Our hot-dip galvanized 74” pole deters vandals. With 1/8” walls to prevent bending or cutting. Each is pre-drilled for target top, basket, and collar hardware.
- Locking Collar — Hot-dip galvanized finish. Securely fits over pole mounted with tamper resistant screws.
- Installation Tube — 24” long hot-dip galvanized steel tube. Provides a snug fit for the target at PDGA approved height. Locking tab aligns with locking collar for security.

Custom Color Tops

Is your course in need of a blast of new color? Does your school want a Disc Golf course that matches the team's colors? You now have the power!

Custom color DISCatcher® are now available in a multitude of colors. If that isn't enough you can add cool special effects so your targets ooze cool. We will work with you; be it for a backyard target or an entire course. Please contact INNOVA for more information and pricing.

DISCatcher® Sport

The INNOVA DISCatcher® Sport is a full-size portable target. Durable construction with 18 galvanized chains, yet the DISCatcher® Sport model weighs only 40 pounds. The DISCatcher® Sport is an excellent target choice for youth camps, schools, backyard practice or to create a temporary course. Constructed of six parts, the DISCatcher® Sport can be set up in about 5 minutes with just a screwdriver. It disassembles for easy transportation or for compact storage when not in use. Regulation sized and PDGA approved for tournament play.

- Chain Assembly - Durable yellow powder coated target top with 18 strands of galvanized chains
- Basket - Galvanized finish
- 2 poles - Two sections with a galvanized finish
- Base - Our galvanized four spoke base is wide enough and strong enough to stabilize the target, yet is still lightweight.

MSRP \$194.99

DISCatcher® Mini Target

The INNOVA DISCatcher® Mini basket is the perfect trophy basket to award to top competitors in tournaments. It is also a great basket for your mini golf course. Create your own cool course in your yard, or pool a bunch of baskets together and set up a temporary course at your local park. With 18 real chains and solid steel construction, the DISCatcher® Mini works like the real deal. Metal band on top is perfect for a trophy plaque. 22" tall. Available in yellow powder coated or chrome silver.

MSRP \$99.99

The easiest way to play anywhere!

The DISCatcher® Traveler Disc Golf Target is ready to accompany you on all your Disc Golf expeditions. The Traveler is INNOVA's lightest weight full size target. Quick set up and take down gives you more time to enjoy Disc Golf. It is Ideal for camping, the beach, or a quick backyard putting session. The Traveler is an excellent choice for schools and youth camps. Kids enjoy learning disc golf on the Traveler.

- Simple one step set up
- At just 12 pounds, the DISCatcher® Traveler is the lightest portable target available from INNOVA
- The chain assembly is surrounded with a unique net that provides additional catching power by preventing "blow-throughs" and decreasing "spit-outs"
- The extra wide basket tray is made of a lightweight yet durable, quick-drying mesh fabric
- Four legs provide a wide sturdy base. Attached anchor rings and included anchor stakes serve to secure target on uneven surfaces and on windy days
- Available in three eye-catching colors: yellow, red, and blue (Subject to availability)
- Comes with matching tote bag for easy transportation and storage
- Includes removable flag for added visibility and reading wind direction
- Early or late putting sessions won't disturb others with quieter chain action of Traveler
- A favorite of Physical Education teachers for their light weight, quick setup, and small storage footprint

MSRP \$129.99

DISCatcher Traveler

SkillShot™ Portable Target

www.innovadiscs.com

The INNOVA SkillShot™ is the original lightweight portable Disc Golf target. The SkillShot™ target weighs in at 26 pounds and it offers a 16 chain assembly. The SkillShot™ allows you to play Disc Golf in the park, on your next camp-out or around the backyard. The SkillShot™ is affordable, easy to transport and is PDGA approved. Offered in red, green, black, and blue (Subject to availability). The SkillShot™ comes complete with flag and carrying case.

SkillShot™ Features:

- Umbrella Action - Pops up in seconds and collapses quickly too.
- 16 Chains - 16 real zinc plated chains grab and hold discs.
- Tripod Base - Powder coated tripod base allows for basket to be mounted on uneven ground. Stake rings at end of each foot for added stability when needed.
- Colorful Skins - 600 denier polyester skins. The SkillShot™ comes in a variety of colors to suit your needs. Available in red, blue, forest green and black.
- Convenient Carry Case - Great for storing the SkillShot™ in your car.

Weight 26 lbs
MSRP \$129.99

Design a SkillShot Challenge Course in your park or backyard.

The Skill Shot Challenge is a great way to test your skills with golf discs. With skills that test your putting, approach, driving, and escape shots, you'll learn the areas of your game that are lacking. Now turn that knowledge around and practice the areas you have difficulty and you'll be improving your golf game while enjoying a fun way to measure your skills!

