# 2010 CATALOG

## A letter from the founders

We wish to extend a heartfelt thank you to our dealers, promoters and friends. In the face of challenging economic times, we are grateful for both your support and the inherent goodness of disc golf. Thankfully, disc golf remains fun, healthy and affordable and Innova golf discs continue to be the most desired.

While we appreciate the game and our role in its growth, 2009 was still a sad year for us. We mourned the untimely loss of our friend and co-founder. Tim Selinske passed away in August after a brave battle with LCH. His bright spirit and eternal optimism will be forever missed. Our prayers are with his family and all his disc golf friends in this time of sorrow.

We will work to continue to support the game, to improve our golf discs, and to enhance our customer service. For those who choose Innova, thank you. For those considering Innova, thank you. As always, we ask you to let us know how we can do better. By working together, we can continue to fulfill disc golf desires in 2010.

Thanks again. We hope to see you on the course.

Sincerely,

Dave Dunipace and Harold Duvall

### Dart • Putt & Approach

The Dart has developed a solid following since its release in the Spring of 2009. With dead straight flights, it isn't hard to see why. The Dart holds a straight line when thrown flat. It's as easy as that. The Dart is straight for putts and drives.

- Very straight at all speeds
- Best long range putter
- Great gripping plastic

### Mako • Mid-Range

The Mako is a game changer. It is one of the easiest discs to learn. To learn it is to love it! Straight shots are made for the Mako. Even slight release angles end up going straight. Aim the Mako where you want to land. That's where it is headed.

- The straightest, longest Mid-Range
- Flat landing prevents skipping
- Grippy Star plastic

### Katana • Distance Driver

The Katana is one fast finesse disc. With more turn than its siblings, the Boss and the Groove, it offers less powerful players more distance. Better players will love the Katana for tailwind shots and stand up hyzer shots that get out of sight fast.

- Our longest range Distance Driver with a significant high speed turn
- Perfect for players with less power
- Great long range roller

speed	glide	turn	fade

### Star San Marino Roc • Mid-Range

The Star San Marino Roc is the first Star Roc for general release. Players who love Rocs will want to get one of these. Vintage technology fused with cutting edge plastics.

- **Reliable in all wind conditions**
- **More glide than the Rancho Roc**
- **Our most durable Roc offered for retail**

### R-Pro Plastic

In 2009, Innova introduced a new, softer Pro plastic. R-Pro plastic has a soft grippy feel that benefits players looking for a more tactile plastic. We've added R-Pro to a variety of models; look for more in 2010.

- R-Pro Aviar
- R-Pro JK Aviar-X
- R-Pro Rhino
- R-Pro Pig
- R-Pro Hydra
- R-Pro Dart
- R-Pro Roc
- R-Pro Cro
- R-Pro Skeeter
- R-Pro Boss

### R-Pro Roc • Mid-Range

The R-Pro Roc is coming soon. This Roc has the best grip yet. Perfect for cold or wet weather conditions. This Roc starts out a little overstable and becomes even more tasty with a bit of seasoning.

- **Great R-Pro grip for confident shots**
- **Same great wind beating performance**
- **THE Roc for cold or wet weather**

## R-Pro Plastic

At INNOVA we are constantly working to find new ways to improve our products. It is one reason we are the leader in the Disc Golf industry. Our latest INNOVation is R-Pro Plastic.

The R in R-Pro stands for rubbery. R-Pro is a special blend of plastic designed to provide maximum grip with increased flexibility.

R-Pro putters and Mid-Range discs are made of a soft rubbery material to provide flexibility even in cold conditions. The rubbery material helps absorb impacts and allows disc to stay put. The R-Pro material used in the R-Pro Boss is firmer than R-Pro putters and Mid-Range discs, but still provides that excellent R-Pro grip. R-Pro plastic allows us to make the Boss in weights as low as 135 grams.

R-Pro plastic allows putters like the Dart, Aviar, JK Aviar, Rhino, Pig and Hydra to stick and stay in the chains. R-Pro Mid-Range discs like the Roc, Skeeter and Cro tend to stay put and not skip away upon landing.

### Benefits of R-Pro Plastic

- Better grip for cold and wet weather
- Improved feel for confident putting and approaches
- Rubberly material absorbs impacts and lowers deflections
- R-Pro Hydra floats in water (page 18)
- R-Pro Boss makes a great beginner driver in light weights (page 38)

No player in the history of disc golf has dominated like Ken Climo. With 12 World Championships, 5 US Championships, and a basket full of other Major titles, Ken became the face of disc golf throughout the 90s. He is still THE player to beat at any event. After 20 years, Ken continues to remind people of his prowess at big events by winning against competition half his age.

## PLASTIC TYPES

### Star Plastic

**DURABILITY**

**GRIP**

Innova's Star Plastic offers the best combination of grip and durability. Bright colors and slow wear mean players will be able to throw these discs for a long time.

#### Benefits

- Superior grip that performs well in most weather conditions
- Long-lasting durability
- Discs can range from firm to a more gummy flexibility
- Some models available in Echo Plastic (50% or more recycled material)

### Champion Plastic

**DURABILITY**

**GRIP**

Innova's Champion Plastic is the original ultra-durable golf disc plastic. These discs wear slower and last for hundreds of rounds.

#### Benefits

- Suitable for the increased throwing speeds of professional players
- Long-lasting durability — retains Innova flight characteristics longer than DX or Pro plastics
- Some models available with colorful and unique I-Dye designs (page 41)

### Pro Plastic

**DURABILITY**

**GRIP**

Innova's Pro Plastic is manufactured using a unique blend of plastics. Pro plastic is designed to add grip and glide. It is more durable than our DX plastic.

#### Benefits

- Driver models tend to glide more than other plastics
- Provides an improved grip over our Champion Line plastic
- Some models available with colorful and unique I-Dye designs (page 41)

### R-Pro Plastic

**DURABILITY**

**GRIP**

Innova's R-Pro is softer for the best all-condition grip and improved feel. R-Pro is the best choice for cold weather, and is favored by those who prefer a softer feel to their discs.

#### Benefits

- Better grip for cold and wet weather
- Improved feel for confident putting
- Rubbery material absorbs impacts, lowers deflections
- R-Pro Boss makes a great beginner driver in light weights (page 38)

### DX Plastic

**DURABILITY**

**GRIP**

Innova's DX Plastic is our most popular line and offers the widest selection of models and weights. These discs are affordably priced and provide an excellent grip in a variety of weather situations.

#### Benefits

- Good all-weather grip
- Wears in progressively to provide new and varied flight characteristics
- Most economically priced of our plastic lines

## COMMON GRIPS FOR DIFFERENT SHOTS

There are a variety of ways to hold a disc. The grips shown on this page are among the most common. Choose a grip that feels right and works for you.

**Power Grip**

**Power Grip:** mainly for drives and long approaches. All four fingers are stacked on the inside of the rim. The disc sits in the palm along the creases, diagonally. More power is transferred with this grip.

**Control Grip**

**Control Grip:** traditionally for putts and approach shots. Fingers rest on the underside of the disc, not against the rim. Index finger rests against the outside of the rim. This grip offers clean, low-speed releases.

**Sidearm/Forehand Grip**

**Sidearm/Forehand Grip:** for sidearm shots and overhand shots. Middle finger is against the rim, with index stacked against middle or under the flightplate. Thumb pinches top above fingers.

**Hook Thumber Grip**

**Hook Thumber Grip:** for overhand shots - thrown like a baseball. Thumb rests against inside rim, outside of rim rests in crease between thumb and index finger. Grip tight for more power.

## DISC TYPES

INNOVA manufactures a complete line of discs for the sport of disc golf. We produce golf discs for every situation you may encounter from the tee to the fairway to the green. Whether you are playing on a wide-open, windy course, threading a narrow wooded fairway, executing a flawless approach, escaping a difficult situation or nailing a crucial putt, INNOVA has a disc to match all your disc golf situations.

### Putt & Approach

Putt & Approach discs fly true at low and medium speeds, which is highly desirable when putting. These discs are also great for approaches and short drives. The quickest way to lower scores in disc golf is mastery of your putter.

#### Benefits

- Dependable, accurate, and confidence inspiring putts
- Ideal for controlled upshots, short drives and “go for it” shots
- Available in a variety of different models and plastics to match unique putting styles and grips
- Aviar is the most popular golf disc ever produced (pages 16-17)

### Mid-Range

Mid-Range discs are great for all types of shots and are recommended as a first disc for beginners for their ease of use and forgiving nature.

#### Benefits

- Designed to provide accuracy and control for Mid-Range, approach, and short drives
- Provide dependability from fairway to pin
- Roc is the Mid-Range disc of choice for competitive players (page 21)
- Mako is our newest and straightest Mid-Range for most players (page 22)
- Skeeter is the recommended Mid-Range disc for beginning players (page 25)

### Fairway Drivers

Fairway Drivers are designed to offer players more accuracy than Distance Drivers without sacrificing too much distance. These are used when keeping the disc on the fairway or green is more important than maximum distance.

#### Benefits

- Deliver dependable distance control for consistent, accurate driving
- Valuable disc for shorter, controlled drives and long approaches
- Easier for beginners to use than Distance Drivers
- Help to increase confidence through added control and consistency
- The Leopard (page 28) should be everyone's first fairway driver.

### Distance Drivers

Distance Drivers are at the pinnacle of golf disc design. They offer players more distance off the tee than other types of golf discs.

#### Benefits

- Deliver maximum distance off the tee
- Our widest selection of models offers a disc for every player's skill level
- Most Distance Drivers are offered in Star and Champion plastics to ensure longevity and optimal characteristics.
- Valkyrie currently holds the World Distance Record of 820 feet (250m) (page 33)
- The Monarch (page 35) and Groove (page 38) use our new rim technology to reduce weight and increase glide.

## THROWING TIPS FROM DAVE

### Learn to keep the nose down

When you release the disc, does the front of the disc point toward the sky? If it does, you are exposing the less aerodynamic underside to the air you are trying to penetrate. This creates turbulence, slowing your disc, and ultimately making your disc stall. Keep the nose flat or down, and you'll achieve the distance you desire.