Go to edgediscgolf.org for more info.

Convenient Carry Bag

Course Sales

Disc Golf courses don't usually just sprout out of the ground. Most Disc Golf courses are the result of many hours of volunteer work by local enthusiasts. Disc Golf course projects often come up against many hurdles. Our goal is to simplify the process of getting a Disc Golf course installed.

With many course designers on staff, we are well suited to help you with your course design and will hopefully save you money and energy in the process. We have proven tips for meeting your financial goals. There seems to be a trend lately that parks

departments are much more open to Disc Golf as a fun recreational activity and a competitive sport. A course project that wasn't feasible five years ago may be approved if you resubmit your proposal today.

We do everything we can to grow the sport of Disc Golf, and it all starts with course development. Let us work with you to build a course package that fits your goals and budget.

Our Eco package is both Economical and Ecologically friendly. With natural tees, a 9 hole Eco Course can be installed for just \$2785. Upgrading in the future is not a problem.

Retail Display Materials

Disc sales have come a long way from that box of discs in the back of some guy's trunk out at the course. Disc golf supplies have grown to become recognized sporting goods products and retailers need effective means of displaying products in a convenient and eye-catching manner. INNOVA understands. We offer a variety of products that help you maximize sales and exposure for the sport of Disc Golf. Whether you already have gridwall, slatwall, or shelving or are looking for a freestanding display, we have something to fit your needs.

Not only do we supply golf disc displays, we also supply you with a wide selection of banners, brochures, and charts that will help you and your customers better understand the many options available in our product line.

Disc Selection Charts provide a simple method to compare different discs. We have brochures for beginners, schools, and people looking to install courses. We also have technique diagrams that help players achieve more accurate and longer throws, as well as teaching different types of throws to add to player's enjoyment of Disc Golf.

If you are a seasoned INNOVA retailer, you may not be aware of our cool new UV resistant vinyl placards. These slide into our gridwall and slatwall racks and are available for each of our models. For those who sell a range of discs we also have more generic versions for different classifications, plastics, Glow, and I Dye.

Professional Course Design

Trust the Disc Golf Experts

with your Disc Golf Course Project

Disc Golf Course Design is a growing discipline in park/land development planning. The INNOVA Design Team has extensive experience and unique insight into the successful creation of Disc Golf facilities. We can tailor the design requirements for any project: whether it is for an elaborate World Championship level course, a private use facility or small local park with limited land and resources.

Take the first step in getting your course in the ground. Let us review your project plans with realistic estimates that suit your specific needs.

The INNOVA Design Team will work with you or your client in every step of the course planning process:

- Regional Market Analysis
- Site Planning & Proposal
- Cost Projection
- Project Presentation
- Phase Development
- Labor/Hardware Installation Bids

Disc Golf United

DGU is a new Disc Golf handicap subscription service. DGU has developed a Universal Handicapping System for the sport of Disc Golf that will generate handicaps for individuals and league players. DGU operates an interactive web site at discgolfunited.com where all visitors can find valuable information about Disc Golf and subscribers can receive Personal Handicap Factors and track their round by round scoring and progress.

DGU subscriptions are available for \$19.95 annually or for only \$2.95 on a monthly basis. Log on to discgolfunited.com today to subscribe or call 1-866-391-3343