### Flatten it out for distance

Throwing a disc with a high trajectory means the disc is fighting gravity. It will eventually slow down and stall, falling to the left. If you throw high enough you may actually lose distance as the disc stalls. Throwing line drives will allow your disc to maintain its initial velocity longer, thereby adding distance.

**DISTANCE DRIVERS**

**Choose the right disc for each throw**

We have a disc for every shot. Keep your Drivers in the bag when you get within a certain range. Drivers are meant to

be thrown fast and far and do not perform as well when thrown at low speeds like a Putt & Approach. Pull out the Putter or Mid-Range to make a key placement throw or putt. It's like golf club selection. Play smart. Have fun.

**Distance Drivers** are the best choice for the longest drives and will maximize your distance.

**Fairway Drivers** are great for shots where accuracy is paramount to pure distance. Strategy over power.

**Mid-Range** discs offer pin-point control at moderate speeds. The bread and butter of a solid game.

**Putt & Approach** discs are key for short range success. They are the most predictable at lower speeds.

**Get FREE Disc Selection Charts**

We'll send you a free set of Disc Selection Charts to inform you and your customers.

They have all the molds, plastics offered, flight paths, and flight numbers so players are better informed about the disc they are choosing.

Just contact a sales rep and ask for a set of Disc Selection Charts and we'll send a set your way.

### What Do These Numbers Mean?

We use 4 terms to better define each disc's characteristics.

**Speed** — Speed is the ability of the disc to cut through the air. 13 is the fastest through the air.

**Glide** — A higher glide number means the disc can ride the air better. New players should look for discs with more glide. A disc rated 6 has the most glide.

**Turn** — *High Speed Turn* — This is the tendency of a disc to bank right (for RHBH\* throwers) during the initial part of the flight. A disc with a 1 rating fights turn, but a -5 rated disc turns most.

**Fade** — *Low Speed Fade* — All discs tail off in the same direction (left for RHBH shots), but some will "hook" harder than others. A disc rated "0" will finish the straightest with very little fade, while a disc rated +5 will hook hard at the end of flight.

\* RHBH - refers to Right Hand Backhand throws. Discs thrown left hand backhand would reverse right handed flight patterns.

## Birdie

21.2 cm

speed	glide	turn	fade
1	2	0	0

- All skill levels
- Great for kids
- Unique Thumtrac™

The Birdie is our best "go-for" disc and an excellent approach disc. It is a slow, straight flyer with a sure Thumtrac™ grip that makes it easy to grip and release without worry.

**Peter Shive: Nine time Sr. Grandmasters World Champion**  
 "I switched to the Birdie several years ago. It is rock solid in the wind. This is why I putt with it. I also use it for approaches out to about 200 feet, for the same reason (stability in wind) and because, compared with other discs, it stays put better when it hits the ground."

1	3	0	0

- Beginner friendly
- Great for kids

The Polecat is a great disc for families and kids. It flies flat and straight. A low profile, point and shoot, easy-to-release Putt & Approach disc.

**Gregg Hosfeld: 1987 World Champion**  
 "My 'into-the-wind' putter. I also really like the wide edge for turbo putting. And when I feel like bowling for birdies, this disc does well even at 168g."

- Beginner friendly
- Great for kids

The Sonic is a great disc if you are new to disc golf and can throw a catch disc. As a putter, the Sonic has a dead-straight flight and sticks well in the chains. The Sonic also makes a versatile short range approach and escape disc when thrown sidearm or backhand. This disc is very beginner friendly.

**Brian Schweberger: Team Champion**  
 "A great upshot disc that always lands flat on all terrains. I use it for shots 200 ft and in."

Also available in the catch-friendly and super durable SuperSONIC. Excellent for family games of catch or exercising with your dog. (See page 43)

## The AVIAR - Why it is simply the best golf disc ever

Since its creation in the 1984, the Aviar has been THE putter of more World Champions than any other golf disc. A consistent putt is THE key to winning, and the Aviar is consistently the best in any wind condition and for any putting style. Here are just a few of the many World Champions who have won using the Aviar.

- Avery Jenkins** - 2009 World Champion
- Valarie Jenkins** - 2009 World Champion

- Developed for pros
- Windy conditions
- Unique Thumtrac™

The Rhyno is essential in the wind for short to medium range shots. The Rhyno's Thumtrac™ gives it a sure grip and reliable performance in any situation.

**Matt Dollar: Innova Team Member**

"Thank you Innova for the Rhyno! I have about 10 Rhynos that I cycle in and out of my bag all the time. This isn't just for putting, I throw most of my short Mid-Range shots with this disc. It is an awesome sidearm approach disc too."

The JK (Juliana Korver) Pro Aviar is made from the Aviar driver mold. It is more flexible and grippier than other Aviar models. Like all Aviars, it is perfect for driving, approaching and putting.

**Juliana Korver: Five-Time Womens World Champion**

*"This is my putter, but I think the real strength of this disc shines when it is thrown as a driver. I use this disc for drives and Mid-Range shots between 240 ft and 150 ft. I will often use it on shorter upshots as well, but feel quite confident with it when throwing it hard. I really like this disc for short sidearm shots as well."*

# PUTT & APPROACH DISCS

## More Than Just Tossing 'em In the Basket

We make a wide variety of putters to match a wide variety of playing situations. For windy play, choose the Pig or Hydra. For straight, predictable flights, try the Dart or Aero. For finesse shots, try the Classic Roc or XD. Whatever putter you choose, you can be confident you are throwing the best.