DGU players compete regardless of skill level

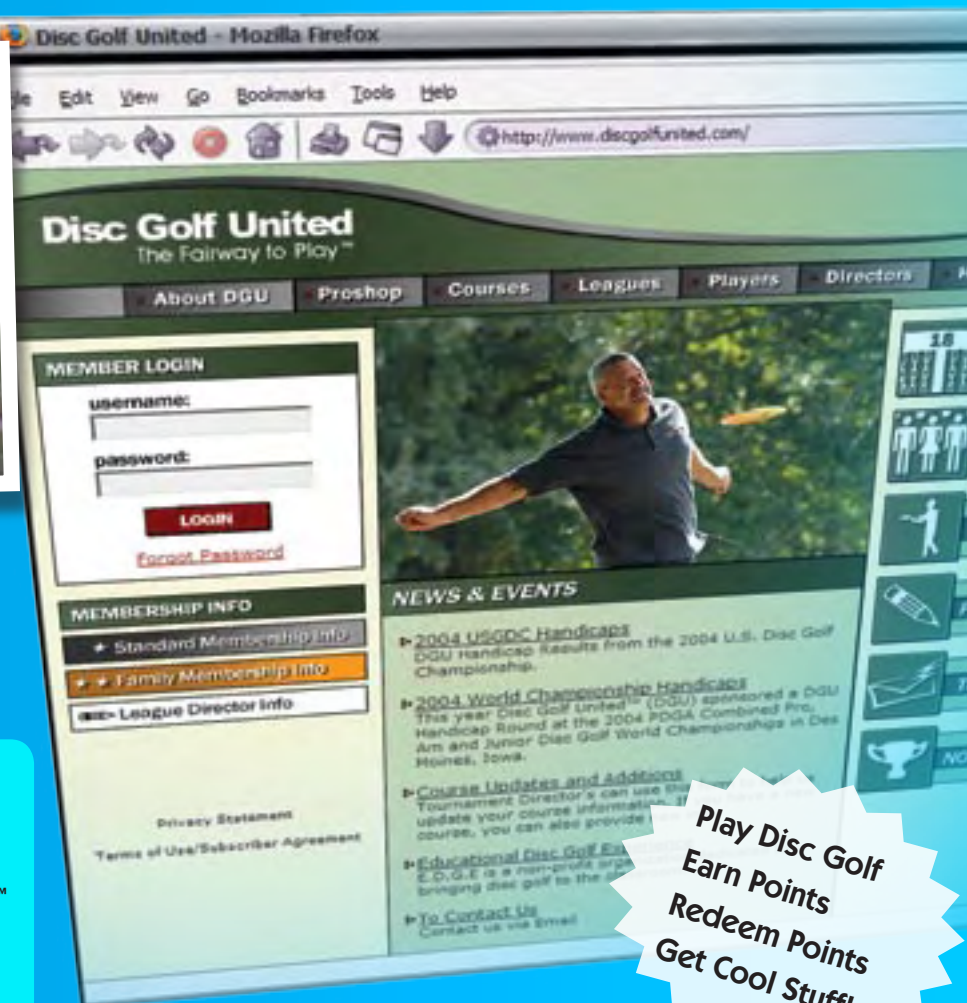

THE
Fairway
to PLAY™

DGU SUBSCRIBER BENEFITS

- Receive Personal Handicap Factors™
- Have the opportunity to "Get Paid to Play Disc Golf" by earning Player Reward Points™ which can be redeemed for Disc Golf products at the DGU Online Pro Shop
- Gain complete access to all the features and services available at discgolfunited.com
- Maintain a Personal Scoring Record with handicaps for all rounds of Disc Golf played
- Participate in Official DGU Leagues on courses around the country as well as receive League and DGU Handicap Factors
- Earn funds for local organizations by becoming an Official DGU League Director

Official Handicap Leagues

In addition to providing handicap factors for individual subscribers, Disc Golf United™ provides handicapping and record keeping services to League Directors. DGU has put together the information and tools you need to organize a successful handicap league.

DGU League Directors can be rewarded for operating a DGU League and introducing new players to Disc Golf United™. League Directors may keep these rewards or donate them to local organizations or for Disc Golf course improvement projects.

To become a DGU League Director, the first step is to log on to discgolfunited.com today and become a subscriber. DGU will then provide you with step by step instructions.

Use the DGU Course Locator to find a course near you at www.discgolfunited.com

Educational Disc Golf Experience

EDGE, the Educational Disc Golf Experience, is a non-profit organization that was founded to introduce the fun, lifetime sport of Disc Golf to young people. EDGE has developed a program to provide schools and other youth programs with a sound curriculum for teaching Disc Golf fundamentals and related skills.

The Sport of a Lifetime

EDGE introduces the lifetime sport of Disc Golf to students and campers of all ages. While introducing rules and techniques of Disc Golf, EDGE also provides teaching points on life skills such as responsibility and cooperation as well as the life-long benefits that an active lifestyle provides.

Des Reading teaches students the game of Disc Golf

EDGE PROGRAM BENEFITS:

- Students learn through hands on lessons using real golf discs and equipment
- SkillShot™ fundamentals testing allows students to test the skills they have learned and rewards students who have reached predefined levels with cool patches of achievement
- EDGE curriculum also teaches: stretching, addition, courtesy, environmentalism
- EDGE Packages start at under \$500 with enough equipment for a 30 person class

www.edgediscgolf.org

Disc Golf is the sport of the future and children are the future of the sport

The EDGE program introduces the basic physical skills required for the sport along with integrated math, science, fitness, nutrition, and civics lessons. Children get to have fun, participate in much needed physical activity and learn skills that can last a lifetime.

Teach a Child to Play Disc Golf Today

If you are interested in finding out more about EDGE or would like information on how to bring the EDGE program to a school or youth organization in your area, visit the EDGE web site online at: www.edgediscgolf.org or call 1-866-391-EDGE (3343)

Educational Disc Golf Experience, Inc. is recognized as a charitable, non-profit educational organization under Section 501 C (3) of the Internal Revenue Code.