### Pig

21.2 cm

- Unique Thumtrac™
- Windy conditions
- Good for sidearms

The Pig was designed for short range spike shots and overstable putting. The Thumtrac™ rim provides a sure grip on both sidearm throws and putts. Players will appreciate the Pig when the winds kick up.

**Matt Dollar: Innova Team Member**

*"This is what you get when you mix my favorite Mid-Range (Gator) and putter (Rhyno) together. The Pig is one pig of a disc. If I'm ever feeling off with the Rhyno, the extra stability of the Pig helps me simplify my putt; Putt it at the right side and watch it bank into the chains. The Classic Roc is an enduring design. First molded in 1985, the Classic Roc is a smooth straight flyer and will give novices "center cut" accuracy. With a smaller rim, it is great for kids and players with small hands.

**Christian Dietrich: Innova Team Member**

*"The Classic Roc is my do-everything Mid-Range, windy putter, trick shot, and upshot disc. These discs are incredibly versatile, great in the wind, and unbelievably reliable. I'd get rid of every other disc in my bag before my Classic Roc!"*

# PUTT & APPROACH DISCS

## Dart

21.2 cm

speed	glide	turn	fade
3	4	0	0

- Beginner friendly
- Extra grip
- Long straight putter

The Dart is a small diameter putter with a straight flight. The Dart is especially good for long range putts and “go-for” shots. It has a flight similar to our Aviar Putt & Approach but has less low speed fade and a little more range. The nice thing about this disc is that it holds the line for a long time.

**Dave Greenwell: Four-Time Grandmasters World Champion**

“The Dart is one of the best cold weather putters I have ever used. If it is cold and wet, or just plain COLD, the Dart is grippy, straight, and true.”

speed	glide	turn	fade
3	6	0	0

- Beginner friendly
- Great for kids
- Great glide

Talk about old-school. The Aero is the original beveled edge golf disc. Nothing else can stake that claim. If you need a smooth flying disc for approaches or as a gift for a new player, the Aero is a great choice. Even after 25 years of advances, the Aero is still one of the straightest flying discs out there.

**Dave Greenwell: Disc Golf Hall of Fame**

“I threw an Aero out of a baseball stadium (during a demo) in 1984. I have had that same 174g disc in my bag ever since. Currently used for short left to right drives, short quick turning rollers, hand grenades and left to right putts. The Aero has been instrumental in thousands of birdies during my disc golf career.”

- Small hands
- Beginner friendly
- Great for kids

The XD is a great first disc and will speed the learning curve for beginners. XD has a low profile which is secure but easy to release. It is the most driver-like putter we have. It is accurate and easy to throw for short drives, approaches and putts.

**Valarie Jenkins: Three Time Womens World Champion**

“XD is a great disc for beginners, especially those with an ultimate background. The rim fits great in the hand, and feels comfortable to throw. It is reliable for longer distance putter.”

# MID-RANGE DISCS

## ROC - The Mid-Range Others Aspire To

Since the first flight of the Roc, it has defined excellence in a Mid-Range disc. Pros favor the Roc because it is reliably accurate in all wind conditions. The Roc is offered in a variety of plastics. From the DX Roc to the KC Pro Roc to the R-Pro Roc to the Star San Marino Roc, choose the Roc that works best for you and add confidence to your Mid-Range game.

### DX Roc

21.7 cm

speed	glide	turn	fade
4	4	0	3

- Windy conditions
- All around performer
- Top seller!

The Roc is a favorite of pros and ams alike. Smooth, accurate flights in any wind condition make the Roc a must for any serious player's game. Brand new, the Roc is a consistent, accurate wind beater. Well worn, the Roc becomes a trusted and consistent finesse disc with a slow, predictable turn. The Roc is truly a cult phenomenon.

**Avery Jenkins: 2009 World Champion**

"A very predictable controlled Mid-Range used for medium length shots with pin point accuracy. The best Mid-Range disc in the game."

### KC Pro Roc

21.7 cm

speed	glide	turn	fade
4	4	0	3

- Stiff plastic
- Developed for pros
- Windy conditions

The KC Pro Roc is one of the most popular Mid-Range discs among top pros. Designed for Ken Climo - twelve time World Champion, this disc blends durability, grip, and consistency into a perfect package. It's not surprising to see players with 2, 3, 4, or even 5 KC Rocs in their bag in various stages of wear. This is a disc that players love for its sheer versatility. From new to worn, there's a spot in your bag for the KC Pro Roc.

**Ken Climo: Twelve Time World Champion**

"The most versatile disc I carry. Tough to beat up, but when you do, it will fly straight down the fairway. All my Mid-Range shots are executed with the KC Roc."

### Star San Marino Roc

21.7 cm

speed	glide	turn	fade
4	4	0	3

- Developed for pros
- Windy conditions
- Durable Star plastic

The Star San Marino is our most durable stock production Roc to date. The San Marino mold is based on our original Roc mold from the '80s. It is a slightly less stable version of the Roc, so it has a straighter finish than the Rancho mold (DX and KC). The perfect Roc for wooded chutes and an excellent all around utility disc. In Star plastic, this Roc will hold up to just about anything you can throw it at.

**Barry Schultz: Two Time World Champion**

"I carry a lot of Rocs, and the San Marino is my finesse Roc. For shots that I need less stability on, the San Marino's glide and straightness give me the confidence to throw where I want my shot to go."

# MID-RANGE DISCS

## Large Diameter Mid-Range

Comfortable in the hand and smooth in the air, our Mid-Range discs are the most consistent fliers for most disc golfers. Their larger diameter helps to forgive small throwing errors and provides a more consistent release. These discs can bring better accuracy and lower scores.

### Shark

Point and shoot predictability is why the Shark is our best selling Mid-Range. The Shark combines the predictability of a Roc, but with a straighter flight. This is one of the best all around discs for a beginner, but don't tell that to top pros like Brian Schweberger. Because they count on it for one reason: Predictability.

**Brian Schweberger: Top Touring Pro**

"Overall, the Shark is my favorite disc. It is the most predictable stable mid-range disc I have ever thrown. I always have at least two DX Sharks in my bag. I use this disc for turnover short shots. It is very similar to the Roc, but gets to the turnover point much faster."

- Beginner friendly
- Long straight Mid-Range
- All around performer

The Coyote has been improved to be slightly more stable at high speeds and in the wind. An excellent woods disc. In the open, use the Coyote because it finishes straight with less skip. Better in the wind than the Mako and straighter finishing than a Roc, the Coyote makes an excellent all around Mid-Range.

**Matt Peckham: Pro Disc Golfer**

"The Champion Coyotes took over my bag. I now carry three. My most used one is just a hint understable, my newest is for stable drives and a slightly used Coyote handles the straight stuff. I end up throwing the Coyote on about 80% of my Mid-Range shots. It is so predictable and goes a long way."

- Roller disc

The Wolf can accelerate the learning curve for newer players. The friendly flight of the Wolf makes it a good introductory disc. It is great for threading narrow fairways and consistent turnover shots. It features the Thumtrac™ for great grip and reliability. The Wolf is an excellent roller disc and is well suited for players learning how to throw roller shots.

**Ken Climo: Twelve Time World Champion**  
*"Designed for a good thumb grip, this medium speed under-stable Mid-Range makes for a great learning tool. Easy to release."*

**DX \$8.99**

# MID-RANGE DISCS

## Small Diameter Mid-Range

These discs are smaller and faster to get there quicker and more directly. No dilly-dallying. The Kite, Panther and Skeeter are great to learn the game with. They are forgiving and easy to throw well. The Spider, Cro and Gator are more precision discs for placing shots in exact spots.

### Gator

21.2 cm

speed	glide	turn	fade

- Windy conditions
- Developed for pros
- Good for sidearms

The Gator is a power control disc that delivers pin-point accuracy, even in adverse wind conditions. This is the disc for high power throwers who need to control their accuracy.

**Micah Dorius: Innova Team member**

*"A very reliable, stable Mid-Range. I use the Gator for short hyzer shots in the wind. Also, on down hill holes where I don't want a lot of carry. I also use it for upshots when it's extremely windy."*

- Beginner friendly
- Great for kids
- Roller disc

The Panther is a slightly understable Mid-Range disc with a shallow rim. Players of all abilities can use it for throwing short, medium and medium long range shots. The Panther is a perfect disc for those learning to throw a slow controlled turnover shot. The Panther makes a great small diameter roller for mid to long range shots.

**Juliana Korver: Five-Time Womens World Champion**

*"I LOVE the Champion Panther. It is an incredibly versatile disc. I'm very fond of this disc and would NOT want to give it up. It can hold a slow fading shot. It also works well with sidearm shots. I believe it is a good beginner disc."*

Long straight flight

The Viper is a very stable to overstable disc that is very reliable in all wind conditions. The Viper changed the way disc golf is played by becoming the first disc used for the "Flex Shot" and broke the World Distance Record three times. Excellent choice for sidearm throwers. Recommended for experienced players only.

**Dean Tannock: Masters World Champion**

"Known for their stability and grip, Vipers last a long time. The more you beat them, the longer they fly."

This disc is more Pitbull than Whippet. It could use a spiked collar too. High spike shots, side arm shots and overheads are made easy with the Whippet. Accurate and dependable in the wind. Try it and you'll want to Whip-it too.

**Dave Greenwell: Four-Time Grandmasters World Champion**

"When the wind is whipping, I like the Whippet. I mainly use the Whippet for mid-range drives & upshots. Great distance control, over-stable disc for me. Very predictable."

The Gazelle is a great overall disc for players of all skill levels because of its versatility and control. It is a dependable driver that has long straight flight with a predictable fade at the end. The Gazelle works well in headwind conditions for both long and medium range shots. It has a narrow rim that is easy for smaller hands to grip.

**Lavone Wolfe: Disc Golf Hall of Fame**

"I believe this disc is still one of the best overall discs. It is great for accurate woods shots and the DX disc is the best short and mid-range roller/trick shot disc when it is very beat up. They work and roll like machines doing exactly the same thing every time."

- Beginner friendly
- All skill levels
- World Record holder!

The Valkyrie is one of our best down wind drivers. This is the disc that set the world record of 820 feet in 2002. This record has stood for over seven years now. Will it ever be broken? In addition to the Valkyrie holding the World Distance Record, it also is one of the most popular long-range rollers on the market.

**Christian Sandström: World Distance Record Holder**  
Christian shattered the distance record April 26, 2002 at **Big D in the Desert**. His record throw of 250 meters (820 feet) was made with a DX Valkyrie. Former team member Ken Jarvis was first to break the record with a throw of 247 meters. Ken's record lasted a mere 45 minutes!

9	5	-3	1

- Beginner friendly
- All skill levels
- Roller disc

Sidewinder is one of our best discs for long turnover shots and long distance rollers. It has great glide and can add distance to anyone's drive, but is ideal for players with less power.

**Matt Dollar: Innova Team member**  
"I carry 2-3 of these ranging in stability.....or lack there of in this case. I love throwing hyzer flips in the woods with the Sidewinder. It's also my favorite sidearm disc. The SW also works great for short, quick flipping thumbers. It doesn't require a lot of room because of the quick flip, which makes it perfect for really tight gaps. This disc changed my disc golf game in the woods forever. I love this disc!"

- Roller disc

Roadrunner is a very versatile long-range Distance Driver with lots of glide. It makes an excellent finesse driver or long range roller. This disc has the accuracy of a Fairway Driver as well as big distance.

**Angela Tschiggfrie: Two Time US Womens Champion**  
"I throw this disc because it has a lot of glide, which means more distance. It makes an excellent anhyzer disc"

## When Far Is Where You Want To Go.

Whatever challenges a course may present, we have a Distance Driver with a flight path to answer the challenge. These Speed 10 discs are ready to unleash your power. The wind fighting Monster is a relentless headwind driver. The Orc and Starfire provide predictable distance with accuracy. The Beast and Monarch make it easy to throw long range turnover shots and rollers.

### Monster

21.2 cm

speed	glide	turn	fade
10	3	0	5

- Windy conditions
- Overhand shots
- Good for sidearms

Monster delivers confidence, power and distance into the wind. It is one of our most overstable, wind beating Distance Drivers. It is designed for pro level players with monster power. A great choice for sidearms too.

**Peter Shive: Nine Time Sr. Grandmasters World Champion**

*"Wonderful disc for stability and length. This is my driver into strong winds or sweeping hyzers. When started with anhyzer, for an "S" Curve. I also use this disc for forehand rollers."*

### Starfire

21.2 cm

speed	glide	turn	fade
10	4	0	3

- Windy conditions
- Long straight flight

Let the Starfire make you a Star. The Starfire is great into headwinds and flies long and flat. It is a triple threat with speed, accuracy and stability.

**Billy Crump: Team Innova**

*"The Starfire was the first disc I threw over 400 feet with ease. The smoother I was, the further it went. One of my personal all time favorites!"*

### Orc

21.2 cm

speed	glide	turn	fade
10	4	-1	3

- All around performer
- All skill levels

Orc is one of our most popular Distance Drivers. Great for straight ahead power throws and long gentle hyzer shots. Suitable for a wide range of players.

**Jay "Yeti" Reading: Top Pro and EDGE Coordinator**

*"This is a 'Next Level Disc'. I have seen countless players, including myself, kick their game up another notch. At one time, I was referring to the Orc as 'Instant Distance'. Great for high speed straight shots. The Orc has a fat rim for super big hand feel. In light weights it is an S-curve crusher. Good roller."*

## SL

21.1 cm

speed	glide	turn	fade
10	5	-1	2

- All skill levels
- Great glide
- Long straight flight

SL is a fast, dependable disc with a long straight flight and excellent glide. This disc can add measurable distance to your drives. The Pro SL is also known as the Pro Starfire or Pro Starfire-L.

**Valarie Jenkins: Three Time Womens World Champion**

"My go-to driver (in Pro plastic). I carry about 5 in my bag at all times. This disc is great for beginners because it is forgiving and continues to fly true even when it gets beat in. My new Pro Starfires are stable and can be flexed to reach maximum distance. When they get beat in they fly like a dream, because the disc does all the work. I devote my 3 world titles as well as my other championships to this disc! I love it!"

10	5	-2	2

- Top seller!
- Beginner friendly
- Great glide

The Beast is one of our fastest, longest gliding discs. The Beast can increase the driving distance of beginners and pros alike. It also doubles as a great long distance roller. Signature disc for Two Time World Champion Barry Schultz.

**Barry Schultz: Two Time World Champion**

"I usually carry 2 or 3 Beasts at a time depending on the course (open vs. wooded) and the weather (hot vs. cold and dry vs. wet). I do like the long life of the Champion plastic and therefore like to use it in the woods. I will have a fresh Champion Beast in my bag as well. I will throw in a DX Beast when it is cold or wet and also if it is an open course."

- Top seller!
- Beginner friendly
- Roller disc

The Monarch is an INNOVATIVE disc design. The Monarch is a long range Distance Driver with a significant high speed turn. This predictable high speed turn makes the Monarch a good choice for beginning players and those with slower arm speeds. The Monarch also makes a great roller disc.

**Courtney McCoy: Team Champion Women**

"The Monarch is such a great disc. I would say they have taken about four or so strokes off my game. The Monarch is a really dependable turnover disc."

## These Discs Are Out-Of-Sight.... Fast!

These Speed 11 discs really move. The Max is a wind-cleaving brute. At max weight, it is meant to cut through any wind. The TeeRex is more nimble but still provides power control and distance. The Wraith is the easiest of the Speed 11 discs to throw and the longest off the tee.

### Max

21.2 cm

speed	glide	turn	fade
11	3	0	5

- Windy conditions
- Overhand shots
- Good for sidearms

Take your game to the Max and maximize your power and control. The Max is much like a longer faster Firebird. Great for forehand drives, anhyzer flex shots, and long spike hyzer throws. Predictable into any wind. Not meant for beginners.

**Steve Wisecup: World Champion**

*"The combination of distance and reliability into the wind makes the Max a must have disc for every pro. For me, it flies like a very long Firebird."*

**Star \$17.99**

### TeeRex

21.1 cm

speed	glide	turn	fade
11	4	0	4

- Windy conditions
- Good for sidearms

The TeeRex is a fast, stable to overstable power driver with significant glide. This disc is recommended for advanced to professional level players. A great Distance Driver for windy conditions and sidearm throwers.

**Dave Feldberg: 2008 World Champion**

*"I really like the Star TeeRex. I got a 167 gram TeeRex and it is very overstable. I let Avery throw it, and he couldn't turn it over. I released it with anhyzer over the water at the Memorial and it came back everytime despite the wind. Definitely an awesome disc."*

- Top seller!
- All around performer

The ever popular Wraith is a long, stable Distance Driver. The Star Wraith is the driver of choice for 12 time World Champion Ken Climo. The Wraith provides great distance for players of all skill levels.

**David Wiggins: Under 19 years old World Distance record**

*This is the disc that David Wiggins Jr. of High Point, NC used to set an 11-and-under World Distance Record of 484 feet 3 inches. David used a 168 gram Champion Wraith.*

*David has since thrown 735 feet. Holding the record for anyone under 19 years, and he did it when he was just 13!*

## Big Distance For Big Courses

The XCaliber and Destroyer offer serious players some options for their driving game. The XCaliber is a favorite of pros looking for a predictable “into the wind” driver. The Destroyer offers players of all skill levels stability, but with increased glide for gaining distance.

### XCaliber

21.1 cm

speed	glide	turn	fade
12	5	0	4

- Windy conditions
- Overhand shots
- Good for sidearms

The XCaliber is for those who have got to have the biggest and the baddest. Extremely fast with glide and stability. This is the one for confident bombs in windy conditions.

**Des Reading: Three-Time World Champion**

*“My big bomber disc that is not effected by the wind. Long and straight with a defined fade.”*

### Destroyer

21.1 cm

speed	glide	turn	fade
12	5	-1	4

- Top seller!
- All around performer
- Good for sidearms

The Destroyer is a very fast stable long Distance Driver. This disc is much like a faster Wraith, but with a little more high and low speed stability. It is a great disc for sidearm throwers and those with lots of power. It can handle headwinds and throws with off axis torque.

**Avery Jenkins: 2009 World Champion**

*“The Pro Destroyer is my competition distance disc. I keep a stack of these JUST for distance competitions. I know I have an advantage when I throw it, because I trust it. Destroyers have more glide for me than any other disc. It doesn't hurt that I throw really far either. One day, I will break the World Record with this disc.”*

## Breaking New Ground

Wondering how far you can throw? Test your abilities by picking up one of these Speed 13 discs and letting it rip. If you can classify your arm speed as crazy fast, try a Boss. The stability of the Boss adds control, even into a headwind. Throw the Groove or Katana with a tail wind and discover what glide can do for your distance.

### Boss

21.2 cm

speed	glide	turn	fade
13	5	-1	3

Top seller!

Developed for pros

Good for sidearms

The Boss is large and in charge. The Boss is our fastest long-range Distance Driver with stability and control. Great disc choice for sidearm or backhand throwers. May not be suitable for players with smaller hands. Endorsed by 2008 World Champion Dave Feldberg. Be the Boss.

**Dave Feldberg: 2008 World Champion**

*"The Boss is my favorite disc for distance shots. It gives me the distance and control to perform my best in tournament play. It has elevated my distance game. It works great for skip shots, low shots, high shots, and any kind of disc golf shot you throw.... try the Boss it will get to the basket first!"*

Great glide

Get into the Groove. The Groove likes to fly long and straight, low or high, sidearm or backhand. A mellower flying Boss-like disc that comes in lower weights due to the groove in the rim.

**Avery Jenkins: 2009 World Champion**

*"The Groove is a speedy driver that is easy to control. A fat, Boss-like grip, but not as overstable. Ideal for the medium arm speeds of players developing their distance technique."*

Great glide

Long straight flight

New for 2010, the Katana adds glide and user friendliness to the 13 speed tier of discs. Our easiest disc for getting serious distance. The Katana is designed for intermediate to advanced players looking for extra distance. This disc is exceptional for tailwind distance shots. The Katana has the glide and turn to make you a believer.

**Henry Childres: Pro Disc Golfer**

*"The Star Katana is the best side-arm disc I have ever thrown. The stability is perfect for maximum distance. It is also great for long-distance rollers. This is one disc that has earned a place in my bag."*

## Dodgebee® Rules!

Simple rules will get you started  
The court is 10 yards by 20 yards, with a line through the middle. Teams are split equally, and at least one team member **MUST** remain in the outfield (area surrounding opposing team's infield square). Players may pass to outfield players to launch a Dodgebee attack at the opposing team's infield players! Any successful attack (Dodgebee hitting an infield player without a catch) results in that player moving to the outfield. The successful attacker may return to the infield. Throws must hit players before hitting the ground. Game duration is 4 minutes, or until an infield team has been eliminated.

### DISCatcher Sport - Full sized & competition ready in 5 minutes

The Innova DISCatcher Sport is a full-size portable target. Durable construction with 18 galvanized chains, yet the DISCatcher Sport model weighs only 40 pounds. The DISCatcher Sport is an excellent target choice for youth camps, schools, backyard practice or to create a temporary course. Constructed of five parts, the DISCatcher Sport can be set up in about 5 minutes with just a screwdriver. It disassembles for easy transportation or for compact storage when not in use. Not meant for permanent outdoor installation. Regulation sized and PDGA approved for tournament play.

**Features:**

- **Chain Assembly** - Durable yellow powder coated target top with 18 strands of galvanized chains
- **Basket** - Powder coated finish
- **Two poles** - Two sections with powder coated finish
- **Base** - Our powder coated four spoke base is wide enough and strong enough to stabilize the target, yet is still lightweight.

**MSRP \$199.99**

### DISCatcher Mini - Play in the yard or office

The Innova DISCatcher Mini basket is the perfect trophy basket to award to top competitors in tournaments. It is also a great basket for your mini golf course. Create your own cool course in your yard, or pool a bunch of baskets together and set up a temporary course at your local park. With 18 real chains and solid steel construction, the DISCatcher Mini works like the real deal. Metal band on top is perfect for a trophy plaque. 22" tall.

DISCatcher Yellow or Chrome Silver

**MSRP \$99.99**

# DISCatcher<sup>®</sup> PRO Disc Golf Target

See the difference  
from the tee to  
the green

Official target of the United States Disc Golf Championship

The Innova DISCatcher® PRO is the best catching, most visible, and longest lasting disc golf target. The DISCatcher PRO is available in both permanent and portable models, making it perfect for a local course or for play in the backyard.

The DISCatcher PRO permanent is a favorite of parks departments and course professionals—in 2009 over 200 new courses were installed using DISCatcher PRO permanent targets. The bright yellow band improves target visibility from afar and also identifies the disc golf course for non-players. The DISCatcher PRO has 24 chains designed to catch and stop discs. Discs thrown into its large “sweet spot” resist “blow-throughs”, “bounce-

backs”, and “bounce-outs”. We are sure that the DISCatcher PRO will suit your needs, whether you are installing a new course or upgrading an existing one.

The price of the DISCatcher PRO permanent includes locking collar and one installation tube for in-ground installation.

The DISCatcher PRO Portable offers the same great “catchability” as the Permanent model, but with a metal base that allows it to be set up anywhere. The Portable is ideal for use on temporary courses or as a heavy-duty full-size target for backyard practice.

The DISCatcher PRO was designed by pros to improve scoring from near and far. There is no better choice than the DISCatcher PRO.

### HIGH VISIBILITY TARGET TOP

Our yellow powder coated target top makes the Innova DISCatcher PRO highly visible. All stainless steel construction makes it long-lasting and low maintenance.

### BUILT TO LAST

Hot-dip galvanized basket, pipe and chains allow our targets to weather the elements better than painted or zinc plated targets.

### THREE TIERED CHAINS

12 outer chains grab your disc, while 12 more inner chains buffer and slow the disc, improving catching performance. This makes the DISCatcher a favorite target of players.

### INSTALLATION TUBES INCLUDED

Don't pay extra! Our DISCatcher PRO permanent target prices include locking collars and installation tubes.

### PDGA APPROVED

Both the DISCatcher PRO permanent and portable models are PDGA approved for tournament play.

DISCatcher PRO has 3 layers of chains to catch more shots

Photo by Allen Borsky

### DISCatcher® PRO Portable Target

The Pro Portable is the ultimate portable target. It has everything that our regular PRO Target has, except it uses a shorter pole and galvanized base for more portability. Four main parts allow you to set it up and take it down easily. The target top and base fit nicely in the basket for storage. PDGA approved for tournament play. 80 pounds fully assembled.

Model	MSRP
DISCatcher PRO with 1 Installation Tube	\$375.00
DISCatcher PRO Portable	\$375.00
Course sales	\$300.00 ea.

INNOVA DISC GOLF • 2010

**Extra Installation Tube**

Galvanized to last, this installation tube is the same as the ones that come with our DISCatcher® PRO permanent model.

If you already have a course, but need to create a new target location, our installation tubes are what you want. Now you can have multiple pin positions. Move them around to create more variety. Perhaps a winter short position will allow players to play a faster round when the days are short.
